The Revolt of the Scribe in Modern Italian Literature Thomas Erling Peterson, 2010-01-01 The Revolt of the Scribe in Modern Italian Literature offers a perceptive re-assessment of Italian literary culture, focusing on the nature of modernity through the literature of those who revolt against established norms and expectations. By exploring selected works from authors such as Deledda, Foscolo, Ungaretti, Bertolucci, and Valeri, Thomas E. Peterson considers the categories of vatic poetry, the feminine voice, and the writings of those situated on Italy's cultural periphery. As practitioners of literary Italian, Peterson argues that these authors are conscious of their role in preserving both language and tradition during a period of great upheaval and national transformation. At the same time, they use their writings to move towards change, combat alienation, and reconfigure the self in relation to the community. In treating the act of authorship in terms of its cultural and didactic significance, Peterson successfully bridges the gap between traditional literary critical monographs and the trend toward cultural studies.

**Manzoni and the Aesthetics of the Lombard Seicento** Glenn Palen Pierce, 1998 Aligning these historical treatises with what little Manzoni said about art in his critical treatises, justifies a methodology that combines elements of ekphrasis and a comparison of the variants from the first to the final version of the novel. Such methodology allows us to identify how both dramatic and pictorial influences common in seventeenth-century Lombard art manifest themselves in Manzoni's narrative constructs.

*Alessandro Manzoni's The Count of Carmagnola and Adelchis* Alessandro Manzoni,2004-09-07 Now, translator Federica Brunori Deigan presents lyrical English-language versions of these two tragedies which, taken together, dramatize the first two epochs in Manzoni's history of Italy. (The Betrothed completes the triptych, illustrating the period of Spanish domination.) Long unavailable in English, The Count of Carmagnola and Adelchis are distinguished by their dramatic power and thematic gravity. Manzoni considers the interactions of Christian morals and Machiavellian politics through deft psychological portraiture, ultimately revealing the course of history as a fabric woven by individuals free will according to a logical pattern of actions and reactions, within the vaster providential plan, that human eyes can only dimly perceive.--BOOK JACKET.
