[Researching Crime and Violence in Medellín, Colombia](#) Caroline Doyle,2024-03-06 Researching Crime and Violence in Medellín, Colombia: Truth versus Truths questions categories, assumptions and labels around interpretations of criminal actors and violence in Latin America and the Caribbean. Drawing from her experiences conducting fieldwork in Medellín, Colombia, Caroline Doyle provides readers with a unique window into the complex reality of crime and violence in the city. She reflects on her journey to try and make sense of the crime and violence and challenges she faced in the field, such as navigating her identity, accessing participants, perceived and real danger, and the almost impossible task of cross-checking data to find a "truth." Doyle provides readers with a unique insight into the complexity of these issues throughout the region and some of the challenges researchers and authorities can face while measuring and ultimately addressing crime and violence.

[El mapa criminal en Colombia](#) Ariel Ávila,2022-12-01 Ariel Ávila se ocupa de pasar revista a las violencias después del acuerdo de paz. Es un balance crítico, pero, como siempre, muy documentado. Tiene razón el autor en sus preocupaciones. Estamos ante el resurgir de algunas violencias y ante el temor de que el incendio de las armas y los fusiles tome otra vez una gran fuerza en Colombia. Tomado del Prólogo de León Valencia Ariel Ávila explica en este libro la reconfiguración de la guerra en Colombia después de la firma del proceso de paz con las FARC. Luego de transitar por la inmensidad de las zonas rurales y los pueblos, veredas y municipios más afectados por los grupos armados, hablar con sus gentes y entender en

terreno sus nuevas realidades, el autor y su equipo de investigación revelan las respuestas a preguntas como ¿por qué no se silenciaron todos los fusiles en Colombia después del proceso de La Habana?, ¿cuáles son los grupos armados cuya fortaleza económica y militar se alimenta de economías ilegales como el narcotráfico, la compra y venta de armas, la trata de personas, la minería ilegal y otras actividades ilícitas?, ¿por qué se sigue reciclando la guerra?. El mapa criminal en Colombia, una detallada anatomía de la guerra en el país, es un texto de obligatoria lectura para entender por qué nos seguimos matando. Y es, a la vez, la ruta para alcanzar la paz total.

*Vivir Sabroso. Luchas y movimientos afroatratoños, en Bojayá, Chocó, Colombia* Quiceno Toro, Natalia, 2016-12-01 Este trabajo es producto de una etnografía realizada en la región del Medio Atrato chocoano, en el Pacífico colombiano. En esta región, mayoritariamente habitada por colectivos afro e indígenas emberá, existen prácticas de resistencia que se definen como defensa de la vida y el territorio. En las últimas décadas esa resistencia responde a las amenazas impuestas por la guerra y la militarización de los territorios. Para analizar esas prácticas privilegio los conceptos propios que están atados a las luchas cotidianas, en lugar de acudir a marcos conceptuales como los derechos humanos o la justicia transicional. La idea del vivir sabroso hace parte de esos conceptos y articula campos como los de la terapéutica, las relaciones de parentesco, la espiritualidad y el movimiento social. Este trabajo hace un recorrido por los lugares y experiencias donde es modulada la vida sabrosa, identificando como allí se ponen en juego procedimientos que procuran mantener un balance entre temperaturas, fuerzas y distancias.

*1000 caricaturas afro en la historia de Colombia* Óscar Perdomo Gamboa, 2024-08-01 1000 caricaturas afro en la historia colombiana es un recorrido por más de ciento catorce años de historia de los afrodescendientes retratada en las caricaturas editoriales de los periódicos del país, desde el papel periódico ilustrado hasta los blogs de Internet. Este libro realiza un amplísimo viaje que incluye a todos los maestros del género: Rendón, Pepe Gómez, Merino, Chapete, Osuna, Pepón, Vlado. Matador y tantos otros que en algún momento de su labor han dibujado las realidades de los afrocolombianos. Cada una de las mil caricaturas forman un impresionante corpus que solidifica el papel de los afrodescendientes en la formación del País y los visibiliza como importantes partícipes en la vida política y sociocultural actual

**Raising Two Fists** Roosbelinda Cárdenas, 2024-02-27 Raising Two Fists is a historically grounded ethnography of Afro-Colombian political mobilization after the multicultural turn that swept Latin America in the 1990s, when states began to recognize and legally enshrine rights for Afro-descendants. Roosbelinda Cárdenas explores three major strategies that Afro-Colombians' developed in their struggles against racialized dispossession—the defense of culturally specific livelihoods through the creation of Black Territories; the demand for differential reparations for Afro-Colombian war victims; and the fight for inclusion in Colombia's peace negotiations and post-conflict rebuilding—illustrating how they engage in this work both as participants of organized political movements and in their everyday lives. Although rights-based claims to the state

have become necessary and pragmatic tools in the intersecting struggles for racial, economic, and social justice, Cárdenas argues that they continue to be ineffective due to Colombia's entrenched colonial racial hierarchies. She shows that while Afro-Colombians pursue rights-based claims, they also forge African Diasporic solidarities and protect the flourishing of their lives outside of the frame of rights, and with or without the state's sanction—a two-fisted strategy for Black citizenship.

*Utopía y Praxis Latinoamericana* Álvaro Márquez-Fernández, 2016-04-01

*Historia de la locura en Colombia* Ricardo Silva Moreno, 2019-08-01 La historia de la locura en Colombia puede leerse como la terapia sicológica que tanto necesita Colombia. Como si el autor hubiera sentado en el diván al país para que este se desahogue de todos sus miedos, temores, pesadillas, traumas, duelos. Porque la vida en Colombia ha sido una marcha fúnebre desde siempre, desde que se tiene conciencia de nación, de territorio.

**Decolonial Feminism in Abya Yala** Yuderkys Espinosa-Miñoso, María Lugones,, Nelson Maldonado-Torres, 2022-08-01

This is a collection of eleven chapters and an introduction that develop key arguments in decolonial feminism, particularly, the coloniality of gender, the critique of white and Eurocentric feminisms, the imbrication between gender, race, and colonialism, feminicides, and the coloniality of democracy and public institutions. The introduction addresses the path of decolonial feminism: from a new approach to understanding the relationship between gender as a category, race, and colonialism that combined U.S. Third World feminism and scholarship on coloniality and decoloniality to its exponential growth in the hands of activists and engaged scholars from Latin America and the Caribbean. Today, much of the literature on decolonial feminism in Latin America and the Caribbean remains unknown in the U.S. This anthology seeks to start remedying this problem with seven translations of work originally written in Spanish, and three essays originally written in English that address the fundamental concepts of decolonial feminism as well as its contributions to important contemporary political and intellectual debates.

*Por qué se reciclan la corrupción y el crimen organizado en Colombia* Mauricio Beltran-Cristancho, 2017-06-28 La Gran Encuesta de mediados de 2014 reportaba una desconfianza gigantesca en las instituciones públicas. Incluso, el siempre bien valorado Ejército Nacional, escasamente conseguía un 56 por ciento de aprobación. Pero lo que resultaba inédito era la creciente desconfianza de los colombianos en su justicia que se equiparaba a la consuetudinaria del Congreso: casi un 80%. Lo más grave era que esa percepción se aplicaba a las tres grandes cortes. Hechos concretos reportados extensamente por los Medios demostraban que esa percepción no se trataba de propaganda eficientemente transmitida por algún sector de la sociedad. Dos años después, el escándalo de la multinacional brasileña Odebrecht probaba que la corrupción ya era transnacional, mientras que pasaba desapercibido que el crimen organizado en América Latina también lo era desde hace más de dos décadas. Lo que si era evidente en Colombia, era que no había departamento del país sin microtráfico y que los

cultivos ilícitos alcanzarían niveles sin precedentes en el 2017. Este libro, a partir de un acto de corrupción de junio de 2007 en el Inpec, el cual pasó desapercibido para los Medios, y que está estrechamente relacionada con la desmovilización paramilitar, demuestra que el colapso de la justicia, particularmente de la criminal, no se enfrenta con más códigos penales ni con reformas constitucionales, y menos, con procesos de paz. La realidad es que la gran corrupción y el crimen organizado han encontrado en las cárceles el mecanismo silencioso para mantener sus prácticas, mientras que el grueso de los colombianos en medio de un especie de estado de naturaleza, han entendido que solo la astucia, la violencia y/o la amenaza, los puede, no solo proteger de los demás, incluso del mismo Estado, sino tener una fuente eficiente de recursos y de estatus social.

**Participating in Peace** Jefferson Jaramillo-Marín,Luz Mery López-Lizarazo,Adriel Ruiz-Galvan,Matthew Louis Bishop,Juan Mario Díaz-Arévalo,Juan Miguel Kanai,Melanie Lombard,Simon Rushton,Anastasia Shesterinina,Henry Staples,Helen Louise Turton,2023-07-31 What role does dialogue play in peacebuilding? How can community-based activities contribute to broader peace processes? What can participatory research methods add to local efforts to build peace? In this book, the authors examine these questions through their work with two different Colombian communities who have pursued dialogue amidst ongoing violence, environmental injustice and socio-economic challenges. By reflecting on what people in these contrasting places have achieved through participatory peacebuilding, the authors explore different forms of local agency, the prospects for non-extractive academic engagement, and practical and theoretical lessons for participating in peace in other conflict-affected settings.

*El mejor periodismo Chileno 2014* varios autores,2017 Este libro, que reúne los mejores trabajos del Premio Periodismo de Excelencia 2014 de la Escuela de Periodismo de la Universidad Alberto Hurtado, están representados los principales temas que marcaron el año y que, en su mayoría, definen la cara menos amable del país: adopciones irregulares del sacerdote Gerardo Joannon, responsabilidad del Partido Comunista en la crisis de la Universidad Arcis, inmigración colombiana en el norte chileno y cuestionamientos a la clase política y empresarial, entre otros. También desfilan grandes personajes como Pedro Lemebel, Nicanor Parra, Marcelo "Chino" Ríos, Gabriel Boric y Anita González, "la Desideria", quienes, por una razón u otra, marcaron pauta y son retratados de manera magistral en sus facetas más íntimas y desconocidas. En esta selección con lo mejor de nuestro periodismo sobresale la historia de Jorge Valdivia, el hombre que se hacía llamar "martillero" y abrió la caja de Pandora en que se convirtió el caso Penta. Perfilado de manera ejemplar por tres periodistas, el retrato al testigo clave del mayor escándalo político y financiero de los últimos años obtuvo el primer lugar de la décimosegunda versión del Premio Periodismo de Excelencia.

Pensar el cuerpo Verano Gamboa,Leonardo,Suárez González, Javier Roberto,2015-01-03 Esta obra tematiza el lugar que ocupa el cuerpo en la sociedad actual a partir de las diversas formas en que se interpretado en la filosofía, la literatura y el

arte. Sin duda, las representaciones más diversas sobre el cuerpo adquieren sentido cuando se relacionan con las expresiones simbólicas que el ser humano emplea al exponerse en su corporeidad. Las investigaciones y las reflexiones sobre el cuerpo no están por ello al margen de las discusiones económicas, políticas, éticas, sociales artísticas, literarias, educativas y filosóficas, ya que el reconocimiento de estos factores permiten destacar las maneras como, en la cotidianidad, se forma la subjetividad con base en distintas experiencias corporales. Aquí el lector encontrará que los debates actuales sobre el cuerpo implican la inclusión de sus modos de vivir, sentir y ser concebido este.

**Understanding Conflict Imaginaries** Simon Philpott,Nicholas Morgan,2022-08-01 This Palgrave Pivot argues that if we are to understand civil conflict we need to grasp how everyday life is shaped by local conflict imaginaries. In order to examine this claim the book sets out to explore the contours of conflict imaginaries from two very different sites of conflict. Both Colombia and Indonesia have suffered from the collective trauma of political violence but in very different social, cultural and political contexts. Sketching out what they mean by a conflict imaginary, and explaining the relationship of this key concept to social imaginaries more broadly, the authors provide a historical overview of how political violence has been represented in both countries. They go on to outline the original qualitative research methods used to provide empirical evidence for the importance of conflict imaginaries, methods which allow them to explore the images and metaphors that underpin the spatial, chronological and emotional cartographies through which people make sense of political violence. With an emphasis on the construction of place-based knowledge, they consider the role of the local, the national and the global in the imagining of civil conflict, and show how film can be used to explore the imaginative worlds of social actors living alongside violence, revealing in the process the need to take seriously their hopes, fears, dreams and fantasies.

*Poder, violencia, ciudadanía y agencia* Rosie McGee,Jesús Alfonso Flórez López,2017-06-30 La situación de violencia prolongada en Buenaventura ha llegado a extremos insospechados, pues en las últimas dos décadas se ha profundizado y agudizado a tal punto que ha llamado la atención de la sociedad nacional e internacional. La presencia de actores armados que desde diversas orillas buscan ejercer el poder local con base en el atropello a la dignidad de las personas, en especial a la juventud, ha hecho que las comunidades de los sectores más afectados desarrollen acciones de resistencia para poder sobrevivir, pero al mismo tiempo acciones de protesta social, como las marchas y paros cívicos, para reclamar derechos, pues al final la mayor violencia que ellos identifican es la de carácter estructural representada en la marginación social. Este documento intenta poner en evidencia las reflexiones que surgieron de diversos actores sociales sobre esta relación de violencia, poder y acción ciudadana.

*Seeing Metal Music in Latin America and the Caribbean* Nelson Varas-Díaz,Daniel Nevárez Araújo,2024-08-23 For many fans, metal was visual before it was aural. This book explores the visual dimensions of metal music from the specific socio-historic, geographic, and political positionality of Latin America and the Caribbean where this visual register allows creators

and consumers to engage in four distinct strategies (i.e., seeing, revealing, inverting, and appearing) as part of what the authors have termed “extreme decolonial dialogues.” They support their position through a diverse lens that examines essential aspects of the visual dimensions of metal music: album artwork, clothing, film, sites, and activist practices.

Belicopedia Daniel Ruiz Serna,Diana Ojeda,2023-11-21 ¿Qué podemos aprender de la guerra cuando sus protagonistas son seres distintos a las personas? Desde árboles abandonados a zancudos zánganos, pasando por felinos feroces, minerales maliciosos o territorios tristes, Belicopedia explora la manera en que distintos animales, plantas, tecnologías y sustancias se han visto enredados en la guerra en Colombia. Al recorrer el conflicto armado junto a estos actores no humanos se hace evidente que la violencia es una experiencia compartida con otras comunidades y ecologías, lo cual debería ayudarnos a pensar el tipo de paz, reconciliación y reparación que son necesarias en estos tiempos de profunda crisis socioambiental, política y humanitaria

Remapping Sound Studies Gavin Steingo,Jim Sykes,2019-03-14 The contributors to Remapping Sound Studies intervene in current trends and practices in sound studies by reorienting the field toward the global South. Attending to disparate aspects of sound in Africa, South and Southeast Asia, Latin America, the Middle East, Micronesia, and a Southern outpost in the global North, this volume broadens the scope of sound studies and challenges some of the field's central presuppositions. The contributors show how approaches to and uses of technology across the global South complicate narratives of technological modernity and how sound-making and listening in diverse global settings unsettle familiar binaries of sacred/secular, private/public, human/nonhuman, male/female, and nature/culture. Exploring a wide range of sonic phenomena and practices, from birdsong in the Marshall Islands to Zulu ululation, the contributors offer diverse ways to remap and decolonize modes of thinking about and listening to sound. Contributors Tripta Chandola, Michele Friedner, Louise Meintjes, Jairo Moreno, Ana María Ochoa Gautier, Michael Birenbaum Quintero, Jeff Roy, Jessica Schwartz, Shayna Silverstein, Gavin Steingo, Jim Sykes, Benjamin Tausig, Hervé Tchumkam

*Pasado y presente continuo de la memoria de los familiares de desaparecidos. El caso de Simón en Justicia y Paz* Marcela Patricia Borja Alvarado,2020-09-21 Este estudio de la historia del tiempo presente en el derecho se acerca al tema de la memoria desde una perspectiva interdisciplinaria y de los conocimientos situados. En especial, indaga sobre el recogimiento de las memorias de los familiares de Simón -victima del conflicto armado colombiano- Con tal fin, es contrastada la memoria natural de las víctimas con la memoria jurídica oficial del proceso de Justicia y Paz colombiano. Para ello son analizadas ciertas aproximaciones teóricas a la memoria -desde el campo del derecho y de otras disciplinas-, así como la construcción de la memoria por parte de familiares de desaparecidos. Esta investigación contempla fuentes jurídicas nacionales e internacionales, y considera, sobre todo, los derechos a la verdad, a la justicia y a la reparación de las víctimas, el escenario de la justicia transicional colombiana y la consolidación del delito de desaparición forzada.
