**The Italian Madrigal in the Early Sixteenth Century** Iain Fenlon,James Haar,1988 This 1988 book examines the genesis and dissemination of the Italian madrigal in its formative stages. Iain Fenlon and James Haar have analysed this vast repertoire as it is found in manuscript and print offer information concerning the date and provenance of many fundamental sources together with a view of the subject which differs radically from previous treatments. Their study is divided into two parts. The first covers the rise and early cultivation of the madrigal, chiefly in Florence and Rome. The second contains a detailed descriptive inventory of all known manuscripts and printed editions, finishing with lists of contents and concordances in each case. This important study will serve those with an interest in Renaissance music and the changing cultural ambience of early sixteenth-century Florence and Rome.

**Monsters in the Italian Literary Imagination** Keala Jewell,2001-02-01 They each share a critical interest in how monsters reflect a culture's dominant ideologies.

**Fifteenth-Century Studies** Edelgard E. DuBruck,Barbara Gusick,2001-03 Founded in 1977 as the publication organ for the Fifteenth-Century Symposium, Fifteenth-Century Studies has appeared annually since then. It publishes essays on all aspects of life in the fifteenth century, including literature, drama, history, philosophy, art, music, religion, science, and ritual and custom. The editors strive to do justice to the most contested medieval century, a period that is the stepchild of research. The period defies consensus on fundamental issues: some dispute, in fact, whether the fifteenth century belonged at all to the middle ages, arguing that it was a period of transition, a passage to modern times. At issue, therefore, is the very tenor of an age that stood under the tripartite influence of Gutenberg, the Turks, and Columbus. Volume 26 contains the customary

survey of research on late-medieval drama. There are six articles on French literature, four on German topics, two on Italian art, one on Spanish medieval predication, and three on English literary matters. Six of the articles focus on women and misogyny. Further topics include: popular approaches to problems of daily living; the crusades and mysticism; an early warning against excess in travel and exploration; the conduct of princes as described in chronicles; the so-called Pope Joan; theater, including farces, passion pageants, and triumphant entries of princes; critique of the estates; the function of authors, and their rights, duties, and privileges. There are 17 book reviews and two obituary dedications. The volume has been assembled with special care for style, excellence of research, and variety of approaches. Edelgard DuBruck is professor emerita of Modern Languages at Marygrove College, Detroit, Michigan. Barbara Gusick is professor emerita of English at Troy University-Dothan, Dothan, Alabama.

Italian Renaissance and Baroque Bronzes in the Metropolitan Museum of Art Denise Allen, Linda Borsch, James David Draper, Jeffrey Fraiman, Richard E. Stone, Peter Jonathan Bell, Raymond Carlson, Federico Carò, Paola D'Agostino, Alex Foo, Claudia Kryza-Gersch, Fernando Loffredo, Tommaso Mozzati, 2022-06-15  
The revival of the bronze statuette popular in classical antiquity stands out as an enduring achievement of the Italian Renaissance. These small sculptures attest to early modern artists' technical prowess, ingenuity, and desire to emulate—or even surpass—the ancients. From the studioli, or private studies, of humanist scholars in fifteenth-century Padua to the Fifth Avenue apartments of Gilded Age collectors, viewers have delighted in the mysteries of these objects: how they were made, what they depicted, who made them, and when. This catalogue is the first systematic study of The Metropolitan Museum of Art's European Sculpture and Decorative Arts collection of Italian bronzes. The collection includes statuettes of single mythological or religious figures, complex figural groups, portrait busts, reliefs, utilitarian objects like lamps and inkwells, and more. Stunning new photography of celebrated masterpieces by leading artists such as Antico, Riccio, and Giambologna; enigmatic bronzes that continue to perplex; quotidian objects; later casts; replicas; and even forgeries show the importance of each work in this complex field. International scholars provide in-depth discussions of 200 objects included in this volume, revealing new attributions and dating for many bronzes. An Appendix presents some 100 more complete with provenance and references. An essay by Jeffrey Fraiman provides further insight into Italian bronze statuettes in America with a focus on the history of The Met's collection, and Richard E. Stone, who pioneered the technical study of bronzes, contributes an indispensable text on how artists created these works and what their process conveys about the object's maker. A personal reminiscence by James David Draper, who oversaw the Italian sculpture collection for decades, rounds out this landmark catalogue that synthesizes decades of research on these beloved and complex works of art.

**The Czech Legend of St Catherine of Alexandria** Alfred Thomas,2024 The first complete translation of a fascinating piece of Czech literature. The virgin martyr St Catherine was one of the pre-eminent and most popular saints in the Middle Ages, her legend spreading far and wide throughout Europe. A Bohemian version of her Vita was written in the second half of the fourteenth century, probably for the court of Emperor Charles IV in Prague; it is a fascinating account of her life and passion, with many unique features. However, partly because of the language barrier, it has received relatively little attention. This book provides the first complete translation of this important text. It is accompanied by a full, interdisciplinary introduction, which places the legend in its cultural and historical context, and emphasizes both the importance of the Dominican friars as court writers and the prominence of royal and noble women as patrons and consumers of their work. It also highlights the numerous representations of Catherine in contemporary art. Meanwhile, elucidatory notes to the translation illuminate its most important features.

Embodiments of Power Gary B. Cohen,Franz A. J. Szabo,2008 The period of the baroque (late sixteenth to mid-eighteenth centuries) saw extensive reconfiguration of European cities and their public spaces. Yet, this transformation cannot be limited merely to signifying a style of art, architecture, and decor. Rather, the dynamism, emotionality, and potential for grandeur that were inherent in the baroque style developed in close interaction with the need and desire of post-Reformation Europeans to find visual expression for the new political, confessional, and societal realities. Highly illustrated, this volume examines these complex interrelationships among architecture and art, power, religion, and society from a wide range of viewpoints and localities. From Krakow to Madrid and from Naples to Dresden, cities were reconfigured visually as well as politically and socially. Power, in both its political and architectural guises, had to be negotiated among constituents ranging from monarchs and high churchmen to ordinary citizens. Within this process, both rulers and ruled were transformed: Europe left behind the last vestiges of the medieval and arrived on the threshold of the modern.

**Mussolini's Camps** Carlo Capogreco, 2019-11-11 This book—which is based on vast archival research and on a variety of primary sources—has filled a gap in Italy's historiography on Fascism, and in European and world history about concentration camps in our contemporary world. It provides, for the first time, a survey of the different types of internment practiced by Fascist Italy during the war and a historical map of its concentration camps. Published in Italian (*I campi del duce*, Turin: Einaudi, 2004), in Croatian (*Mussolinijevi Logori*, Zagreb: Golden Marketing - Tehnička knjiga, 2007), in Slovenian (*Fašistična taborišča*, Ljubljana: Publicistično društvo ZAK, 2011), and now in English, *Mussolini's Camps* is both an excellent product of academic research and a narrative easily accessible to readers who are not professional historians. It undermines the myth that concentration camps were established in Italy only after the creation of the Republic of Salò and the Nazi occupation of Italy's northern regions in 1943, and questions the persistent and traditional image of Italians as *brava gente* (good people), showing how Fascism made extensive use of the camps (even in the occupied territories) as an instrument of coercion and political control.
