

The Drama Of The Gifted Child Summary

Barbara Ann Schapiro

Summary of Alice Miller's The drama of The Gifted Child Everest Media,2022-03-05T22:59:00Z Please note: This is a companion version & not the original book. Sample Book Insights: #1 The path to healing is a long one, and it involves the emotional discovery of your childhood history. If you choose instead to content yourself with intellectual wisdom, you will remain in the sphere of illusion and self-deception. #2 The repression of childhood pain influences not only the life of an individual but also the society's taboos. The typical run of biographies illustrates this very clearly. #3 The child has a need to be respected and understood from the very beginning of their life. When they are in an environment of respect and tolerance for their feelings, they are able to separate from their mother and achieve individuation and autonomy. #4 The need to be taken seriously is an important prerequisite for the healthy development of a child. If parents did not experience this climate, they will be unable to provide their child with the protection and well-being she needs to develop trust.

Summary and Analysis of Man's Search for Meaning Worth Books,2017-02-14 So much to read, so little time? This brief overview of Man's Search for Meaning tells you what you need to know—before or after you read Viktor E. Frankl's book. Crafted and edited with care, Worth Books set the standard for quality and give you the tools you need to be a well-informed reader. This short summary and analysis of Man's Search for Meaning by Viktor E. Frankl includes: Historical context Chapter-by-chapter summaries Important quotes Fascinating trivia Glossary of terms Supporting material to enhance your understanding of the original work About Man's Search for Meaning by Viktor E. Frankl: Written just after World War II, Viktor Frankl's international bestseller Man's Search for Meaning is both a heartbreaking memoir and a source of inspiration for millions of readers. Dr. Frankl's description of his time in a string of Nazi concentration camps is a fascinating, mandatory read for anyone wanting a better understanding of the Holocaust. A highly respected psychotherapist, his ideas on human emotion, the mind, mental health, tragic optimism, and the day-to-day neuroses of common people in the modern world provide spiritual guidance as each of us searches for meaning in our own lives. The summary and analysis in this ebook are intended to complement your reading experience and bring you closer to a great work of nonfiction.

Summary of Reading Investigations... William Scott Gray,1926

Passionate Women, Passive Men Janet Hadda,2012-02-01 Suicide is always a controversial issue. Among Jews, it is often taboo. Stereotypically, Jews do not commit suicide; certainly, they do not discuss it. *Passionate Women, Passive Men: Suicide*

in Yiddish Literature challenges this perception, exploring the problem of suicide through a series of literary case studies. Hadda investigates the lives of these fictional suicides, asking the question: What could be so wrong in a person's life that suicide—although forbidden by the Jewish religion—would seem preferable? Proceeding from the theoretical standpoint that the psychoanalytic process concerns narratives and their interpretations by an analyst, the author argues that the techniques of psychoanalysis may be fruitfully employed for the study of literature. Through sensitive psychoanalytic attention to narrative nuance, the author reaches surprising conclusions about the function of suicide for the characters she analyzes.

The Drama of the Gifted Child Alice Miller, 1979

Personality Theories Eric Shiraev, 2016-09-06 Personality Theories: A Global View by leading scholar Eric Shiraev takes a dynamic, integrated, and cross-cultural approach to the study of personality. The text is organized around three general questions: Where did personality theories come from? How did the theorists study facts? How do we apply personality theories now? These questions provide a consistent focus on social context, interdisciplinary science, and applications. Going beyond traditional research from the Western tradition, the book also covers theories and studies rooted in the experiences of other countries and cultures.

The Cry of Tamar Pamela Cooper-White, 2013-06-24 In this comprehensive, practical, and gripping assessment of various forms of violence against women, Pamela Cooper-White challenges the Christian churches to examine their own responses to the cry of Tamar in our time. She describes specific forms of such violence and outlines appropriate pastoral responses. The second edition of this groundbreaking work is thoroughly updated and examines not only where the church has made progress since 1995 but also where women remain at unchanged or even greater risk of violence.

Shadow Children Anthony S. Dallmann-Jones, 2011-08-17 Understanding and helping at-risk students First book to present in-depth, research-based information on at-risk students in schools today Identification and characteristics of at-risk students, and their impact on social and school environment Components and analysis of effective prevention and intervention programs Selection of Learner's Edge At-risk students present a major and growing problem in US schools today. Now in a completely updated second edition, *Shadow Children: Understanding Education's #1 Problem* provides an in-depth, research based examination of the at-risk problem and population by a leading authority. Included is a section of 5 chapters that provides guidance in prevention and intervention programs. The new edition is the primary text for Learner's Edge popular distance learning course *The Courage to Care: Working with At-Risk Students*. How can educators identify, assess, understand and help at-risk students? This book provides in-depth answers to key questions such as: Who are today's at-risk children? How do children become at-risk? What are the characteristics of at-risk children—how do they impact the social and school environment? What are the components of effective prevention and intervention programs? The answers to these and questions provided by a leading authority will help you understand and deal with the growing issue of at-risk students in

U.S. schools today.

Summary of Studies Relating to Exceptional Children Carter Victor Good, 1938

Handbook of Parenting Marc H. Bornstein, 2019-03-08 This highly anticipated third edition of the Handbook of Parenting brings together an array of field-leading experts who have worked in different ways toward understanding the many diverse aspects of parenting. Contributors to the Handbook look to the most recent research and thinking to shed light on topics every parent, professional, and policymaker wonders about. Parenting is a perennially hot topic. After all, everyone who has ever lived has been parented, and the vast majority of people become parents themselves. No wonder bookstores house shelves of how-to parenting books and magazine racks in pharmacies and airports overflow with periodicals that feature parenting advice. However, almost none of these is evidence-based. The Handbook of Parenting is. Period. Each chapter has been written to be read and absorbed in a single sitting, and includes historical considerations of the topic, a discussion of central issues and theory, a review of classical and modern research, and forecasts of future directions of theory and research. Together, the five volumes in the Handbook cover Children and Parenting, the Biology and Ecology of Parenting, Being and Becoming a Parent, Social Conditions and Applied Parenting, and the Practice of Parenting. Volume 1, Children and Parenting, considers parenthood as a functional status in the life cycle: Parents protect, nurture, and teach their progeny, even if human development is more dynamic than can be determined by parental caregiving alone. Volume 1 of the Handbook of Parenting begins with chapters concerned with how children influence parenting. Notable are their more obvious characteristics, like child age or developmental stage; but subtler ones, like child gender, physical state, temperament, mental ability, and other individual-differences factors, are also instrumental. The chapters in Part I, on Parenting across the Lifespan, discuss the unique rewards and special demands of parenting children of different ages and stages - infants, toddlers, youngsters in middle childhood, and adolescents—as well as the modern notion of parent-child relationships in emerging adulthood, adulthood, and old age. The chapters in Part II, on Parenting Children of Varying Status, discuss common issues associated with parenting children of different genders and temperaments as well as unique situations of parenting adopted and foster children and children with a variety of special needs, such as those with extreme talent, born preterm, who are socially withdrawn or aggressive, or who fall on the autistic spectrum, manifest intellectual disabilities, or suffer a chronic health condition.

The Human Odyssey Thomas Armstrong, 2019-03-20 Thomas Armstrong, Ph.D., an award-winning educator and expert on human development, offers a cross-cultural view of life's entire journey, from before birth to death to the possibilities of an afterlife. Dr. Armstrong cites both clinical research and anecdotal evidence in a comprehensive view of the challenges and opportunities we face at every stage of our development. His accessible narrative incorporates elements of history, literature, psychology, spirituality, and science in a fascinating guide to understanding our past as well as our future. - Thomas

Armstrong's *The Human Odyssey* is an extraordinary book; an intellectual feast. Armstrong has amassed and integrated an amazing amount of information from developmental and transpersonal psychology, modern consciousness research, biology, anthropology, mythology, and art, and created an extraordinary guide through all the stages of the adventure of human life. While the rich content of this book will impress professional audiences, it's clear and easy style makes it quite accessible to the general public. — Stanislav Grof, M.D., former Chief of Psychiatric Research, Maryland Psychiatric Research Center; author of *Realms of the Human Unconscious*, *Beyond the Brain: Birth, Death, and Transcendence in Psychotherapy and Adventures in Self-Discovery*

Sticks and Stones Jack Zipes, 2013-11-15 Have children ever really had a literature of their own? In *Sticks and Stones*, Jack Zipes explores children's literature, from the grizzly moralism of *Slovenly Peter* to the hugely successful *Harry Potter* books, and argues that despite common assumptions about children's books, our investment in children is paradoxically curtailing their freedom and creativity. *Sticks and Stones* is a forthright and engaging book by someone who cares deeply about what and how children read.

Out of the Nightmare David L. Conroy Ph.D., 2006-09-28 *Out of the Nightmare*. An all-out assault on the barriers that stand between you and recovery from depression and suicidal pain. decomposes recovery from depression into recovery from envy, shame, self-pity, grandiosity, fear, stigma, social abuse, and the double binds and vicious circles of the mythology of suicide. a drug-free approach to getting better and staying better. This book provides counselors with a bold new non-technical framework that is free from the prejudices that deter the suicidal from seeking help. It provides those who have lost a loved one to suicide with a broad array of new conceptual tools to understand the tragedy and to find help for stuck positions of bereavement. Most importantly, it provides all those who suffer from depression with hundreds of resources to find their way out of the nightmare.

Summary of Proceedings ,1955

Winnicott and 'Good Enough' Couple Therapy Claire Rabin, 2014-04-03 Claire Rabin innovatively applies the Winnicottian theory of the 'good enough mother' to couple therapy, redirecting attention to the therapeutic relationship and the therapist's self-awareness regardless of the methods used. Using this lens, even the therapist's mistakes become an opportunity for repairing both the therapeutic relationship and the partners' own personal maturity. The intensity and pressure of couple therapy can make each case a test of the therapist's competence. The need for neutrality constitutes on-going pressure on the therapist and the proliferation of therapeutic methods can cause confusion about which might be most useful in each situation. Applying theory effectively is easier said than done within the context of the powerful emotions unleashed in sessions, which can result in a catastrophic atmosphere. These factors can make it hard for therapists to utilise their own skills and knowledge within sessions of couple therapy. The book explores how therapists and couples can

unintentionally further 'false selves' without realising how the very tools of change may counter authenticity. Featuring interviews with an international range of couple therapists and case studies from the author's own experiences, the key aspects of the 'good enough' concept are elaborated. Rabin shows how these ideas can strengthen therapists' sense of security and safety in using their lived experience and intuition. Winnicott and Good Enough Couple Therapy is the ideal book for clinicians seeking an overarching framework for working with couples or families, as well as those concerned with the importance of the client-helper relationship.

Health Care Ethics Eileen E. Morrison, Rachel Ellison, 2025-01-07 Focused on today's critical issues from an ethical standpoint, *Health Care Ethics: Critical Issues for the 21st Century, Fifth Edition* brings together the insights of a diverse panel of leading experts in the fields of bioethics, long-term care, and health administration, and more, to examine the key issues for individuals, organizations, and society. The early chapters of this thought-provoking book offer readers a solid understanding of healthcare ethics. They cover the fundamental principles and theories that underpin healthcare ethics. Later chapters shift the focus to the pressing issues of our time, such as autonomy, the patient's right to choose, health inequities, health inequality, COVID-19, and ethical decision-making. These chapters also introduce the ethical theories, their application, and the principles that guide them.

Literature and the Relational Self Barbara Ann Schapiro, 1995-07 The relational paradigm, as a present-day development, is also particularly relevant to contemporary literature. Essays on John Updike, Toni Morrison, Ann Beattie, and Alice Hoffman examine self-other relational dynamics in their texts that reflect larger cultural patterns characteristic of our time.

Theology, Disability, and Spiritual Transformation Michael Hryniuk, 2010 In this study, Michael Hryniuk develops a full phenomenological, psychological and theological account of spiritual transformation in the context of L'Arche, a federation of Christian communities that welcome persons with learning disabilities. The book begins with a critical examination of current perspectives on spiritual transformation in theology and Christian spirituality and constructs a new, foundational formulation of transformation as a shift in consciousness, identity and behavior. Through extensive analysis of the narratives of the caregiver-assistants who share life with those who are disabled, this case-study reveals an alternative vision of the three-fold way that unfolds through a series of profound awakenings in relationships of mutual care and presence: an awakening to the capacity to love, to bear inner anguish and darkness, and to experience radical human and divine acceptance. The book examines the psychological dimensions of spiritual transformation through the lens of contemporary affect theory and explores how care-givers experience a profound healing of shame in their felt sense of identity and self-worth.

In His Steps Paul R. Henggeler, 1991-02 When Lyndon Johnson succeeded to the presidency amidst national tragedy, he took on not only the burdens of the office but the weight of the Kennedy myth—a blend of style, youth, romance, and political

charm. Yet Johnson was John Kennedy's very opposite in upbringing, manner, and temperament. Big, boisterous, intimidating, and expressive, he grew up in a land of dirt roads, bare feet, outhouses, and oil lamps while Kennedy was being raised in a sophisticated urban setting of wealth and status. In the White House, Johnson was to be haunted by the myth of Camelot. In this intimate personal and political history based on exhaustive new research, Paul Henggeler chronicles Johnson's frustrating struggle with John and Robert Kennedy. LBJ saw in them both opportunities and threats. Towards John he felt affection and respect, and often drew upon the Kennedy legacy in his conduct of the presidency. But he feared Robert as the living embodiment of that legacy and as a man determined to dethrone him. Drawing upon thousands of fresh documents as well as published sources, Mr. Henggeler has constructed a fascinating and revealing account of personalities and politics which produced dramatic upheaval at the highest levels of government.

Singing with the Sirens Ellyn Roberts Bell, Stacey Ault Bell, 2025-07-30 Numerous women in our culture have experienced shame, degradation, and despair as a result of having been sexually traumatized early in life. Some of these women end up in unhappy marriages or abusive relationships; some fall prey to a variety of addictions, silently or publicly; and some find themselves working in the sex industry. And for many survivors, their situations—and the situations that have brought them there—are secrets that have no voice. In *Singing with the Sirens*, experts Ellyn Bell and Stacey Bell address the long term complex trauma that results from the sexual abuse and exploitation of girls and young women, drawing on their personal and professional experiences to explore the link between the sexual abuse of children, issues of attachment and safety, and the commercial exploitation of young people. But this is not strictly a scholarly book or a memoir of personal experience; rather, the authors address this problem from a perspective of self-realization and transformation, taking the reader on a journey through mythological tales toward finding healing from within. Poetic, hopeful, and powerful, *Singing with the Sirens* is a call for wounded women everywhere to reclaim their own truth, spirit, and to sing with their authentic voice.

The Drama Of The Gifted Child Summary Book Review: Unveiling the Magic of Language

In a digital era where connections and knowledge reign supreme, the enchanting power of language has are more apparent than ever.
