Serving the Reich Philip Ball, 2023-10-25 After World War II, most scientists in Germany maintained that they had been apolitical or actively resisted the Nazi regime, but the true story is much more complicated. In *Serving the Reich*, Philip Ball takes a fresh look at that controversial history, contrasting the career of Peter Debye, director of the Kaiser Wilhelm Institute for Physics in Berlin, with those of two other leading physicists in Germany during the Third Reich: Max Planck, the elder statesman of physics after whom Germany's premier scientific society is now named, and Werner Heisenberg, who succeeded Debye as director of the institute when it became focused on the development of nuclear power and weapons. Mixing history, science, and biography, Ball's gripping exploration of the lives of scientists under Nazism offers a powerful portrait of moral choice and personal responsibility, as scientists navigated 'the grey zone between complicity and resistance.' Ball's account of the different choices these three men and their colleagues made shows how there can be no clear-cut answers or judgement of their conduct. Yet, despite these ambiguities, Ball makes it undeniable that the German scientific establishment

as a whole mounted no serious resistance to the Nazis, and in many ways acted as a willing instrument of the state--

Building School 2.0 Chris Lehmann, Zac Chase, 2015-07-31 Ninety-five propositions for creating more relevant, more caring schools There is a growing desire to reexamine education and learning. Educators use the phrase school 2.0 to think about what schools will look like in the future. Moving beyond a basic examination of using technology for classroom instruction, Building School 2.0: How to Create the Schools We Need is a larger discussion of how education, learning, and our physical school spaces can—and should—change because of the changing nature of our lives brought on by these technologies. Well known for their work in creating Science Leadership Academy (SLA), a technology-rich, collaborative, learner-centric school in Philadelphia, founding principal Chris Lehmann and former SLA teacher Zac Chase are uniquely qualified to write about changing how we educate. The best strategies, they contend, enable networked learning that allows research, creativity, communication, and collaboration to help prepare students to be functional citizens within a modern society. Their model includes discussions of the following key concepts: Technology must be ubiquitous, necessary, and invisible Classrooms must be learner-centric and use backwards design principles Good technology can be better than new technology Teachers must serve as mentors and bring real-world experiences to students Each section of Building School 2.0 presents a thesis designed to help educators and administrators to examine specific practices in their schools, and to then take their conclusions from theory to practice. Collectively, the theses represent a new vision of school, built off of the best of what has come before us, but with an eye toward a future we cannot fully imagine.

American Voices of Dissent Garbrielle Zamparini, Lorenzo Meccoli, William Blum, 2015-12-22 Absolutely indispensable! An important resource in the struggle. Ken Loach, film director Your book is just what we need at time when the American Left gets no coverage in the world's press and yet remains the hope for America and the world. Tony Benn, President, Stop the War Coalition [This book] challenges the simplistic perception of Americans as SUV-driving, war-loving couch potatoes. There's a movement for peace and justice and this book gives it a voice. Mickey Z., writer With contributions by five Nobel Peace Prize winners, former government officials, scholars, religious leaders, journalists, activists, and prominent cultural figures, the documentary film XXI Century explores American reactions to recent global events captured through the lens of interviews and political rallies. This book presents selected excerpts from the filming of prominent U.S. citizens voicing their view on Bush administration policies in the century. These events include the much-contested 2000 election, the September 11, 2001, attacks, the impact of the USA Patriot Act, the accelerated growth of peace movements, the recruitment of U.S. soldiers, U.S. policy and attitudes toward the Middle East, sanctions and war in Iraq, and human rights violations. The speakers also consider how the rise of media spectacle and punditry at the expense of quality journalism inhibits the ability of Americans to react to these events as informed citizens. The voices of Americans, both ordinary and famous, resonate with passion and urgency in response to the injustice and far-reaching effects of the current U.S. foreign policy. American Voices of Dissent highlights the other side of the story and makes a case for global solidarity against U.S. imperialism.

What You Can When You Can Carla Birnberg, Roni Noone, 2015-04-28 We all know we should eat better, exercise more, get better quality rest, and so on. Tell us something we don't know, right? After all, every statistic we have about Americans and our health proves that no matter how good our intentions are, we are failing to change the habits that undermine our well-being. But how do we achieve our healthy living goals when they're so daunting? Who has the time, the willpower, the resources to do all that nutritious eating, muscle building, restful sleeping, and work-life balancing? Carla Birnberg and Roni Noone have the answer to that—the answer is you. You have the power to make healthier living easy and exciting, just by adopting one simple mantra: What you can when you can. It's all you need. What You Can When You Can (#wycwyc) is a book, a movement, a mindset, and a lifestyle—one that harnesses the power of small steps to let you achieve your health and

fitness goals on YOUR terms. The #wycwyc (pronounced wickwick) philosophy applies to anything and everything that contributes to a healthy, happy life: nutrition, exercise, physical and mental rejuvenation, and so much more.

The Outsider Howard Fast, 2011-12-27 The New York Times-bestselling author of *Spartacus* evokes the postwar Jewish-American experience through the story of a compassionate but conflicted rabbi. After witnessing the inhumanity and devastating suffering of Dachau, chaplain David Hartman returns to post-World War II America seeking meaning and purpose. As a young rabbi, he accepts a post in the sleepy, WASPy Connecticut suburb of Leighton Ridge, where a handful of Jewish families want to build a religious community. Accompanied by his lively wife, Lucy, a self-proclaimed “Jewish atheist,” and aided by a kindred spirit in the local Congregational minister, David meets skepticism with sincerity, and poverty with humility and humor—and faces anti-Semitism with quiet courage. Over the next quarter century, David and his family and congregation weather the social upheavals of McCarthyism, the establishment of Israel’s statehood, the trial and execution of the “atom spies,” civil rights marches, and Vietnam War protests. David finds both his faith and his marriage tested as he continues to struggle with feeling marginalized as a rabbi and a Jew in American society, haunted by the Holocaust and challenged to respond to the prejudice, inequality, and warmongering he sees locally and nationally. Capturing a tumultuous time when humanity was rapidly figuring out how to destroy itself and eager to declare God if not dead, then irrelevant, Howard Fast’s sweeping historical novel offers an intimately personal portrayal of a rabbi’s life—and fearlessly probes questions of personal morality, spiritual identity, and social responsibility that continue to resonate in the twenty-first century. This ebook features an illustrated biography of Howard Fast including rare photos from the author’s estate.

Reunion Hannah Pittard, 2014-10-07 The author of the highly acclaimed *The Fates Will Find Their Way* returns with a novel about a far-flung family reunited for one weekend by their father's death. Five minutes before her flight is set to take off, Kate Pulaski, failed screenwriter and newly failed wife with scarcely a hundred dollars to her name, learns that her estranged father has killed himself. More shocked than saddened by the news, she gives in to her siblings' request that she join them, along with her many half-siblings and most of her father's five former wives, in Atlanta, their birthplace, for a final farewell. Written with huge heart and bracing wit, *Reunion* takes place over the following four days, as family secrets are revealed, personal foibles are exposed, and Kate -- an inveterate liar looking for a way to come clean--slowly begins to acknowledge the overwhelming similarities between herself and the man she never thought she'd claim as an influence, much less a father. Hannah Pittard's engaging and vigorous prose masterfully illuminates the problems that can divide modern families--and the ties that prove impossible to break. (Chicago Tribune)

Not What You Think Michael McAfee, Lauren Green McAfee, 2019-06-11 *Not What You Think* blows the dust off dated misperceptions of the Bible and engages the problems of this book head-on--the parts that make modern readers squeamish,

skeptical, and uncertain. If you're skeptical about the Bible, you're not alone. The Bible is seen by many contemporary readers as intolerant, outdated, out of step with societal norms at best, and a tool of oppression at worst. In this earnest and illuminating read, millennial thought leaders and aspiring theologians Michael and Lauren McAfee are here to say: fair enough. But they're also here to raise a few questions of their own: What if we cleared the deck on our preconceptions of the Bible and encountered it anew? What if we came with the understanding that our questions are welcome? And what if the Bible presents less of a system to figure out, and more of a story to step into--a story with more surprising plot twists than we might think? Michael and Lauren spent their childhoods in church and Sunday school, they spent part of their twenties finding their way in the world in New York City, and today they're shaping their careers while pursuing doctoral studies in theology and ethics. Along the way, they've had to wrangle very real questions--both their own, and of their friends--about why, where, and how the most controversial book in history fits in our world today. Join Michael and Lauren as they explore the nature of the Bible--an ancient mosaic of story, literature, history, and poetry--and what it means for this generation and its relationship with God. Ultimately, *Not What You Think* is an invitation to come and see, and be surprised.

We Are What We Mourn Priscila Uppal, 2009 The first book on the Canadian poetic elegy challenges all previous ideas about the purpose of mourning.

Fifty Years of Bangladesh, 1971-2021 Taj Hashmi, 2022-04-22 This book, the first historical sociology of its kind concerning Bangladesh, examines the country's what-went-wrong-syndrome during the first fifty years of its existence, 1971-2021. The work is an exception to the traditional studies on modern and contemporary Bangladesh. The study is also a post-history of united Pakistan. Busting several myths, it sheds light on many known and unknown facts about the history, politics, society, and culture of the country. Besides being a twice-born country - liberated twice, from the British in 1947 and from West Pakistanis in 1971 - it is also an artificial entity suffering from acute crises of culture, development, governance, and identity. Hashmi attributes the culture and identity crises to the demographic byproducts of bad governance. In addition to being overpopulated, Bangladesh is also resource-poor and has one of the most unskilled populations, largely lumpen elements and peasants. According to Marx, these people represent "the unchanging remnants of the past". The second round of independence empowered these lumpen classes, who suffer from an identity crisis and never learn the art of governance. The proliferation of pseudo-history about liberation has further divided the polity between the two warring tribes who only glorify their respective idols, Mujib and Zia. Pre-political and pre-capitalist peasants' / lumpen elements' lack of mutual trust and respect have further plagued Bangladesh, turning it into one of the least governable, corrupt, and inefficient countries. It is essential to replace the pre-capitalist order of the country run by multiple lumpen classes with capitalist and inclusive institutions.

Guarded Hearts: Genesis Sabotage James Bèyor, 2016-08-12 *Genesis Sabotage* is the first journal in the *Guarded Hearts*

trilogy. Mankind is suffering. No one will deny that, but why? The human mind is in a precarious state of confusion, the result of a biological event that man perpetrated upon men centuries ago. We are each the deliberate victim of an inherited sensory sabotage. This journal introduces the reader to 320 definitive statements that will awaken your consciousness in preparation for the restoration of your genesis being. Mr. Beyor encourages us to return to, or rather discover for the first time, our own internal, individual, central voice clarity, defining your own living truth and exposing the lies you have been taught through forced cooperation. This must be done if humanity is to survive. IT BEGINS AND ENDS WITH YOU!

The Censor's Notebook Liliana Corobca, 2022-11-08 A fascinating narrative of life in communist Romania, and a thought-provoking meditation on the nature of literature and censorship. Winner of the 2023 Oxford Weidenfeld Translation Prize A Censor's Notebook is a window into the intimate workings of censorship under communism, steeped in mystery and secrets and lies, confirming the power of literature to capture personal and political truths. The novel begins with a seemingly non-fiction frame story—an exchange of letters between the author and Emilia Codrescu, the female chief of the Secret Documents Office in Romania's feared State Directorate of Media and Printing, the government branch responsible for censorship. Codrescu had been responsible for the burning and shredding of the censors' notebooks and the state secrets in them, but prior to fleeing the country in 1974 she had stolen one of these notebooks. Now, forty years later, she makes the notebook available to Liliana, the character of the author, for the newly instituted Museum of Communism. The work of a censor—a job about which it is forbidden to talk—is revealed in this notebook, which discloses the structures of this mysterious institution and describes how these professional readers and ideological error hunters are burdened with hundreds of manuscripts, strict deadlines, and threatening penalties. The censors lose their identity, and are often frazzled by neuroses and other illnesses.
