Silvia Borelli, Federico Lenzerini

Cultural Heritage in the 21st Century Monika A. Murzyn, Jacek Purchla, 2007

The Impact of Uniform Laws on the Protection of Cultural Heritage and the Preservation of Cultural Heritage in the 21st Century Toshiyuki Kono, 2010-07-07 Since Emer de Vattel's (1714-1767) pioneering work on the importance of the protection of cultural property in the interests of mankind and human society, international law has broadened the scope and strengthened protection in these areas. However, it is the work of UNESCO and its original mission of producing international instruments that has, in recent years, enhanced the protection and safeguarding of various types of cultural heritage. Providing an overview of the seven Conventions with the two Protocols adopted by UNESCO and UNIDROIT, this book offers comparative analysis of legal schemes for the protection or safeguarding of cultural heritage in 15 countries. This is the publication of the reports presented at the First Interessional Thematic Congress of the International Academy of Comparative Law in November 2008.

Conserving Cultural Heritage in the 21st Century, 1994

Evolving Heritage Conservation Practice in the 21st Century Christina Cameron, 2023-06-03 This book focuses on current trends in cultural heritage conservation and their influence on heritage practice. Seen through the lenses of World Heritage, historic urban landscapes, heritage tourism, climate change or the nature/culture nexus, these challenges call for innovative approaches to protect and conserve our heritage places. The book brings together the voices of different stakeholders in the heritage conservation process, ranging from scholars, site managers and government officials to young professionals and students.

Transforming Heritage Practice in the 21st Century John H. Jameson, Sergiu Musteață, 2019-06-14 Recent years have witnessed a rapid increase in the fields of cultural heritage studies and community archaeology worldwide with expanding discussions about the mechanisms and consequences of community participation. This trend has brought to the forefront debates about who owns the past, who has knowledge, and how heritage values can be shared more effectively with communities who then ascribe meaning and value to heritage materials. Globalization forces have created a need for contextualizing knowledge to address complex issues and collaboration across and beyond academic disciplines, using more integrated methodologies that include the participation of non-academics and increased stakeholder involvement. Successful

programs provide power sharing mechanisms and motivation that effect more active involvement by lay persons in archaeological fieldwork as well as interpretation and information dissemination processes. With the contents of this volume, we envision community archaeology to go beyond descriptions of outreach and public engagement to more critical and reflexive actions and thinking. The volume is presented in the context of the evolution of cultural heritage studies from the 20th century “expert approach” to the 21st century “people-centered approach,” with public participation and community involvement at all phases of the decision-making process. The volume contains contributions of 28 chapters and 59 authors, covering an extensive geographical range, including Africa, South America, Central America, Western Europe, Eastern Europe, North America, and Australasia. Chapters provide exemplary cases in a growing lexicon of public archaeology where power is shared within frameworks of voluntary activism in a wide diversity of cooperative settings and stakeholder interactions.

Communities and Museums in the 21st Century Karen Brown, Alissandra Cummins, Ana S. González Rueda, 2023-08-18
Communities and Museums in the 21st Century brings together innovative, multidisciplinary perspectives on contemporary museology and participatory museum practice that contribute to wider debates on museum communities, heritage, and sustainability. Set within the context of globalisation and decolonisation, this book draws upon bi-regional research that will enrich our understanding of the complex relationships between Europe, Latin America and the Caribbean through museum studies and practice. Chapters reflect upon the role of museums in defining community identities; the importance of young people’s participation and intergenerational work for sustainability; the role of museums in local development; and community-based museums and climate change. Contributors examine these issues through the lens of museum partnerships and practices, as well as testing the continued relevance of the notion of ‘integral museum’ and its relatives in the form of ecomuseums. With its focus on regional museums in Latin America and Caribbean, this book highlights how the case studies promote greater intercultural dialogue, global understanding and social cohesion. It also demonstrates how the methodology can be adapted to other communities who are facing the perils of climate change and unsustainable forms of development. Communities and Museums in the 21st Century proposes creative and sustainable strategies relevant to a globalised future. With its focus on global societal challenges, this book will appeal to museologists and museum practitioners, as well as those working in heritage studies, cultural studies, memory studies, art history, gender studies, and sustainable development. Cultural Heritage, Cultural Rights, Cultural Diversity Silvia Borelli,Federico Lenzerini,2012-07-05 Cultural Heritage, Cultural Rights, Cultural Diversity: New Developments in International Law explores the recent evolution of cultural heritage law which has resulted in the emergence of a new international conscience, rooted in the awareness that cultural heritage represents a holistic notion strongly connected with the identity of peoples as well with individual and collective human rights. Leading international scholars examine the new challenges determined by that evolution, reaching beyond only tangible artistic and monumental expression and paying particular attention to the linkages between cultural heritage, cultural diversity and human rights. As such, Cultural Heritage, Cultural Rights, Cultural Diversity: New Developments in International Law offers a comprehensive and original overview of how the international approach to culture has evolved from a sovereignty-based idea of cultural property to a perception which emphasises the human dimension of cultural heritage.

21st Century Economics: A Reference Handbook Rhona C. Free,2010-05-14 Interest in economics is at an all-time high. Among the challenges facing the nation is an economy with rapidly rising unemployment, failures of major businesses and industries, and continued dependence on oil with its wildly fluctuating price. Economists have dealt with such questions for generations, but they have taken on new meaning and significance. Tackling these questions and encompassing analysis of traditional economic theory and topics as well as those that economists have only more recently addressed, 21st Century Economics: A Reference Handbook is a must-have reference resource. Key Features Provides highly readable summaries of theory and models in key areas of micro and macroeconomics, helpful for students trying to get a big picture sense of the field Includes introductions to relevant theory as well as empirical evidence, useful for readers interested in learning about economic analysis of an issue as well for students embarking on research projects Features chapters focused on cutting-edge topics with appeal for economists seeking to learn about extensions of analysis into new areas as well as new approaches Presents models in graphical format and summarizes empirical evidence in ways that do not require much background in statistics or econometrics, so as to maximize accessibility to students

Business of Travel and Tourism in the 21st Century: A Caribbean Approach Angela B. Cleare,2016-11-28 A comprehensive tourism manual, with contributions from top industry experts from The Bahamas and the Caribbean. Designed primarily for high school and college students in the Caribbean region as well as those interested in furthering their tourism career. I congratulate and thank Angela Cleare and her contributing partners for this outstanding contribution to travel and tourism literature from a Caribbean perspective. It is obvious that a great deal of work has gone into this well-written book which covers all the elements of the travel and tourism industry as they relate to the region. I believe this will be not only an indispensable textbook for teachers and students and a handbook for investors and others directly involved in

the industry but also a publication of interest to all of us who are in one way or another affected by the industry. I am particularly pleased to see the attention paid to ecotourism and the relationship between the industry and the environment. - Arthur A. Foulkes

Cultural Heritage in a Changing World Karol Jan Borowiecki, Neil Forbes, Antonella Fresa, 2016-05-02 The central purpose of this collection of essays is to make a creative addition to the debates surrounding the cultural heritage domain. In the 21st century the world faces epochal changes which affect every part of society, including the arenas in which cultural heritage is made, held, collected, curated, exhibited, or simply exists. The book is about these changes; about the decentring of culture and cultural heritage away from institutional structures towards the individual; about the questions which the advent of digital technologies is demanding that we ask and answer in relation to how we understand, collect and make available Europe's cultural heritage. Cultural heritage has enormous potential in terms of its contribution to improving the quality of life for people, understanding the past, assisting territorial cohesion, driving economic growth, opening up employment opportunities and supporting wider developments such as improvements in education and in artistic careers. Given that spectrum of possible benefits to society, the range of studies that follow here are intended to be a resource and stimulus to help inform not just professionals in the sector but all those with an interest in cultural heritage.

Cultural Heritage Issues James A.R. Nafziger, Ann M. Nicgorski, 2009-12-07 The global community, dependent as always on the cooperation of nation states, is gradually learning to address the serious threats to the cultural heritage of our disparate but shared civilizations. The legacy of conquest, colonialization, and commerce looms large in defining and explaining these threats. The essays contained in this challenging volume are based on papers presented at an international conference on cultural heritage issues that took place at Willamette University. The conference sought to generate fresh ideas about these cultural heritage issues; offer a good sense of their nuances and complexities; and reveal how culture, law, and ethics can interact, complement, diverge, and contradict one another. This book seeks to accomplish these purposes. What it explores is the fact that, along with an emerging blend of adversarial and collaborative processes to address cultural heritage issues, has come a substantial broadening of the normative framework in recent years. This framework now spans a welter of issues ranging from the creation of cultural safety zones during armed conflict, to the ongoing rectification of genocidal conquest during the European Holocaust and World War II, to the treatment of shipwrecks and their cargo, to the protection of folklore and other intangibles, to the promotion of traditional knowledge in the interest of biological diversity. All of these topics are controversial, as are the legal instruments that incorporate them, but the issues they embrace are vital to us all, whether our viewpoint is in the global arena, a national legislature, a courtroom, a classroom, an archaeological site, or a museum.

Ocean Sustainability in the 21st Century Salvatore Aricò, 2015-04-02 Describing the emerging and unresolved issues

related to the oceans and the marine environment, this book presents the developments made in marine science and policy since the implementation of the United Nations Convention on the Law of the Sea (UNCLOS), and implications for the sustainable management of ocean areas and resources. This comprehensive volume also provides a number of scientific, policy, and legal tools to address such issues, and to ensure better science-based management of the oceans. Topics covered include the impacts of human-induced climate change on the oceans, the marine genetic resources debate, the current legal framework for the oceans, and a comparative study of the legal issues associated with outer space. Including practical examples and worldwide case studies, this book is a valuable resource for policy makers, students and academics, in marine science and policy, ocean affairs, and the law of the sea.

21st Century Challenges facing Cultural Landscapes Juliet Ramsay, Ken Taylor, 2019-05-16 Through stories of diverse landscapes from around the world, this book captures human cultures and their land use practices in the environments they inhabit. The chapters cover topics from heritage in the 21st Century, appreciating and safeguarding values while facing challenges wrought by change. This title will lead readers through fascinating stories of landscapes and people. We learn of the physical and spiritual structure of rice terraces of the Honghe Mountains in China maintained by following a 1300 year sustainable practice of water allocation, while the colonial tea plantations of the Sri Lankan highlands are managed by Indian Tamils who now seek tourism as a means of additional income. Sustainable agricultural methods in the USA are being introduced to prevent landscape loss while in Australia a challenge confronting family farms is progressing to rural industrialisation. Challenges are further outlined in the mythical story of Finland's Saint Henrik pilgrimage and in the intangible Ui-won gardens of Korea. The huge challenge for Japan's landscapes is the legacy from fierce natural 21st Century disasters while in Australia's Dampier Archipelago, an avoidable yet brutal development on a unique Aboriginal rock sculptured landscape highlights serious concerns about heritage governance. These remarkable stories of landscapes and their management are inseparable from the communities that inhabit them. This book was originally published as a special issue of Landscape Research.

The Right to Heritage Pasquale De Marco, 2025-07-23 ****The Right to Heritage**** explores the complex ethical, legal, and practical issues surrounding cultural heritage, providing a comprehensive examination of the challenges and opportunities facing its preservation in the 21st century. Cultural heritage is a precious and irreplaceable part of our human story. It connects us to our past, informs our present, and shapes our future. From ancient artifacts to living traditions, cultural heritage encompasses the tangible and intangible expressions of our humanity. Preserving and protecting our cultural heritage is essential for safeguarding our collective identity and ensuring a vibrant and diverse future for generations to come. This book brings together the insights of leading experts in the field to offer a comprehensive overview of the current state of cultural heritage preservation and provide practical guidance on how to address the challenges and opportunities

facing the field. Whether you are a scholar, a policymaker, a cultural heritage professional, or simply someone who is passionate about protecting our shared heritage, this book is an essential resource. It will provide you with the knowledge and tools you need to make a difference in the preservation of our cultural heritage for generations to come. Cultural heritage is a dynamic and ever-evolving part of human society. As we continue to learn more about our past and present, we will need to continually adapt our approaches to its preservation. This book is a timely and important contribution to the ongoing discussion about the future of cultural heritage. ****The Right to Heritage**** is essential reading for anyone interested in the preservation of cultural heritage. The Bahamas in the 21st Century Nikolaos Karagiannis & Olivia C. Saund, 2009-03-05 Economies in the Caribbean and all over the world are grappling with the consequences of globalisation and the accompanying changes in the rules of international trade, including loss of preferential markets and erosion of preferences. This has resulted in increasing global competition for traditional products from these economies, a situation compounded by rising energy costs and accompanying negative social ills such as unemployment, rising criminality, health and educational challenges, and the like. Besides, many of these economies are facing a serious threat from climate change and the accompanying environmental problems. What are realistic socio-economic development options for The Bahamas, given the policy space now available to its government? In this era of neoliberal globalisation, however, we would find that there has been little of worth contributed to the concrete task of working out thorough strategies and consistent policies (i.e., the local response) for coping with these socio-economic problems in The Bahamas. Indeed, it is surprising how little attention has been paid to developing rational strategies and policies aimed at providing a planning frame to deal with the multi-dimensional problems of the Bahamian underdevelopment. The edited volume *The Bahamas in the 21st Century* seeks to answer questions like these and to offer concrete policy recommendations while engaging scholars, policy makers, professionals, students, and all persons interested in the burning issues associated with this theme.

Enforcing International Cultural Heritage Law Francesco Francioni, James Gordley, 2013-06-06 The idea of cultural heritage as an 'international public good' can be traced back to the Preamble of the 1954 Hague Convention for the Protection of Cultural Property in the Event of Armed Conflict, according to which damage to cultural property belonging to any people whatsoever means damage to the cultural heritage of all mankind. How this idea of cultural heritage as a global public good can be reconciled with the effective enforcement of protection norms is the subject of this study. Bringing together world experts in protecting cultural heritage, *Enforcing International Cultural Heritage Law* examines the different ways that cultural heritage property can be protected, including protection at the international level, enforcement in

domestic courts, and the role of alternative dispute resolution mechanisms. The book is divided into three sections. The first section assesses international law and analyses the interaction between international and domestic norms of public and private law. It discusses the different methods of international enforcement, the role of international and mixed criminal tribunals and courts, and the means for protecting cultural heritage in times of armed conflict. The second section addresses the role of national courts, discussing such topics as: barriers to domestic enforcement of international norms, the refusal to enforce foreign law, the difficulty of territorial boundaries in relation to underwater heritage, and the application of criminal sanctions by domestic courts. The final section of the book surveys alternatives to the legal enforcement of the norms protecting cultural heritage, including arbitration, soft law, and diplomacy.

21st Century Journalism: Uncovering the Truth in Modern Media Pasquale De Marco, 2025-04-14 In an era of rapidly evolving media landscapes and unprecedented access to information, 21st Century Journalism: Uncovering the Truth in Modern Media offers a timely and comprehensive exploration of the multifaceted world of journalism.
