**Krishna Kumar**

1942 Krishna Kumar,2023-11-18 This book provides context, analyzes, and narrates the events of 1942, which shook British Rule of India and eventually led to the collapse of the British Empire. 1942: Japanese armies reached the Northeast Borders of India after taking over Burma (Myanmar). Then, the Japanese bombed Madras, Vizag, and Calcutta. Ports on India's East Coast were closed. Almost 100,000 soldiers of the British Indian Army and 400,000 civilians- disease-ridden and demoralized- came to India from Burma, making a tortuous journey with nearly 50-100,000 perishing while trekking through the mosquito-infested jungles. Earlier, The Japanese had attacked Pearl Harbor and Malaya almost simultaneously. The British-ruled areas of Malaya, Hongkong, and Singapore surrendered quickly. Under Chatfield doctrine, the defense of these areas was the responsibility of British India. Besides, there were a large number of Indians in trade and various professions. Fearing a Japanese invasion, the British started sending their families to the interior and began planning to evacuate from India. In Feb '42, Churchill informed King George VI that 'Burma, Ceylon, Calcutta, and Madras in India and part of Australia may fall into enemy (Japan) hands.' Then, Congress launched the Quit India movement. The formation of the Indian National Army planted the seeds for the collapse of the British Empire.

**Demystifying Myanmar's Transition and Political Crisis** Chosein Yamahata,Bobby Anderson,2022-01-11 This book offers the assessment of Myanmar's societal changes, development aspects, and political situation over the course of the nation's short lived democratic transition disrupted by the coup d'état on 1 February 2021. A multitude of authors with different expertise add new dimensions of analysis to provide a foundation for any future international cooperation in Myanmar's center and peripheries. The military's institutionalization of its influence and control in political, economic and social affairs has negatively affected the safety, security and peace of people and their communities at the periphery. This in turn has led the people to undertake local grassroots initiatives towards securing a genuine democratic transition at the local and national level. The chapters probe into Myanmar's transition and political crisis through in-depth discussion on the issues such as, but not limited to, state fragility, community resilience, political leadership, ethnic women's organizations, human

security, education equality, IDPs and non-state actors, ethnic community-based health organizations, the 2020 election, peace process, development issues, the coup's destruction, and a new-born unity. The book covers an important collection of inputs from young and prominent scholars alike, offering a valuable resource for general readers, students, and practitioners. The editors present this volume as a vital collection to literature at a time of heated political crisis and societal responses on her current course since the contributors highlight the state of Myanmar by also focusing on the margins, the grassroots, and the recent coup.

**The SAGE International Encyclopedia of Travel and Tourism** Linda L. Lowry, 2016-09 Taking a global and multidisciplinary approach, The SAGE International Encyclopedia of Travel and Tourism examines the world travel and tourism industry, which is expected to grow at an annual rate of four percent for the next decade.

**Greater Mekong Subregion Atlas of the Environment** Asian Development Bank, 2012-12-01 The second edition of the Greater Mekong Subregion Atlas of the Environment again champions the environment of this unique part of Asia, an area straddled by rivers great and small, with bountiful watersheds, wetlands, and forests. The Atlas celebrates the peoples of the subregion, and presents the environmental and development challenges they face and their responses. It reminds us that the subregion's peoples and communities are key to maintaining its environment. The Atlas captures in one volume maps, remote-sensing images, and essential information on one of the most culturally, ethnically, and biologically diverse regions in the world. The subregion is made up of Cambodia; Guangxi Zhuang Autonomous Region and Yunnan Province of the People's Republic of China; the Lao People's Democratic Republic; Myanmar; Thailand; and Viet Nam.

**ICSGS 2019** Muhammad Syaroni Rofii, Adis Imam Munandar, Danial Mohd. Yusof, 2020-11-13 The International Conference on Strategic and Global Studies is organized by the School of Strategic and Global Studies (SSGS), Universitas Indonesia. The ICSGS conference is an annual meeting event involving lecturers, students and researchers who are concerned with contemporary national and international issues that are directly related to the problems faced by the government and the private sector using a multidisciplinary approach. Participants of this conference came from the ASEAN region and the global network of the Universitas Indonesia.

*Urban Heritage, Development and Sustainability* Sophia Labadi, William Logan, 2015-10-23 More than half of the world's population now live in urban areas, and cities provide the setting for contemporary challenges such as population growth, mass tourism and unequal access to socio-economic opportunities. *Urban Heritage, Development and Sustainability* examines the impact of these issues on urban heritage, considering innovative approaches to managing developmental pressures and focusing on how taking an ethical, inclusive and holistic approach to urban planning and heritage conservation may create a stronger basis for the sustainable growth of cities in the future. This volume is a timely analysis of current theories and practises in urban heritage, with particular reference to the conflict between, and potential reconciliation of, conservation

and development goals. A global range of case studies detail a number of distinct practical approaches to heritage on international, national and local scales. Chapters reveal the disjunctions between international frameworks and national implementation and assess how internationally agreed concepts can be misused to justify unsustainable practices or to further economic globalisation and political nationalism. The exclusion of many local communities from development policies, and the subsequent erosion of their cultural heritage, is also discussed, with the collection emphasising the importance of 'grass roots' heritage and exploring more inclusive and culturally responsive conservation strategies. Contributions from an international group of authors, including practitioners as well as leading academics, deliver a broad and balanced coverage of this topic. Addressing the interests of both urban planners and heritage specialists, *Urban Heritage, Development and Sustainability* is an important addition to the field that will encourage further discourse.

**The Best Quiz Book of the World** Tom Trifonoff, 2019-07-30 Many quiz books claim they have a "world" flavour to them, when in fact all they ask is where a famous monument is, or in which city are you likely to find.....??? Now, for the first time, comes *The Best Quiz Book of the World* which actually has the world in it, in the form of quizzes on 111 countries of the world. They include all the well-known ones, the controversial ones, the unique ones, the very small ones and countries that we may have heard about, and know very little about. In fact, it's those countries that turn out to be very interesting countries through their history, geography, leaders and their culture. *The Best Quiz Book of the World* has 25 questions about each of the 111 countries listed in the book. It asks questions like the capital city, currency, population, colours on the flag, economy, history, famous and infamous people, sporting and cultural achievements and even the letters on a web address. You will be surprised at how much you may know about a country already. If you don't, you will certainly learn something about each country in the book. There are 2775 questions in *The Best Quiz Book of the World* covering the 111 countries. The answers to each country quiz are on the following page to the questions. There is also detailed information on each answer, especially with regards to geography, population and sporting achievements. People will find *The Best Quiz Book of the World* fun and challenging. It can be used in formal quiz nights or less formal occasions when people want to challenge each other on a particular country. *The Best Quiz Book of the World* can also be used as a teacher resource in senior primary, and secondary schools. Enjoy finding out a lot more about our world with *The Best Quiz Book of the World*.

**Myanmar's Mountain and Maritime Borderscapes** Oh Su-Ann, 2016-08-19 This edited volume adds to the literature on Myanmar and its borders by drawing attention to the significance of geography, history, politics and society in the construction of the border regions and the country. First, it alerts us to the fact that the border regions are situated in the mountainous and maritime domains of the country, highlighting the commonalities that arise from shared geography. Second, the book foregrounds socio-spatio practices — economic, intimate, spiritual, virtual — of border and boundary-making in their local context. This demonstrates how state-defined notions of territory, borders and identity are enacted or

challenged. Third, despite sharing common features, Myanmar's borderscapes also possess unique configurations of ethnic, political and economic attributes, producing social formations and figured worlds that are more cohesive or militant in some border areas than in others. Understanding and comparing these social practices and their corresponding life-worlds allows us to re-examine the connections from the borderlands back to the hinterland and to consider the value of border and boundary studies in problematizing and conceptualizing recent changes in Myanmar. "This ambitious project combines sophisticated theorization of boundary-making as a form of social practice and empirical studies of Myanmar's heterogeneous borderlands, both land and sea. Seeing the country from its edges opens up a provocative and altogether novel vision of the contestations joining diverse peripheries and centre. This volume brings together the leading scholars of the country in a collection that is a must-have for anyone interested in contemporary Myanmar, border studies, and Southeast Asia." -- Itty Abraham, Head, Department of Southeast Asian Studies, National University of Singapore (NUS) "This is the first book to attempt to bring together such a diverse range of Myanmar's land and maritime border regions for comparison. In doing so, it highlights the diversity of the country's demographic, social, economic and political make-up when viewed from the margins rather than the centre. It reveals how these border regions help to constitute the nation and how they shape what modern Myanmar is today — they also give strong indicators of what it might become. This is an essential read for anyone in the social sciences interested in borderlands, as well as those requiring a broader understanding of the challenges facing the contemporary Myanmar government as it attempts to usher in social and political cohesion following decades of conflict." -- Mandy Sadan, Reader in the History of South East Asia, School of Oriental & African Studies (SOAS)

World Monarchies and Dynasties John Middleton, 2015-06-01 Throughout history, royal dynasties have dominated countries and empires around the world. Kings, queens, emperors, chiefs, pharaohs, czars - whatever title they ruled by, monarchs have shaped institutions, rituals, and cultures in every time period and every corner of the globe. The concept of monarchy originated in prehistoric times and evolved over centuries right up to the present. Efforts to overthrow monarchies or evade their rule - such as the American, French, Chinese, and Russian revolutions - are considered turning points in world history. Even today, many countries retain their monarchies, although in vastly reduced form with little political power. One cannot understand human history and government without understanding monarchs and monarchies. This fully-illustrated encyclopedia provides the first complete survey of all the major rulers and ruling families of the world, past and present. No other reference work approaches the topic with the same sense of magnitude or connection to historical context. Arranged in A-Z format for ease of access, World Monarchies and Dynasties includes information on major monarchs and dynasties from ancient time to the present. This set: includes overviews of reigns and successions, genealogical charts, and dynastic timelines; addresses concepts, problems, and theories of monarchy; provides background and information for further

research; highlights important places, structures, symbols, events, and legends related to particular monarchs and dynasties; includes a master bibliography and multiple indexes.

**The Southern Silk Route** Lipi Ghosh, 2019-04-29 Southern Silk Route is the historic route, which runs from China to Myanmar and ends up in Assam. The route has historical importance as it served as a major artery of ancient trade articles. The Southern Silk Route: Historical Links and Contemporary Convergences attempts to sketch out the historical dimensions of the route and shows the contemporary dynamics, both positive and negative. It poses the question how history can extend a lesson in contemporary contexts. The book has two parts- theoretical articles on the route judging from a scholar's perspective on one hand and explorers' insight in the practical perspective on the other, thus making it really interesting both for the scholar and the lay reader. Please note: Taylor & Francis does not sell or distribute the Hardback in India, Pakistan, Nepal, Bhutan, Bangladesh and Sri Lanka

Understanding World Regional Geography Erin H. Fouberg, William G. Moseley, 2017-12-27 Understanding World Regional Geography (UWRG) is a course designed to teach students to think and apply geographic concepts long after the course is over. Author Erin Fouberg draws from her expertise in geography education and research in student learning to create a product that has a strong pedagogical framework designed to engage students and deepen their understanding of the world by having them "DO" Geography. UWRG includes features that help students learn to read cultural and physical landscapes, ask geographic questions, apply geographic concepts, and make connections. It integrates 25 threshold concepts and teaches students how geographers apply these concepts and asks them to apply these concepts themselves. This enables them to grasp the complexities of the world and provides them with the knowledge and thinking skills necessary to understanding it. UWRG is the first introductory course to integrate ESRI ArcGIS Online thematic maps, enabling students to engage with course materials, see patterns, and answer geographic questions.

*Developmental State Building* Yusuke Takagi, Veerayooth Kanchoochat, Tetsushi Sonobe, 2019-01-18 This open access book modifies and revitalizes the concept of the 'developmental state' to understand the politics of emerging economy through nuanced analysis on the roles of human agency in the context of structural transformation. In other words, there is a revived interest in the 'developmental state' concept. The nature of the 'emerging state' is characterized by its attitude toward economic development and industrialization. Emerging states have engaged in the promotion of agriculture, trade, and industry and played a transformative role to pursue a certain path of economic development. Their success has cast doubt about the principle of laissez faire among the people in the developing world. This doubt, together with the progress of democratization, has prompted policymakers to discover when and how economic policies should deviate from laissez faire, what prevents political leaders and state institutions from being captured by vested interests, and what induce them to drive economic development. This book offers both historical and contemporary case studies from Japan, South Korea, Taiwan, Singapore, Indonesia, Malaysia, Myanmar, Ethiopia, Kenya, and Rwanda. They illustrate how institutions are designed to be developmental, how political coalitions are formed to be growth-oriented, and how technocratic agencies are embedded in a network of business organizations as a part of their efforts for state building.

**Science Diplomacy for South Asian Countries** Malti Goel, 2021-11-30 This book provides a science diplomacy outlook as a new governance tool in international cooperation. It elaborates on India's current S&T collaboration with Afghanistan, Bangladesh, Bhutan, Maldives, Myanmar, Nepal, Pakistan, Sri Lanka, and science policy and science diplomacy in India. The book introduces concepts and contours of science diplomacy with international examples. It presents insights into international governance models, mega-science projects, and science diplomacy's role in addressing global climate change and sustainable development challenges. The book is a valuable reference to spark breakthroughs in India's science diplomacy with its neighbouring countries for scientists, diplomats, policymakers, government, and non-government institutions interested in science and diplomacy.

*Myanmar's agrifood system: Historical development, recent shocks, future opportunities* Boughton, Duncan, Belton, Ben, Lambrecht, Isabel B., Masias, Ian, Minten, Bart, 2024-10-16 Myanmar has endured multiple crises in recent years — including COVID-19, global price instability, the 2021 coup, and widespread conflict — that have disrupted and even reversed a decade of economic development. Household welfare has declined severely, with more than 3 million people displaced and many more affected by high food price inflation and worsening diets. Yet Myanmar's agrifood production and exports have proved surprisingly resilient. Myanmar's Agrifood System: Historical Development, Recent Shocks, Future Opportunities provides critical analyses and insights into the agrifood system's evolution, current state, and future potential. This work fills an important knowledge gap for one of Southeast Asia's major agricultural economies — one largely closed to empirical research for many years. It is the culmination of a decade of rigorous empirical research on Myanmar's agrifood system, including through the recent crises. Written by IFPRI researchers and colleagues from Michigan State University, the book's insights can serve as a to guide immediate humanitarian assistance and inform future growth strategies, once a sustainable resolution to the current crisis is found that ensures lasting peace and good governance.
