Quotation Marks Marjorie Garber, 2016-05-06 Written with characteristic verve, Quotation Marks considers, among other subjects, how we depend upon the most quotable men and women in history, using great writers to bolster what we ourselves have to say. The entertaining turns and reversals of Marjorie Garber's arguments offer the rare pleasure of a true essayist.

Graffiti Grrlz Jessica Nydia Pabón-Colón, 2018-06-22 An inside look at women graffiti artists around the world Since the dawn of Hip Hop graffiti writing on the streets of Philadelphia and New York City in the late 1960s, writers have anonymously inscribed their tag names on trains, buildings, and bridges. Passersby are left to imagine who the author might be, and, despite the artists' anonymity, graffiti subculture is seen as a "boys club," where the presence of the graffiti girl is almost unimaginable. In Graffiti Grrlz, Jessica Nydia Pabón-Colón interrupts this stereotype and introduces us to the world of women graffiti artists. Drawing on the lives of over 100 women in 23 countries, Pabón-Colón argues that graffiti art is an unrecognized but crucial space for the performance of feminism. She demonstrates how it builds communities of artists, reconceptualizes the Hip Hop masculinity of these spaces, and rejects notions of "girl power." Graffiti Grrlz also unpacks the digital side of Hip Hop graffiti subculture and considers how it widens the presence of the woman graffiti artist and broadens

her networks, which leads to the formation of all-girl graffiti crews or the organization of all-girl painting sessions. A rich and engaging look at women artists in a male-dominated subculture, *Graffiti Grrlz* reconsiders the intersections of feminism, hip hop, and youth performance and establishes graffiti art as a game that anyone can play.

Argument Writing, Teacher Guide, Grades 9-12 PCG Education, 2016-06-07 Argument Writing Paths to College and Career Jossey-Bass and Public Consulting Group, Inc. (PCG) are proud to bring the Paths to College and Career English Language Arts (ELA) curriculum and professional development resources for grades 6-12 to educators across the country. Originally developed for EngageNY and written with a focus on the shifts in instructional practice and student experiences the standards require, Paths to College and Career includes daily lesson plans, guiding questions, recommended texts, scaffolding strategies and other classroom resources. The Paths Writing Units, Argument Writing, Informative Writing, and Narrative Writing, complement the full instructional program and can also be used independently, providing in-depth writing instruction to support all students in grades 9-12 in meeting grade level standards. To emphasize the relationship between reading and writing, each Writing Unit includes accessible model texts that exemplify key elements of each text type, and source texts that provide a topic for the unit writing assignment. Individual lessons guide students through the writing process, providing instruction on grammar and conventions and highlighting collaboration and reflection as key elements of effective writing. Students' final essays are assessed using a checklist developed by the class over the course of the unit. The organization and distinctive content of the model and source texts in each unit afford teachers the flexibility to implement each unit independently of the others, and at any point during the curriculum. For example, a unit may be implemented to assess students' writing prior to implementation of the standard curriculum, to scaffold writing instruction leading into a writing assessment, or to support struggling writers by addressing gaps in skills as demonstrated in previous assessments. The Paths Writing Units provide teachers with invaluable opportunities to engage students as active participants in their own learning at every stage of the writing process, and to customize instruction to meet the varying needs of all students. Critical Literacy as Resistance Laraine Wallowitz, 2008 Critical Literacy as Resistance is a collaborative effort among secondary and university educators from across the United States that addresses questions such as: What does a critical literacy classroom look like? What various texts are used? What strategies do teachers use to encourage students and teacher candidates to recognize how texts construct power and privilege? How do educators inspire activism in and out of the classroom? This book documents the experiences of scholars and teachers who have successfully bridged theory and practice by applying critical literacy into their respective content areas. The authors spell out the difference between critical thinking and critical literacy, then show how to write and implement curriculum that incorporates diverse texts and multiple literacies in all content areas (including world language), and includes the voices of students as they confront issues of race, class, gender, and power. The principles and practices laid out here will help teachers use literacy to liberate and empower students both in and outside the classroom by respecting and studying the literacies students bring to school, while simultaneously teaching (and challenging) the literacies of those in power. This is a book for pre- and in-service teachers in all content areas, staff developers, secondary literacy specialists, university professors, and anyone interested in social justice.

Creative Cities, Tourism and Street Art in a Global Frame Ricardo Klein, Caitlin Bruce, 2025-02-14 This book explores the use of street art tourism in eight cities: Barcelona, Paris, Porto, Pittsburgh, Cleveland, Montevideo, Bogota and Buenos Aires. While street art and graffiti are perpetually in the process of being discovered by scholars and cultural programmers as a practice full of potential, these contributions offer context and grounding and ask how, in a global setting, such art is used in tandem with tourism practices to interpret, codify, and make value out of space through institutional and community networks.

Research Handbook on Art and Law Jani McCutcheon, Fiona McGaughey, 2020-01-31 Featuring international contributions from leading and emerging scholars, this innovative Research Handbook presents a panoramic view of how law sees visual art, and how visual art sees law. It resists the conventional approach to art and law as inherently dissonant – one a discipline preoccupied with rationality, certainty and objectivity; the other a creative enterprise ensconced in the imaginary and inviting multiple, unique and subjective interpretations. Blending these two distinct disciplines, this unique Research Handbook bridges the gap between art and law.

Words for My Comrades Dean Van Nguyen, 2025-05-06 From Pitchfork and Guardian contributor Dean Van Nguyen comes a revelatory history of Tupac beyond his musical legend, as a radical son of the Black Panther Party whose political legacy still resonates today. Before his murder at age twenty-five, Tupac Shakur rose to staggering artistic heights as the preeminent storyteller of the 1990s, building, in the process, one of the most iconic public personas of the last half century. He recorded no fewer than ten platinum albums, starred in major films, and became an activist and political hero known the world over. In this cultural history, journalist Van Nguyen reckons with Tupac's coming of age, fame, and cultural capital, and how the political machinations that shaped him as a boy have since buoyed his legacy as a revolutionary following the George Floyd uprisings. *Words for My Comrades* engages—crucially—with the influence of Tupac's mother, Afeni, whose role in the Black Panther Party and dedication to dismantling American imperialism and combating police brutality informed Tupac's art. Tupac's childhood as a son of the Panthers, coupled with the influence of his stepfather's Marxist beliefs, informed his own riveting code of ethics that helped audiences grapple with America's inherent injustices. Using oral histories from conversations with the people who directly witnessed Tupac's life and career, many of whom were interviewed for the first time here—from Panther elder Aaron Dixon, to music video director Stephen Ashley Blake, to friends and contemporaries of Tupac's mother—Van Nguyen demonstrates how Tupac became one of the most enduring musical legends in hip-hop history, and how intimately his name is threaded with the legacy of Black Panther politics. Van Nguyen reveals how Tupac and Afeni each championed the disenfranchised in distinct ways, and how their mother-son bond charts a narrative of the last fifty years of revolutionary Black American politics. *Words for My Comrades* is the story of how the energy of the Black political movement was subsumed by culture, and how America produced two of its most iconic, enduring revolutionaries.

Border Texts Randall Bass, 1999

Keith Haring's Line Ricardo Montez, 2020-08-10 In the thirty years since his death, Keith Haring—a central presence on the New York downtown scene of the 1980s—has remained one of the most popular figures in contemporary American art. In

one of the first book-length treatments of Haring's artistry, Ricardo Montez traces the drawn and painted line that was at the center of Haring's artistic practice and with which the artist marked canvases, subway walls, and even human flesh. Keith Haring's Line unites performance studies, critical race studies, and queer theory in an exploration of cross-racial desire in Haring's life and art. Examining Haring's engagements with artists such as dancer and choreographer Bill T. Jones, graffiti artist LA II, and iconic superstar Grace Jones, Montez confronts Haring's messy relationships to race-making and racial imaginaries, highlighting scenes of complicity in order to trouble both the positive connotations of inter-racial artistic collaboration and the limited framework of appropriation.

Ambition & Love in Modern American Art Jonathan Weinberg, 2001-01-01 Focusing on extreme moments in the careers of Jean-Michel Basquiat, Walker Evans, David Hockney, Sally Mann, Georgia O'Keeffe, Jackson Pollock, Alfred Stieglitz, Andy Warhol, and others, Weinberg explores how these individuals struggled to gain or maintain the attention of an increasingly jaded audience.--BOOK JACKET.

Arab Women's Revolutionary Art Nevine El Nossery, 2023-04-12 This book examines the ways in which women in the contemporary Middle East and North Africa have re-imagined revolutionary discourses through creativity and collective action as a means of resistance. Encompassing a stunning array of forms and genres, such as graffiti, street performance, photography, phototexts, novels, and comics, the book draws from a vast spectrum of artistic production in revolutionary periods between 2011 and 2022 in Egypt, Tunisia, Morocco, and Algeria. El Nossery sheds light on women's postrevolutionary artistic output by engaging an interdisciplinary approach: the book is divided into three sections which foreground the unique relationship between textual, visual, and performative modes as they intertwine with art and politics. Arab Women's Revolutionary Art thereby aims to demonstrate how art, as always oriented towards an open future, can preserve the revolutionary spirit that was sparked in 2011 by documenting what happened and determining which stories would be told. The revolution, therefore, continues.

From the 1919 Revolution to the 2011 Arab Spring Uzi Rabi, Mira Tzoreff, 2024-05-08 Focused on three Egyptian revolutions—in 1919, 1952, and 2011—this edited book argues that each of these revolutions is a milestone which represents a meaningful turning point in modern Egyptian history. Revolutions are typically characterized by a fundamental change in

political and social infrastructures as well as in the establishment of new values and norms. However, it should be noted that this may not be entirely applicable when examining the context of the three Egyptian revolutions: the 1919 revolution failed to liberate Egypt from British colonial hegemony; the 1952 revolution failed to rework the country's social and economic systems and unify the Arab world; and the Arab Spring revolution of 2011 culminated in a chaotic economic and social catastrophe, thus failing to solve the young generation's crisis. Nevertheless, by revisiting and re-defining these revolutions through diverse theoretical frameworks, the book proposes that each of them played a significant role in shaping Egypt's political, social, and cultural identity. This book is specifically of interest for students, historians, and social scientists with a keen interest in Egyptian history and the Middle East, offering fresh perspectives and insights into these transformative moments in Egypt's history.

Street Art and Democracy in Latin America Olivier Dabène, 2019-09-24 This book explores street art's contributions to democracy in Latin America through a comparative study of five cities: Bogota (Colombia), São Paulo (Brazil), Valparaíso (Chile), Oaxaca (Mexico) and Havana (Cuba). The author argues that when artists invade public space for the sake of disseminating rage, claims or statements, they behave as urban citizens who try to raise public awareness, nurture public debates and hold authorities accountable. Street art also reveals how public space is governed. When local authorities try to contain, regulate or repress public space invasions, they can achieve their goals democratically if they dialogue with the artists and try to reach a consensus inspired by a conception of the city as a commons. Under specific conditions, the book argues, street level democracy and collaborative governance can overlap, prompting a democratization of democracy.

Omnidoxy Cometan, Astronist Institution, 2019-02-11 The Omnidoxy is the founding treatise of the Astronist religion and was solely authored by the philosopher and religious founder, Cometan. Partitioned into twelve disquisitions, each of which are further divided into hundreds of discourses, which are themselves titled by those which are known as rubrals, The Omnidoxy has been codified according to a unique writing structure known as insentence. The Omnidoxy not only forms the foundations of Astronism, but it remains the primary modern contributor and the book that ignited the establishment of the Astronic tradition of religion which encompasses the philosophy of Astronism. Introducing brand new philosophical concepts such as cosmocentricity, reascensionism, transcensionism, and sentientism amongst many others, The Omnidoxy remains the principal signifier of a new era in philosophy. The Omnidoxy births hundreds of new belief orientations, schools of thought, neologisms, disciplines of study, theories, and concepts which, when combined and considered collectively, have formed the basis of Astronism. The authorship of The Omnidoxy rests with the single individual philosopher, Cometan who began writing The Omnidoxy at the age of seventeen driven by what he terms as personal inspiration. The historical origination of The Omnidoxy rests in its authorship by Brandon Taylorian during early 21st century England, specifically in the northern county of Lancashire. Like in all textual criticism, the timing and location of the codification of The Omnidoxy is integral to

understanding why and how it was written, especially by considering the influential factors impacting Taylorian during his construction of the text, particularly the cultural, political, religious, and social contexts of Taylorian's personal life and of wider society at the time. This forms an important branch of study within omnidoxicology known as omnidoxical criticism, or omnidoxical exegesis in which scholars study and investigate The Omnidoxy in order to discern conclusive judgements inspired by how, where, why, by whom, for whom, and in what circumstances The Omnidoxy was written.
