**David Baud**

*The Three Waves of Volunteers & the New Earth* Dolores Cannon, In 1945 when the atomic bombs were dropped in WWII, our protectors and watchers in outer space saw that Earth was on a collision course with disaster. The prime directive of non-interference prevented them from taking any action, but then they came up with a brilliant plan to save Earth and assist her in her ascension. They couldn't interfere from the outside, but maybe they could influence from the inside. So the call went out for volunteers to come and help. Earth is in trouble - who wants to volunteer? The native souls living on Earth were too caught up on the wheel of karma. The only hope was to ask for pure souls to come who had never been trapped on the karmic cycle. Dolores in her hypnosis work has discovered three waves of these volunteers. Some have come direct from the Source and have never lived in any type of physical body before. Others have lived as space beings on other planets or other dimensions. Because all memory is erased upon entry to the Earth dimension, they do not remember their assignment. Thus these beautiful souls have a difficult time adjusting to our chaotic world. These souls have a vital role to play as they help all of the rest of us ascend to the New Earth. \* Characteristics of the Three Waves of Volunteers \* The Difficulties being Experienced by First-Timers \* How the Shift is affecting the Physical Body \* The Roles of ETs and Light Beings in the Shift \* Keepers of the Grid \* The Separation of the Old and New Earth \* What is the New Earth? \* What is the Significance of 2012?

*Spiritual Nutrition* Mike Radice,2024-04-26 The New Earth is the happy ending predicted by spiritual mystics for thousands of years. Nirvana, Heaven, Shambhala, Gaia, and Third Temple are some of the names, but the name is irrelevant. It's a higher vibrational dimension without fear, binarism, and violence. Peace, collaboration, and a clean planet are the norms. Spiritual Nutrition provides tools to bring the New Earth to us smoothly. The book enables readers to understand and feel what's going on and helps them make changes to themselves to help. It presents strategies and steps to clean the body, mind, and spirit; lift the vibration; and spread loving light as an antidote for fear and hate. It also questions the meaning of reality. The book relies on an energy vibration context for its argument. Higher vibrations are peaceful, kind, and smooth, the kind we need to move to the New Earth. Lower vibrations are angry, destructive, and disempowering--the kind that holds us in a world of fear and hate. The book relies on vibrational lifting as the goal and prescribes a path of a plant-based diet, meditation, yoga, thoughtfulness, and kindness to self and others.

**Living In a Quantum Reality** Valerie Varan,2015-11-30 For those who have experienced a transpersonal or spiritual awakening, it can be difficult to come back to living in the day-to-day world. All of a sudden, you may be faced with challenges such as anxiety, depression, despair, the Dark Night of the Soul, and a multitude of other energetic and spiritual

imbalances. Living in a Quantum Reality helps to identify the common side effects of wholeness consciousness and offers a variety of exercises, meditations, and healing methods to cope with having a higher consciousness in a world that is still struggling to catch up. Living in a Quantum Reality helps you understand your “impossible” transpersonal experiences by integrating quantum physics into psychology and offering a user-friendly description of the many layers or spheres of energy and consciousness. This vision of the quantum self synthesizes spiritual thought with an array of scientific disciplines, and is supported by the author’s own direct experiences, as well as her clients’ experiences with larger reality. This book is a step toward advancing the field of psychology, and especially the practice of psychotherapy, to catch up with the latest, more quantum, worldview, one that is more comprehensive for understanding the reaches of our human consciousness and psycho-spiritual experiences.

**Imagine the Unimaginable** Richard Rowe, 2018-12-27 Imagining the Unimaginable is an inventor’s journey to answer age-old questions from a modern day perspective using only first-hand human experiences. What happens after we die? Is there an afterlife? Why is there so much suffering in the world? Why do bad things happen to good people?

*Nirvana in the Garden of Eden* D. Crawford, 2012-08-31 Follow one woman’s journey from skepticism, misfortune and near death, to a state of Nirvana. Accompany her on a quest for truth and knowledge and discover what life is really about as you are brought out of the darkness and into the light of a new world. Be prepared to be challenged as you embark on the wildest ride in human history. We are now at a point where technology begins to merge with human development and creates a more sophisticated species. Along this journey, author D. Crawford, begins to understand that 2012 is only the beginning, as we are propelled forward in a rapid rate of evolution and scientific discoveries. This is where the mind and spirit will finally merge as one. We can now understand how we are demi-gods, and that we are the Universe, incarnate. Humans are intelligence, experiences and infinite information encased within physical form. We are perpetual motion and beings of light waves in a state of a solid. Step back and explore the big picture as a wondrous puzzle and Divine Plan become clear as we interlock the pieces of spirituality, neuroscience, psychology and quantum physics. After all, this is not just any story of Truth and enlightenment; it is your story as well. The book contains personal experiences and topics including: Karma, evolution, the String Theory, rising above ego to higher frequencies, and using the infinite power of the human brain.

**Us the Universe** Svein Harald Haukanes, 2016-07-12 Who are we? Why are we born into this life just to die and disappear again? Where do we come from, and where do we go? Every day, the earth’s population is growing at an exponential rate. If we have souls and are not just pails of meat, where do all the new souls come from? All these questions and more have been tumbling around in my head since I was young. My whole life, I have been searching with an open mind

for answers. The last few years, I have found many that I will try to share with you. There are about seven billion of us here on earth. Most of us believe in some kind of religion, and these religions tell us, Do what we tell you and don't start thinking for yourself. Even though these religions try to control us, I think there are some good things and some truth in them as well. It's just that they have become such man-made products. People with the need for power are attracted to religions as well as politics, business, and financial power systems. All these things have built up a trust-and-believe system where we are deactivated as thinkers, so we have stopped doing the necessary thinking and reflection ourselves. In this book, we are going to open up our minds and start asking questions. We are going to take in a lot of obvious ideas and analyze them. Not so long ago, we were thinking that the earth was flat, that the sun circled around the earth, and that the earth was the centre of the universe. All this was very true at that time, but not anymore. In this book, we are going to see what else we have to reconsider. The time is here.

*Current Research on Sleep and Dreams* Gay Gaer Luce, 1965

Current Research on Sleep and Dreams United States. Public Health Service, Gay Gaer Luce, 1966 This monograph was stimulated by the extraordinary growth now apparent in an area, generally identified as sleep and dream research, for this recent concentration of scientific effort offers a singular example of the power that basic research can exert in penetrating the problems of mental health and illness. In the past year alone, the National Institute of Mental Health supported over 60 projects related in whole or in part to studies of sleep and dreams, with awards totaling over \$2 million. The work of many of these NIMH investigators is included in this summary, which extends beyond the Institute's program insofar as necessary to indicate the major trends of work in the area. The report cannot, of course, encompass the classical studies already summarized in published literature, nor even provide comprehensive survey of present-day sleep research, for although much of the scientific data on sleep have been generated during the last dozen years, significant references in this field now number in the many thousands. The mosaic of disciplines contributing to the study of sleep contains such diverse fields as psychiatry, and mathematics, psychology, and biochemistry, physiology, and anthropology. Nevertheless, ferment about the subject matter and a spirit of cooperation across traditional disciplinary lines have made it possible to knit together data that might otherwise have lain unrelated in a variety of laboratories. During the past year, individual summaries of many of the projects cited here were distributed to scientists working in the field of sleep and dreams. Many of the recipients felt that up-to-date reports, especially in a field of such dynamic activity, represented a unique solution to the problem of scientific information exchange. Such communication, it was felt, provided a quick look at work in progress that might prevent duplication of effort and stimulate pertinent contacts among scientists, thus aiding them in their work. It is hoped that this monograph will be a further part of that process.--Foreword.
