Sylvia Dantas, Paulo Daniel Farah

WhatsApp Amelia Johns, Ariadna Matamoros-Fernández, Emma Baulch, 2023-11-28 In the 2010s, as chat apps became a primary mode of communication for many people across the world, WhatsApp quickly outpaced rival messaging apps and developed into a platform. In this book, the authors provide a comprehensive account of WhatsApp's global growth. Charting WhatsApp's evolution from its founding in 2009 to the present day, they argue that WhatsApp has been transformed from a simple, 'gimmickless' app into a global communication platform. Understanding this development can shed light on the trajectory of Meta's industrial development, and how digital economies and social media landscapes are evolving with the rise of 'superapps'. This book explores how WhatsApp's unique characteristics mediate new kinds of social and commercial transactions; how they pose new opportunities and challenges for platform regulation, civic participation and democracy; and how they give rise to new kinds of digital literacy as WhatsApp becomes integrated into everyday digital cultures across the globe. Accessibly written, this book is an essential resource for students and scholars of digital media, cultural studies, and media and communications.

The Politics of Technology in Latin America (Volume 2) David Ramírez Plascencia, Barbara Carvalho Gurgel, Avery Plaw, 2020-12-30 This volume focuses on the hyper-mediatization of Latin America from the citizen's perspective, considering the social impact and how people embrace information technologies to improve their living conditions, engage in political issues and the role of digital journalism in promoting democratic values in Latin America. The book is divided into three parts: 'Digital Media and Daily Life in Latin America' explores cases related to the integration of digital media such as mobile devices, social platforms and, even, drones to diverse commercial, private and social activities. 'Information technologies and civic engagement' gives special attention to the new political practices triggered by the irruption of smartphones and platforms, especially inside organizations and social movements in Latin America. 'Journalism and Media Integrity in the Age of Post-truth' centers on the study of digital journalism and the new media landscape, and related issues like precarization of labor conditions and the crisis of reliability in media. This second volume in a two volume set will be important reading for scholars and students of social use of digital media in Latin America, civic engagement, and the connections between politics, journalism and technology.

Is There a Concentration Problem in America? Stigler Center, 2018-04-16 Does America have a monopoly problem? Is there a growing trend of concentration in many markets? Is there evidence for correlation between concentration and inequality? Do monopoly and market power beget political power? These are questions as old as the republic. From the founding fathers, through the progressive era, and perhaps climaxing during the New Deal, American politicians, pundits, public intellectuals, and reformers have been pondering and sometimes obsessing over the role monopoly power plays in economics and politics.

are focused on fostering economic growth while addressing social inequalities. Education plays a pivotal role in this transformation, enhancing access and quality in workforce development. Meanwhile, advancements in technology are revolutionizing sectors and creating new opportunities to reshape traditional practices. Exploring these interconnected subjects is necessary to gain valuable insights into how Latin America and the Caribbean are positioning themselves in a global context, aiming for sustainable development and social progress. Contemporary Examination of Latin America and the Caribbean: Economy, Education, and Technology explores the past and current environment of Latin America and the Caribbean. It examines the global economic potential and cultural impacts of these regions. This book covers topics such as management science, organizational development, and intercultural competence, and is a useful resource for economists, educators, computer scientists, government officials, policymakers, historians, academicians, and researchers.

Contraband Cultures Jennifer Cearn,Charles Beach,2024-09-17 Contraband Cultures presents narratives, representations, practices and imaginaries of smuggling and extra-legal or informal circulation practices, across and between the Latin American region (including the Caribbean) and its diasporas. Countering a fetishizing and hegemonic imaginary (typically stemming from the Global North) of smuggling activity in Latin America as chaotic, lawless, violent and somehow ‘exotic’, this book reframes such activities through the lenses of kinship, political movements, economic exchange and resistance to capitalist state hegemony. The volume comprises a broad range of chapters from scholars across the social sciences and humanities, using various methodological techniques, theoretical traditions and analytic approaches to explore the efficacy and valence of ‘smuggling’ or ‘contraband’ as a lens onto modes of personhood, materiality, statehood and political (dis)connection across Latin America. This material is presented through a combination of historic documentation and contemporary ethnographic research across the region to highlight the genesis and development of these cultural practices whilst grounding them in the capitalist and colonial refashioning of the entire region from the sixteenth century to the present day.

Resignifying Migration and Minorities' Cultural Contact in Brazil Sylvia Dantas, Paulo Daniel Farah, 2025-06-14
This volume provides in-depth discussions on the challenges of intercultural encounters in Brazil. It analyzes existing policies related to migration and minorities and proposes innovative approaches to policy-making. It also highlights policies that have had a real social impact. The volume consolidates theoretical contributions from authors of different but convergent fields to indicate the role of culture and cultural processes in a wide range of phenomena such as psychosocial intervention with immigrants, emigrants, returnees and refugees, homelessness, mental health and interculturality, mobility in urban settings, monolingualism and monocultural curriculum at Brazilian schools and universities, besides narratives of new and older immigrants. Displacement is one of the 21st century's greatest challenges, and this volume provides interdisciplinary perspectives on mobility and people in cultural contact in Brazil, the largest country in South America and the fifth most populous in the world. Although seen from a Brazilian scenario, issues discussed here permeate all other countries that are diverse and receive immigrants, and shed light on the complex socio-cultural world in which we live.

Young People in Complex and Unequal Societies, 2022-05-02 Youth studies in Latin America and Spain face numerous challenges. This book delves into youth experiences in the 21st century, shaped by complex and pressing issues:

the surge of youth cultures and groups, visual images of youth throughout time, and fragmented youth experiences in radically unequal societies. It analyzes young people as precarious natives in global capitalism and labor uncertainty, juvenicide, feminist discourse, social networks, intimacy and sexual affection among young people in a context of growing claims of gender equality. Also included are rural and indigenous youth as political actors, the actions of young political activists within government administrations, the experience of youth migration and empowerment, and young people dealing with the digital world. How have youth studies approached these issues in Latin America and Spain? Which were the main developments and transformations in this research field over the past years? Where is it heading? Language City Ross Perlin, 2024-02-20 From the co-director of the Endangered Language Alliance, a captivating portrait of contemporary New York City through six speakers of little-known and overlooked languages, diving into the incredible history of the most linguistically diverse place ever to have existed on the planet Half of all 7,000-plus human languages may disappear over the next century and—because many have never been recorded—when they’re gone, it will be forever. Ross Perlin, a linguist and co-director of the Manhattan-based non-profit Endangered Language Alliance, is racing against time to map little-known languages across the most linguistically diverse city in history: contemporary New York. In Language City, Perlin recounts the unique history of immigration that shaped the city, and follows six remarkable yet ordinary speakers of endangered languages deep into their communities to learn how they are maintaining and reviving their languages against overwhelming odds. Perlin also dives deep into their languages, taking us on a fascinating tour of unusual grammars, rare sounds, and powerful cultural histories from all around the world. Seke is spoken by 700 people from five ancestral villages in Nepal, a hundred of whom have lived in a single Brooklyn apartment building. N’ko is a radical new West African writing system now going global in Harlem and the Bronx. After centuries of colonization and displacement, Lenape, the city’s original Indigenous language and the source of the name Manhattan (“the place where we get bows”), has just one fluent native speaker, bolstered by a small band of revivalists. Also profiled in the book are speakers of the Indigenous Mexican language Nahuatl, the Central Asian minority language Wakhi, and the former lingua franca of the Lower East Side, Yiddish. A century after the anti-immigration Johnson-Reed Act closed America’s doors for decades and on the 400th anniversary of New York’s colonial founding, Perlin raises the alarm about growing political threats and the onslaught of “killer languages” like English and Spanish. Both remarkable social history and testament to the importance of linguistic diversity, Language

City is a joyful and illuminating exploration of a city and the world that made it.
