**Photographs from the Memphis World, 1949-1964** Memphis Brooks Museum of Art, 2008 An invaluable pictorial overview of African American vitality in a southern metropolis

**Lynching Photographs** Dora Apel, Shawn Michelle Smith, 2007 A lucid, smart, engaging, and accessible introduction to the impact of lynching photography on the history of race and violence in America. —Grace Elizabeth Hale, author of *Making Whiteness: The Culture of Segregation in America, 1890-1940* With admirable courage, Dora Apel and Shawn Michelle Smith examine lynching photographs that are horrifying, shameful, and elusive; with admirable sensitivity they help us delve into the meaning and legacy of these difficult images. They show us how the images change when viewed from different perspectives, they reveal how the photographs have continued to affect popular culture and political debates, and they delineate how the pictures produce a dialectic of shame and atonement.—Ashraf H. A. Rushdy, author of *Neo-Slave Narratives and Remembering Generations* This thoughtful and engaging book offers a highly accessible yet theoretically sophisticated discussion of a painful, complicated, and unavoidable subject. Apel and Smith, employing complementary (and sometimes overlapping) methodological approaches to reading these images, impress upon us how inextricable photography and lynching are, and how we cannot comprehend lynching without making sense of its photographic representations.—Leigh Raiford, co-editor of *The Civil Rights Movement in American Memory* Our newspapers have recently been filled with photographs of mutilated, tortured bodies from both war fronts and domestic arenas. How do we understand such photographs? Why do people take them? Why do we look at them? The two essays by Apel and Smith address photographs of lynching, but their analysis can be applied to a broader spectrum of images presenting ritual or spectacle killings.—Frances Pohl, author of *Framing America: A Social History of American Art*

*America and the Black Body* Carol E. Henderson, 2009 *America and the Black Body* is a timely exploration into the creative, literary, and visual uses of the black body in American print and visual culture. More specifically, this volume contemplates the social development of American identity and the multifarious ways this identity coalesces in the small gestures of preclusion that establish discernable markers of national belonging. Such investigations underscore issues of power and disenfranchisement, of race, class, and gender that mediate the representations of the black male and the black female body in real and imagined ways, as it also reveals the invisible social and political ties that connect white men and

women's identities to these racial imaginings. --Book Jacket.

The Bodies Poetic Anna Osterholtz, 2025-05-10 This book examines the intricate relationships between the living and the dead, revealing how these interactions shape group identities and facilitate ongoing negotiations of self and community. Beginning with a rich exploration of bioarchaeological theories, this volume introduces an enriched Poetics model, which deepens our understanding of not just skeletal remains, but the broader contexts that imbue bodies with social significance and how those bodies in turn can produce socially significant changes. By emphasizing the roles of performance and ritual, the work illustrates how the dead serve as powerful tools in the creation and maintenance of social structures. Through compelling case studies of ancient and modern mortuary practices, it highlights the changing meanings of the body across different historical and cultural landscapes. The volume demonstrates that while our interpretations may shift, the body remains a profound source of meaning and identity. By analyzing patterns of modification and representation, this book provides invaluable insights into social change and how group identity is forged.

This Day in Civil Rights History Randall Williams, Ben Beard, 2009 A day-by-day survey of the people, places, and events that impacted the civil rights movement and shaped the future of the United States. Flip to any date and you'll find fascinating, informative facts and anecdotes.

Alchemies of Blood and Afro-Diasporic Fiction Nicole Simek, 2023-11-16 *Alchemies of Blood and Afro-Diasporic Fiction* focuses on the resurgence of biological racism in 21st-century public discourse, the ontological and material turns in the academy that have occurred over the same time period, and how Afro-diasporic fiction has responded to both with alternative visions of bloodlines, kinship, and community. In thinking through conceptions of race, ethnicity, and materiality at work within both humanities research and popular culture, Nicole Simek asks how the figure of alchemy – that semi-scientific, semi-mystical search for gold and the elixir of long life – can help scholars address the epistemological and affective investments in blood, bloodlines, and genetics marking both academic and mainstream discourses. To answer this question, Simek examines neo-plantation and Afrofuturist narratives, Afropessimist interventions, museums and public memory projects, and direct-to-consumer genetic testing services in the French Caribbean and the United States. This comparative approach to cultural production helps pinpoint and better understand the intersections and divergences between scholarship trends and troubling features of a broader Zeitgeist.

**Humane Insight** Courtney R. Baker, 2015-08-30 In the history of black America, the image of the mortal, wounded, and dead black body has long been looked at by others from a safe distance. Courtney Baker questions the relationship between the spectator and victim and urges viewers to move beyond the safety of the gaze to cultivate a capacity for humane insight toward representations of human suffering. Utilizing the visual studies concept termed the look, Baker interrogates how the notion of humanity was articulated and recognized in oft-referenced moments within the African American experience: the

graphic brutality of the 1834 Lalande affair; the photographic exhibition of lynching, *Without Sanctuary*; Emmett Till's murder and funeral; and the devastation caused by Hurricane Katrina. Contemplating these and other episodes, Baker traces how proponents of black freedom and dignity used the visual display of violence against the black body to galvanize action against racial injustice. An innovative cultural study that connects visual theory to African American history, *Humane Insight* asserts the importance of ethics in our analysis of race and visual culture, and reveals how representations of pain can become the currency of black liberation from injustice.

Life and Death Decisions Sheldon Ekland-Olson, 2014-11-12 Issues of Life and Death such as abortion, assisted suicide, capital punishment and others are among the most contentious in many societies. Whose rights are protected? How do these rights and protections change over time and who makes those decisions? Based on the author's award-winning and hugely popular undergraduate course at the University of Texas, this book explores these questions and the fundamentally sociological processes which underlie the quest for morality and justice in human societies. The Author's goal is not to advocate any particular moral high ground but to shed light on the social movements and social processes which are at the root of these seemingly personal moral questions. Under 200 printed pages, this slim paperback is priced and sized to be easily assigned in a variety of undergraduate courses that touch on the social bases underlying these contested and contentious issues.

*Suffer the Little Children* Jodi Eichler-Levine, 2015-04-08 Examines classic and contemporary Jewish and African American children's literature Through close readings of selected titles published since 1945, Jodi Eichler-Levine analyzes what is at stake in portraying religious history for young people, particularly when the histories in question are traumatic ones. In the wake of the Holocaust and lynchings, of the Middle Passage and flight from Eastern Europe's pogroms, children's literature provides diverse and complicated responses to the challenge of representing difficult collective pasts. In reading the work of various prominent authors, including Maurice Sendak, Julius Lester, Jane Yolen, Sydney Taylor, and Virginia Hamilton, Eichler-Levine changes our understanding of North American religions. She illuminates how narratives of both suffering and nostalgia graft future citizens into ideals of American liberal democracy, and into religious communities that can be understood according to recognizable notions of reading, domestic respectability, and national sacrifice. If children are the idealized recipients of the past, what does it mean to tell tales of suffering to children, and can we imagine modes of memory that move past utopian notions of children as our future? *Suffer the Little Children* asks readers to alter their worldviews about children's literature as an "innocent" enterprise, revisiting the genre in a darker and more unsettled light.

**A Spectacular Secret** Jacqueline Goldsby, 2020-09-15 This incisive study takes on one of the grimmest secrets in America's national life—the history of lynching and, more generally, the public punishment of African Americans. Jacqueline

Goldsby shows that lynching cannot be explained away as a phenomenon peculiar to the South or as the perverse culmination of racist politics. Rather, lynching—a highly visible form of social violence that has historically been shrouded in secrecy—was in fact a fundamental part of the national consciousness whose cultural logic played a pivotal role in the making of American modernity. To pursue this argument, Goldsby traces lynching's history by taking up select mob murders and studying them together with key literary works. She focuses on three prominent authors—Ida B. Wells-Barnett, Stephen Crane, and James Weldon Johnson—and shows how their own encounters with lynching influenced their analyses of it. She also examines a recently assembled archive of evidence—lynching photographs—to show how photography structured the nation's perception of lynching violence before World War I. Finally, Goldsby considers the way lynching persisted into the twentieth century, discussing the lynching of Emmett Till in 1955 and the ballad-elegies of Gwendolyn Brooks to which his murder gave rise. An empathic and perceptive work, *A Spectacular Secret* will make an important contribution to the study of American history and literature.

**Seeing Through Race** Martin A. Berger, 2011-05-02 This text is an original reinterpretation of the iconic photographs of the black civil rights struggle. Berger's provocative study shows how the very pictures credited with arousing white sympathy, and thereby paving the way for civil rights legislation, actually limited the scope of racial reform in the 1960s.

**Developing a Curriculum Model for Civically Engaged Art Education** Sara Scott Shields, Rachel Fendler, 2023-07-31 This volume explores art as a means of engendering youth civic engagement and draws on research conducted with young people in the United States to develop a unique curriculum model for civically engaged art education (CEAE). Combining concepts from civics and arts education, chapters posit that artistic thinking, making, and acting form the basis for creative research into social and political issues which affect young people and are key to promoting civic participation. Focusing on critical, creative, and dynamic forms of youth cultural production inspired by local people, places, and events, the text demonstrates how educators' curricular choices can engage students in researching social movements and arts-based activism. The authors draw from well-established areas such as arts-based research, civic engagement, and maker-centered learning to present their educational model through illustrative examples. Offering a timely consideration of the relationship between art education and civics education, this book will appeal to scholars and students of the sociology of education, as well as arts and teacher research, and pre-service teacher education.

*This Era of Black Activism* Mary Marcel, Edith Joachim Pillai, 2023-10-15 While much focus has been placed on Black Lives Matter activism in response to police and civilian murders of Black men and women, the contributors argue that Black activism in this era has addressed a broader range of issues in a wide array of settings, both on the street and inside institutions and communities. *This Era of Black Activism* includes chapters on this era of Black activism from 2000-2022. It describes how previous activism has influenced this generation, while showing innovations in political approaches, leadership

and organizational formations, and the use of social and other media for movement purposes. Topics include the innovations of #BlackLives Matter as a movement; the Florida activist group Dream Defenders; policing and discrepancies in reporting on Ferguson; the role of citizen cameras in Black activism; social media for Black community coping and well-being; BIPOC Gay Power activism vs. Gay Pride; academic activism by Black and White professors; corporate responses to #BLM; #MeToo and healing within the Black community; Black health activism and the Covid pandemic; and bridging activism and policy for a new social contract. It also offers an additional bibliography on Black activism for environmental justice, athlete anti-racist activism, and the role of the Black Church in this era.

**Visual Rhetoric** Lester C. Olson, Cara A. Finnegan, Diane S. Hope, 2008-03-20 Visual Rhetoric: A Reader in Communication and American Culture is the first collection of its kind: essays rich in concepts from the diverse history of rhetoric are featured in their relationship to visual experiences in one or another medium or various media. Images are symbols with meaning - how these images are seen and the messages they communicate are the study of visual rhetoric. Today's society is increasingly inundated with visual images, symbols, and messages. The seminal essays in this collection reveal the workings, the research, and the effects of how what we see establishes and influences our perceptions, our actions, and our communication.

**Grime, Glitter, and Glass** Nikki A. Greene, 2024-08-30 In Grime, Glitter, and Glass, Nikki A. Greene examines how contemporary Black visual artists use sonic elements to refigure the formal and philosophical developments of Black art and culture. Focusing on the multimedia art of Renée Stout, Radcliffe Bailey, and María Magdalena Campos-Pons, Greene traces the intersection of the visual's sonic possibilities with the Black body's physical, representational, and metaphorical use in art. She employs her concept of "visual aesthetic musicality" to interpret Black visual art by examining the musical genres of jazz and rap along with the often-overlooked innovations of funk and rumba within art historiography. From Bailey's use of multilayered surfaces of glitter, mud, and recycled materials to meditate on Sun Ra's Afrofuturism to Stout's life-sized cast of her own body that recalls funk musician Betty Davis to Campos-Pons's performative and sculptural references to sugar that resonate with the legacy of Celia Cruz, Greene outlines how these artists use mediums such as molded glass sculptures, viscous wet plaster, and dazzling manikin heads to enhance the manifestations of Black identity. By foregrounding the sonic elements of their work, Greene demonstrates that these artists use sound to make themselves legible, recognizable, and audible.

**Jet**, 2005-06-20 The weekly source of African American political and entertainment news.

**Dead Matter** Margaret Schwartz, 2015-12-15 Taking as its starting point the significant role of the photograph in modern mourning practices—particularly those surrounding public figures—Dead Matter theorizes the connections between the body and the image by looking at the corpse as a special instance of a body that is simultaneously thing and

representation. Arguing that the evolving cultural understanding of photographic realism structures our relationship to the corpse, the book outlines a new politics of representation in which some bodies are more visible (and vulnerable) in death than others. To begin interpreting the corpse as a representational object referring to the deceased, Margaret Schwartz examines the association between photography and embalming—both as aesthetics and as mourning practices. She introduces the concept of photographic indexicality, using it as a metric for comprehending the relationship between the body of a dead leader (including Abraham Lincoln, Vladimir Lenin, and Eva Perón) and the “body politic” for which it stands. She considers bodies known as victims of atrocity like Emmett Till and the Syrian boy Hamsa al-Khateeb to better grasp the ways in which the corpse as object may be called on to signify a marginalized body politic, at the expense of the social identity of the deceased. And she contemplates “tabloid bodies” such as Princess Diana’s and Michael Jackson’s, asserting that these corpses must remain invisible in order to maintain the deceased as a source of textual and value production. Ultimately concluding that the evolving cultural understanding of photographic realism structures our relationship to the corpse, *Dead Matter* outlines the new politics of representation, in which death is exiled in favor of the late capitalist reality of bare life.

*Sonia Sanchez's Poetic Spirit through Haiku* John Zheng, 2017-05-31 This collection of ten critical essays is the first scholarly criticism of haiku by Sonia Sanchez, who has exemplified herself for six decades as a major figure in the Black Arts Movement, a central activist in civil rights and women’s movements, and an internationally-known writer in American literature. Sanchez’s haiku, as an integral and prominent part of contemporary African American poetry, have expressed not only her ideas of nature, beauty, and harmony but also her aesthetic experience of music, culture, and love. Aesthetically, this experience reflects a poetic mind which has helped the poet to shape or reimage her poetic spirit.

**Jet**, 2005-09-12 The weekly source of African American political and entertainment news.

**We Heal from Memory** C. Steele, 2016-04-30 Through an examination of the poetry of Anne Sexton, Audre Lorde, and Gloria Anzaldúa, *We Heal From Memory* paints a vivid picture of how our culture carries a history of traumatic violence - child sexual abuse, the ownership and enforcement of women's sexuality under slavery, the transmission of violence through generations, and the destruction of non-white cultures and their histories through colonization. According to Cassie Premo Steele, the poetry of Sexton, Lorde, and Anzaldúa allows us to witness and to heal from such disparate traumatic events.
