Curso de Filosofía del Derecho. Tomo II José Joaquín Ugarte Godoy,2019 2020-07-25

**Curso de filosofía del Derecho** José Ugarte G.,2010 El presente Curso de Filosofía del Derecho - destinado a la enseñanza universitaria - constituye una exposición sistemática de la materia a la luz de la doctrina iusnaturalista de los grandes maestros del mundo antiguo (Platón, Aristóteles, Cicerón), de los Doctores de la Filosofía Cristiana (San agustín, Santo Tomás de Aquino, Cayetano Vitoria, Domingo de Soto), y de maestros posteriores como Taparelli, Liberatore, Zigliara, Mesner, Leclarcq y Fernández Concha. Se expone también el pensamiento positivista, particularmente, el sistema de Kelsen y, asimismo, las ideas del llamado positivismo conceptual y en especial el sistema de Rawls. La primera parte de la obra trata en forma completa y rigurosa las nociones de antropología y metafísica necesarias para fundamentar la Filosofía del Derecho y que otros textos omiten, dándolas por sabidas. La segunda parte contiene la teoría del acto humano y de la ley, tanto natural como positiva, continúa con la justicia y el derecho, los derechos innatos - especialmente el derecho a la vida y el derecho a la propiedad - y concluye con los temas de familia.

The Semiotic Sphere Thomas A. Sebeok,Jean Umiker-Sebeok,2012-12-06 Although semiotics has, in one guise or another, flourished uninterruptedly since pre Socratic times in the West, and important semiotic themes have emerged and developed independently in both the Brahmanic and Buddhist traditions, semiotics as an organized undertaking began to bloom only in the 1960s. Workshops materialized, with a perhaps surprising spontaneity, over much of Europe-Eastern and Western and in North America. Thereafter, others quickly surfaced almost everywhere over the literate globe. Different places strategically allied themselves with different legacies, but all had a common thrust: to aim at a general theory of signs, by way of a description of different sign systems, their comparative analysis, and their classification. More or less permanent confederations were forged with the most diverse academic disciplines, and amazingly varied frameworks were devised-suited to the needs of the times and the sites-to carry the work of consolidation forward. Bit by bit, mutually supportive international networks were put together. Today, it can truly be asserted that semiotics has become a global enterprise. This, of course, is far from saying that the map is uniform or even that world-wide homogeneity is in the least desirable. While our conjoint ultimate goal remains steadily in focus, the multiplicity of avenues available for its realization is inherent in the

adventure of the search itself.

A Three-Dimensional Theory of Law María José Falcon y Tella,2010-04-27 What this book intends to do is to study three-dimensionalism (the distinction values-norms-facts) not in what could be called its historical dimension, but in its substantive aspect, as a “form” that, when applied to different legal themes, would add a “material content” to the three-dimensional theory. We can point out, as a study plan, the distinction between “three” perspectives: Those of the legal norm, of the legal order, and the legal relationship. Three-dimensionalism also appears in this work when one analyzes the “three” phases of the life of the law: The formation, the interpretation, and the application; and in the distinction between the “three” characteristics of the legal order: Fullness, coherence, and unity—the theory of legal validity, intended as legitimacy, as validity strictly speaking, or as effectiveness.

Academic Rebels in Chile Ivan Jaksic,1989-07-03 Many philosophers have been appointed to top-level political positions during Chile's modern history. What makes Chilean philosophers unique in the context of Latin America and beyond, is that they have developed a sophisticated rationale for both their participation and withdrawal from politics. All along, philosophers have grappled with fundamental problems such as the role of religion and politics in society. They have also played a fundamental role in defining the nature and aims of higher education. The philosophers' production constitutes a substantial, albeit largely unknown, portion of the intellectual history of Chile and Latin America. This book describes in

detail the evolution of philosophical work in Chile, and pays close attention to the relationship between philosophical activity and contemporary social and political events. Various Chilean philosophical sources are discussed for the first time in the literature on Chilean ideas. The work of such intellectuals as Andres Bello, Valentin Letelier, Enrique Molina, Jorge Millas, Juan Rivano, Juan de Dios Vial Larrain, and many others is examined in relation to the principal political and educational issues of their time. The book also develops a distinction between the two main currents of Chilean philosophy, namely, a professionalist current that seeks the independence of the field from social and political involvements, and a critical current that seeks to relate philosophical activity to national realities.

**Curso de Filosofía del Derecho** Elías Díaz García,1998

Teoría crítica del derecho desde América Latina Antonio Carlos Wolkmer,2019-06-03 La crítica [en la acepción que recoge este libro] es un agente propulsor: trasgrede lo que se asume inmóvil para suscitar transformaciones; la emancipación del hombre, en el mejor de los casos. La presente obra es una invitación a desacralizar, a romper con la dogmática lógico-formal y a discutir el Derecho desde distintas perspectivas, a cuestionar el sitio que ocupan el Estado y la legalidad (como conceptos occidentales) frente a otras formas de organización y regulación social. [La inteligencia es constitutivamente práxica, y la praxis es constitutivamente intelectual], como se enuncia en el prólogo, y mantener la crítica como movimiento se vuelve una forma de confirmarlo. El compromiso pedagógico de esta obra, inscrita en la crítica jurídica alternativa y descolonial, es promover un espacio de cambios, de encuentro con ideas nucleares y categorías críticas para dar paso a un derecho insurgente que, sin perder la universalidad, sea producto de las luchas sociales y permita transformar la reflexión crítico-dialéctica en vivencia humanizadora. Sólo con un diálogo de esta naturaleza tendrán sitio las distintas voces que hoy buscan su independencia económica, política, étnica y cultural en todo el mundo.

**Pensar el Derecho** Javier Barraca,2005-04-13 Las principales cuestiones de la reflexión jurídica de todos los tiempos presentadas de una manera clara, amena, integradora y desde una perspectiva humanista.
