Hobson-Jobson Sir Henry Yule,Arthur Coke Burnell,1903

A Malayalam and English dictionary Hermann Gundert,1870

Srimannarayaneeyam of Melpathur Narayana Bhattatiri Nārāyaṇabhaṭṭapāda,2005 Classical Sanskrit poetry on Krishna (Hindu deity).

Hobson-Jobson Sir Henry Yule, Arthur Coke Burnell, 1996 Bungalow, pyjamas, tiffin, rickshaw, veranda, curry, cheroot, chintz, calico, gingham, mango, junk and catamaran are all words which have crept into the English language from the days of Britain's colonial rule of the Indian sub-continent and the Malaysian Peninsular. Hobson-Jobson (derived from the Islamic cry at the celebration of Muhurram 'Ya Hasan, ya Hosain' is shorthand for the assimilation of foreign words to the sound pattern of the adopting language. This dictionary, compiled in the late-19th century, is an invaluable source which has never been superseded. It is an essential book for all who are interested in English etymology and the development of the language. AUTHORS: Arthur Cole Burnell (1840-1882) spent large parts of his life in India working for the civil service, and translated a considerable number of Sanskrit manuscripts. He co-operated with Sir Henry Yule to write 'Hobson-Jobson', and Anglo-Indian dictionary. Sir Henry Yule was a military man, serving in India and retiring as a colonel in 1862. In his leisure time, he wrote some well-received books on Asia, but he is best remembered for collaborating with Dr A.C. Burnell in writing the Anglo-Indian dictionary, 'Hobson-Jobson'.

The Concise Dictionary of World Place-Names John Everett-Heath, 2018-09-13 There is no populated place without a name, and every name is chosen for a reason. This fascinating dictionary unveils the etymological roots and history of thousands of locations and landmarks from around the world. It contains over 11,000 entries, and covers an enormous range of country, region, island, city, town, mountain and river names from across the world, as well as the name in the local language. Place names are continually changing, and new names are adopted for many different reasons such as invasion, revolution, and decolonization. The Concise Dictionary of World Place-Names includes selected former names, and, where appropriate, some historical detail to explain the transition. The names of places often offer a real insight into the places themselves, revealing religious and cultural traditions, the migration of peoples, the ebb and flow of armies, the presence of explorers, local languages, industrial developments and topography. Superstition and legend can also play a part. This new edition has been updated to include over 750 new names, including Azincourt, Kropyvnyts'kyi, and Tlaxcala. It has also been edited to reflect socio-political and geographical shifts, notably the reorganisation of the French regions, and their consequent name alterations, as well as the decommunization of Ukrainian place-names. In addition to the entries themselves, the dictionary includes two appendices: a glossary of foreign word elements which appear in place-names and their meanings, and a list of personalities and leaders from all over the world who have influenced the naming of places.

The Complete Book on Spices & Condiments (with Cultivation, Processing & Uses) 2nd Revised Edition NIIR Board of Consultants & Engineers, 2006-04-01 The term spices and condiments applies to such natural plant or vegetable products and mixtures thereof, used in whole or ground form, mainly for imparting flavor, aroma and piquancy to foods and also for seasoning of foods beverages like soups. The great mystery and beauty of spices is their use, blending and ability to change and enhance the character of food. Spices and condiments have a special significance in various ways in human life because

of its specific flavours, taste, and aroma. Spices and condiments play an important role in the national economies of several spice producing, importing and exporting countries. India is one of the major spice producing and exporting countries. Most of the spices and herbs have active principles in them and development of these through pharmacological and preclinical and clinical screening would mean expansion of considerable opportunities for successful commercialization of the product. Spices can be used to create these health promoting products. The active components in the spices phthalides, polyacetylenes, phenolic acids, flavanoids, coumarines, triterpenoids, sesquiterpenes and monoterpenes are powerful tools for promoting physical and emotional wellness. India has been playing a major role in producing and exporting various perennial spices like cardamoms, pepper, vanilla, clove, nutmeg and cinnamon over a wide range of suitable climatic situations. To produce good quality spice products, attention is required not only during cultivation but also at the time of harvesting, processing and storing. Not as large as in the days when, next to gold, spices were considered most worth the risk of life and money. The trade is still extensive and the oriental demand is as large as ever. Some of the fundamentals of the book are definition of spices and condiments nomenclature or classification of spices and condiments, Indian central spices and cashew nut committee, origin, properties and uses of spices, forms, functions and applications of spices, trends in the world of spices, yield and nutrient uptake by some spice crops grown in sodic soil, tissue culture and in vitro conservation of spices, in vitro responses of piper species on activated charcoal supplemented media, soil agro climatic planning for sustainable spices production, potentials of biotechnology in the improvement of spice crops, medicinal applications of spices and herbs, medicinal properties and uses of seed spices, effect of soil solarization on chillies, spice oil and oleoresin from fresh/dry spices etc. The present book contains cultivation, processing and uses of various spices and condiments, which are well known for their multiple uses in every house all over world. The book is an invaluable resource for new entrepreneurs, agriculturists, agriculture universities and technocrats.
