Is Religion the Opium of the People? J. G. Lockhart,193?

**Marxism and Religion** ,2014-02-27 In Marxism and Religion leading Chinese scholars unfold before our eyes theoretical explorations of religion in present-day China. In addition, they along with senior cadres superintending religious affairs strenuously explain why the Marxist view of religion still has relevance to living religions in a country undergoing deep changes unleashed by the late paramount leader Deng Xiaoping's reform and opening-up policies. Mistakenly perceived by so many westerners as outdated and dogmatic quasi-scholarly work in the service of communist regime's propaganda, studies selected here are brainchildren of a group of creative and reform-minded scholars and cadres who endeavor to uphold Marxist traditions while innovatively sinicizing them, hoping that their efforts will contribute to the ruling party's ideological reconstruction. Contributors include: Fang Litian, Gao Shining, Gong Xuezheng, He Qimin, Jin Ze, Li Xiangping, Lü Daji, Wang Xiaochao, Wang Zuo'an, Ye Xiaowen, Zhu Xiaoming, and Zhuo Xinping.

**Religious Studies** Gregory D. Alles,2010-03-01 Drawing on recent developments in the comparative study of religion, this book explores the trends of the past sixty years from a global perspective. Topics covered include: local background to the study of religions formation of religious studies in the region important thinkers and writings institutions interregional diversity and interregional connections emerging issues. This book is a major contribution to the field of religious studies and a valuable reference for scholars, researchers and graduate students.

**The Cambridge Companion to Marx** Terrell Carver,1991-10-25 In the wake of political collapse in Eastern Europe, the

intellectual influence of Marx's thought requires re-appraisal. Backed by current debate and new perspectives, this volume provides comprehensive coverage of his significant contributions.

**Aristotle, Adam Smith and Karl Marx** Spencer J. Pack, 2010-01-01 . . . a very valuable introduction to Aristotle's economics. History of Economic Ideas Spencer Pack is completely at home with the difficult works of Aristotle, Adam Smith and Karl Marx. To walk with him through their writings is to discover that they are surprisingly helpful in understanding the modern world of computers, credit crunches, religious differences, international conflicts, and unemployment due to oversaving in China and undersaving in America. One is left after reading them with growing admiration for the giants of past intellectual history. This is only one lesson that Pack teaches in this illuminating book. Mark Blaug, University of London and University of Buckingham, UK This is an unusually ambitious and unpretentious work. And it is successful. Pack effectively compares the ideas of each of the three great men without forcing those of one upon the others. The topics are exchange value, money, capital, character, government, and change, which the author considers to be the fundamental issues in 21st century political economy. Pack is especially successful in utilizing a wide spectrum of secondary (including contemporary) sources to enrich the analysis of the expected primary sources. Student readers will be exposed to the opportunities and problems of variation in interpretation. The author has studiously avoided insinuating and privileging his own views and naively repeating well-worn and misleading, if not also erroneous, ideology-laden positions. Warren J. Samuels, Michigan State University, US Spencer Pack has written a most illuminating and insightful book. Beginning from Aristotelian foundations, Pack focuses our attention on an essential economic and moral issue: the difference between value in use and value in exchange. From this vantage point, he evaluates the arguments of Smith and Marx, demonstrating how their theories, both drawing on Aristotle, unfold into a general analysis of capitalism. His account forces us to think deeply about the nature of capitalist society. I recommend it highly. John F. Henry, University of Missouri-Kansas City, US Spencer Pack compares and contrasts Aristotle's, Smith's and Marx's theoretical systems on six fundamental issues: exchange value, money, capital, character, government, and change. This book also provides insights on issues concerning the continuing development of world money, saving, managerial capitalism, corrupt governments, and various secular and religious movements for social change.

**Religious Evolution and the Axial Age** Stephen K. Sanderson, 2018-01-25 Religious Evolution and the Axial Age describes and explains the evolution of religion over the past ten millennia. It shows that an overall evolutionary sequence can be observed, running from the spirit and shaman dominated religions of small-scale societies, to the archaic religions of the ancient civilizations, and then to the salvation religions of the Axial Age. Stephen K. Sanderson draws on ideas from new

cognitive and evolutionary psychological theories, as well as comparative religion, anthropology, history, and sociology. He argues that religion is a biological adaptation that evolved in order to solve a number of human problems, especially those concerned with existential anxiety and ontological insecurity. Much of the focus of the book is on the Axial Age, the period in the second half of the first millennium BCE that marked the greatest religious transformation in world history. The book demonstrates that, as a result of massive increases in the scale and scope of war and large-scale urbanization, the problems of existential anxiety and ontological insecurity became particularly acute. These changes evoked new religious needs, especially for salvation and release from suffering. As a result entirely new religions-Zoroastrianism, Judaism, Christianity, Hinduism, Buddhism, Confucianism, and Daoism-arose to help people cope with the demands of the new historical era.

The Dialectics of the Religious and the Secular ,2014-05-28 The Dialectics of the Religious and the Secular: Studies on the Future of Religion contains the work of fifteen international scholars who have wrestled with the question of the relevancy, meaning, and future of religion within the context of the increasing antagonisms between the religious and secular realms of modern civil society and its globalization. Through their chosen topics in analyzing these issues in the 20th and 21st centuries, each author also indicates the possibility of mitigating if not preventing the continuation of this antagonism by historically moving toward a more reconciled and humane future global society. Contributors are: Branko Ančić, Aleksandra Baranova, Roland T. Boer, Francis Brassard, Dustin Byrd, Donald Devon III, Neven Duvnjak, Jan W. R. Fennema, Denis R. Janz, Dinka Marinović Jerolimov, Gottfried Küenzlen, Mislav Kukoč, Michael R. Ott, Rudolf J. Siebert, and Ivica Sokol.

**Social Scientific Studies of Religion in China** Fenggang Yang,Graeme Lang,2011-01-27 This book provides a sampling of recent field studies of religions in China, along with theoretical reflections by sociologists, anthropologists and religious studies scholars, both inside and outside China, on the revival of the social scientific study of religion in Chinese societies.

**Limbo** Bernard Wolfe,2016-12-15 In the aftermath of an atomic war, a new international movement of pacifism has arisen. Multitudes of young men have chosen to curb their aggressive instincts through voluntary amputation - disarmament in its most literal sense. Those who have undergone this procedure are highly esteemed in the new society. But they have a problem - their prosthetics require a rare metal to function, and international tensions are rising over which countries get the right to mine it . . .

**Winner Take Nothing** Ernest Hemingway,2002-07-25 Fourteen of some of Hemingway's finest short stories that examine life's different stages through Hemingway's unique perspective. Ernest Hemingway's Winner Take Nothing contains fourteen stories of varying length. Some of them have appeared in magazines but the majority have not been published

before. The characters and backgrounds are widely varied. Some stories included are “A Clean, Well-Lighted Place,” a story about one man’s night in a café; “Homage to Switzerland” concerns various conversations at a Swiss railway-station restaurant; “The Gambler, the Nun, and the Radio” is laid in the accident ward of a hospital in Western United States; and so on. Ernest Hemingway made his literary start as a short-story writer. He has always excelled in that medium, and this volume reveals him at his best.

*In Bad Faith* Andrew Levine, 2011-10-01 For readers interested in political theory and political activism, as well as anyone puzzled by the persistence of theistic conviction in the modern world, this critique of religious belief provides insightful analysis. In light of rational standards for belief acceptance that are universally acknowledged in enlightened circles, theistic convictions are deeply problematic. Thus it is not surprising that some of the most important heirs of the Enlightenment tradition—Ludwig Feuerbach, Émile Durkheim, Sigmund Freud, and Friedrich Nietzsche—wondered, implicitly, why belief in God persists and even flourishes among those who should and in some sense do know better. This book provides fresh insight into the work of those thinkers by reflecting on the explanations they proffered and on their explanatory strategies. For all their many differences, their respective explanations share a common core and are driven by a similar (largely unelaborated) normative commitment. On Levine’s account, believers today believe in bad faith—in other words, they evince a fundamental intellectual dishonesty. If only for this reason, they merit reproach, even in the comparatively rare instances when faith perspectives do more good than harm. From this standpoint, the author reflects on the liberal turn in the so-called Abrahamic religions (Judaism, Christianity, and Islam) and depicts liberal religion as a vehicle of exit for those who implicitly acknowledge the untenability of the beliefs they profess, yet are unable or unwilling to face this reality squarely. He argues that liberal religion is therefore a transitory phenomenon, albeit one that has survived for a long time and that is not about to expire soon. Levine then faults the religious Left on this account, arguing that even in those historically rare conditions where bad faith motivates welcome political engagement, it is nevertheless undermined by its deep inauthenticity.
