Yahweh to Hell Rich Woods, 2015-03-18 Yahweh to Hell comes at a time in our nations political discourse when the eight-hundred pound gorilla in the room is Christian Dominionism. Renowned author and satirist Rich Woods returns, and this time he's got the twenty-first century version of the Republican Party in his sights. With an uncommon perspective and singular wit, Woods systematically dissects the runaway bigotry, social regression, misogyny, economic illiteracy and overall lack of rationale in the fundamentalist Christian dominated Tea Party/GOP. At times brutally funny, and/or gut wrenchingly astute, Woods is unique amongst his peers in his ability to combine acumen with unapologetic mockery. Yet while Y2H oscillates back and forth between sobriety and satire, it manages to shine a light in the darkest parts of American politics. Indeed, Rich Woods demonstrates once again that he is equally adept with both a scalpel, and a chainsaw. This book will anger many and drive others to uncontrolled laughter. As long as it makes them rethink what they've been told, the author doesn't care. Bob Ingle, award-winning journalist, Radio and TV commentator and co-author of The New York Times Best Seller, *The Soprano State: New Jersey's Culture of Corruption* and *Chris Christie: The Inside Story Of His Rise To Power* Rich Woods is down to earth, outspoken, acerbic, and has absolutely no patience for ignorance or stupidity. He has mastered the art of the book-length rant, and gives voice to the frustration so many of us feel with religion in the United States. William Hamby, Columnist, Examiner.com This book should be required reading of all Republican voters in America. Rich pulls the curtain back from a party that many of us used to respect, to show that there is nothing decent left. Brian Sapien, Secular activist, and Founder of the Rational Responders

I Came, I Saw, I Became Marshall Shumba, 2024-08-16 Born into a peasant, polygamous family of nineteen, Lindani excelled academically, rising to become a Doctor of Engineering. His marriage to Nicole, a veterinary doctor, ended prematurely due to his work-driven, competitive, and narcissistic nature. As a politically connected academic, Lindani amassed wealth and fame, often at the cost of meaningful human relationships. His world crumbled when a regime change led to his imprisonment at the age of fifty for culpable homicide and obstructing justice. Nicole fought relentlessly for his release. In prison, Lindani joined 'Compassionate Friends,' a group of 30 volunteers aiding a PhD student researching the relationship between human consciousness and global suffering. Among these volunteers, seven were falsely imprisoned by

the previous regime to suppress dissent. Through his interactions with these individuals, Lindani's win-or-lose outlook on life and his consciousness were profoundly transformed. Along with his fellow members, he awakened to the dormant universal intelligence within. Within the confines of prison, they discovered their life's purpose, leading to unexpected joy, happiness, and fulfillment.

Cinema and Sentiment Clive Marsh, 2014-09-10 Cinema & Sentiment Film's challenge to Theology What do films do to people? What do people do with films? All film-watching happens within a cultural context. Exploring cinema-going as leisure activity and by comparing film-watching with worship, Clive Marsh demonstrates aspects of the religious function of film-watching in Western culture. Through a variety of case-studies, including a look at the films of Robin Williams and the Coen brothers, Marsh's study shows how film-watching as a regular practice contributes to the shaping of human living. Engaging with rapidly changing social and religious behaviour patterns in Western culture, Cinema and Sentiment suggests a need to recover a positive sense of 'sentiment', both in theology and film. Marsh locates his findings within recent studies of theology and film. In his final chapter he offers to church leaders, students of theology and film studies and all those with an interest in contemporary culture some very practical suggestions.

Power Branding Steve McKee, 2014-01-07 Every one of the largest, most successful corporations were, at some point, mere startups. McKee explains what enables some companies to grow bigger and better, while others stumble along year after year, running but never winning the race. The difference is that the biggest and best brands aren't slaves to conventional marketing wisdom. McKee shows by example how the same, sometimes counter-intuitive, strategies used by the biggest brands can also best serve small and mid-sized companies. Among the topics explored: How can a company grow big by thinking small? Why do the best companies sometimes avoid being better? Why do brands that create the most memorable advertising stay away from focus groups? What is the secret to an effective slogan? When can admitting a negative become a positive? A diverse selection of companies provides powerful lessons, ranging from traditional icons like Coca-Cola, McDonald's, and General Motors, to new media models like Google and Facebook. This book appeals not only to time-starved executives, but also to middle managers and owners of small businesses who have a wide variety of marketing problems to address and who need to change the way they think about how to generate healthy, consistent growth.

Down but Not Out Kimunya Mugo, 2013-12-03 If you are raising a family, or planning to, then Down but Not Out should be a part of your growth strategy as a leader. Down but Not Out takes you through a practical process of finding your

significance and role of taking deliberate leadership at home, highlighting success factors as well as factors that commonly derail relationships and precipitate strife. One of the most pressing issues facing the world now is the breakdown of the basic pillar of society, the family. We focus on being the best in our careers, businesses, and recreational pursuits. Years are spent in school and training to hone our skills and acquire greater and greater knowledge. We spend heavily to get expert certification. Yet, why do we invest so little time to prepare ourselves for the arduous expedition that is parenting? It is apparent on the level of insufficient preparedness parents have to lead in their own homes. Down but Not Out engages this critical discourse and shares a journey of joy, pain, fears, rejection, and finally triumph. It takes you through how you can become an effective leader wherever you are by starting small, at home. Down but Not Out is a blend of wisdom, experience, and humility. Every parent, and anyone who interacts with a family, should read this book with careful consideration. Authentic and transparent! A must-read for any parent that desires to empower their children to live a life of significance in a world filled with challenges. ~Barry Smith, Building What Matters (www.buildingwhatmatters.com) Intimately candid and bold. A reminder that hope still exists if parents deliberately train their children to grow in wisdom, stature and favour with God and man. ~Michael Oyier, psychologist, media practitioner, and founder/director at Serenity Life Coaching

Preservation of the Union Robert Tolbert, 2024-02-23 *Preservation of the Union--Then and Now* is a book written by Robert Tolbert, a ninth-generation American and former sixth grade teacher and coach. The book discusses how his first ancestor came from Buckinghamshire, England, in 1696 and acquired a 1,034-acre parcel of land up the Chesapeake Bay on the Mattaponi River in Virginia, called Endfield. It would be on that parcel of land two generations later Kunte Kinte, in the book *Roots*, would spend a great deal of his life. Along the way, Robert Tolbert would create a 52-unit condominium project some 300 years later and he named it Endfield in honor of his roots and colonial history. Tolbert's great-uncle (5) Benjamin Waller, was an attorney in Williamsburg and he mentored George Wythe, who, in turn, mentored Thomas Jefferson. Wythe worked with Jefferson on the Declaration of Independence and was the first Virginian signatory on the Declaration of Independence. As America developed and grew, it seemed there would always be growing pains, such as a need for a labor force to work the land and give it value. That led to the United States becoming the only country to rely solely on black slaves after Black Codes were created around 1700 until 1865 in the South. It was a terrible mistake having any kinds of slaves, but black slavery created a curse on America that seems impossible to resolve. It is one of the main goals of this book to put slavery, all slavery, into a historical context and hopefully bring people together and get people to talk about something other than what race we all are - enough - life is too short and racial issues are simply very destructive to us all. In 1895, when South Carolina rewrote their Constitution, the Democrats bypassed the powers of the 15th Amendment and wanted to disenfranchise blacks from voting. Tolbert's relatives, who were staunch Republicans, wanted to challenge Democrats from preventing blacks from voting in a court case that would also create and maintain a two-party system. This led to the Phoenix Riot of 1898 and the killing and wounding of many people. Four of those severely wounded were from the Tolbert family, including Tolbert's grandfather, James Watson Tolbert. James Watson Tolbert had all of his property burned. When the seventeen men who committed the terrorism were charged in court, they were exonerated in nineteen minutes. Vigilante rule and the Democrat-formed Jim Crow laws created after the Compromise of 1877 would prevail for another 80 years, until Lyndon Johnson signed the Civil Rights Act in 1964 to undo the damage caused by the Democrat Jim Crow laws. On the day after the Phoenix Riot, November 9, 1898, members of an 800-man mob went through the countryside terrorizing blacks and Tolbert's to prevent blacks from voting. Two of the many places they went were the home of four-year-old Benjamin Mays,

who never forgot seeing his father begging for his life and the home of James W. Tolbert, where 125 hooded terrorists told him to leave his home or be killed. Mays grew up to become America's first great civil rights leader and the President of Morehouse College. He inspired Martin Luther King, Jr. to become a minister instead of a lawyer. Two weeks after the riot, James Watson Tolbert was shot off a roof he was repairing by a group of KKK members and left for dead. Part Two of this book deals with people and issues we all need to explore in order to hopefully preserve not only the Union, but all of mankind and save man from himself.

Checkpoint 300 Mark Griffiths, 2025-09-23 Tracing how a notorious checkpoint shapes power, resistance, and lives in Palestine Checkpoint 300, the highly securitized border facility between occupied Bethlehem and Jerusalem, is a central feature of Israeli control of Palestinian land and life. An apparatus of turnstiles, overcrowded corridors, and invasive inspections, the checkpoint regulates the movement of hundreds of thousands of Palestinians, granting access to some while excluding most. Offering a nuanced exploration of space, Mark Griffiths reveals Checkpoint 300 as a stark symbol of Israeli colonialism that embodies larger systems of control and violence. Griffiths's sensitive and timely work highlights the myriad ways Palestinians are affected by Israel's spatial control—whether they travel through the checkpoint or not—demonstrating how colonial infrastructures of inequity extend far beyond their physical boundaries to shape daily life. Drawing on nearly a decade of fieldwork, Griffiths examines how colonial power infiltrates family dynamics, enforces gendered mobility restrictions, shapes local economies, and extends into the global exchange of capital and security technologies. He also

underscores how Palestinians endure and resist under oppressive conditions and how indigenous forms of life and living are sustained, illuminating how colonial space is contested and countered, unmade and remade. Blending meticulous research with vivid human stories to show the lived realities of borders, power, and resistance in the West Bank, Checkpoint 300 portrays the checkpoint as an entry into the ways that colonial space is formed through security infrastructure that is both the product and producer of wider geographies of oppression, complicity, and control.
