Have You Eaten Yet Cheuk Kwan, 2023-01-03 An eye-opening and soul-nourishing journey through Chinese food around the world. From Cape Town, South Africa, to small-town Saskatchewan, family-run Chinese restaurants are global icons of immigration, community and delicious food. The cultural outposts of far-flung settlers, bringers of dim sum, Peking duck and creative culinary hybrids, Chinese restaurants are a microcosm of greater social forces. They are an insight into time, history, and place. Author and film-maker Cheuk Kwan, a self-described “card-carrying member of the Chinese diaspora,” weaves a global narrative by linking the myriad personal stories of chefs, entrepreneurs, labourers and dreamers who populate Chinese kitchens worldwide. Behind these kitchen doors lies an intriguing paradox which characterizes many of these communities: how Chinese immigrants have resisted—or have often been prevented from—complete assimilation into the social fabric of their new homes. In both instances, the engine of their economic survival—the Chinese restaurant and its food—has become seamlessly woven into towns and cities all around the world. An intrepid travelogue of grand vistas, adventure and serendipity, *Have You Eaten Yet?* charts a living atlas of global migration, ultimately revealing how an excellent meal always tells an even better story.

Anglo-Saxon Conversations Aelfric Bata, 1997 Translation (and text) of colloquies gives vivid picture of Anglo-Saxon monastic education. The monk Aelfric Bata is the only identifiable graduate of the school of Aelfric ‘Grammaticus’, the tenth-century Anglo-Saxon homilist whose Grammar, Glossary and Colloquy formed part of an educational plan for English boys. Bata’s Colloquies, Latin conversations set in a monastic school, open a door into the world of Anglo-Saxon monasticism, revealing the details of daily activities: rising and dressing, studying the day’s lesson, eating, bathing and tonsuring. Oblates ask a master’s help in reading, bargain for a manuscript-copying job, obtain help in sharpening a pen. One colloquy depicts a flyting between master and student, who exchange graphic scatological insults. Combining the spare diction of his teacher Aelfric with the ornate glossematic vocabulary of Aldhelm, Aelfric Bata creates a cloistered world where comedy, invective, sermon and poetic recitation mix. The Colloquies are presented with an English translation, glosses and full notes. Dr SCOTT GWARA teaches in the Department of English at the University of South Carolina: Professor DAVID PORTER teaches in the Department of English at Southern University, Baton Rouge.

The Sino-Tibetan Languages Graham Thurgood, Randy J. LaPolla, 2016-12-08 There are more native speakers of Sino-Tibetan languages than of any other language family in the world. Our records of these languages are among the oldest for any human language, and the amount of active research on them has multiplied in the last few decades. Now in its second edition and fully updated to include new research, *The Sino-Tibetan Languages* includes overview articles on individual languages, with an emphasis on the less commonly described languages, as well as descriptions and comments on the subgroups in which they occur. There are overviews of the whole family on genetic classification and language contact, syntax and morphology, and also on word order typology. There are also more detailed overview articles on the phonology, morphosyntax, and writing system of just the Sinitic side of the family. Supplementing these overviews are articles on Shanghainese, Cantonese and Mandarin dialects. Tibeto-Burman is reviewed by genetic or geographical sub-group, with overview articles on some of the major groups and areas, and there are also detailed descriptions of 41 individual Tibeto-Burman languages, written by world experts in the field. Designed for students and researchers of Asian languages, *The Sino-Tibetan Languages* is a detailed overview of the field. This book is invaluable to language students, experts requiring concise, but thorough, information on related languages, and researchers working in historical, typological and comparative linguistics.

Language and a Sense of Place Chris Montgomery, Emma Moore, 2017-05-25 Place has always been central to studies of language, variation and change. Since the eighteenth century, dialectologists have been mapping language features according to boundaries - both physical and institutional. In the twentieth century, variationist sociolinguists developed techniques to correlate language use with speakers' orientations to place. More recently, perceptual dialectologists are examining the cognitive and ideological processes involved in language-place correlations and working on ways to understand how speakers mentally process space. Bringing together research from across the field of language variation, this volume explores the extent of twenty-first century approaches to place. It features work from both established and influential scholars, and up and coming researchers, and brings language variation research up to date. The volume focuses on four key areas of research: processes of language variation and change across time and space; methods and datasets for regional analysis; perceptions of the local in language research; and ideological representations of place.

Jin Chinese Grammar I Xing Xiangdong, 2022-12-23 This book is the first volume of a two-volume set that synchronically and diachronically studies the Jin dialect of Northern Shaanxi Province in China, with a focus on the

grammatical features of pronouns, aspect and appearance, and the system of tenses. The Jin dialect of Northern Shaanxi is one of the most ancient, complicated, and representative dialects of the Yellow River region and figures prominently in our understanding of the Jin dialect and northern Chinese dialects as a whole. This volume first elucidates the semantic and dialectal differences in personal pronouns, demonstrative pronouns, and interrogative pronouns, as well as the special linguistic origins of the pronouns. The following chapter elaborates the different devices to express the status of realizing, accomplishing, lasting, and momentum-reducing as well as differences among similar aspectual markers and dialects. The final chapter examines the tense system, including anterior (past), posterior (future), and simple (present) tenses, the markers of which differ from each other in their syntactic representations. The book will be a useful reference for scholars and students interested in Jin dialects, Chinese dialects, and Chinese linguistics.

Lexical Meaning M. Lynne Murphy,2010-10-28 The ideal introduction for students of semantics, Lexical Meaning fills the gap left by more general semantics textbooks, providing the teacher and the student with insights into word meaning beyond the traditional overviews of lexical relations. The book explores the relationship between word meanings and syntax and semantics more generally. It provides a balanced overview of the main theoretical approaches, along with a lucid explanation of their relative strengths and weaknesses. After covering the main topics in lexical meaning, such as polysemy and sense relations, the textbook surveys the types of meanings represented by different word classes. It explains abstract concepts in clear language, using a wide range of examples, and includes linguistic puzzles in each chapter to encourage the student to practise using the concepts. 'Adopt-a-Word' exercises give students the chance to research a particular word, building a portfolio of specialist work on a single word.
