Essentials of Contemporary Management Gareth Jones, Jennifer George, 2010-01-21 Jones/George, Essentials of Contemporary Management is the concise edition of the market bestselling textbook by the same author team. Jones and George are dedicated to the challenge of “Making It Real” for students. The authors present management in a way that makes its relevance obvious even to students who might lack exposure to a “real-life” management context. This is accomplished thru a diverse set of examples, and the unique, and most popular feature of the text, the “Manager as a Person” Chapter 2. This chapter discusses managers as real people with their own personalities, strengths, weaknesses, opportunities, and problems and this theme is carried thru the remaining chapters. This text also discusses the importance of management competencies--the specific set of skills, abilities, and experiences that gives one manager the ability to perform at a higher level than another in a specific context. The themes of diversity, ethics, globalization, and information technology are integrated throughout.

Loose Leaf for Contemporary Management Gareth R. Jones, Jennifer M. George, 2021-02-10 Contemporary Management 12e mirrors the changes taking place in today's management practice by incorporating recent developments in management theory and research. It provides current examples of how managers of companies, large and small, address the challenges and opportunities they face and how they can effectively meet them. Seamlessly integrated into the narrative is the boxed material.

Contemporary Management Dianne Waddell, Jennifer Devine, Gareth R. Jones, Jennifer M. George, 2006-09-20 The world of managing people and processes continues to change dramatically. Managers are faced with the conflicting challenges of understanding and motivating an increasingly diverse workforce, being open and accountable to a wide variety of stakeholders, planning for the future in an increasingly changing environment and considering the ethical implications of decision-making. Contemporary Management offers a fresh and integrative view of the manager in the workplace in line with this changing environment. It views the manager as a person, working with people and within an organisation, and holding values and ethics. As such, modern issues such as diversity, cultural change and global management are given careful

attention. Management is an integrated and sometimes intricate balance of dealing with people within an organisational context. For students, the prospect of managing others can be particularly daunting. Contemporary Management is written with the student in mind, with many current case studies, exercises and support materials included. In this thoroughly modern text, students learn that successful human interaction and communication are the real basis for effective and efficient management in business.
