Geografía crítica Bayón Jiménez, Manuel, Torres Nataly, 2019-04-08 El Colectivo de Geografía Crítica del Ecuador recupera la mejor tradición del pensamiento crítico revolucionario que, sabemos, surgió en las calles, en las luchas sociales y no en la academia. Lo que no impide, al contrario, exige rigor analítico incluso porque los grupos sociales en situación de subalternización necesitan antes de todo deconstruir la visión que se tiene sobre ellos, que no es la visión que tienen de sí mismos, del mundo y de la sociedad que los rodea. Partiendo de la epistemología como una especie de superego crítico respecto a la coherencia del conocimiento producido, el Colectivo de Geografía Crítica del Ecuador se aventura en el campo teórico-conceptual y encuentra en el territorio una de sus principales fuentes de inspiración. Un libro que trae una contribución fundamental al pensamiento-acción crítico.

Housing and Urban Regeneration of Deprived Neighborhoods in Santiago Luz María Vergara, Cristián Robertson, Darinka Czischke, Elke Schlack, Rodrigo Tapia, 2019-11-15 This publication is a joint project between the Department of Management in the Built Environment at Delft University of Technology, and the School of Architecture at Pontificia Universidad Católica de Chile, which seeks to reflect on alternative housing production models that have arisen in response to social, economic and political changes in both contexts. Although the experiences have followed different paths and therefore, have had

different results, they share a common goal: the search for alternative housing models that are collaborative, affordable and have the potential for regenerating urban neighborhoods. The first milestone of the cooperation between both institutions was an academic experience in a workshop format carried out at Santiago in November 2017. The workshop titled: "Imagining housing renewal in deprived areas" became an opportunity to discuss among scholars, students, civil society organizations, and the community. As a result of this debate, a number of topics and questions were identified, which form the basis of the conceptual framework of this publication. Through a compendium of short articles, this book presents an academic debate regarding collaborative housing processes in urban regeneration, stemming both from local experiences and from the identification of north-south and south-north perspectives.

Cuidados y movilidades femeninas en América Latina. Herminia González Torralbo,Menara Guizardi,2024-02-15 Este libro nace de nuestro interés por elaborar un texto que guíe a las y los investigadores que quieren iniciarse en el estudio de sus cuidados, especialmente aquellos que las mujeres realizan en los procesos de migración de mediana y larga distancia, y en sus desplazamientos en los territorios de frontera latinoamericanos. Esta obra no constituye, por lo tanto, un manual temático exhaustivo, sino que ofrece un mapeo breve de la génesis de conceptos y discusiones. Consecuentemente, no es nuestra intención agotar cabalmente (a la manera enciclopédica) los campos de investigación propuestos. Lo que ofrecemos es, más bien, una incursión guiada a través de tres temas específicos: i) los cuidados que ejecutan las mujeres; ii) su faceta transnacional en los procesos migratorios; y iii) en las movilidades femeninas en áreas de frontera. Además, se trata de una guía de lectura geográficamente enfocada en América Latina y con énfasis en Sudamérica (aunque dialogando, por supuesto, con debates de otras latitudes). Esperamos que la lectura de este volumen pueda constituir un punto de partida y de apoyo para nuevos trabajos; para seguir pensando las movilidades femeninas y los cuidados como experiencias encarnadas y situacionales con grandes implicaciones económicas, políticas y socioculturales.

Rodolfo Kusch Roberto H. Esposto,2019-08-28 La crisis que vivimos nos pide retomar la lectura de la obra de Rodolfo Kusch, una de las figuras más emblemáticas y originales del pensamiento argentino y americano. El autor de América profunda se distingue por ser un pensador fronterizo, arraigado al suelo americano que al mismo tiempo brinda una particular apertura hacia el mundo que habitamos. Con una pormenorizada lectura, Roberto Esposto nos brinda una profunda y amplia reflexión sobre la obra kuschiana. El lector emprenderá con este libro un periplo desde el pensamiento de Kusch para ir descubriendo y contemplando las condiciones de nuestra modernidad actual.

Saberes locales, paisajes y territorios rurales en América Latina Barrera-Bassols, Narciso,Floriani, Nicolas,2018-05-11 Este libro propone ofrecer al lector algunas vivencias de investigadores e investigadoras de universidades y centros académicos latinoamericanos acerca de los “Saberes, paisajes y territorios rurales de América Latina”. Este proyecto, además de permitir el conocimiento de diferentes realidades de nuestro continente, se inserta en el objetivo político de impulsar acciones alternativas para instituir lo que está separado, restituyendo a los sistemas de conocimiento, de valores y de prácticas su vitalidad y su compromiso con lo que está en peligro, debido a la ceguera de las ideologías, la desvalorización de lo que resiste a la contabilidad y la ‘crematización’ del mercado, al igual que la sordera arrogante de la crítica que emerge de su propia irracionalidad. El libro se ha basado en diálogos que respeten la diversidad y las diferencias.
