Legalising Prostitution in Thailand Jason Hung, 2023-12-23 This book problematises the socioeconomic and institutional construction of prostitution in Thai contexts, identifying the root causes that propel underprivileged, discriminated and deprived women and girls to enter the sex industry. The author considers Thailand's tolerance of prostitution and sex trafficking, despite criminalising prostitution since 1960. In doing so, they explain how criminalising prostitution does not lower the odds of women and girls engaging in commercial sex, but rather, legally marginalises them from receiving the necessary social and healthcare support. The book highlights that neither can Thailand pragmatically practice a zero-tolerance stance against prostitution - primarily due to severe police corruption and its heavy reliance on the sex tourism economy to support the national economic growth - nor is Thailand willing to fully crack down on the domestic sex industry. Engaging in an evaluation of how legalising and decriminalising prostitution, along with continuing to implement policies and interventions that alleviate the root causes of prostitution, can help Thailand build a more inclusive society and less-prostitution-reliant economy in the long term, the book provides a nuanced understanding of the relationships between society, inequality, governance, criminality, and policy in Southeast Asian contexts. It is relevant to students and researchers in sociology, socio-criminology, public policy, government and Southeast Asian studies.

Human Trafficking in Thailand Siroj Sorajjakool, 2013-10-15 Few subjects elicit greater moral outrage than human trafficking. Media reports of dehumanizing practices such as slavery, abduction, child prostitution, and torture, along with shocking statistics, form the basis of public knowledge. Those who work closely with victims acknowledge the complexity of the issue, and it is this complexity, rather than loose statistics and conjecture, that deserves our attention. With sensitivity and candor, this book addresses the reality of human trafficking in Thailand, dissecting studies, presenting facts, and dismissing stereotypes. It focuses on the areas of fishing, agriculture, domestic work, sex work, and the trafficking of children, weaving individual narratives and official studies into the wider history of Thailand's changing economy and labor situation. It also details how the Thai government has addressed the issue, reflects on the roots of human exploitation, and suggests a way forward. This book raises much-needed awareness of commonly held misconceptions and clarifies what we

know and what we have yet to discover about the trafficking of persons to and from Thailand. Highlights • Concise and accessible study of the reality of human trafficking in Thailand • Thorough critical analysis of current policies and public discourse on trafficking • Details relevant Thai and international laws • Discusses the relationship between the modern economic system and exploitation • Analyzes the changing face of the Thai labor market and the impact of industrialization on the Thai population

Asia-Pacific Legal Development Gerry Ferguson, 2011-11-01 In this age of globalization many legal experts see evidence of swift global movement toward an eventual single world legal system. Yet, the trend to political and economic integration in some parts of the world is matched by the trend to disintegration in others, where strong cultural and political resistance to external influences exists. Asia-Pacific Legal Development traces current and prospective developments in several legal systems of the Asia-Pacific region to make sense of these trends and counter-trends. The contributing authors represent a wide variety of specialist expertise, both public and private, and together they encompass the three sectors that constitute a modern system of formal law: the economic, the behavioural, and the civic. Taking into account the opinions and perspectives of both indigenous and non-indigenous experts on topics ranging from prostitution to constitutional law, the book surveys how several ASEAN nations, as well as Canada, Australia, and New Zealand, are confronting social, economic, and legal change. In the first three parts, chapters are grouped along general sectoral lines to cover economic, civic, and behavioural themes, while in the fourth, cross-sectoral contexts are addressed. With the introduction and concluding chapter, the editors provide an overall integrating framework as well as provocative insights into trends in legal development in the Asia-Pacific region, and on comparative legal research and writing in general. Asia-Pacific Legal Development is not only an exemplary model for cooperative and comparative legal research and scholarly pluralism, but also a rich study of the increasingly relevant issue of convergence and divergence of legal systems, with a unique Asian focus.

Monsters, Law, Crime Caroline Joan "Kay" S. Picart, 2020-11-18 *Monsters, Law, Crime*, an edited collection composed of essays written by prominent U.S. and international experts in Law, Criminology, Sociology, Anthropology, Communication and Film, constitutes a rigorous attempt to explore fertile interdisciplinary inquiries into "monsters" and "monster-talk," and law and crime. This edited collection explores and updates contemporary discussions of the emergent and evolving frontiers of monster theory in relation to cutting-edge research on law and crime as extensions of a Gothic Criminology. This theoretical framework was initially developed by Caroline Joan "Kay" S. Picart, a Philosophy and Film professor turned Attorney and Law professor, and Cecil Greek, a Sociologist (Picart and Greek 2008). Picart and Greek proposed a Gothic Criminology to analyze the fertile synapses connecting the "real" and the "reel" in the flow of Gothic metaphors and narratives that abound around criminological phenomena that populate not only popular culture but also academic and public policy discourses. Picart's edited collection adapts the framework to focus predominantly on law and the social sciences.

Materializing Thailand Penny Van Esterik, 2020-05-28 Thailand has become well known throughout the world for wonderful cuisine, great package holidays, sumptuous temples and textiles. Noticeably absent from glossy tourist brochures but equally well known throughout the Western world is Thailand's seedier side - the world of child exploitation, rampant prostitution and AIDS. Thailand maintains its appeal by slipping the ugly and painful out of sight and by promoting women as exotic visual icons through beauty contests, state rituals and the sex trade. This book explores the construction of gender in Thailand and in particular the role Bangkok plays in establishing gender relations for the whole of the country. It examines the historical and cultural processes underlying Thai public culture, including historical theme parks. The author

demonstrates how the materiality of the Thai world shapes gender relations and how Buddhism discourages essentialisms, including fixed binary gender identities. Throughout the book, appearances are shown to be critically important, and the essentialism of gender is maintained through display, public presentations, and everyday material practices. Anyone wishing to understand the complexity of Thailand will find this book provides a highly readable and insightful analysis.

Legislating an Epidemic ,2003

Modern Babylon? Heather Montgomery,2001 Child prostitution became one of the key concerns of the international community in the 1990s. World congresses were held, international and national laws were changed and concern over commercially sexually exploited children rose dramatically. Rarely, however, were the children who worked as prostitutes consulted or questioned in this process, and the voices of these children brought into focus. This book is the first to address the children directly, to examine their daily lives, their motivations and their perceptions of what they do. Based on 15 months of fieldwork in a Thai tourist community that survived through child prostitution, this book draws on anthropological theories on childhood and kinship to contextualize the experiences of this group of Thai child prostitutes and to contrast these with the stereotypes held of them by those outside their community.

Mixed Blessings Amanda Whiting,Carolyn Evans,2006-05-01 The essays in this volume explore some of the diverse and contradictory ways that the lives of women in the Asia-Pacific region are shaped by two powerful regimes - 'religion' and 'law' - and by the interactions between them. They show that for women, laws - customary, colonial, post-independence and international - and religions - indigenous or introduced, Buddhism, Christianity, Islam and Confucianism - have been a 'mixed blessing'. These diverse legal systems and religious doctrines and institutions have variously denied women authority and the capacity to participate fully in the public organization of social, political and religious life; they have furthermore constructed gender and familial relations in ways that subordinate women. Yet they have also offered promises of women's empowerment, and provided rules and procedures, norms, values, and interpretations of sacred traditions to deliver those emancipatory promises. Each chapter is devoted to a single state; first, the history and current framework of the national legal system is introduced; then the place of religion in the state is explained; and finally, by means of precise and detailed case studies or examples, each author explores how these sometimes competing, sometimes colluding regimes constructed women and how women interpreted this positioning and sought to resituate themselves.
