Finding God in the Devil's Music Alex DiBlasi, Robert McParland, 2019-06-11 From the rise of the American Evangelical movement to the introduction of Eastern philosophies in the West, the past century has seen major changes in the religious makeup of Western culture. As one result, musicians across the world have brought both new and old religious beliefs into

their works. This book investigates rock music as an expression of religious inquiry and religious devotion. Contributors to this essay collection use a variety of sources, including artist biographies, record and concert reviews, videos, personal experience, rock music forums and social media in order to investigate the relationship of rock music and religion from a number of perspectives. The essays also explore public interest in religion as a platform for expression and social critique, viewing this issue through the lens of popular rock music.

Sexual Life In Ancient Greece Hans Licht, 2013-10-28 First published in 2001. From Ancient Greece, modern Western civilisation has derived many of its artistic philosophical and political ideas. But, in certain areas of sexual tolerance and inventiveness, we still have much to learn from the land and age which produced the most flourishing and creative culture of the ancient world. Professor Hans Licht, in this erudite and fascinating book, discusses in full every aspect of the Ancient Greek's sexual life.

The Eye and the Beholder Hannelore Hägele, 2014-06-02 In *The Eye and the Beholder* the author singles out a topic already touched upon in her previous book, *Colour in Sculpture*. By raising the question of how significant the colouring of the eye is to figurative representations of the late medieval and early modern period, Hannelore Hägele examines the different solutions open to the sculptor, which vary depending on historical and cultural parameters. The created eye must suit purpose and style. She discusses a number of unusual aspects of this: sculpted eyes in antiquity; the art and craft of polychromy; partial polychromy; emotions and expressions; the gaze and the glance; from the sculpted eye to colour and the glass eye; and what the eye cannot see. Dr Hägele asks whether advances in optics and other sciences, or theological concepts such as the eye of God and the inner eye, determined the way in which eyes were perceived and represented. It is the beholder, whether as maker or viewer, who engages with and judges the worth of any creative effort and what it contributes to an understanding of the seen and the unseen. The illustrations and the many coloured plates accompanying the text offer an overview of the subject.

The Tragedie of Romeo and Juliet William Shakespeare, 1907 Hotel owner Dane Harrison, middle brother of a wealthy Long Island family, needs a lounge singer for his new luxury property. With her stunning voice and amazing curves, Julia Shay is perfect. She also seems to be the only woman in New York City who isn't falling at Dane's feet. And despite her feisty attitude and his rule against workplace affairs, he wants her--in his arms, in his bed, anywhere and everywhere. Julia loves her new job, and she knows better than to think she can keep it and Dane. Even if he wasn't her boss, Julia's painful history has given her ample reason to steer clear of rich, powerful charmers. Still, their chemistry is unlike anything she's known, and when it becomes too much to resist, they agree to one no-strings night together. But instead of quenching the fire, the intense encounter only proves how much they have to lose--or win... --

Contrarian Commentary Mel Fisher,2024-05-15 How did bananas come to be? Who is the most useless member of society? What do language fads tell us about the history of human development? What would space aliens say about our well-kept lawns? These short pieces and essays provide thought-provoking and entertaining social commentary from a point of view not usually seen—that is, Contrarian. Written for a small-town (Dryden, Ontario) newspaper and the author's blog between 2012 and 2023, Mel Fisher appeals to the "common sense of the common people," writing about everything from breakfast cereal to Darwin to global warming to God. Contrarian Commentary pokes fun at the foibles of modern life, questions mainstream media, and celebrates the profound strangeness of humanity on the blue-and-green planet we call home.
