Archaeological Human Remains Barra O'Donnabhain, María Cecilia Lozada, 2014-06-10 This volume addresses the directions that studies of archaeological human remains have taken in a number of different countries, where attitudes range from widespread support to prohibition. Overlooked in many previous publications, this diversity in attitudes is examined through a variety of lenses, including academic origins, national identities, supporting institutions, archaeological context and globalization. The volume situates this diversity of attitudes by examining past and current tendencies in studies of archaeologically-retrieved human remains across a range of geopolitical settings. In a context where methodological approaches have been increasingly standardized in recent decades, the volume poses the question if this standardization has led to a convergence in approaches to archaeological human remains or if significant differences remain between practitioners in different countries. The volume also explores the future trajectories of the study of skeletal remains in the different jurisdictions under scrutiny.

Símbolos de lo sagrado Ana María Llamazares, 2022-10-28 Esta obra explora una de las facetas menos conocidas del fenómeno chamánico: el simbolismo de las imágenes que acompañan los rituales, parte esencial del equipamiento del chamán para que pueda operar sobre la realidad ordinaria. Basándose en una rigurosa investigación teórica y de campo, con ejemplos cuidadosamente escogidos de diversas tradiciones culturales, Ana María Llamazares nos muestra cómo las imágenes de arte chamánico son también imágenes visionarias que condensan su poder y sacralidad. Y cómo estas pueden contribuir al despertar de una «chamanidad» a través de la vía imaginativa. Un libro de máximo interés para las personas interesadas en el chamanismo, los estados ampliados de consciencia, el arte, la arqueología, la antropología, la psicología, la filosofía o el simbolismo universal.

Archaeologies of Materiality Lynn Meskell, 2008-04-15 Drawing on social theory and offering numerous case studies, *Archaeologies of Materiality* is one of the first books to explore materiality across time and space. Demonstrates the saliency of materiality by linking it to concepts of landscape, technology, embodiment, ritual, and heritage. Offers archaeological case studies ranging from prehistoric to contemporary contexts, from Neo-Assyria, South Africa, Argentina, Panama, and the

United States. Explores the idea of a material universe that is socially conceived and constructed, but that also shapes human experience in daily practice.
