Trotter James Trotter,James Trotter

Feeling Good Menelaos Apostolou,2017-07-05 Every day, people make life choices that, ideally, increase their evolutionary fitness ? the chances of survival and successful reproduction ? and lead to positive feelings of fulfilment, accomplishment, and happiness. Sometimes, however, individuals experience quite the opposite: feelings of sadness caused by fitness-decreasing choices. Fortunately, many advancements in evolutionary theory and evolutionary psychology have increased humans' capacity as a species to address the question of how to live a life characterized by more positive than negative feelings. Feeling Good reveals anyone can learn how to trigger mechanisms that generate positive feelings and increase positive fitness levels. The key is to employ an evolutionary perspective on how mental mechanisms generate feelings in relation to our life choices. From an insightfully evolutionary perspective, Feeling Good examines how to find and keep a mate, make good career decisions, build a solid social network, deal with death and negative influences, and make life choices in general that can lead to better and more sustainable mental and physical health. Menelaos Apostolou deepens our understanding of human nature by exploring what is good and evil in an evolutionary sense as well as in relation to religious dogmas; and whether making fitness-increasing life choices can lead to more good or more evil acts.

Believe Jeremy Egner,2024-11-12 From The New York Times's Jeremy Egner, the definitive book on Ted Lasso. When Ted Lasso first aired in 2020, nobody—including those who had worked on it—knew how a show inspired by an ad, centered around soccer, filled mostly with unknown actors, and led by a wondrously mustachioed “nice guy” would be received. Eleven Emmys and one Peabody Award later, it’s safe to say that the show’s status as a pop-culture phenomenon is secure. In *Believe*, entertainment journalist and Ted Lasso fan Jeremy Egner traces the show’s creation and legacy through the words of the people at its center. Drawing on dozens of interviews from key cast, creators, and more, *Believe* takes readers from the first, silly NBC Premier League commercial to the pitch to Apple executives, then into the show’s writers’ room, through the brilliant international casting, and on to the unforgettable set and locations of the show itself. Brimming with careful reporting and written to match the show’s heart and humor, *Believe* tells a story of teamwork, of hidden talent, of a group of friends looking around at the world’s increasingly nasty discourse and deciding that maybe simple decency still has the power to bring us together—a story about what happens when you dare to believe.

Vibrational Harmony Beverly Nadler CMT CH, 2012-06-05 This amazing book leads you out of the old paradigm of The Material Model that makes change so difficult, into the revolutionary new paradigm for the 21st century --The Energy Model that makes change easier and more harmonious. In addition, *VIBRATIONAL HARMONY* Clarifies the little-understood relationship between what you want, the Universal Laws (laws of energy and physics that govern your life), your mind, your subconscious programming, and what you actually get. Explains the workings of your awesome mind conscious, subconscious and Superconscious - and teaches you how to overcome its resistance to change, so you can live the life you desire. Shows you how the Universal Laws of Vibration, Polarity, Rhythm, Cause and Effect, etc., operate, so you can be on harmony with them and create and attract what you want. Correlates and integrates ancient wisdom and metaphysics with modern psychology, leading edge science and quantum physics, so you can see the threads that run through all true teachings. Ends confusion and frustration by filling in gaps and missing links in the massive amount of often conflicting teachings. Describes the exciting new field of mind-body healing called Energy Psychology and shows you how to use extremely effective, yet simple, healing techniques. Most importantly, *VIBRATIONAL HARMONY* gives you powerful tools and techniques, plus step-by-step processes to release your negative beliefs, emotions and programs and reprogram yourself to create and attract more success, health, happiness, peace of mind...whatever YOU want! -----

Vibrational Harmony: The Real Secret of Success, Health and Happiness Beverly Nadler, CMT, CH Trafford Publishing, 255 pages, (paperback) \$17.48, 978-1466919594 (Reviewed: August, 2012) Six years ago, Rhonda Byrne, an Australian television writer and producer, authored the wildly popular self-help book, *The Secret*, in which she instructed readers on how to tune into life-affirming energy and achieve limitless success. Dozens of books have since been released promising similar results. Beverly Nadler's *Vibrational Harmony* joins the list, and despite the glut, it's a welcome addition. What makes Nadler's book worthy is her clarity in explaining what might otherwise be a complex concept. Everything is energy and everything includes you, Nadler writes. Your energy field radiates into the Universe and attracts the people, things, events, situations and circumstances that your vibrations are in harmony with, and these become your life. It follows that good energy attracts positive results. Negative energy? Not so much. Comparing the brain to a computer, Nadler seamlessly leads her readers

through a five-stage course of reprogramming, which includes Awareness, Identification, Releasing, Installing and Integrating. There is nothing woo-woo about Nadler's approach. She offers step-by-step instructions on how to relinquish a Material Model in which our thinking is negative and full of limits and substitute it for an Energy Model which, among other benefits, guarantees Spiritual communication and Divine intervention, as well as the ability to heal physical problems from cold symptoms to pain. Nadler might have added grist to her thesis by including case studies, which would have illustrated her concepts in action. But for those who can accept her premise without needing personal anecdotes to firm up their belief, good vibes are guaranteed. Also available as an ebook. -----

Vibrational Harmony is the most explosively powerful toolbox of self-help ever written. I credit Beverly with turning my life around. She helped me reconcile years of memories filled with abuse, and the techniques in her book empowered me to move from living as a victim to living juicy. For the genuine seeker of truth and knowledge, this book will be the KEY to unlocking the foundational SECRET of Success in every aspect of life. Buy it and read it over and over until you have taken full hold of its message of transforming power

Mark Campese, Inspirational Speaker, Life Coach, Business Development Consultant

When I read the original version of *Vibrational Harmony*, I was so impressed I asked Beverly if I could write the Forward. I had read many self-help books, but none like hers. When she told me she was revising the book, I couldn't imagine how or why. Then I read this new revised version and was amazed. The new chapters, the expansion of several chapters, her personal story and clarification of the powerful energy techniques she teaches makes the revised *Vibrational Harmony* a must read for anyone who is on a personal growth journey, spiritual journey or both even if you read the original version.

Joyce E. Barrie, Success Coach, Host of *Joyce Barrie & Friends* Internet Radio Show.

Beverly Nadler's *Vibrational Harmony* brings breakthrough insights in the self-development field that allow you to be, do, and have all you yearn for and are intended to be. There's been a revolution as far-reaching as anything humanity's ever witnessed, and only the few even know it's happened. It all began, she explains, with physicists who ventured into the sub-atomic world, in which they discovered solidity was the illusion and the real reality is conscious energy. And, being wavelike and electrical, it operates differently than the 3 dimensional world. The classical Material Model thinking everything is hard, 3 dimensional and difficult to change was the appropriate level of evolution during our recent epoch of development. And that's why things looked that way. *Vibrational Harmony* leads you all the way from an introduction

to this new view of the world, to embracing The Energy Model, to finally manifest the good things you want in life. Its quantum! Dr. Ted Ciuba, Quantum Business Acceleration Coach, founder of World Internet Summit, Author of The New Think And Grow Rich

Quotes from a Wise Fool William Frasca,2024-01-17 During my life, seldom did I accept things at face value, so I was always trying to understand why myself and others did the things we did. For the happy and enjoyable days of my life, that were few and far between. I didn't find the need to expand the search for what caused those events to transpire; on the days where I was challenged and found myself in over my head yet again, I dug deeper to help me find out why I acted poorly or why my choices were not the most popular ones in the history of the world. The early part of my life left quite a bit to be desired and along with a poor beginning came many poor choices that made me unpopular, but they did create excitement for the viewing audience. Struggling to fit in and being misunderstood are kind of my thing, and those decisions that made others view me as hostile and sometimes unwanted were captured in a series of private thoughts that were both put to paper and others that needed no documentation because they ran on a constant loop through my cavernous mind and gave me a constant reminder of how unpopular one man can become with hardly any effort. How complete my examination on my past is not for me to decide. I will leave that to the reader, but I can 100 percent guarantee that this information is factual and, at times, for me, more than a little heartbreaking. This is not an attempt for sympathy, that dream was crushed in my first few years of life, waiting for a kind word or a much-needed hug as a child were things I saw in movies but not in my home. I hope that I have made my vision of these times interesting enough so that you have enjoyed the experience of reading this book enough for it to be worthy of your time. Each of these ideas of mine are shared as quotes and explained in very plain terms, and on occasion, the pain of spending a lifetime of being judged harshly by those who have helped craft this person who has fallen from grace.
