**History of Egypt, Chaldaea, Syria, Babylonia, and Assyria (Complete)** Gaston Maspero, Professor Maspero does not need to be introduced to us. His name is well known in England and America as that of one of the chief masters of Egyptian science as well as of ancient Oriental history and archaeology. Alike as a philologist, a historian, and an archaeologist, he occupies a foremost place in the annals of modern knowledge and research. He possesses that quick apprehension and fertility of resource without which the decipherment of ancient texts is impossible, and he also possesses a sympathy with the

past and a power of realizing it which are indispensable if we would picture it aright. His intimate acquaintance with Egypt and its literature, and the opportunities of discovery afforded him by his position for several years as director of the Bulag Museum, give him an unique claim to speak with authority on the history of the valley of the Nile. In the present work he has been prodigal of his abundant stores of learning and knowledge, and it may therefore be regarded as the most complete account of ancient Egypt that has ever yet been published. In the case of Babylonia and Assyria he no longer, it is true, speaks at first hand. But he has thoroughly studied the latest and best authorities on the subject, and has weighed their statements with the judgment which comes from an exhaustive acquaintance with a similar department of knowledge. Naturally, in progressive studies like those of Egyptology and Assyriology, a good many theories and conclusions must be tentative and provisional only. Discovery crowds so quickly on discovery, that the truth of to-day is often apt to be modified or amplified by the truth of to-morrow. A single fresh fact may throw a wholly new and unexpected light upon the results we have already gained, and cause them to assume a somewhat changed aspect. But this is what must happen in all sciences in which there is a healthy growth, and archaeological science is no exception to the rule. The spelling of ancient Egyptian proper names adopted by Professor Maspero will perhaps seem strange to many. But it must be remembered that all our attempts to represent the pronunciation of ancient Egyptian words can be approximate only; we can never ascertain with certainty how they were actually sounded. All that can be done is to determine what pronunciation was assigned to them in the Greek period, and to work backwards from this, so far as it is possible, to more remote ages. This is what Professor Maspero has done, and it must be no slight satisfaction to him to find that on the whole his system of transliteration is confirmed by the cuneiform tablets of Tel el-Amarna. The difficulties attaching to the spelling of Assyrian names are different from those which beset our attempts to reproduce, even approximately, the names of ancient Egypt. The cuneiform system of writing was syllabic, each character denoting a syllable, so that we know what were the vowels in a proper name as well as the consonants. Moreover, the pronunciation of the consonants resembled that of the Hebrew consonants, the transliteration of which has long since become conventional. When, therefore, an Assyrian or Babylonian name is written phonetically, its correct transliteration is not often a matter of question. But, unfortunately, the names are not always written phonetically. The cuneiform script was an inheritance from the non-Semitic predecessors of the Semites in Babylonia, and in this script the characters represented words as well as sounds. Not unfrequently the Semitic Assyrians continued to write a name in the old Sumerian way instead of spelling it phonetically, the result being that we do not know how it was pronounced in their own language. The name of the Chaldean Noab, for instance, is written with two characters which ideographically signify the sun or day of life, and of the first of which the Sumerian values were ut, babar, khis, tarn, and par, while the second had the value of zi. Were it not that the Chaldean historian Bērsos writes the name Xisuthros, we should have no clue to its Semitic pronunciation.

**Emergent Quilombos** Bryce Henson,2024-01-09 2024 Best Book Award, National Communication Association, Ethnography Division 2024 Roberto Reis Book Prize, First Book category, Brazilian Studies Association 2024 Outstanding Book Award, National Communication Association, Critical and Cultural Studies Division 2024 International and Intercultural Best Book Award, National Communication Association, International and Intercultural Division How disenfranchised Black Brazilians use hip-hop to reinvigorate the Black radical tradition. Known as Black Rome, Salvador da Bahia, Brazil, is a predominantly Black city. The local art, food, and dance are closely linked to the population's African roots. Yet many Black Brazilian residents are politically and economically disenfranchised. Bryce Henson details a culture of resistance and activism that has emerged in response, expressed through hip-hop and the social relations surrounding it. Based on years of ethnographic research, *Emergent Quilombos* illuminates how Black hip-hop artists and their circles contest structures of anti-Black racism by creating safe havens and alternative social, cultural, and political systems that serve Black people. These artists valorize and empower marginalized Black peoples through song, aesthetics, media, visual art, and community action that emphasize diasporic connections, ancestrality, and Black identifications in opposition to the anti-Black Brazilian nation. In the process, Henson argues, the Salvador hip-hop scene has reinvigorated and reterritorialized a critical legacy of Black politicocultural resistance: the quilombo, maroon communities of Black fugitives who refused slavery as a way of life, gathered away from the spaces of their oppression, protected their communities, and nurtured Black life in all its possibilities.

*The Act of Love* Cache' Ivon e' Jhai e',2023-03-28 Something is happening, something very peculiar, visions just won't let up. Sapphire has been having these visions for far too long, what is it about? Why is it happening? The mystery lingers on. At

only nine years old, these mysteries are still happening. Now that she is all grown up, one discovery will lead her to the next discovery. Sapphire feels like the light of the world has invoked her most inner spirits. With a beyond ordinary gift that she inhabits, her light team is constantly guiding her and also helping her to understand her purpose, which pretty soon will lead her to her destiny. Discovering something sweet and fragile, a gift given from the unknown. But despite of her beautiful nature, she must go through the motions that are just ahead of her, to fully understand the world around her. With such a kind, gentle soul and heart, she will stop at nothing to help those along her journey, and it's not always sweet. It is ever so challenging. She is aware that life is all about experiences, but nothing is ever tickled sweet. She will soon learn about a mission, that has been written in the stars. Sometimes things can be so simple, dangerous, weird, and uncomfortable. But it's a courageous thing, to have the strength and power to fear nothing making the effort to see the intention through. With the support of her friends, things are about to become very strange for her, snatching her out of her comfort zone. It is up to Sapphire to show just how strong, powerful, and determined she is, but even with that is a challenge within itself. She will have to put all of her logical knowledge, wisdom, and faith to the test. To see this intent through. Although this may be dangerous, a gamble, and maybe even a struggle. But in the end, it will all turn out to be sweet. But you'll just have to see to find out! Drama, lies, drugs, a violent history, lust, discovery, faith, true love, trust, murder, and digging out the truth despite of the nature of the circumstance! All simmer into this thing we all call life of experiences.
