**Lord Dunsany** S. T. Joshi, Darrell Schweitzer, 2013-12-13 Anglo-Irish writer Lord Dunsany (1878-1957) was a pioneering writer in the genre of fantasy literature and the author of such celebrated works as The Book of Wonder (1912) and The King of Elfland's Daughter (1924). Over the course of a career that spanned more than five decades, Dunsany wrote thousands of stories, plays, novels, essays, poems, and reviews, and his work was translated into more than a dozen languages. Today,

Dunsany's work is experiencing a renaissance, as many of his earlier works have been reprinted and much attention has been paid to his place in the history of fantasy and supernatural literature. This bibliography is a revision of the landmark volume published in 1993, which first charted the full scope of Dunsany's writing. This new edition not only brings the bibliography up to date, listing the dozens of new editions of Dunsany's work that have appeared in the last two decades and the wealth of criticism that has been written about him, but also records many obscure publications in Dunsany's lifetime that have not been previously known or identified. In all, the bibliography has been expanded by at least thirty percent. Among this new material are dozens of uncollected short stories, newspaper articles, and poems, and many books, essays, and reviews of Dunsany's work published over the past century. Altogether, this bibliography is the definitive listing of works by and about Dunsany and will be the foundation of Dunsany studies for many years to come.

Books Are Made Out of Books Michael Lynn Crews, 2024-10-08 Cormac McCarthy told an interviewer for the New York Times Magazine that "books are made out of books," but he was famously unwilling to discuss how his own writing draws on the works of other writers. Yet his novels and plays masterfully appropriate and allude to an extensive range of literary works, demonstrating that McCarthy was well aware of literary tradition and deliberately situating himself in a knowing relationship to precursors. In Books Are Made Out of Books, Michael Lynn Crews thoroughly mines McCarthy's literary archive to identify over 150 writers and thinkers that McCarthy referenced in early drafts, marginalia, notes, and correspondence. Crews organizes the references into chapters devoted to McCarthy's published works, the unpublished screenplay *Whales and Men*, and McCarthy's correspondence. This updated edition now examines McCarthy's final publications: the novel *The Passenger* and its play-like coda *Stella Maris*. For each work, Crews identifies authors, artists, or other cultural figures that McCarthy referenced; gives the source of the reference in McCarthy's papers; provides context for the reference as it appears in the archives; and explains the significance of the reference to the novel or play that McCarthy was working on. This groundbreaking exploration of McCarthy's literary influences vastly expands our understanding of how one of America's foremost authors engaged with the ideas, images, metaphors, and language of other thinkers and made them his own.

*Landscapes of Realism* Svend Erik Larsen, Steen Bille Jørgensen, Margaret R. Higonnet, 2022-03-15 Few literary phenomena are as elusive and yet as persistent as realism. While it responds to the perennial impulse to use literature to reflect on experience, it also designates a specific set of literary and artistic practices that emerged in response to Western modernity. *Landscapes of Realism* is a two-volume collaborative interdisciplinary investigation of this vast territory, bringing together leading-edge new criticism on the realist paradigms that were first articulated in nineteenth-century Europe but have since gone on globally to transform the literary landscape. Tracing the manifold ways in which these paradigms are developed, discussed and contested across time, space, cultures and media, this second volume shows in its four core essays and twenty-four case studies four major pathways through the landscapes of realism: The psychological pathways focusing on emotion and memory, the referential pathways highlighting the role of materiality, the formal pathways demonstrating the dynamics of formal experiments, and the geographical pathways exploring the worlding of realism through the encounters between European and non-European languages from the nineteenth century to the present. This volume is part of a book set which can be ordered at a special discount:

**Sociability and Society** K. Ludwig Pfeiffer, 2023-03-21 Today, churches, political parties, trade unions, and even national sports teams are no guarantee of social solidarity. At a time when these traditional institutions of social cohesion seem increasingly ill-equipped to defend against the disintegration of sociability, K. Ludwig Pfeiffer encourages us to reflect on the cultural and literary history of social gatherings—from the ancient Athenian symposium to its successor forms throughout Western history. From medieval troubadours to Parisian salons and beyond, Pfeiffer conceptualizes the symposium as an institution of sociability with a central societal function. As such he reinforces a programmatic theoretical move in the sociology of Georg Simmel and builds on theories of social interaction and communication characterized by Max Weber, George Herbert Mead, Jürgen Habermas, Niklas Luhmann, and others. To make his argument, Pfeiffer draws on the work of a range of writers, including Dr. Samuel Johnson and Diderot, Virginia Woolf and Marcel Proust, Dorothy Sayers, Joseph Conrad, and Stieg Larsson. Ultimately, Pfeiffer concludes that if modern societies do not find ways of reinstating elements of the Athenian symposium, especially those relating to its ritualized ease, decency and style of interaction, they will have to cope with increasing violence and decreasing social cohesion.

Barbarians at the Gate Patricia Donaher, 2020-05-15 The study of language attitudes is the investigation of beliefs expressed about the nature of language and its diverse usages, how these attitudes came to exist and persist, and how these

attitudes shape social action and policy. Language attitude studies have illuminated our understanding of racial issues, social and economic stratification, cultural stereotypes, educational issues, folk linguistics, and, more recently, popular culture. This volume is an examination of four intersections in language attitudes research: Authority, Affiliation, Authenticity, and Accommodation. In each section, the contributors introduce new dimensions to the study of language attitudes while providing examples of the ways in which the study of language attitudes can continue to inform and shape our understanding of language diversity.
