More recently, studies have begun to evaluate the works of established women writers such as Sor Juana Iné

Darling, 2008-04-28 This book compares rebel media use in three Mesoamerican rebellions: the Nicaraguan Revolution, the Salvadoran civil war and the Zapatista uprising in Chiapas, Mexico. Educational Alternatives in Latin America Robert Aman, Timothy Ireland, 2019-04-16 This book explores diverse contemporary paradigms of educational praxis and learning in Latin America, both formal and non-formal. Each contributor

offers a unique perspective on the factors which lead to the production of paradigms rooted in 'other' logics, cosmologies, and realities, and how these factors may renegotiate and redefine concepts of education, learning, and knowledge. The various chapters provide a road map for scholars, activists, artists, students, organizations, and social movements to help begin to construct learning spaces that seek to engage with a new more horizontal form of participatory democracy.

Handbook of Latin American Studies Dolores Moyano Martin, 1999-01-01 Beginning with volume 41 (1979), the University of Texas Press became the publisher of the Handbook of Latin American Studies, the most comprehensive annual bibliography in the field. Compiled by the Hispanic Division of the Library of Congress and annotated by a corps of more than 130 specialists in various disciplines, the Handbook alternates from year to year between social sciences and humanities. The Handbook annotates works on Mexico, Central America, the Caribbean and the Guianas, Spanish South America, and Brazil, as well as materials covering Latin America as a whole. Most of the subsections are preceded by introductory essays that serve as biannual evaluations of the literature and research under way in specialized areas. The Handbook of Latin American Studies is the oldest continuing reference work in the field. Dolores Moyano Martin, of the Library of Congress Hispanic Division, has been the editor since 1977, and P. Sue Mundell was assistant editor from 1994 to 1998. The subject categories for Volume 56 are as follows: ∑ Electronic Resources for the Humanities ∑ Art ∑ History (including ethnohistory) ∑ Literature (including translations from the Spanish and Portuguese) ∑ Philosophy: Latin American Thought ∑ Music

Sexuality and the Unnatural in Colonial Latin America Zeb Tortorici, 2016-02-09 Sexuality and the Unnatural in Colonial Latin America brings together a broad community of scholars to explore the history of illicit and alternative sexualities in Latin America's colonial and early national periods. Together the essays examine how the unnatural came to inscribe certain sexual acts and desires as criminal and sinful, including acts officially deemed to be "against nature"—sodomy, bestiality, and masturbation—along with others that approximated the unnatural—hermaphroditism, incest, sex with the devil, solicitation in the confessional, erotic religious visions, and the desecration of holy images. In doing so, this anthology makes important and necessary contributions to the historiography of gender and sexuality. Amid the growing politicized interest in broader LGBTQ movements in Latin America, the essays also show how these legal codes endured to make their way into post-independence Latin America.

National Identities and Socio-Political Changes in Latin America Antonio Gomez-Moriana, Mercedes Duran-Cogan, 2013-10-31 This study frames the social dynamics of Latin American in terms of two types of cultural momentum: foundational momentum and the momentum of global order in contemporary Latin America.

Women in Contemporary Latin American Novels Beatriz L. Botero, 2017-11-16 This book explores the relationship between psychoanalysis, literary criticism and contemporary literature. Focusing on Latin America, and using examples from Brazilian, Colombian, Chilean, Puerto Rican, and Mexican literature, it provides an important account of why gendered

violence occurs and how it is portrayed. In the novels discussed, the protagonists express similar fears, passions and illnesses that are present in contemporary Latin America. Psychoanalysis and literary criticism offer us an interpretative framework to understand these voices, especially those that are in the margin. Women, particularly, as part of a globalized labor force, express through their bodies social problems that range from the erotic use of the body in a hypersexualized world, to the body as a receptacle of violence that expresses the death drive. This book is a fascinating contribution to literary, gender, and cultural studies.

Municipal Forest Management in Latin America Lyès Ferroukhi, 2003 The book was written for three different purposes: (i) better understand the types of powers assigned to municipalities to this day, (ii) better understand the increasingly important role played by municipalities in forest management, (iii) analyze the opportunities that were created and the challenges faced by the decentralization processes in the region. The book compiles findings from in-depth studies conducted in 6 countries: Bolivia, Brazil, Costa Rica, Nicaragua, Honduras and Guatemala. It uncovers some significant forest management schemes initiated by municipalities on the regional, na.

Latin American Women Writers: An Encyclopedia María Claudia André, Eva Paulino Bueno, 2014-01-09 Latin American Women Writers: An Encyclopedia presents the lives and critical works of over 170 women writers in Latin America between the sixteenth and twentieth centuries. This features thematic entries as well as biographies of female writers whose works were originally published in Spanish or Portuguese, and who have had an impact on literary, political, and social studies. Focusing on drama, poetry, and fiction, this work includes authors who have published at least three literary texts that have had a significant impact on Latin American literature and culture. Each entry is followed by extensive bibliographic references, including primary and secondary sources. Coverage consists of critical appreciation and analysis of the writers' works. Brief biographical data is included, but the main focus is on the meanings and contexts of the works as well as their cultural and political impact. In addition to author entries, other themes are explored, such as humor in contemporary Latin American fiction, lesbian literature in Latin America, magic, realism, or mother images in Latin American literature. The aim is to provide a unique, thorough, scholarly survey of women writers and their works in Latin America. This Encyclopedia will be of interest to both to the student of literature as well as to any reader interested in understanding more about Latin American culture, literature, and how women have represented gender and national issues throughout the centuries.

Urban Chroniclers in Modern Latin America Viviane Mahieux, 2013-11-06 An unstructured genre that blends high aesthetic standards with nonfiction commentary, the journalistic *crónica*, or chronicle, has played a vital role in Latin American urban life since the nineteenth century. Drawing on extensive archival research, Viviane Mahieux delivers new

testimony on how chroniclers engaged with modernity in Mexico City, Buenos Aires, and São Paulo during the 1920s and 1930s, a time when avant-garde movements transformed writers' and readers' conceptions of literature. *Urban Chroniclers in Modern Latin America: The Shared Intimacy of Everyday Life* examines the work of extraordinary raconteurs Salvador Novo, Cube Bonifant, Roberto Arlt, Alfonsina Storni, and Mário de Andrade, restoring the original newspaper contexts in which their articles first emerged. Each of these writers guided their readers through a constantly changing cityscape and advised them on matters of cultural taste, using their ties to journalism and their participation in urban practice to share accessible wisdom and establish their role as intellectual arbiters. The intimate ties they developed with their audience fostered a permeable concept of literature that would pave the way for overtly politically engaged chroniclers of the 1960s and 1970s. Providing comparative analysis as well as reflection on the evolution of this important genre, *Urban Chroniclers in Modern Latin America* is the first systematic study of the Latin American writers who forged a new reading public in the early twentieth century.

Twentieth-Century Latin American Poetry Stephen Tapscott, 1996 Large anthology includes work by 58 poets. Extensive, but general, introduction. Poets arranged chronologically from Josê Martâi to Marjorie Agosâin. Volume includes few surprises and relatively few women. Bilingual format. Many translators; great fluctuation in quality. For detailed discussion of translations, see Charles Tomlinson in *Times Literary Supplement*, May 9, 1997; and Eliot Weinberger in *Sulfur*, 40, Spring 1997--*Handbook of Latin American Studies*, v. 58.

Youth Violence in Latin America G. Jones, 2009-10-26 This volume provides a systematic overview of the contemporary Latin American youth violence phenomenon. The authors focus specifically on youth gangs, juvenile justice issues, and applied research concerns, providing a rounded and balanced exploration of this increasingly important topic.

Handbook of Latin American Studies, 1944 Contains scholarly evaluations of books and book chapters as well as conference papers and articles published worldwide in the field of Latin American studies. Covers social sciences and the humanities in alternate years.

Mining and Mining Laws of Latin America International Bureau of the American Republics, 1892

The Entrepreneurial Research University in Latin America Pedro Pineda, 2016-04-08 The Entrepreneurial Research University in Latin America examines the fascinating clashes between the Latin American tradition and the influence of new globalized forms of organization represented by entrepreneurial university models. With particular emphasis on the governance of university research, the author aims to answer key questions: Why and how do local traditions or global forces shape structural and cultural organizational change? Are these changes necessarily related to the improvement of the quality of teaching and research?
