We create our experiences based on the words we say and the thoughts we think. When we create peace and harmony in our minds and think positive thoughts, we will attract positive experiences and like-minded people to us. In essence, what I'm saying is that what we believe about ourselves and about Life becomes true for us.

I Dreamt of Sausage Corinna Borden, 2011-06-21 Corinna Borden writes of her tumultuous path toward recovery from Hodgkins disease in *I Dreamt of Sausage*. Though it is considered one of the most curable cancers, her search was an arduous one. Borden was not there to follow orders. From the moment of diagnosis, Borden invites the reader into her head. Along with her experiences with the Western system of health and healing, *I Dreamt of Sausage* travels with the author from Ann Arbor, Michigan, to Tijuana, Mexico, as she investigates and experiences alternative forms of cancer treatment. Through her personal journal entries and inner-voice discussions, Borden immerses the reader in the emotional and spiritual challenges of cancer treatment with unflinching honesty. *I Dreamt of Sausage* is divided into three parts: Body, Mind, and Spirit. Body introduces the patient, her diagnosis, and her experiences with chemotherapy. Mind delves further into Borden's frustrations with traditional cancer treatments and her decision to pursue alternative medical care. Spirit illustrates her newfound ability to witness her thoughts in any medical situation and her broader understanding of health. *I Dreamt of Sausage* offers a unique perspective on illness. Borden illustrates the transformation an individual can take from being overwhelmed by physical suffering to choosing internal peace. As Borden says, The story is about recognizing the voices in your head and choosing which ones to listen to. Survival behavior relates to one's personality characteristics. Corinna's book shares many of these factors and makes them easy to understand because she is a native who has lived the problem and can share her experience. It is real and practical and useful for those confronting cancer and other problems. Bernie Siegel, MD, author of *Faith, Hope & Healing* and *365 Prescriptions for the Soul* This is a MUST-read for anyone dealing with cancer or involved with anyone who is. What do you do when your life is shattered by a cancer diagnosis? What forms of treatment do you choose? Why did you get cancer in the first place? Follow one woman's amazing journey as she shares her innermost thoughts and feelings on her quests for wellness. Carolyn L. Mein, DC, author of *Releasing Emotional Patterns with Essential Oils and Different Bodies, Different Diets*

Blue Windows Barbara Wilson, 2014-12-30 From Mary Baker Eddy, the founder of the Church of Christian Science, to Deepak Chopra, Americans have struggled with the connection between health and happiness. Barbara Wilson was taught by

her Christian Scientist family that there was no sickness or evil, and that by maintaining this belief she would be protected. But such beliefs were challenged when Wilson's own mother died of breast cancer after deciding not to seek medical attention, having been driven mad by the contradiction between her religion and her reality. In this perceptive and textured memoir *Blue Windows*, Wilson surveys the complex history of Christian Science and the role of women in religion and healing.

Traditional Western Herbal Medicine Elisabeth Brooke, 2019-02-18 This book is intended to be a users' manual, not a reference book, and so has charts, diagrams, tables and cross-references to enable the interested practitioner to incorporate the Western Herbal Tradition into their practice. It synthesises and elaborates on all the extant information on the Western Healing Tradition as recorded by William Lilly and Nicholas Culpeper in the 17Cth and from the author's own herbal practice. It shows how using planetary energies and the wheel of the year deepens our understanding of the action of medicinal plants on the body and establishes the practitioner within their environment, allowing them to use planetary energies to determine the peak times to harvest and use herbal remedies and to locate health and sickness within the holistic paradigm of Western Traditional Herbal Medicine. For ease of use, the book is divided into two sections. The first details the philosophical framework within which traditional western herbalists can operate; looking at the four humours, and seven planets and the use of the diagnostic tool of the decumbiture chart. The work is so organised that the humoral system can be used without astrology, should that be the preference. The second part covers the practical application of the philosophy, how to collect, make and administer herbal remedies according to the planetary days and hours and the decumbiture chart. Examples of decumbiture charts will be included to show how the philosophy is used in practice. Lastly, a materia medica of common herbs is included. This fascinating new title by the best-selling Elisabeth Brooke will be of interest to anyone involved in the theory or practice of herbal medicine, particularly those who have been inspired by her other classic works including *A Woman's Book of Herbs* and *Herbal Therapy for Women*.

Seth Speaks (A Seth Book) Jane Roberts, 2012-04-01 One of the most powerful of the Seth Books, this essential guide to conscious living clearly and powerfully articulates the furthest reaches of human potential, and the concept that we all create our own reality according to our individual beliefs. Having withstood the test of time, it is still considered one of the most dynamic and brilliant maps of inner reality available today. "The Seth books present an alternate map of reality with a new diagram of the psyche . . . useful to all explorers of consciousness." — Deepak Chopra "Seth was one of my first metaphysical teachers. He remains a constant source of knowledge and inspiration in my life." — Marianne Williamson "I would like to see the Seth books as required reading for anyone on their spiritual pathway. The amazing in-depth information in the Seth books is as relevant today as it was in the early '70s when Jane Roberts first channeled this material." — Louise Hay

The Adventures of Lulu Louise Hay, 2005-08-01 *Lulu and the Ant: A Message of Love* *Lulu and the Dark: Conquering*

Fears Lulu and Willy the Duck: Learning Mirror Work These three stories were written to help today's child grow up with a strong sense of self-esteem and courage. As adults, we sometimes forget that children have many more issues to deal with than we did when we were their age. They're constantly being put into the position of making choices, and are steadily being barraged with news about the critical state of the world. How children handle these issues is a direct reflection of how they truly feel about themselves. The more a child loves and respects him- or herself, the easier it will be to make the right choice.

The Individual and the Nature of Mass Events Jane Roberts, 2011-07-08 From the Bestselling Author of Seth Speaks Speaking exclusively through Jane Roberts, Seth has repeatedly stressed the concept that we create our own reality according to our individual beliefs. But how do our realities merge and combine to form mass reactions such as the overthrow of governments, the birth of a new religion, wars, epidemics, earthquakes, and new periods of art, architecture, and technology? In this pioneering work, Seth explores the connection between personal beliefs and world events. He pinpoints the unconscious — and often negative — beliefs pervading science and religion, medicine and mythology, and offers thought-provoking reflections on Darwinism, Freudianism, religions, cults, and medical beliefs. With fascinating and inspiring implications, Seth asserts that the personal impulses we are often taught to see as dangerous, chaotic, or contradictory, are instead crucial to the best interests of the species and the natural world, for they lead us to live “not only as loving caretakers but as partners with other species.” “Only people who trust their spontaneous impulses can be consciously wise enough to choose from a myriad of probable futures the most promising events....” — Jane Roberts, Speaking for Seth

The Unknown Reality, Vol 2 Jane Roberts, 2011-07-08 From the Bestselling Author of Seth Speaks In this second volume of *The “Unknown” Reality*, Seth radically expands our conceptions of “self,” by showing us that the human personality is literally infinite in its scope and potential. He discloses precisely how probable realities combine to create our waking lives, and how our “higher selves” make decisions regarding our everyday existence. In a far-reaching exploration of the dynamics of desire and free will, he asserts that each atom, molecule, and cell has its own consciousness and powers of choice. With humor and simple analogies, Seth leads us beyond our ordinary level of awareness into a spectacular discovery of the multidimensional nature of the self, including:

- “Consciousness units” as the basis of our universe
- The relevance of

extrasensory perception in understanding our world • The worlds we visit in dreams and out-of-body states • Dreaming as a science to create present and future realities • “Families of consciousness” we choose to belong to • Practical methods for exploring your own “unknown” reality “There is an “unknown” reality. I am part of it, and so are you . . . Each individual is a part of the unknown reality . . . To explore the unknown reality you must venture within your own psyche, travel inward through invisible roads as you journey outward on physical ones . . . I hope that [in this book] the reader can see the greater dimensions that touch ordinary living, and sense the psyche’s greater magic.” — Jane Roberts, Speaking for Seth

The Unknown Reality, Volume One Jane Roberts, 2011-07-08 From the Bestselling Author of Seth Speaks and The Nature of Personal Reality In this mind-stretching journey into the very frontiers of consciousness, Seth reveals the multidimensional nature of the human soul. In Seth Speaks, Seth introduced the concept of “probable realities,” in which our idle daydreams and unfulfilled impulses do take place, in which all possible choices are fully experienced by other portions of the self. Now in this first volume of The “Unknown” Reality, Seth explains the dazzling labyrinths of unseen probabilities involved in any decision, and how our awareness of these can enrich the waking life we know. In a fascinating exploration of the cosmic web of our existence, Seth reveals: • The purpose of dreams, and how they are often fulfilled unconsciously • Misconceptions about death and the afterlife • How different probable realities intersect and influence one another • The relationship between physical health and inner reality • A series of exercises to help you discover the unknown portions of your greater identity “The self is multidimensional when it is physically alive. It is a triumph of spiritual and psychological identity, ever choosing from a myriad of probable realities its own clear unassailable focus. When you don’t realize this, then you project upon life after death all of the old misconceptions. . . . The fact is that in life you poise delicately and yet perfectly between realities, and after death you do the same.” —Jane Roberts, Speaking for Seth

Dreams, Evolution, and Value Fulfillment, Vol 1 Jane Roberts, 2011-07-08 From the Bestselling Author of Seth Speaks and The Nature of Personal Reality In this first volume of Dreams, “Evolution,” and Value Fulfillment, Seth takes us on an odyssey to identify the origins of our universe and our species. He asserts that “consciousness units” form the basis of all energy and matter, and charts a conscious, self-aware universe that is constantly recreated by our own thoughts, dreams, and desires. Illuminating the part that humans play in the greater scheme of things, he suggests that we are alive not only for the continuation of the species but to add to the very quality of life itself. Other fascinating topics include: • The role dreams play in the creation of language and technology • The relationship between genetic heritage and reincarnation • How creativity provides a link with the source of all existence • The true power of the imagination, and the importance of broadening its scope • A discussion of “value fulfillment” — or the yearning to enhance the quality of life — as a fundamental desire in all life forms Stimulating and provocative, this long-awaited book answers crucial questions about the entire significance of Seth's system of thought. “When I speak of the dream world, I am not referring to some imaginary realm, but to the kind of world of

ideas, of thoughts, of mental actions, out of which all form as you think of it emerges. In actuality, this is an inner universe rather than an inner world. Your physical reality is but one materialization of that inner organization.” — Jane Roberts, *Speaking for Seth*

Healing into Freedom Rose Ashton, 2021-04-22 • CLEAR AWAY STRESS! • CREATE PHYSICAL HEALTH! • EXPERIENCE RAPID HEALING! • WITH THE RENEWELL SYSTEM -- “THE HEALING TOOL OF THE FUTURE” o “This healing therapy gets to the point, and is extremely powerful -- I’ve experienced it, and I strongly recommend it, because IT WORKS!” (Housewife) o “My irritable bowel and heart problems completely cleared up after only two sessions of the Renewell System. I let go of a lot of fears I didn’t know I had, and improved my diet.” (Hospital Administrator) o “These spiritual teachings along with the emotional healing have completely renewed my life!” (Teacher) o “Our ailing thoroughbred boarding horse recovered after one emotional healing session--I’m delighted” (Horse Trainer)

The Nature of the Psyche Jane Roberts, 2011-07-08 Seth, speaking exclusively through Jane Roberts, reveals a startling new concept of self, answering questions about the secret language of love, human sexuality, the real origins and incredible powers of dreams, and how we choose our physical death — sometimes years in advance. For the first time, Seth explains: • Why love is the basic language from which all others spring • The bisexual nature of humanity and its biological and spiritual importance • The true basis of homosexuality and lesbianism — along with their private and social effects • The benefits of recalling our dreams and consciously participating in them • How dreams can prevent chronic illnesses by providing important therapeutic information • Simple exercises you can do to expand your awareness of the deeper portions of your psyche and stretch your abilities to their fullest potential. “The psyche is a gestalt of aware energy in which your own identity resides, inviolate, yet ever-changing as you fulfill your potentials. You are your psyche’s living expression, its human manifestation. Yet you allow yourselves often to become blind to brilliant aspects of your own existence.” — Jane Roberts, *Speaking for Seth*

Dreams, Evolution, and Value Fulfillment, Volume Two Jane Roberts, 2011-07-08 “The Seth books present an alternate map of reality with a new diagram of the psyche...useful to all explorers of consciousness.” — Deepak Chopra, M.D., author of *The Seven Spiritual Laws of Success* From the Bestselling Author of *Seth Speaks* and *The Nature of Personal Reality* In the first volume of *Dreams*, “*Evolution*,” and *Value Fulfillment*, Seth presented an in-depth picture of the origin of all life — from the inner dream world to the vast display of material creation. Here, in *Volume Two*, Seth continues his explanation of the physical world as an ongoing self-creation — a direct and intentional outgrowth of the wisdom of the life forms that inhabit it, including humanity. He expands upon his vision of a thoroughly animate universe, where virtually every possibility not only exists, but is constantly encouraged to achieve its highest potential. In his typical awe-inspiring manner, Seth sheds light on many controversial and complex subjects, including: • The ways in which our religions have stifled the human spirit •

Surprising insight into life's meaning and purpose • The genetic basis of faith, hope, and charity • The pursuit of pleasure as a fundamental human need • How each species keeps millions of characteristics within its genetic bank for various contingencies Dreams are mental work and play combined, psychic and emotionally rich creative dramas. They also involve you in the most productive of enterprises as you begin to play with versions of events that are being considered for physical actualization... — Jane Roberts, Speaking for Seth
