David L. Bone, Mary Scifres

Sing of Mary Stephanie Budwey, 2014-11-14 Throughout the history of Christianity, Mary has been a beacon of hope to many who look to her. While Christians have always prayed to Mary, they have also sung to her in times of joy and sorrow. *Sing of Mary* analyzes Marian hymnody throughout Christianity—and particularly in the Roman Catholic Church in the United States from 1854 to today—focusing not only on the texts and music but also on the contexts out of which these hymns came. By using a holistic methodology—drawing from anthropology, history, liturgy, musicology, psychology, sociology, and theology—this study takes an interdisciplinary approach toward studying Marian theology and devotion through the lens of hymnody. This volume, accessible to both laypeople and academics, provides readers with a clear and full understanding of Marian hymnody by looking at many examples throughout the history of Christianity up through the present, thus shedding light on the history of Marian devotion and theology. The work concludes by providing hope for the future of Marian congregational song, particularly by exploring how the Magnificat can help Marian congregational song be meaningful to a wide range of Christians.

How do religious figures induce the establishment of sects? Alejandro Cuevas-Sosa, 2018-08-01 Remarkable story of a research project on the bioenergence - intuition knowledge - and a particular way of interaction with the bioenergemal ('spiritual') universe called bioenergemal communication. The author talks to a person (called Lucela) in relaxation as she describes extraordinary interactions with religious figures, including God the Father, Jesus, Mary and others - as well as the author himself. The author detects that threats and instructions become less and less veiled, and the religious figures are revealed as monopolistic and self-serving; while some of Lucela's bioimages and bioscenes are truly terrifying. The conclusions are swaying tradition's foundations and are ground-breaking steps in the fascinating field of bioenergemal communication.
