Offending Youth Kerry Carrington, Margaret Pereira, 2009 Rates of female delinquency, especially for violent crimes, are increasing in most common law countries. At the same time the growth in cyber-bullying, especially among girls, appears to be a related global phenomenon. While the gender gap in delinquency is narrowing in Australia, United States, Canada and the United Kingdom, boys continue to dominate the youth who commit crime and have a virtual monopoly over sexually violent crimes. Indigenous youth continue to be vastly over-represented in the juvenile justice system in every Australian jurisdiction. The Indigenisation of delinquency is a persistent problem in other countries such as Canada and New Zealand. Young people who gather in public places are susceptible to being perceived as somehow threatening or riotous, attracting more than their share of public order policing. Professional football has been marred by repeated scandals involving sexual assault, violence and drunkenness. Given the cultural significance of footballers as role models to thousands, if not millions, of young men around the world, it is vitally important to address this problem. *Offending Youth* explores these key contemporary patterns of delinquency, the response to these by the juvenile justice agencies and moreover what can be done to address these problems. The book also analyses the major policy and legislative changes from the nineteenth to twenty first centuries, chiefly the shift the penal welfarism to diversion and restorative justice. Using original cases studied by Carrington twenty years ago, *Offending Youth* illustrates how penal welfarism criminalised young people from socially marginal backgrounds, especially Aboriginal children, children from single parent families, family-less children, state wards and young people living in poverty or in housing commission estates. A number of inquiries in Australia and the United Kingdom have since established that children committed to these institutions, supposedly for their own good, experienced systemic physical, sexual and psychological abuse during their institutionalisation. The book is dedicated to the survivors of these institutions who only now are receiving official recognition of the injustices they suffered. The underlying philosophy of juvenile justice has fundamentally shifted away from penal welfarism to embrace positive policy responses to juvenile crime, such as youth conferencing, cautions, warnings, restorative justice, circle sentencing and diversion examined in the concluding chapter. *Offending Youth* is aimed at a broad readership including policy makers, juvenile justice professionals, youth workers, families, teachers, politicians as well as students and academics in criminology, policing, gender studies, masculinity studies, Indigenous studies, justice studies, youth studies and the sociology of youth and deviance more

generally.

Mobile Communication Rich Ling, Scott W. Campbell, 2011-12-31 Mobile Communication covers a wide range of topics. These include the replacement of co-present interaction with mediated contact and analysis of mobile-based cohesion and gender. The authors also explore the role of media choice and its effect on the quality as well as quantity of social cohesion. Other topics include mobile communication and communities of interest; and mobile communication, cohesion, and youth. This volume brings together scholars from around the world to consider how mobile communication both builds and destroys our sense of social cohesion. There is no question that uses of technology can lead to increased cohesion within personal communities. For example, this volume includes research on caravan couples in Australia, factory workers in China, young couples in Germany, citizens in Slovenia, and sports clubs in Ireland. It also includes research on drunken calls between university students in the US, calls of international students in Switzerland and communications between immigrant women in Melbourne, Australia. However, the contributors also argue that as social networks become inundated with mobile communication users, these users may become increasingly isolated and social division can ensue.

Riots Matthew Moran, David Waddington, 2016-05-14 The past ten years have been marked by a series of high profile and heavily mediated riots across the globe. From the overspill of racial tensions in Sydney to anti-police riots in London, democratic societies have witnessed powerful and costly outbursts of anger and violence. But what are the causes of these large-scale episodes of collective disorder? Do they share common features? And what can they tell us about the nature and significance of riots more broadly? In this book, the authors address these questions and more with a wide-ranging comparative study of rioting in five countries (Australia, England, France, Greece and the United States). Using a revised and expanded version of the Flashpoints Model of Public Disorder, Matthew Moran and David Waddington dissect these violent and ephemeral social phenomena, laying bare their internal logic and demonstrating the essentially political nature of riots.

Promoting Democracy Abroad Peter Burnell, 2017-09-08 Promoting democracy has grown from a small, little-known activity to a high-profile endeavor. It now involves academia, think tanks, and the popular media. The number of countries and organizations, inter-governmental, non-governmental, as well as governmental involved in supporting the spread of democracy is now legion. Countries touched by these efforts include a majority of all the world's states and some independent territories that are not yet fully sovereign. The definitional boundaries between promoting democracy and international advocacy and defense of human rights and good governance are not precise. Similarly, the concept of promoting democracy itself is not uniformly accepted. It has become a slogan that attracts both fervent support and grave condemnation. For Burnell, promoting democracy refers to a wide range of non-coercive attempts to spread democracy abroad for whatever reason. At its heart, it is political intervention in the domestic affairs of other countries that seeks to affect the distribution of power, whether by patient and non-violent involvement or more urgent action, democracy assistance

projects form a core activity. Burnell holds that participation in the democracy assistance industry will continue to grow. However, the industry's progress up until now has in part been contingent on the progress of democratization itself. The slowdown that is currently happening in the advance of freedom and democracy around the world, and the strength shown by leading authoritarian or semi-authoritarian regimes, must raise questions about the outlook for democracy promotion. If democracy promotion and assistance are to be fit for the future, then the need for a broadly based, appropriately contextualized examination of the policy and the performance is greater now than at any time in the past.

Ocean to Outback Keith Jacobs, Jeff Malpas, 2011 Many debates that continue to ignite and divide Australians stem from notions of nationality and citizenship, ethnicity and multiculturalism, community and place. In *Ocean to Outback*, eleven authors address these topics as real concerns for groups and communities. In an increasingly fractious and unstable world, the need for such an investigation is paramount if we are to find ways of negotiating and working through the conflicts and tensions that arise, such as the 2005 Cronulla riots. Issues that have plagued Australian society in recent years, such as immigration, the treatment of refugees, national identity and the meaning of terrorism, are better understood through the lens of cosmopolitanism as we think about our relation to, and place in, the wider world. Viewed as an ongoing political project, cosmopolitanism has important implications for Australia's sense of connection to the rest of the globe, and this book offers a positive approach to contemporary politics and society.--Publisher's website.

Understanding Racism in a Post-Racial World Sunshine Kamaloni, 2019-02-27 This book addresses the question: how can we talk about race in a world that is considered post-racial, a world where race doesn't exist? Kamaloni engages with the tradition of everyday racism and traces the process of racialisation through the interaction of bodies in space. Exploring the embodied experience exposes the idea of post-racialism as a response to continued cultural anxieties about race and the desire to erase it. *Understanding Racism in a Post-Racial World* presents a broader question about what everyday encounters about race might tell us about the current cultural construction of race. The book provides a much-needed investigation of the intersection of race, bodies and space as a critical part of how bodies and spaces become racialised, and will be of value to students and scholars interested in understanding and discussing race across interdisciplinary areas such as cultural studies, communication, gender studies, geography, body studies, literature studies and urban studies.

Racist Victimization Georgios Antonopoulos, 2016-04-08 This book investigates the phenomenon of racist victimization in a number of countries, uncovering and analyzing its historical roots, its relation to the legal system in a particular national context, its extent and the response to it. Through the international comparative approach adopted and the broad geographical range of studies presented, including national settings which have so far been largely ignored by the literature on racist victimization, the volume offers a truly international perspective on an important social, political and academic

issue. As such, *Racist Victimization: International Reflections and Perspectives* will constitute essential reading not only for sociologists and socio-legal scholars, but for anyone working in the field of race and ethnicity, crime and justice, criminology, victimology or policing.

Migrant Men Mike Donaldson, Raymond Hibbins, Richard Howson, Bob Pease, 2009-09-11 This edited volume contributes an important collection of chapters to the growing theoretical and empirical work being undertaken at the international level on men and migration. The chapters presented here focus on what we might call 'migratory masculinities': the experiences men have of masculinity upon immigration into another national, ethnic, and cultural context. How do these men (re)construct their conceptions of masculinity? Where are the points of tension, ambivalence or assimilation in this process? Featuring interviews and data drawn from migrants working and living in Australia, this book explores how the gender identity of men from non-English-speaking backgrounds is influenced by the experiences of migration and settlement in an English-speaking culture, across various cultural spheres such as work, leisure, family life and religion.

The rich content features an exploration of the politics and personalities of Bollywood, a look at how baseball became a huge phenomenon in Taiwan and Japan, the ways in which censorship affects social media use in these regions, and the influence of the United States on the movies, music, and Internet in Asia. Topics include contemporary literature, movies, television and radio, the Internet, sports, video games, and fashion. Brief overviews of each topic precede entries featuring key musicians, songs, published works, actors and actresses, popular websites, top athletes, video games, and clothing fads and designers. My Mother's Table Nelia Hyndman-Rizk, 2011-05-25 In the era of globalisation, studies of migration focus on mobility, deterritorialised identities and diasporic forms of belonging across nation state boundaries. Indeed, uprootedness from the soil of home and place has resulted in a general condition of 'homelessness' in late modernity, referred to as the diasporic condition. This study explores the construction of home amongst immigrants from Hadchit and their descendants in Australia and America and shows how their strategies of home-building depend upon the capacity to imagine themselves as being united by kinship, a shared village of origins and as part of the broader communal Maronite identity (Mwarne), which now transcends nation state boundaries. Patrilineage (bayt), village (day'aa) and sect (ta'eefa) have historically defined Lebanese sectarian identities and now, as this study shows, are deployed as a strategy of home-building and community construction in

diaspora. However, capitalist social relations of production in Australia and America have transformed bayt, day'aa and ta'eefa amongst the second, third and fourth generations through the gendered renegotiation of the marriage contract from relations of descent to relations of consent. Thus, the Hadchitis now face a crisis of (re)production and attribute this, in the case of Australia, to the state being hukum niswen, ruled by women, an inversion of the gendered order of power in Lebanon. Through pilgrimages to the ancestral village, however, émigrés seek a spiritual resolution to the contradictions of migration through the restoration of their connection to place, but find they cannot seamlessly belong in Hadchit. Meanwhile, multicultural crisis and a milieu of anti-Lebanese racism limit their claims to national belonging in Australia and America. This study finds, therefore, that the contradictions of the migration process are unresolvable through physical mobility, because the feeling of 'home' is a metaphysical state of being, which transcends place and is defined by its affective, social and spiritual dimensions. The elusive quality that defines home and provides a sense of unconditional belonging is, in fact, socially constructed by women, through their daily practices of care within the home and the most important woman for the construction of homeliness is the matriarch, sit el bayt—the power of the house. Thus, the place where the immigrant can be at home is metaphorically at their 'mother's table.'

The Psychosocial Imaginaries of Defence Nationalism Liam Gillespie, 2020-10-20 The Psychosocial Imaginaries of Defence Nationalism interrogates the emergence of far-right nationalist 'defence leagues' in Australia and the UK. Throughout the book, Liam Gillespie refers to these groups as defence nationalists: that is, as nationalists who imagine themselves as defenders of the nation and therefore national subjects par excellence. Drawing on original research, psychoanalytic and psychosocial theory—and particularly the work of Jacques Lacan—the author explores the narratives, imaginaries and subjectivities that sustain these groups, as well as the narratives, imaginaries and subjectivities these groups sustain. He argues that unlike other nationalist groups, defence nationalists are not primarily concerned with realising their avowed political projects. Instead, they are concerned with constructing and then enjoying themselves as the nation's self-ordained defenders. This means that which threatens the nation can paradoxically have a fortifying effect upon defence nationalists, legitimising and securing both the way they see themselves, and the position they see themselves occupying with/in the nation. The Psychosocial Imaginaries of Defence Nationalism will be of interest to anyone concerned with critical theorisations of contemporary nationalism, as well as with the application of psychoanalytic and psychosocial theory to social, cultural and political analysis.

Social Cohesion in Australia James Jupp, John Nieuwenhuysen, Emma Dawson, 2007-09-19 Australia's reputation as a successful large scale immigrant-receiving nation is well formed. In the latest wave, not only have millions of diverse people arrived in the post-war period from 1945 to a growing, high income, good employment economy; but the society absorbing them has remained stable and cohesive. This is not to say that it has been entirely plain sailing - sensitive debate, isolated

interethnic violence, and the degree of migrant ghettoisation have been prominent, though varying in intensity over time. But overall, the planned program of immigration and settlement by Australia's governments over the years has been successful. This volume examines key elements of the means by which social cohesion can be constructively sought in Australia. With contributions from some of Australia's leading experts in this field, this book addresses the key concern: what are the threats to Australia's social cohesion and how can they be countered?

Framing Globalization Patrizia Faccioli, Jacqueline A. Gibbons, 2009-03-26 The book presents a collection of readings to reflect and develop the varied and dynamic interfaces of globalization: the global and local. The purpose is to identify how global and local dimensions intersect with cultural construction and processes of identity. How do the images around us challenge us in everyday life? We are surrounded by a multitude of images in cultural contexts, with rich semiotic signs and symbols, manifest in posters, graffiti, advertising, the media, photographs, religious representation, sculpture, and myriad art forms. In the context of this assortment of representations, we explore visual sociological threads and constructs that emerge from issues evoked by modern ideas about globalization. This important contemporary theme is moved by the parameters of visual sociology, whereby photographic images in various contexts illustrate, reflect, and generate sociological concepts and theories. The collected writings point to a global stage, as we are guided through lands such as Australia, Britain, Canada, Egypt, France, Italy, and Lithuania, in the quest to understand globalization through prisms such as community, class, gender, ethnicity, and religious background. The book addresses the role of visual communication in an examination of these various theoretical facets, and explores ways in which individuals and institutions exchange information about themselves, their identities, their values, and their ideas of belongingness in the varied guises of culture.

Poster Boy Peter Drew, 2019-08-06 When you're sneaking around the city at night you feel like a kid again. The seriousness of the world is unmasked as a series of facades, dead objects just waiting to be painted. I was immediately hooked. Out on the street I could say anything I wanted. So what did I want to say? Peter Drew's posters are a familiar sight across Australia - his 'Real Australians Say Welcome' and 'Aussie' campaigns took on lives of their own, attaining cult status and starting conversations all over the country. But who made them, and why? In this irresistible and unexpected memoir, Peter Drew searches for the answers to these questions. He traces the links between his creative and personal lives, and discovers surprising parallels between Australia's dark, unacknowledged past and the unspoken conflict at the core of his own family. Packed full of Peter Drew's memorable images, Poster Boy is an intelligent, funny and brutally honest dive into the stew of individual, family and national identity. It's about politics and art, and why we need them both. And it's about making a mark. 'Peter Drew's work changes how we see our streets and country, as well as activism and art. Be warned: This galvanising book might propel you to start a movement yourself.' —Benjamin Law 'An unflinching look at modern Australia, Poster Boy is a tale literally told from the streets. It is a stark story where the villains blend in with those devoted to pushing

for change. This book floored me.' —Osher Günsberg 'To read Poster Boy is to experience the life-enriching idea that one person can make real change. Then wait for the minute, the day, the week, when the afterglow of his story works its magic on your own simple deeds. From little things, big things truly grow.' —Megan Morton 'An insightful look into the life and mind of one of Australia's most progressive and forthright artists of our generation.' —Nick Mitzevich, director of the National Gallery of Australia

Heroes, villains and the muslim exception Mehal Krayem, 2017-12-18 Heroes, Villains and the Muslim Exception explores recent crime drama film and television depictions of Arab and Muslim men in Australia. It examines the representation of three Australian productions: East West 101, The Combination and Cedar Boys. Since 2007 Australia has seen a notable increase in the inclusion of Arab and Muslim male characters in various serials and films, but what do these inclusions mean for the place of Arab and Muslim men in Australia today? This book seeks to understand how these representations are constructed and whether they are as progressive and edgy as producers and media responses would suggest. This book explores the extent to which cultural productions such as East West 101, The Combination and Cedar Boys open up a space for new understandings of the place of Arab and Muslim Australians in contemporary Australia. Importantly it considers the role of the Special Broadcasting Service in the plight of anti-racism. Islamic Studies Series - Volume 23

Examining Political Violence David Lowe, Austin Turk, Dilip K. Das, 2013-12-13 A collection of works, some previously published as articles in the journal *Police Practice and Research*, this book provides both conceptual analysis and case studies, exploring historical and sociopolitical contexts of conflicts in order to help readers better understand these themes. The book defines the concepts of terrorism and radicalization, discusses countering terrorism through intelligence gathering, and examines different policing models. The conclusions drawn from these findings may assist in combating terrorism and

political violence around the world. This book is a co-publication with the International Police Executive Symposium (IPES).

Adapting Idols: Authenticity, Identity and Performance in a Global Television Format Joost de Bruin, 2016-03-16
Since the first series of Pop Idol aired in the UK just over a decade ago, Idols television shows have been broadcast in more than forty countries all over the world. In all those countries the global Idols format has been adapted to local cultures and production contexts, resulting in a plethora of different versions, ranging from the Dutch Idols to the Pan-Arab Super Star and from Nigerian Idol to the international blockbuster American Idol. Despite its worldwide success and widespread journalistic coverage, the Idols phenomenon has received only limited academic attention. *Adapting Idols: Authenticity, Identity and Performance in a Global Television Format* brings together original studies from scholars in different parts of the world to identify and evaluate the productive dimensions of Idols. As one of the world's most successful television formats, Idols offers a unique case for the study of cultural globalization. Chapters discuss how Idols shows address particular national or regional identity politics and how Idols is consumed by audiences in different territories. This book illustrates that even though the same television format is used in countries all over the globe, practices of adaptation can still result in the creation of unique local cultural products.
