The Fire Next Time James Baldwin, 1992-12-01 NATIONAL BESTSELLER • The book that galvanized the nation, gave voice to the emerging civil rights movement in the 1960s—and still lights the way to understanding race in America today. • The finest essay I've ever read." —Ta-Nehisi Coates At once a powerful evocation of James Baldwin's early life in Harlem and a disturbing examination of the consequences of racial injustice, the book is an intensely personal and provocative document from the iconic author of *If Beale Street Could Talk* and *Go Tell It on the Mountain*. It consists of two letters, written on the occasion of the centennial of the Emancipation Proclamation, that exhort Americans, both black and white, to attack the terrible legacy of racism. Described by The New York Times Book Review as sermon, ultimatum, confession, deposition, testament, and chronicle ... all presented in searing, brilliant prose, *The Fire Next Time* stands as a classic of literature.

The Fire Is upon Us Nicholas Buccola, 2019-10-01 A great read.—Whoopi Goldberg, *The View* How the clash between the civil rights firebrand and the father of modern conservatism continues to illuminate America's racial divide On February 18, 1965, an overflowing crowd packed the Cambridge Union in Cambridge, England, to witness a historic televised debate between James Baldwin, the leading literary voice of the civil rights movement, and William F. Buckley Jr., a fierce critic of the movement and America's most influential conservative intellectual. The topic was the American dream is at the expense of the American Negro, and no one who has seen the debate can soon forget it. Nicholas Buccola's *The Fire Is upon Us* is the first book to tell the full story of the event, the radically different paths that led Baldwin and Buckley to it, the controversies that followed, and how the debate and the decades-long clash between the men continues to illuminate America's racial

divide today. Born in New York City only fifteen months apart, the Harlem-raised Baldwin and the privileged Buckley could not have been more different, but they both rose to the height of American intellectual life during the civil rights movement. By the time they met in Cambridge, Buckley was determined to sound the alarm about a man he considered an eloquent menace. For his part, Baldwin viewed Buckley as a deluded reactionary whose popularity revealed the sickness of the American soul. The stage was set for an epic confrontation that pitted Baldwin's call for a moral revolution in race relations against Buckley's unabashed elitism and implicit commitment to white supremacy. A remarkable story of race and the American dream, *The Fire Is upon Us* reveals the deep roots and lasting legacy of a conflict that continues to haunt our politics.

Purdue at 150 David M. Hovde, Adriana Harmeyer, Neal Harmeyer, 2019-05-06 *Purdue at 150: A Visual History of Student Life* by David M. Hovde, Adriana Harmeyer, Neal Harmeyer, and Sammie L. Morris tells Purdue's story through rare images, artifacts, and words. Authors culled decades of student papers, from scrapbooks, yearbooks, letters, and newspapers to historical photographs and memorabilia preserved in the Purdue University Libraries Virginia Kelly Karnes Archives and Special Collections. Many of the images and artifacts included have never been published, presenting a unique history of the land-grant university from the student perspective. *Purdue at 150* is organized by decade, presenting a scrapbook-like experience of viewing over 400 rare photographs, documents, and artifacts alongside critical contextual information. Each chapter provides a decadal historical sketch of Purdue University, offering insight into the institution's unique culture while incorporating campus responses to major national events such as world wars and the Great Depression. Spotlight sections highlight Purdue firsts, including the first graduates of programs, the growth and development of the international student population at Purdue, the creation of significant student organizations, and the foundations of both old and new campus traditions. This curated journey through the personal experiences, spaces, and events of Purdue's history not only celebrates major accomplishments and acknowledges the contributions Purdue has made to society, but it also explores some of the challenges and tragedies that shaped Indiana's land-grant university. As a result, *Purdue at 150* connects the identity and character of the University of 1869 to the University of 2019 and beyond, as told through the stories of its students. Running throughout this journey is the enduring vision of the land-grant institution and its impact on society, as seen through the material culture of Boilermakers from around the world.

Reparations and the Theological Disciplines Michael Barram, Drew G. I. Hart, Gimbiya Kettering, Michael J.

Rhodes,2023-10-10 Historically, many churches and theologians defended and supported race-based slavery and subsequent forms of racial hierarchy and violence. The essays in Reparations and the Theological Disciplines argue that it is urgent that the theological disciplines engage the issue of reparations by revisiting Scripture and our theological traditions. The time is now for remembrance, reckoning, and repair.

Yet amidst this web, there is one line that defines our leadership journey: our through line. What is a through line? Your through line is the psychological core of your leadership story, the golden thread that connects who you are with how you lead. It links your decisions with what matters to you. As you face forward, understanding it provides an anchor in the face of uncertainty. As you uncover it, you discover that understanding who you are is instrumental in unlocking the impact of how you lead. Discover a three-part framework - reach in, reset, reach out - designed to uncover your through line. Through practical exercises, you'll identify the essence of your leadership. Through case studies and scientific research you'll understand why this matters. Armed with this clarity, you'll navigate change with confidence, lead with intention and inspire those around you. Because intentional leadership begins with clarity, purpose, and the courage to lead from within. 'This book is a great guide to rediscover, renew and celebrate the genuine.' - Ruth Dearnley OBE, President and Founder, STOP THE TRAFFIK 'If you want to connect who you are with how you lead, this book offers the clarity and heart to get you there.' No Family Is an Island Ilana M. Gershon, 2012-05-15 Government bureaucracies across the globe have become increasingly attuned in recent years to cultural diversity within their populations. Using culture as a category to process people and dispense services, however, can create its own problems and unintended consequences. In *No Family Is an Island*, a comparative ethnography of Samoan migrants living in the United States and New Zealand, Ilana Gershon investigates how and when the categories cultural and acultural become relevant for Samoans as they encounter cultural differences in churches, ritual exchanges, welfare offices, and community-based organizations. In both New Zealand and the United States, Samoan migrants are minor minorities in an ethnic constellation dominated by other minority groups. As a result, they often find themselves in contexts where the challenge is not to establish the terms of the debate but to rewrite them. To navigate complicated and often unyielding bureaucracies, they must become skilled in what Gershon calls reflexive engagement with the multiple social orders they inhabit. Those who are successful are able to parlay their own cultural expertise (their Samoanness) into an ability to subtly alter the institutions with which they interact in their everyday lives. Just as the cultural is sometimes constrained by the forces exerted by acultural institutions, so too can migrant culture reshape the bureaucracies of their new countries. Theoretically sophisticated yet highly readable, *No Family Is an Island* contributes significantly to our understanding of the modern immigrant experience of making homes abroad.

Backlash George Yancy, 2018-04-15 When George Yancy penned a New York Times op-ed entitled “Dear White America” asking white Americans to confront the ways that they benefit from racism, he knew his article would be controversial. But he was unprepared for the flood of vitriol in response. The resulting blowback played out in the national media, with critics attacking Yancy in every form possible—including death threats—and supporters rallying to his side. Despite the rhetoric of a “post-race” America, Yancy quickly discovered that racism is still alive, crude, and vicious in its expression. In *Backlash*, Yancy expands upon the original article and chronicles the ensuing controversy as he seeks to understand what it was about the op-ed that created so much rage among so many white readers. He challenges white Americans to rise above the vitriol and to develop a new empathy for the African American experience.

The Shifts and the Shocks Martin Wolf, 2014-09-11 From the chief economic commentator for the Financial Times—a brilliant tour d’horizon of the new global economy There have been many books that have sought to explain the causes and courses of the financial and economic crisis that began in 2007. *The Shifts and the Shocks* is not another detailed history of the crisis but is the most persuasive and complete account yet published of what the crisis should teach us about modern economies and economics. Written with all the intellectual command and trenchant judgment that have made Martin Wolf one of the world’s most influential economic commentators, *The Shifts and the Shocks* matches impressive analysis with no-holds-barred criticism and persuasive prescription for a more stable future. It is a book no one with an interest in global affairs will want to neglect.

Two-Year College Writing Studies Darin Jensen, Brett Griffiths, 2023-12-15 Two-Year College Writing Studies is a comprehensive overview of the two-year college writing teaching experience within our current political and historical contexts, with examples for teachers to better enact just teaching practices in their colleges. Editors Darin Jensen and Brett Griffiths present grounded, well-theorized, and practical strategies for teachers to implement in classrooms, institutions, and geopolitical contexts to advocate more effectively for their students. Contributors draw on theories of identity, rhetorical third space, and linguistics to articulate a praxis of just teaching. They describe existing institutional challenges and opportunities that foster equity and offer cautionary tales of educational systems dismantled for short-term economic and political gains. Two-year college writing studies—when properly resourced—holds the potential to foster (or undermine) democratic ideals of civic literacy and uplift. Chapters in this volume offer case study examples of changes in departmental practices for reflection, interaction, and assessment that empower faculty to break free and engage directly with institutional, regional, state, and national constraints. By making these resilient practices visible, Two-Year College Writing Studies amplifies the voices and validates the experiences of instructors engaging in this work. It will serve generalists, specialists, and academics interested in the subdiscipline of student success pedagogies and the political histories of two-year colleges and be useful for instructors new to the field, as professional development for veteran instructors, and as an introduction for graduate students entering two-year college writing studies programs.

Thinking the US South Shannon Sullivan, 2021-03-15 Knowledge emerges from contexts, which are shaped by people's experiences. The varied essays in *Thinking the US South: Contemporary Philosophy from Southern Perspectives* demonstrate that Southern identities, borders, and practices play an important but unacknowledged role in ethical, political, emotional, and global issues connected to knowledge production. Not merely one geographical region among others, the US South is sometimes a fantasy and other times a nightmare, but it is always a prominent component of the American national imaginary. In connection with the Global North and Global South, the US South provides a valuable perspective from which to explore race, class, gender, and other inter- and intra-American differences. The result is a fresh look at how identity is constituted; the role of place, ancestors, and belonging in identity formation; the impact of regional differences on what counts as political resistance; the ways that affect and emotional labor circulate; practices of boundary policing, deportation, and mourning; issues of disability and slowness; racial and other forms of suffering; and above all, the question of whether and how doing philosophy changes when done from Southern standpoints. Examining racist tropes, Indigenous land claims, Black Southern philosophical perspectives, migrant labor, and more, this incisive anthology makes clear that roots matter.

Critical Encounters in Secondary English Deborah Appleman, 2023-12-22 Grounded in solid theory with new field-tested

classroom activities, the fourth edition of *Critical Encounters in Secondary English* continues to help teachers integrate the lenses of contemporary literary theory into practices that have always defined good pedagogy. The most significant change for this edition is the addition of Critical Race Theory (CRT) as an analytical lens. CRT offers teachers fresh opportunities for interdisciplinary planning and teaching, as it lends itself to lessons that encompass a variety of disciplines such as history, sociology, psychology, and science. As with the previous edition, each chapter concludes with a list of suggested nonfiction pieces that work well for the particular lens under discussion. This popular text provides a comprehensive approach to incorporating nonfiction and informational texts into the literature classroom with new and revised classroom activities appropriate for today's students. Book Features: Helps both pre- and inservice ELA teachers introduce contemporary literary theory into their classrooms. Offers lucid and accessible explications of contemporary literary theory. Provides dozens of innovative and field-tested classroom activities. Tackles the thorny issue of Critical Race Theory in helpful and practical ways. Praise for the Third Edition "What a smart and useful book! It provides teachers with a wealth of knowledge and material to help their students develop critical perspective and suppleness of thought." —Mike Rose, University of California, Los Angeles "This Third Edition proves that Appleman still has her hand on the pulse of the rapidly changing landscape of education." —Ernest Morrell, Teachers College, Columbia University "This new edition of Deborah Appleman's now classic book demonstrates even more dramatically than previously how the critical theories she so skillfully teaches serve not only as lenses for the reading of literature, but as tools for discovering, interrogating, and challenging injustice, hypocrisy, and the hidden power relations that students are likely to encounter." —Sheridan Blau, Teachers College, Columbia University

Climate Change and Tradition in a Small Island State Peter Rudiak-Gould, 2013-07-18 The citizens of the Marshall Islands have been told that climate change will doom their country, and they have seen confirmatory omens in the land, air, and sea. This book investigates how grassroots Marshallese society has interpreted and responded to this threat as intimated by local observation, science communication, and Biblical exegesis. With grounds to dismiss or ignore the threat, Marshall Islanders have instead embraced it; with reasons to forswear guilt and responsibility, they have instead adopted in-group blame; and having been instructed that resettlement is necessary, they have vowed instead to retain the homeland. These dominant local responses can be understood as arising from a pre-existing, vigorous constellation of Marshallese ideas termed modernity the trickster: a historically inspired narrative of self-inflicted cultural decline and seduction by Euro-American modernity. This study illuminates islander agency at the intersection of the local and the global, and suggests a theory of risk perception based on ideological commitment to narratives of historical progress and decline.

The World Come of Age Lilian Calles Barger, 2018-07-02 On November 16, 2017, Pope Francis tweeted, Poverty is not an accident. It has causes that must be recognized and removed for the good of so many of our brothers and sisters. With this statement and others like it, the first Latin American pope was associated, in the minds of many, with a stream of theology

that swept the Western hemisphere in the 1960s and 70s, the movement known as liberation theology. Born of chaotic cultural crises in Latin America and the United States, liberation theology was a trans-American intellectual movement that sought to speak for those parts of society marginalized by modern politics and religion by virtue of race, class, or sex. Led by such revolutionaries as the Peruvian Catholic priest Gustavo Gutiérrez, the African American theologian James Cone, or the feminists Mary Daly and Rosemary Radford Ruether, the liberation theology movement sought to bridge the gulf between the religious values of justice and equality and political pragmatism. It combined theology with strands of radical politics, social theory, and the history and experience of subordinated groups to challenge the ideas that underwrite the hierarchical structures of an unjust society. Praised by some as a radical return to early Christian ethics and decried by others as a Marxist takeover, liberation theology has a wide-ranging, cross-sectional history that has previously gone undocumented. In *The World Come of Age*, Lilian Calles Barger offers for the first time a systematic retelling of the history of liberation theology, demonstrating how a group of theologians set the stage for a torrent of new religious activism that challenged the religious and political status quo.
