**Pierre Bonte, Michael Izard**

Antropología (y) política José Antonio González Alcantud, 1998 En la obra humboldtiana, y a diferencia del universalismo racionalista, se dan la mano la reflexión filosófica y el saber empírico en torno a las lenguas, razón por la cual también esta original monografía analítica sobre Humboldt merece ser emplazada dentro de la temática humanista.

Diccionario Akal de Etnología y Antropología Pierre Bonte, Michael Izard, 2003-11-19 Buscar la unidad del hombre en la diversidad de sus obras es un ya viejo intento que desde hace poco más de un siglo define el programa de una ciencia particular. Bajo los diversos nombres que recibe -etnografía, etnología, antropología-, podemos definirla como “un modo original de conocimiento” (Lévi-Strauss). Esto nos permite comprender por qué la aproximación antropológica hoy no se limita a las sociedades largo tiempo llamadas “primitivas”, sino que también se aplica al dominio de lo histórico, así como a los problemas sociales y culturales del mundo contemporáneo. Pero además, para presentar la antropología a un público muy amplio y de modo general, era preciso incluir tanto el “cómo” como el “qué” de su conocer. En este diccionario presentamos los principales conceptos de la antropología, los objetos, los dominios y los métodos de análisis e investigación que ella misma se ha dado, las teorías que marcan su desarrollo, las principales figuras que lo ilustran y, en fin, los elementos de una síntesis etnográfica que corresponde a grandes áreas culturales del mundo.

**Antropología social** Bernardo Berdichewsky, 2002

Diccionario de política, 2000-01-01 La mayor parte de los términos usados en el lenguaje político tienen diversos significados. El objetivo de este diccionario es el de brindar a los lectores no especializados, a los estudiantes, a los lectores de periódicos, a quienes escuchan conferencias, discursos, debates, etc., una explicación y una interpretación sencilla y tendencialmente conclusiva de los principales conceptos que forman parte del universo del discurso político, con su evolución histórica, su uso actual, sus conceptos afines o antitéticos, así como los autores y obras más directamente vinculados a ellos. En nuestra edición se amplía y actualiza la bibliografía y se incorporan términos referidos a la situación latinoamericana.

Iconography, Propaganda, and Legitimation Allan Ellenius, 1998 Representations of political power play an important role in Western art history from the late Middle Ages up to modern times. This volume by leading experts is a wide-ranging survey of significant trends in the development of political imagery. It is a study in the rhetoric of images as it developed from the late Middle Ages to the early nineteenth century. Symbols and metaphors were created in order to represent the power of political systems and particularly to confirm the overall importance of rulership. The preferred ideas and visual images were those taken from classical mythology and the tradition of religious iconography. Among the most important concepts was that of the king's two bodies, one belonging to the terrestrial, the other to the symbolic sphere of life. A wealth of images was produced to fulfil the demands of 'ceremonial space', which included state portraiture and allegorical imagery as well as coronations, funerals, royal entries, and other kinds of royal pageantry. The Origins of the Modern State in Europe series arises from an important international research programme sponsored by the European Science Foundation. The aim of the series, which comprises seven volumes, is to bring together specialists from different countries, who reinterpret from a comparative European perspective different aspects of the formation of the state over the long period from the beginning of the thirteenth to the end of the eighteenth century. One of the main achievements of the research programme has been to overcome the long-established historiographical tendency to regard states mainly from the viewpoint of their twentieth-century borders.

**Etnología y antropología** Philippe Laburthe-Tolra, Jean-Pierre Warnier, 1998-11-13 La obra ofrece un panorama general de la temática antropológica y etnológica, planteando un conjunto de perspectivas que van desde el parentesco a la economía, pasando por lo político y lo religioso: nacimiento y definiciones de la disciplina, prehistoria de la raza humana, inventario de sus técnicas, instrumentales y sociales, variedad de las alianzas, matrimonios, familias, poderes, sistemas de autoridad, simbolismos en el seno de múltiples creencias, lenguas, artes, maneras de vivir y pensar, modalidades de producción, distribución y consumo de bienes, e instituciones e invenciones humanas en el seno de las distintas sociedades.

**Antropologia social e abordagem dinâmica** Victor Collins, 2021-04-09 Com a virada ontológica na antropologia, sociedades em todo planeta que sofreram com a colonização europeia figuram na história da globalização com suas milenares tradições e protagonismo na história contemporânea. Leitura com um profundo mergulho e corte na história atual.

*Routledge Handbook of Afro-Latin American Studies* Bernd Reiter, John Antón Sánchez, 2022-11-08 This Handbook provides a comprehensive roadmap to the burgeoning area of Afro-Latin American Studies. Afro-Latins as a civilization developed during the period of slavery, obtaining cultural contributions from Indigenous and European worlds, while today they are enriched by new social configurations derived from contemporary migrations from Africa. The essays collected in this volume speak to scientific production that has been promoted in the region from the humanities and social sciences with

the aim of understanding the phenomenon of the African diaspora as a specific civilizing element. With contributions from world-leading figures in their fields overseen by an eminent international editorial board, this Handbook features original, authoritative articles organized in four coherent parts: • Disciplinary Studies; • Problem Focused Fields; • Regional and Country Approaches; • Pioneers of Afro-Latin American Studies. The Routledge Handbook of Afro-Latin American Studies will not only serve as the major reference text in the area of Afro-Latin American Studies but will also provide the agenda for future new research.

**El relato invariable** Inés Quintero, 2016-02-15 La independencia es el período de nuestro pasado que presenta mayores reiteraciones y convenciones, las cuales se han visto reproducidas hasta la saciedad en los libros de historia a lo largo de dos siglos: los mismos héroes y villanos, las mismas fechas, la misma épica gloriosa, los mismos hechos, repetidos una y otra vez. Una versión inmutable y maniquea sobre un proceso complejo y enormemente rico en su diversidad y contradicciones. ¿Cómo se construyó este relato? ¿Qué ha determinado que se mantenga invariable? ¿Cuáles son sus contenidos esenciales? ¿De qué manera se reproducen? ¿Cuáles son los resortes que favorecen su multiplicación? ¿Cómo hemos dialogado con ello? ¿Se han operado cambios? ¿Qué sabemos sobre nuestra independencia? ¿Es posible modificar la historia? ¿En qué sentido? ¿Para qué? Los ensayos que reúne este libro procuran dar respuestas a estas interrogantes. Se trata de una mirada crítica sobre la independencia en la cual se discuten las premisas establecidas, se revisan los lugares comunes, se explican sus motivaciones, se analizan sus contradicciones y se ponen al descubierto sus carencias. El propósito que anima a sus autores es propiciar un debate amplio y plural capaz de enriquecer la idea que tenemos sobre nuestra independencia y sugerir nuevas maneras de atenderla, doscientos años después de su instauración entre nosotros.

**Relaciones de poder en Castilla** Joaquín Saúl García Marchante, Ángel Luis López Villaverde, 1997 El presente libro recoge la mayor parte de las ponencias pronunciadas durante el ciclo de conferencias titulado Relaciones de Poder en la provincia de Cuenca y su evolución histórica, celebrado del 24 de octubre al 11 de noviembre de 1996, que fue organizado

por la Asociación de Amigos del Archivo Histórico Provincial de Cuenca y el Centro de Estudios Universitarios Cardenal Gil de Albornoz de Cuenca. Se trata de uno de los primeros intentos de exponer sistemáticamente la historia social y política de Cuenca contando con las aportaciones de los principales expertos en la materia, todos ellos vinculados al mundo universitario. Huyendo del localismo, se pretende efectuar un estado de la cuestión que encuadre el ámbito provincial dentro de un contexto más amplio, el castellano. En sus páginas se analizan desde el poder civil al religioso, las élites y, en definitiva, las relaciones de poder existentes en Cuenca, en particular, y en Castilla, en general, desde la Edad media a la época contemporánea.

El poder en plural Espinosa Arango, Mónica L., 2014-10-17 Este libro es importante para la exploración teórica de las relaciones entre la antropología política e histórica, la teoría política, los estudios críticos del desarrollo y el poder y lo público, exploración que es más bien marginal en nuestro medio. Los enfoques conceptuales y los autores en los que se fundamentan los capítulos son relevantes y actuales. Los anclajes empíricos y las discusiones textuales ofrecen un valioso referente para la consolidación de una antropología contemporánea con un claro referente histórico e interdisciplinar.
