**Jennifer Speake**

The First Casualty Phillip Knightley, 2002 The most comprehensive j'accuse of journalism as propaganda in the English language... Ought to be read by every young reporter and by those who retain pride in our craft of truth-telling, not matter how unpopular or unpalatable the truth. -- John Pilger, from the Preface to the new edition The first casualty when war comes, is truth, said American Senator Hiram Johnson in 1917, and in his gripping, now-classic history of war journalism, Phillip Knightley shows just how right Johnson was. From William Howard Russell, who described the appalling conditions of the Crimean War in Times [London], to the ranks of reporters, photographers, and cameramen who captured the realities of war in Vietnam, *The First Casualty* tells a fascinating story of heroism and collusion, censorship and suppression, myth-making and propaganda. Since Vietnam, Knightley finds, governments have become much more adept at managing the media, and in new chapters on the Falklands, the Gulf War, and the former Yugoslavia, he concludes that the war correspondent's role as a seeker of truth is now in jeopardy. From reviews of the first edition: [This book] may make us all a little more free to talk about and find the truth. -- Garry Wills, New York Times Book Review Disturbing, even dismaying, yet also in its painful way, enormously entertaining. -- New Yorker

**Creating Business Magic** David Morey,Eugene Burger,John E. McLaughlin,2018-05-15 Three experts from the worlds of magic and business strategy share the secrets to conjuring innovation and shattering expectations. Your organization may employ hundreds, even thousands. You may be experiencing growth and hitting your revenue targets. But unless you are creating magic for your customers—like Disney, Apple, and Amazon—you are not the innovation leader you need to be in today's marketplace. In *Creating Business Magic*, a corporate strategist, a former acting CIA director, and a world-renowned magician share their secrets to success. Each chapter opens with a legendary magic act—from Harry Houdini to Pen and Teller—and explores how the same principles and techniques can be deployed to create a fertile environment for disruptive innovation and propel a company light years ahead of the competition. The authors illuminate the power of perception, ways to innovate, to think out of the box, break down conceptual barriers, and finally bring out the magician inside all of us.”

**Encyclopedia of Violence, Peace, and Conflict** ,2008-09-05 The 2nd edition of *Encyclopedia of Violence, Peace and Conflict* provides timely and useful information about antagonism and reconciliation in all contexts of public and personal life. Building on the highly-regarded 1st edition (1999), and publishing at a time of seemingly inexorably increasing conflict and violent behaviour the world over, the *Encyclopedia* is an essential reference for students and scholars working in the field of peace and conflict resolution studies, and for those seeking to explore alternatives to violence and share visions and strategies for social justice and social change. Covering topics as diverse as Arms Control, Peace Movements, Child Abuse, Folklore, Terrorism and Political Assassinations, the *Encyclopedia* comprehensively addresses an extensive information area in 225 multi-disciplinary, cross-referenced and authoritatively authored articles. In his Preface to the 1st edition, Editor-in-Chief Lester Kurtz wrote: The problem of violence poses such a monumental challenge at the end of the 20th century that it is surprising we have addressed it so inadequately. We have not made much progress in learning how to cooperate with one another more effectively or how to conduct our conflicts more peacefully. Instead, we have increased the lethality of our

combat through revolutions in weapons technology and military training. The Encyclopedia of Violence, Peace, and Conflict is designed to help us to take stock of our knowledge concerning these crucial phenomena. Ten years on, the need for an authoritative and cross-disciplinary approach to the great issues of violence and peace seems greater than ever. More than 200 authoritative multidisciplinary articles in a 3-volume set Many brand-new articles alongside revised and updated content from the First Edition Article outline and glossary of key terms at the beginning of each article Entries arranged alphabetically for easy access Articles written by more than 200 eminent contributors from around the world

*Religion and the Politics of Peace and Conflict* Linda Hogan, Dylan Lee Lehrke, 2009-01-01 The Connections Between Religion And Violence are Complex and multifaceted. From the conflicts in Middle East and the Balkans to those in Southeast Asia and beyond, religion frames and legitimates political violence. Moreover, in international relations since 9/11, religious language and metaphors have acquired a new significance. In this context the emerging consensus appears to be not only that violence is intrinsic to religion, but also that religions incite, legitimate, and intensify political violence. However, such an unambiguous indictment of religions is incomplete in that it fails both to appreciate significant counter examples and to recognize the diversity that exists within religions on the issue of violence, particularly the religious roots of pacifism and the ethics of non-violence. This collection explores aspects of this ambivalence between religion and violence. It focuses on traditions of legitimation and pacifism within the three monotheistic religions: Judaism, Christianity and Islam, and concludes with an examination of this ambivalence as it unfolds in each tradition's engagement with the politics of gender. The essays in this collection suggest that the tasks of ameliorating irrational fears and encouraging the recognition of irreducible interreligious complementarity are tasks that can and should be shared by Christianity, Judaism, and Islam. Moreover these traditions are replete with exemplars, both historical and contemporary, who witness to the possibilities for interreligious dialogue and understanding. For religious persons, undoubtedly, these issues are particularly challenging since they require us to confront the complexities and limitations of our own traditions while also responding to their often-radical demands. Yet

in these complexities lie the possibilities for the religions to develop a greater sense of mutual understanding. since it is in these complexities that the commonalities between the religions on the matter of political violence are found.---from the Introduction

Morals and the Media Nick Russell, 1994 Confronted daily with decisions on how to present their stories, what to write and what not to write, journalists and the media are frequently accused of sensationalizing, of choosing to report the bad news, and of misquoting those they interview. In this substantially updated edition of *Morals and the Media*, Nick Russell addresses many of the concerns the public has about the media as he examines why the media behave the way they do. He also discusses how values have been developed and applied and suggests value systems that can be used to judge special situations.

**Victorious Living** E. Stanley Jones, 2014-10-21 E. Stanley Jones wrote *Victorious Living* in 1936 to respond to inquirers who had come to him morally and spiritually defeated. They were inwardly beaten, thus outwardly ineffective. The book responds with individual and social emphases, and goes step by step, as if on a ladder, to work through the pressing questions of the inner life and how it extends outward: How do we achieve a life evidencing the peace that passes understanding, even in ourselves, let alone passing it on? What makes the difference between ordinary living and extraordinary, victorious living? How can we build a new inner strength that shines through in our outward character and relationships? Our own efforts to rise above are ineffective but by applying the power of God's Word we can close the gap between our reality and our beliefs. Each daily reading offers essential truths and eternal principles: keys to victorious living in the circumstances we encounter every day! Now this vibrant work is making a long deserved comeback, with a new foreword by Leonard Sweet.

Women, Travel Writing, and Truth Clare Broome Saunders, 2014-07-17 The issue of truth has been one of the most constant, complex, and contentious in the cultural history of travel writing. Whether the travel was undertaken in the name of exploration, pilgrimage, science, inspiration, self-discovery, or a combination of these elements, questions of veracity and authenticity inevitably arise. *Women, Travel, and Truth* is a collection of twelve essays that explore the manifold ways in which travel and truth interact in women's travel writing. Essays range in date from Lady Mary Wortley Montagu in the eighteenth century to Jamaica Kincaid in the twenty-first, across such regions as India, Italy, Norway, Siberia, Austria, the Orient, the Caribbean, China and Mexico. Topics explored include blurred distinctions of fiction and non-fiction; travel writing and politics; subjectivity; displacement, and exile. Students and academics with interests in literary studies, history, geography, history of art, and modern languages will find this book an important reference.

Beginning With Christ E. Stanley Jones, 2018-11-19 World-changers do not appear out of a vacuum. They follow the path lit by those who walk before them. E. Stanley Jones was a man who spent his life lighting the path. A missionary evangelist to India, Jones became friends with Mahatma Gandhi. Upon the assassination of Gandhi, Jones penned biography on his life. It is this biography that Dr. Martin Luther King, Jr credited with having inspired his non-violent resistance philosophy that would change the course of United States history, placing E. Stanley Jones as the link between these 20th century world-changers. E. Stanley Jones lived in and wrote for a complicated time. The 20th century saw not only the death, destruction, and horror of wars but also saw good resisting evil and the dignity of people standing together. In these complicated times of our own, these words still resonate with today. Perhaps these words can once again light the path for the world-changers of the 21st century. Abingdon Press is releasing a new compilation of E. Stanley Jones writings. *Beginning with Christ: Timeless Wisdom for Complicated Times* features selections from Jones's writings compiled by his granddaughter Anne Mathews-Younes. With a foreword from Adam Hamilton, this book offers you the companionship of the man who shared the table of fellowship with Gandhi and inspired world-changers such as Martin Luther King, Jr. and Billy Graham. This collection is timely because these reflections are timeless. *Beginning with Christ* offers you the opportunity to discover these writings for the first time or sit

again at the feet of E. Stanley Jones.

Transitional Justice and the Public Sphere Chrisje Brants, Susanne Karstedt, 2017-11-02 Transparency is a fundamental principle of justice. A cornerstone of the rule of law, it allows for public engagement and for democratic control of the decisions and actions of both the judiciary and the justice authorities. This book looks at the question of transparency within the framework of transitional justice. Bringing together scholars from across the disciplinary spectrum, the collection analyses the issue from socio-legal, cultural studies and practitioner perspectives. Taking a three-part approach, it firstly discusses basic principles guiding justice globally before exploring courts and how they make justice visible. Finally, the collection reviews the interface between law, transitional justice institutions and the public sphere.
