Pagan & Christian Creeds Edward Carpenter, 1920 This collection of essays was Carpenter's attempt to make an objective comparison between the origins and practices of pagan religions and Christianity.

Ancient Turkey Antonio Sagona, Paul Zimansky, 2015-02-24 Students of antiquity often see ancient Turkey as a bewildering array of cultural complexes. *Ancient Turkey* brings together in a coherent account the diverse and often fragmented evidence, both archaeological and textual, that forms the basis of our knowledge of the development of Anatolia from the earliest arrivals to the end of the Iron Age. Much new material has recently been excavated and unlike Greece, Mesopotamia, and its other neighbours, Turkey has been poorly served in terms of comprehensive, up-to-date and accessible discussions of its ancient past. *Ancient Turkey* is a much needed resource for students and scholars, providing an up-to-date account of the widespread and extensive archaeological activity in Turkey. Covering the entire span before the Classical period, fully illustrated with over 160 images and written in lively prose, this text will be enjoyed by anyone interested in the archaeology and early history of Turkey and the ancient Near East.

Pagan and Christian Creeds: Their Origin and Meaning Edward Carpenter, 2019-11-20 In *Pagan and Christian Creeds: Their Origin and Meaning*, Edward Carpenter offers a profound exploration of the intertwining narratives of paganism and Christianity, tracing their historical evolution and philosophical implications. The book is characterized by Carpenter's distinctive literary style, which seamlessly blends rigorous scholarly analysis with poetic prose. Set against the backdrop of late 19th-century thought, Carpenter challenges prevailing religious doctrines by examining their roots in ancient beliefs and practices, inviting readers to reflect on the complexities of spiritual evolution and human experience. Edward Carpenter was a multi-faceted figure—a poet, social reformer, and a pioneer of early LGBTQ+ rights—whose own life experiences deeply informed his work. His exposure to various philosophical traditions and his commitment to social justice spurred his inquiry into the origins of religious beliefs. Carpenter's unique perspective as an advocate for both spiritual and social liberation reflects his quest to reconcile the often disparate spheres of pagan and Christian ideologies, fostering a more inclusive understanding of spirituality. This book is essential for readers interested in religious studies, history, and philosophy. Carpenter's insightful examination encourages an open-minded approach to the coexistence of belief systems, prompting readers to question and reevaluate their own understandings of faith. Its eloquent prose and rich historical context make it a

rewarding read for both scholars and general audiences.

The Turks Today Andrew Mango, 2011-06-23 Eighty years have passed since Mustafa Kemal Atatürk founded the Turkish Republic out of the ruins of the Ottoman Empire and set it on the path of modernisation. He was determined that his country should be accepted as a member of the family of civilised nations. Today Turkey is a rapidly developing country, an emergent market and a medium-sized regional power with the second strongest army in NATO. It is an open country which attracts millions of tourists, thousands of foreign businessmen and hundreds of researchers. They enjoy Turkish hospitality and experience its rich landscape and history, but many find it hard to form an overall picture of the country. In this sequel to his acclaimed biography of Atatürk, Andrew Mango provides such an overall portrait, tracing the republic's development since the death of its founder and bringing to life the Turkish people and their vibrant society. *The Turks Today* interprets the latest academic research for a broader audience, making this highly readable book the authoritative work on modern Turkey.

Animals and Misanthropy David Cooper, 2018-02-02 This engaging volume explores and defends the claim that misanthropy is a justified attitude towards humankind in the light of how human beings both compare with and treat animals. Reflection on differences between humans and animals helps to confirm the misanthropic verdict, while reflection on the moral and other failings manifest in our treatment of animals illuminates what is wrong with this treatment. Human failings, it is argued, are too entrenched to permit optimism about the future of animals, but ways are proposed in which individual people may accommodate to the truth of misanthropy through cultivating mindful, humble and compassionate relationships to animals. Drawing on both Eastern and Western philosophical traditions David E. Cooper offers an original and challenging approach to the complex field of animal ethics.

Environmental Archaeology Evangelia Pişkin, Arkadiusz Marciniak, Marta Bartkowiak, 2018-04-11 This book aims to thoroughly discuss new directions of thinking in the arena of environmental archaeology and test them by presenting new practical applications. Recent theoretical and epistemological advancement in the field of archaeology calls for a re-definition of the subdiscipline of environmental archaeology and its position within the practise of archaeology. New technological and methodological discoveries in hard sciences and computer applications opened fresh ways for interdisciplinary collaborations thus introducing new branches and specialisations that need now to be accommodated and integrated within the previous status-quo. This edited volume will take the challenge and engage with contemporary international discussions about the role of the discipline within the general framework of archaeology. By drawing upon these debates, the contributors to this volume will rethink what environmental archaeology is and what kind of input the investigation of this kind of materiality has to the reconstruction of human history and sociality.
