Dawn of the Morning Grace Livingston Hill, 2014-12-08 In the year 1824, in a pleasant town located between Schenectady and Albany, stood the handsome colonial residence of Hamilton Van Rensselaer. Solemn hedges shut in the family pride and hid the family sorrow, and about the borders of its spacious gardens, where even the roses seemed subdued, there played a child. The stately house oppressed her, and she loved the sombre garden best. Her only friend in the old house seemed a tall clock that stood on the stairs and told out the hours in the hopeless tone that was expected of a clock in such a house, though it often took time to wink pleasantly at the child as she passed by, and talk off a few seconds and minutes in a brighter tone.

Creation in Six Days James B. Jordan,1999 Creation in Six Days offers an exegetical, literary, and theological defense of the traditional interpretation of the Genesis account of six-day creation. Jordan's account is primarily designed to answer any approach to the text of Genesis, such as the increasingly popular Framework Hypothesis, that pits the text's literary features against its historical and narrative sense. Beyond his exegetical critique of several prominent positions, Jordan offers a constructive reading of the early parts of Genesis and also seeks to uncover the assumptions which attract people to the Framework Interpretation and similar views. The explanation, he says, lies in the acceptance of many of the questionable assumptions of modern science on the part of most Christians today, coupled with the pervasiveness of a gnostic or nonhistorical attitude toward the Christian faith.
