The Condemned of Altona Jean-Paul Sartre, 1961

Sartre and Fiction Gary Cox, 2009-04-15 *Sartre and Fiction* offers a clear and accessible introduction to the extensive fictional writings of Jean-Paul Sartre. Providing comprehensive coverage of his short stories, novels and plays, the book examines the close links between the ideas and themes in his fiction and those put forward in his formal philosophical works. Sartre wrote fiction as a means of developing and enriching his philosophical ideas. Gary Cox reveals the extent to which Sartre's fictional writings are truly philosophical and an integral part of his overall intellectual vision. He also explores the ways in which Sartre's fictional writings reflect the personal, historical and political context in which they were written. Aside from yielding a wealth of personal and historical detail, this fascinating book demonstrates that the only way to fully appreciate Sartre's grand philosophical project is to understand the man himself and the troubled times through which he

lived and wrote. Ideal for undergraduate students encountering Sartre for the first time, this book offers the first sustained introduction to Sartre's fictional oeuvre.

The Legacy of World War II in European Arthouse Cinema Sam Deighan, 2021-06-11 World War II irrevocably shaped culture--and much of cinema--in the 20th century, thanks to its devastating, global impact that changed the way we think about and portray war. This book focuses on European war films made about the war between 1945 and 1985 in countries that were occupied or invaded by the Nazis, such as Poland, France, Italy, the Soviet Union, and Germany itself. Many of these films were banned, censored, or sharply criticized at the time of their release for the radical ways they reframed the war and rejected the mythologizing of war experience as a heroic battle between the forces of good and evil. The particular films examined, made by arthouse directors like Pier Paolo Pasolini, Rainer Werner Fassbinder, and Larisa Shepitko, among many more, deviate from mainstream cinematic depictions of the war and instead present viewpoints and experiences of WWII which are often controversial or transgressive. They explore the often-complicated ways that participation in war and genocide shapes national identity and the ways that we think about bodies and sexuality, trauma, violence, power, justice, and personal responsibility--themes that continue to resonate throughout culture and global politics.

Natalie and R.J.: The Star-Crossed Love Affair of Natalie Wood and Robert Wagner Warren G. Harris, 2011-11-28 Their relationship was that of fairy tales. Their devotion so intense they wed each other not once, but twice. In the first book to focus on both Natalie Wood and Robert Wagner, the author of the bestseller *Gable & Lombard* and the critically acclaimed book *Cary Grant* gives us a scintillating portrait of this glamorous and exciting couple from their early years working for the studio system to the final, shattering hours before Natalie Wood's life tragically ended. We follow them on their roller-coaster ride of the ups and downs and the magic and the madness of this couple who became Hollywood royalty.

Theater, War, and Memory in Crisis John Ireland, 2025-03-11 Theater, War, and Memory in Crisis explores how French and Algerian dramatists have engaged with two traumatic events that continue to haunt France: the German occupation and Vichy government from 1940 to 1944 and the Algerian War from 1954 to 1962. John Ireland's investigation is guided by one central question: can theater take on issues of violence, war trauma, and conflicted memory in a fundamentally different way from archival forms of culture such as memoirs, narrative fiction, and film? Throughout the twentieth century, French cultural anthropologists, classicists, and social scientists repeatedly revisited links between archaic religious ritual, the practice of sacrifice, and Greek tragedy as attempts to understand, regulate, and mitigate the violence of human conflict and war. Ireland argues that contemporary French playwrights dealing with war trauma and contested memory were influenced by aspects of this research that foregrounded the core virtues of oral culture: presence and the present, the "here and now" that also regulate theatrical performance. That connection to the present encouraged dramatists and performance artists to make "live" historiographical contributions to reverberating, unresolved history but also revived perennial therapeutic values

of oral culture that evolved in ancient Greece. Theater, War, and Memory in Crisis brings original readings of canonical authors like Jean-Paul Sartre, Jean Genet, Bernard-Marie Koltès, and Kateb Yacine into dialogue with non-canonical dramatists such as Armand Gatti, Liliane Atlan, and Noureddine Aba.

Simone de Beauvoir's The Second Sex Ruth Evans,2024-06-04 Acknowledged by many feminists as the single most important theoretical work of the twentieth century, Simone de Beauvoir's *The Second Sex* (1949) nevertheless occupies an anomalous place in the feminist 'canon'. Yet it has had an undeniable impact, not only on the development of critiques of sexual politics but on twentieth-century western thinking about the concept of 'woman' in general. This collection of six new essays by scholars from the disciplines of French, English literature, history, cultural criticism, feminist theory and philosophy makes a valuable contribution to the task of re-reading and reassessing this enormously influential text for a new generation of feminist readers, and also for cultural theorists, for whom the question of 'the feminine' is at the centre of key debates in philosophy and postmodernity. The contributors provide a significantly new rethinking of the place of *The Second Sex* in cultural history and of women and representation, the role of 'fictions' and the problem of ethical agency in the work of the leading intellectual woman of this age.

Memory and Complicity Debarati Sanyal,2015-03-02 Since World War II, French and Francophone literature and film have repeatedly sought not to singularize the Holocaust as the paradigm of historical trauma but rather to connect its memory with other memories of violence, namely that of colonialism. These works produced what Debarati Sanyal calls a “memory-in-complicity” attuned to the gray zones that implicate different regimes of violence across history as well as those of different subject positions such as victim, perpetrator, witness, and reader/spectator. Examining a range of works from Albert Camus, Primo Levi, Alain Resnais, and Jean-Paul Sartre to Jonathan Littell, Assia Djebar, Giorgio Agamben, and Boualem Sansal, *Memory and Complicity* develops an inquiry into the political force and ethical dangers of such implications, contrasting them with contemporary models for thinking about trauma and violence and offering an extended meditation on the role of aesthetic form, especially allegory, within acts of transhistorical remembrance. What are the political benefits and ethical risks of invoking the memory of one history in order to address another? What is the role of complicity in making these connections? How does complicity, rather than affect based discourses of trauma, shame and melancholy, open a critical engagement with the violence of history? What is it about literature and film that have made them such powerful vehicles for this kind of connective memory work? As it offers new readings of some of the most celebrated and controversial novelists, filmmakers, and playwrights from the French-speaking world, *Memory and Complicity* addresses these questions in order to reframe the way we think about historical memory and its political uses today.

Arthur Miller for the Twenty-First Century Stephen Marino,David Palmer,2020-02-27 Arthur Miller for the Twenty-First Century: Contemporary Views of His Writings and Ideas brings together both established Miller experts and emerging

commentators to investigate the sources of his ongoing resonance with audiences and his place in world theatre. The collection begins by exploring Miller in the context of 20th-century American drama. Chapters discuss Miller and Eugene O'Neill, Tennessee Williams, Edward Albee, David Mamet, and Sam Shepard, as well as thematic relationships between Miller's ideas and the explosion of significant women and African American dramatists since the 1970s. Other essays focus more directly on interpretations of Miller's individual works, not only plays but also essays and fiction, including a discussion of *Death of a Salesman* in China. The volume concludes by considering Miller and current cultural issues: his work for human rights, his depiction of American ideals of masculinity, and his anticipation of contemporary posthumanism.

The Construction of Tragedy Mary Anneeta Mann, 2004 A beacon for the 21st century is an understanding of the Science of Being Altogether as practiced by the great tragic dramatists. An integral part of the art form of tragedy is deemed to be the dramatists' adherence to the philosophy of the Science of Being Altogether where the artist becomes intuitive scientist in creating a microcosm of the universe itself. Six plays *Antigone*, *Hamlet*, *King Lear*, *Murder in the Cathedral*, *A Man for All Seasons*, *The Condemned of Altona* are analyzed in similar format in *HUBRIS, The Construction of Tragedy*. Societies and forms of government may vary but humanity itself does not change significantly. *Antigone*, *Hamlet* and *Albany* in *King Lear* are deeply aware of mortals' cosmic connection and the responsibilities resultant from it. Hubris in human activity such as domination, exemplified by Creon in *Antigone*, and martyrdom extolled by More in *A Man for All Seasons* and Thomas in *Murder in the Cathedral* can be understood to be scientifically untenable and destined to be chastened or broken by the universal life force. *The Condemned of Altona* addresses the 20th century disconnect of human morality from cosmic harmony. At the end of each play's analysis, a section is devoted to its contemporary relevance. Contemporary issues as fear of dialogue, domination, martyrdom, religious fervor and ideological hatred, and the slide into hopelessness all fit into patterns of human behavior that are explored in tragedy.

Rhapsody For The Theatre Alain Badiou, 2013-09-10 For Alain Badiou, theatre—unlike cinema—is the place for the staging of a truly emancipatory collective subject. In this sense theatre is, of all the arts, the one strictly homologous to politics: both theatre and politics depend on a limited set of texts or statements, collectively enacted by a group of actors or militants, which put a limit on the excessive power of the state. This explains why the history of theatre has always been inseparable from a history of state repression and censorship. This definitive collection includes not only Badiou's pamphlet *Rhapsody for the Theatre* but also essays on Jean-Paul Sartre, on the political destiny of contemporary theatre, and on Badiou's own work as a playwright, as author of the *Ahmed Tetralogy*.

Jean-Paul Sartre and the Jewish Question Jonathan Judaken, 2006-12-01 Examines the image of the Jew in Sartre's work to rethink not only his oeuvre but also the role of the intellectual in France and the politics and ethics of existentialism. This book explores how French identity is defined through the abstraction and allegorization of the Jew.

Continuing the Revolution John Bryan Starr,2015-03-08 The author investigates the internal logic and evolution of Mao's theory in terms of various themes. Beginning with a consideration of conflict, which in Mao's view is a given and permanent component of society, Professor Starr then takes up the individual concepts of knowledge and action, authority, class and class conflict, organization, participation and representation, political education, political history, and political development. An Analysis of Jean-Paul Sartre's Plays in Théâtre complet Adrian van den Hoven,2024-08-01 An Analysis of Jean-Paul Sartre's Plays in Théâtre complet is the first volume to propose a critical analysis of all of Jean-Paul Sartre's plays as published in the Bibliothèque de la Pléiade, Paris, Gallimard, 2005. Viewing the plays in the context of Sartre's philosophy, his prose writings and works by other philosophers, novelists, and playwrights, this comprehensive volume is essential reading for students of French literature, theatre, and existentialist philosophy.

By Its Cover Ned Drew,Paul Sternberge,2005-08-11 We all know we're not supposed to judge books by their covers, but the truth is that we do just that nearly every time we walk into a bookstore or pull a book off a tightly packed shelf. It's really not something we should be ashamed about, for it reinforces something we sincerely believe: design matters. At its best, book cover design is an art that transcends the publisher's commercial imperative to reflect both an author's ideas and contemporary cultural values in a vital, intelligent, and beautiful way. In this groundbreaking and lavishly illustrated history, authors Ned Drew and Paul Sternberger establish American book cover design as a tradition of sophisticated, visual excellence that has put shape to our literary landscape. By Its Cover traces the story of the American book cover from its inception as a means of utilitarian protection for the book to its current status as an elaborately produced form of communication art. It is, at once, the intertwined story of American graphic design and American literature, and features the work of such legendary figures as Rockwell Kent, E. McKnight Kauffer, Paul Rand, Alvin Lustig, Rudy deHarak, and Roy Kuhlman along with more recent and contemporary innovators including Push Pin Studios, Chermayeff & Geismar, Karen Goldberg, Chip Kidd, and John Gall.

Literature of Possibility Paper: 1959, X, 419, CIP.LC 59-11732 ISBN: 0-8032-5229-3 Price: \$29.95 University of Nebraska Press ----- This study in humanistic existentialism is highly informative as well as entertaining. It is a scholarly, detailed analysis of the literary art, the philosophical ideas, and the psychologies of Albert Camus, Jean-Paul Sartre, and Simone de Beauvoir. It is also a competent effort to explain the positive implications for the theory of freedom and possibility which lie half buried under this literature of nothingness, alienation, and absurdity. . . . Miss Barnes makes thoroughly enjoyable reading of a subject-matter which might have seemed forbidding.--Herbert W. Schneider, *Journal of Philosophy*. Recommended unqualifiedly as the most thorough and reliable exposition of the works of Sartre, Camus, and de Beauvoir to have appeared in this country.--Willard Colston, *Chicago Sun-Times*. Those who want a real understanding of existentialism instead of the usual superficial generalizations are certain to gain it from this book.--Walter Kaufmann, *The American Scholar*. The book captures much of the forlorn dark grandeur of the existentialist vision of the human condition.--Yale Review. The philosophy of Sartre is presented accurately and with rare elegance and simplicity. . . . The section on psychoanalysis compares Sartre to Freud, then to Horney and Fromm, then to the phenomenologists. The treatment is fair-minded and careful.--Robert Champigny, *L'Esprit Crateur*.
