Constituent Power and the Law Joel I. Colón-Ríos, 2020 Constituent power is the power to create new constitutions. Since it is frequently exercised during or after political revolutions, it has been historically associated with extra-legality and violations of the established legal order. This book examines the relationship between constituent power and the law and the place of constituent power in constitutional history, focusing on the legal and institutional implications that theorists, politicians, and judges have derived from it. Since the 18th and 19th centuries, commentators and citizens have relied on the concept of constituent power to defend the idea that electors have the right to instruct representatives, and that the creation of new constitutions must take place through extra-legislative entities, such as primary assemblies open to all citizens. More recently, several Latin American constitutions explicitly incorporate the theory of constituent power and allow citizens, acting through popular initiative, to trigger constitution-making episodes that may result in the replacement of the entire constitutional order. Constitutional courts have employed constituent power to justify their jurisdiction to invalidate constitutional amendments that alter the fundamental structure of the constitution and thus amount to a constitution-making exercise. Some governments have reverted to it to defend the legality of transforming the constitutional order through procedures not contemplated in the constitution's amendment rule, but considered participatory enough to be equivalent to the people in action, and these attempts have sometimes been sanctioned by courts. Building on these findings, *Constituent Power and the Law* argues that the exercise of constituent power, unlike sovereignty, should be understood as ultimately

based on a popular mandate to produce a particular type of legal content. In practice, this makes it possible for a constitution-making body to be understood as legally subject to the conditions arising from a constituent referendum.

Definición y redefinición de la ciencia política contemporánea Francisco Javier Jiménez Ruiz, Héctor Zamitz Gamboa, 2022-07-04 Los autores de este libro coinciden en que es importante historiar la Ciencia Política para comprender sus transformaciones, pero también consideran importante comprender sus cambios y redefiniciones a la luz de la pluralidad de los enfoques teórico-metodológicos existentes. Parten del principio de que la expresión Ciencia Política es empleada en sentido amplio o en sentido estricto. En el sentido amplio, la decisión denota un estudio de la historia del pensamiento político, las instituciones, las estructuras, los procesos y dinámicas políticas, el cual es integrado con rigor y sistematización sobre un riguroso examen de los hechos, expuestos con argumentos razonables y un léxico apropiado. En sentido estricto, Ciencia Política designa un área individualizada de estudios especializados que, siguiendo los cánones de la verdad científica, del control comparado y la comprobación empírica, ofrece una descripción del mundo político fundada en la adopción de métodos y técnicas de investigación de corte eminentemente cuantitativo. La existencia de estas dos grandes tradiciones y la forma en que se entrelazan requiere de una discusión que consideran necesaria, entre otras razones, porqué es útil para definir a la Ciencia Política contemporánea, su objeto de estudio, sus teorías y sus enfoques metodológicos. A partir de este planteamiento, este libro contribuye a reflexionar sobre los aspectos más relevantes de un debate que es producto de las redefiniciones de la disciplina, y que ha sido concomitante a su institucionalización y desarrollo.

Metodología de la ciencia política Eva Anduiza Perea, Ismael Crespo, Ismael Crespo Martínez, Mónica Méndez Lago, 2009 Este manual presenta y explica las principales etapas de la investigación, discute las dificultades que suelen presentarse a lo largo de la misma, y se proponen ejemplos sobre como abordarlas. El libro enfatiza la importancia de poner la metodología al servicio de los interrogantes sustantivos de cada investigación. Para ello es crucial definir buenas preguntas, elaborar marcos teóricos que las intenten contestar, y diseñar estrategias de investigación que minimicen los riesgos de error en las conclusiones de la investigación. Se dedica especial atención, además, a la elaboración conceptual, de crucial importancia en un ámbito académico que comparte lenguaje con el ciudadano de a pie, los políticos y los medios de comunicación. Se analizan las distintas alternativas para contrastar hipótesis explicativas (método experimental, estadístico y comparado), y se repasan distintas fuentes de datos al alcance de los investigadores interesados en el ámbito de la ciencia política. Se trata de una obra imprescindible para las personas que inician su trayectoria investigadora, así como para la docencia en el ámbito de la metodología de la investigación social y política

Fragmentos de mis memorias Adolfo Posada,1983 Los fragmentos de mis memorias de Adolfo Posada que se publican a los 36 años de la muerte del autor, fueron escritos después de haber cumplido éste los ochenta años. En la primera parte, el autor cuenta su infancia y adolescencia en su ciudad natal -Oviedo- y por esas páginas desfilan una serie de tipos ovetenses, desde mendigos del Fontán hasta profesores de universidad, que dan amenidad y pintoresquismo al relato. En su condición de catedrático universitario, publicista y experto en política social, Posada entró en relación con numerosas personalidades de la vida política y cultural de España y otros países. Anécdotas, descripciones, semblanzas y sucesos de alcance nacional dan interés histórico a las segunda parte de la obra. Su participación de la labor pedagógico-social del llamado grupo de Oviedo y su integración en el movimiento krausista hacen de Adolfo Posada una figura sugerente para el estudiioso actual.

Tratado de derecho civil comparado René David,2023-12-05 La obra de David sigue siendo un punto de referencia seguro para todo estudiante que se acerque por primera vez a la comparación jurídica. En efecto, se trata de un texto diferente de todos los otros manuales jurídicos, que asombra por la frescura de la exposición, la claridad de las ideas, así como la prevalencia atribuida a los problemas reconstructivos de carácter general, más que de la simple exposición de datos primarios. En efecto, se trata de una obra indudablemente fascinante, particularmente fluida, pero nunca aburrida. En otras palabras, el ideal para una primera aproximación a la comparación jurídica. Por otro lado, por mucho tiempo el manual de David constituyó un unicum en el panorama no sólo europeo, sino también mundial. Paolo Gallo. Profesor Ordinario.
