Christo and Jeanne-Claude Jonathan David Fineberg, Christo, Metropolitan Museum of Art (New York, N.Y.), 2004-01-01 Examines the planning stages of The Gates, an installation art project by Christo and Jeanne-Claude designed to adorn the walkways of New York's Central Park, and includes interviews with the artists.

Christo and Jeanne-Claude Burt Chernow, 2002-02-15 For forty years, Christo and Jeanne-Claude, the husband-and-wife team behind countless headline-grabbing art projects all over the world, have been challenging our view of the world - natural or man-made - by giving us wrapped creations of dizzying magnitude and daring beauty, such as 'Surrounded Islands', which consisted of enveloping eleven islands with seven square miles of hot pink material. This is the first fully authorised biography of these celebrated and controversial artists, illustrated with 50 b/w photos and one 16-page colour photo insert.

Christo and Jeanne-Claude Germano Celant, 2016 Christo and Jeanne-Claude. Water Projects, edited by Germano Celant in collaboration with con CVJ Corporation, is the title of the catalogue (published in English and Italian) released on the occasion of the exhibition by the same title, opening in Brescia at the Santa Giulia Museum, April 7, 2016. The catalogue includes Christo and Jeanne-Claude's realized and not realized large-scale projects from 1961 to 2016. Besides the famous wrapped monuments, from the Kunsthalle in Bern (1967-1968) to the Reichstag in Berlin (1971-1995), the publication also includes the barriers made with barrels or with fabric, from Wall of Oil Barrells -- The Iron Curtain in Paris (1961-62) to Valley Curtain in Rifle, Colorado (1960-62), the great inflatable objects, from 42,390 Cubic Feet Package of Minneapolis (1966) to 5600 Cubicmeter Package, Project for documenta IV in Kassel (1967-1968), and the fabric pathways, such as Wrapped Walk Ways in Kansas City (1977-1978), or doors, such as The Gates in New York (1979-2005). The seven Water Projects -- Christo and Jeanne-Claude's installations sharing a connection with water -- are considered in further depth. In these projects, from Running Fence, Sonoma and Marin Counties, California (1972-1976) to Over the River, project for the

Arkansas River, State of Colorado (1992), the artists worked establishing a close connection with natural, suburban and urban landscapes which all share a relation with water, be it an ocean, a sea, a lake or a river. Among the Water Projects we must mention The Floating Piers, an installation opening June 18 to July 3, 2016, which will allow visitors to walk across Lake Iseo and along its shores on a 3-kilometre route. By means of modular floating piers covered in shimmering yellow fabric, the installation will link the town of Sulzano on the lake's shores, to Monte Isola, also reaching the Island of San Paolo. Every work included in the catalogue is accompanied by an explanatory text with all the relevant technical and historical information, along with preparatory drawings, collages, scale models, and photographic documentation of the project's phases of ideation, preparation and realization. The catalogue, besides a rich photographic section, includes an introductory text by Germano Celant and a dialogue between the curator and Christo. The volume also comprises the artists' biography and a complete list of projects, bibliography and filmography.--

Memorial Mania Erika Doss, 2012-09-07 In the past few decades, thousands of new memorials to executed witches, victims of terrorism, and dead astronauts, along with those that pay tribute to civil rights, organ donors, and the end of Communism have dotted the American landscape. Equally ubiquitous, though until now less the subject of serious inquiry, are temporary memorials: spontaneous offerings of flowers and candles that materialize at sites of tragic and traumatic death. In *Memorial Mania*, Erika Doss argues that these memorials underscore our obsession with issues of memory and history, and the urgent desire to express—and claim—those issues in visibly public contexts. Doss shows how this desire to memorialize the past disposes itself to individual anniversaries and personal grievances, to stories of tragedy and trauma, and to the social and political agendas of diverse numbers of Americans. By offering a framework for understanding these sites, Doss engages the larger issues behind our culture of commemoration. Driven by heated struggles over identity and the politics of representation, *Memorial Mania* is a testament to the fevered pitch of public feelings in America today.

The Direct Cinema of David and Albert Maysles Jonathan B. Vogels, 2010-08-20 Boldly signifying the cultural issues of the 1960s and 1970s in groundbreaking pieces such as *Grey Gardens*, *Gimme Shelter*, and *Showman*, filmmakers and brothers David and Albert Maysles used an approach to documentary film that involved spontaneous observation of naturally occurring events. With no rehearsed footage and no preconceived plots, their revolutionary work eschewed the authoritative voice-over narrator, didactic scripts, and the traditional problem-and-solution format used by the majority of their predecessors in the genre and duly influenced subsequent directors in both fiction and nonfiction film. Their collaboration

from 1962 until David's death in 1987 wrought thirteen major works in which the brothers critiqued the concept of celebrity with unglamorous footage of iconic figures, explored how commercialism hinders communication, and questioned the possibility of seeing anything clearly in a world abounding with both real and constructed images. Jonathan B. Vogels outlines how the Maysles brothers blended a unique amalgam of direct cinema characteristics, a modern humanist aesthetic, and a collaborative working process that included other directors and editors. Looking at the films as both shapers and reflections of American culture, he points out that the works offer insights into a wide range of contemporary topics including materialism, celebrity, modern art, and the American family. In addition to describing the changes in technology that made direct cinema possible, Vogels provides careful, scene-by-scene analyses that allow for a consideration of the Maysles brothers' films as films, a tactic not frequently employed in nonfiction film studies.

Christo and Jeanne-Claude Museo d'arte moderna (Lugano, Switzerland), 2006 Nearly 40 years after their first wrapping of a public building, this book celebrates the artistic production of Christo and Jeanne-Claude, the artist-couple who came into view in the second half of the 20th century. The catalogue presents the couple's artistic evolution from 1958 to the present.

Spoil Island Charlie Hailey, 2013-08-01 Is there an allure of spoiled places? Spoil islands are overlooked places that combine dirt with paradise, waste-land with "brave new world," and wildness with human intervention. Although they are mundane products of dredging, these islands form an uninvestigated archipelago that demonstrates the potential value and contested re-valuation of landscapes of waste. To explore these islands, *Spoil Island: Reading the Makeshift Archipelago* navigates a course along the U.S. east coast, moving from New York City to Florida. Along the way, a general populace squats, picnics, and reflects on the islands, while other forces are also at work. New York City parks commissioner Robert Moses first deplores then adopts Hoffman and Swinburne Islands, UN Secretary General U Thant meditates on the East River's Belmont Island, businessman John D. MacArthur rejects the purchase of Peanut Island, artist Christo surrounds Miami's spoil islands, Key Westers debate the futures of two spoil islands that mark their sunset view, and artist Robert Smithson augments this archipelago materially and conceptually. Historical and contemporary stories highlight each island's often contradictory ecologies that pair nature with infrastructure, public concerns with private development, rationalized urbanism with artistic impulse, and order with disorder. Spoil islands put you in places you normally wouldn't—and perhaps shouldn't—be. To examine these marginalized topographies is to understand emergent concerns of twenty-first-century place-making, public space, and natural and artificial infrastructure. Today, spoil islands constitute an unprecedented public commons, where human agency and nature are inextricably linked. *Spoil Island* will be of interest to anyone working in the areas of architecture, cultural history, cultural geography, environmental studies, or environmental philosophy. Linking the islands with their environmental aesthetics, Charlie Hailey provides a lively and critical topography of places that play a part

in current events and local situations with global implications.

The Figure of the Road Christopher D. Morris, 2007 The Figure of the Road examines the metaphor of the road, way, or path in works of representative humanities disciplines (literature, religion, philosophy, visual art, popular culture) to show how writers and artists anticipated the dilemma known to contemporary deconstruction as the «aporia» or «pathless place.» This tradition exposes the solution advocated in Derrida's late thought - the search for the «tout autre» - as a negative theology and suppression of writing's freedom to allegorize these insoluble problems. The Figure of the Road concludes by tracing the bleak, Beckett-like implications of this freedom for curriculum and ethics in a world understood as wholly figural.

New Makers of Modern Culture Justin Wintle, 2016-04-22 New Makers of Modern Culture will be widely acquired by both higher education and public libraries. Bibliographies are attached to entries and there is thorough cross-referencing.

New Makers of Modern Culture Wintle Justin, 2013-05-13 New Makers of Modern Culture is the successor to the classic reference works Makers of Modern Culture and Makers of Nineteenth-Century Culture, published by Routledge in the early 1980s. The set was extremely successful and continues to be used to this day, due to the high quality of the writing, the distinguished contributors, and the cultural sensitivity shown in the selection of those individuals included. New Makers of Modern Culture takes into full account the rise and fall of reputation and influence over the last twenty-five years and the epochal changes that have occurred: the demise of Marxism and the collapse of the Soviet Union; the rise and fall of postmodernism; the eruption of Islamic fundamentalism; the triumph of the Internet. Containing over eight hundred essay-style entries, and covering the period from 1850 to the present, New Makers includes artists, writers, dramatists, architects, philosophers, anthropologists, scientists, sociologists, major political figures, composers, film-makers and many other culturally significant individuals and is thoroughly international in its purview. Next to Karl Marx is Bob Marley, next to John Ruskin is Salman Rushdie, alongside Darwin is Luigi Dallapiccola, Deng Xiaoping runs shoulders with Jacques Derrida, Julia Kristeva with Kropotkin. Once again, Wintle has enlisted the services of many distinguished writers and leading academics, such as Sam Beer, Bernard Crick, Edward Seidensticker and Paul Preston. In a few cases, for example Michael Holroyd and Philip Larkin, contributors are themselves the subject of entries. With its global reach, New Makers of Modern Culture provides a multi-voiced witness of the contemporary thinking world. The entries carry short bibliographies and there is thorough cross-referencing. There is an index of names and key terms.

Madonna Mary Gabriel, 2023-10-10 New York Times Editors' Choice, One of NPR's Best Books of the Year In this "infinitely readable" biography, award-winning author Mary Gabriel chronicles the meteoric rise and enduring influence of the greatest female pop icon of the modern era: Madonna (People Magazine) With her arrival on the music scene in the early

1980s, Madonna generated nothing short of an explosion—as great as that of Elvis or the Beatles—taking the nation by storm with her liberated politics and breathtaking talent. Within two years of her 1983 debut album, a flagship Macy's store in Manhattan held a Madonna lookalike contest featuring Andy Warhol as a judge, and opened a department called “Madonna-land.” But Madonna was more than just a pop star. Everywhere, fans gravitated to her as an emblem of a new age, one in which feminism could shed the buttoned-down demeanor of the 1970s and feel relevant to a new generation. Amid the scourge of AIDS, she brought queer identities into the mainstream, fiercely defending a person's right to love whomever—and be whoever—they wanted. Despite fierce criticism, she never separated her music from her political activism. And, as an artist, she never stopped experimenting. Madonna existed to push past boundaries by creating provocative, visionary music, videos, films, and live performances that changed culture globally. Deftly tracing Madonna's story from her Michigan roots to her rise to super-stardom, master biographer Mary Gabriel captures the dramatic life and achievements of one of the greatest artists of our time.

Immaterial Architecture Jonathan Hill, 2006-04-18 This fascinating argument from Jonathan Hill presents the case for the significance and importance of the immaterial in architecture. Architecture is generally perceived as the solid, physical matter that it unarguably creates, but what of the spaces it creates? This issue drives Hill's explorative look at the immaterial aspects of architecture. The book discusses the pressures on architecture and the architectural profession to be respectively solid matter and solid practice and considers concepts that align architecture with the immaterial, such as the superiority of ideas over matter, command of drawing and design of spaces and surfaces. Focusing on immaterial architecture as the perceived absence of matter, Hill devises new means to explore the creativity of both the user and the architect, advocating an architecture that fuses the immaterial and the material and considers its consequences, challenging preconceptions about architecture, its practice, purpose, matter and use. This is a useful and innovative read that encourages architects and students to think beyond established theory and practice.

Art of the 20th century Dorothea Eimert, 2016-03-09 The 20th century was a revolutionary period in art history. In the span of a few short years, Modernism exploded into being, disrupting centuries of classical figurative tradition to create something entirely new. This astoundingly thorough survey of art's modern era showcases all of the key artistic movements of the 20th century, from Fauvism to Pop Art, featuring illustrative examples of some of the most renowned works of the era along with illuminating companion essays by expert critics and art historians. A vivid window into the collective psyche of the modern world's great artists, *Art of the 20th Century* is a must-have for any fan of contemporary art.
