We'll Meet Again Kate McQuiston,2013-09-19 Unique and often startling encounters between music and the moving image in the films of Stanley Kubrick are trademarks of his style; witness the powerful effects of Strauss's Also Sprach Zarathustra in 2001: A Space Odyssey and of Beethoven's 9th Symphony in A Clockwork Orange, each excerpt vetted by Kubrick himself. We'll Meet Again argues that, for Kubrick, music is neither post-production afterthought nor background nor incidental, but instead is core to films' effects and meanings. The book first identifies the building blocks in Kubrick's sonic world and illuminates the ways in which Kubrick uses them to support his characters and to define character relationships. It then delves into the effects of Kubrick's signature musical techniques, including the use of texture, form, and inscription to render and reinforce psychological ideas and spectator responses. Finally it presents case studies that show how the history of the music plays a vital and dynamic role for the films. As a whole, the book locates Kubrick as a force in music reception history by examining the relationship between his musical choices and popular culture, and reveals the foundational role of music in his filmmaking.

Daniels' Orchestral Music David Daniels, David W. Oertel, David A. Rahbee, 2022-06-30 Daniels' Orchestral Music is the gold standard for all orchestral professionals—from conductors, librarians, programmers, students, administrators, and publishers, to even instructors—seeking to research and plan an orchestral program, whether for a single concert or a full season. This sixth edition, celebrating the fiftieth anniversary of the original edition, has the largest increase in entries for a new edition of Orchestral Music: 65% more works (roughly 14,050 total) and 85% more composers (2,202 total) compared to the fifth edition. Composition details are gleaned from personal inspection of scores by orchestral conductors, making it a reliable one-stop resource for repertoire. Users will find all the familiar and useful features of the fifth edition as well as significant updates and corrections. Works are organized alphabetically by composer and title, containing information on duration, instrumentation, date of composition, publication, movements, and special accommodations if any. Individual appendices make it easy to browse works with chorus, solo voices, or solo instruments. Other appendices list orchestral works by instrumentation and duration, as well as works intended for youth concerts. Also included are significant anniversaries of composers, composer groups for thematic programming, a title index, an introduction to Nieweg charts, essential bibliography, internet sources, institutions and organizations, and a directory of publishers necessary for the orchestra professional. This trusted work used around the globe is a must-have for orchestral professionals, whether conductors or orchestra librarians, administrators involved in artistic planning, music students considering orchestral conducting, authors of program notes, publishers and music dealers, and instructors of conducting.

Sound, Speech, Music in Soviet and Post-Soviet Cinema Lilya Kaganovsky,Masha Salazkina,2014-03-07 This innovative volume challenges the ways we look at both cinema and cultural history by shifting the focus from the centrality of the visual and the literary toward the recognition of acoustic culture as formative of the Soviet and post-Soviet experience. Leading experts and emerging scholars from film studies, musicology, music theory, history, and cultural studies examine the importance of sound in Russian, Soviet, and post-Soviet cinema from a wide range of interdisciplinary perspectives. Addressing the little-known theoretical and artistic experimentation with sound in Soviet cinema, changing practices of voice delivery and translation, and issues of aesthetic ideology and music theory, this book explores the cultural and historical factors that influenced the use of voice, music, and sound on Soviet and post-Soviet screens.
