Financial Accountability in Nepal World Bank, 2003 Nepal has suffered from the lack of proper management of public expenditures, stagnant real revenues, large and inefficient parastatals, and a weak financial sector. Fiduciary risk remains high. His Majesty's Government of Nepal has accorded high priority to the assurance of good accountability and transparency in public sector financial management. Reforms are now critical and should be approached in an integrated way covering planning, budgeting, accounting, internal control, internal audit, external audit, and oversight. Action in only one area of financial management will not result in the same degree of benefits. The capacity building recommended in this report's Development Action Plan is designed to introduce international accounting and auditing standards in both the public and the private sectors, and to close the gap between precept and practice. The Government has a firm commitment to implement these time-bound actions. --Résumé de l'éditeur.

The International Guide to Securities Market Indices Henry Shilling, 2017-11-30 Originally published in 1996, The International Guide to Securities Market Indices provides a comprehensive overview of the securities market indices and offers assistance to professionals as well as individual investors in the selection of an appropriate securities market index, on a worldwide basis. The Guide's identifies and catalogues available performance indicators along with their publishers and describes their relevant characteristics and a perspective on their historical price and total return performance. It also contains descriptive profiles along with historical performance data on 400 of the world's leading global, regional and local securities market indices and sub-indices covering 10 asset classes.

Nepal International Monetary Fund, 2011-11-09 In recent years, the IMF has released a growing number of reports and other documents covering economic and financial developments and trends in member countries. Each report, prepared by a staff team after discussions with government officials, is published at the option of the member country.

Nepal International Monetary, International Monetary Fund. Statistics Dept., International Monetary Fund. Monetary and Capital Markets Department, 2023-10-06 The mission conducted a diagnostic review of the financial sector oversight capacity and proposed a Technical Assistance Roadmap (TARM) to support the authorities' efforts to strengthen the identification, analysis, and mitigation of risks to financial stability in Nepal. Two modules were undertaken: (i) the financial stability module, focused on areas agreed with the NRB during the scoping stage: banking supervision and regulation, stress testing,

crisis management, payment systems, and financial inclusion; and (ii) the financial sector statistics module, focused on key data gaps hampering financial stability analysis, as well as statistical reporting to the IMF's STA.

The Enabling Environment for Disaster Risk Financing in Nepal Asian Development Bank,2019-08-01 This country diagnostics assessment seeks to strengthen financial preparedness for disasters in Nepal, focusing on insurance and other risk transfer instruments. It explores the current application of disaster risk financing solutions by the government, businesses, and individual households; related demand and supply constraints; and opportunities for improvement. The assessment forms one of a series of country diagnostics undertaken using a common methodology to determine the state of the enabling environment for disaster risk financing.

South Asian Bond Markets Kiatchai Sophasienphong,Yibin Mu,Carlotta Saporito,2008 The financial sectors in South Asia Region (SAR) are dominated by commercial banks, which account for the vast majority of the financial system's assets. The domestic debt markets including the government bond and corporate bond markets are at an early stage of development and there are few institutional investors. In recent years, countries in SAR have attempted to develop local debt markets, although the pace of development remains uneven and slow due to many regulatory and institutional impediments. With the notable exception of India, governments in SAR have yet to implement measures required for the proper development of the domestic bond markets. The book provides a comprehensive overview of the major bond markets in SAR (Bangladesh, India, Nepal, Pakistan and Sri Lanka) highlighting the areas which need further reforms. It is hoped that the book will contribute to our knowledge of bond markets in South Asian countries and create a broad based ownership of the recommendations made by the authors.

Nepal International Monetary Fund. Asia and Pacific Dept,2017-03-27 Nepal's economy is rebounding following a slowdown caused by the 2015 earthquakes and trade disruptions at the southern border. The upswing has been supported by the new government's efforts to revitalize the reform agenda. The key challenge is to put policies in place that will extend the cyclical recovery into a sustained period of high and inclusive growth.

Foreign Direct Investments: Concepts, Methodologies, Tools, and Applications Management Association, Information Resources,2020-02-07 Globalization, accelerated by information technologies, has increased the speed of business transactions and has reduced the distances between international businesses. This growth has transformed the realm of foreign investment in countries around the world, calling for a methodological approach to planning feasible capital investment proposals in general and foreign direct investment projects. Foreign Direct Investments: Concepts, Methodologies, Tools, and Applications is a vital reference source that explores the importance of global stocks to economic structures and explores the effects that these holdings have on the financial status of nations. It also provides a systems approach to investment projects in a globalized and open society. Highlighting a range of topics such as foreign direct investors, risk analysis, and sourcing strategies, this multi-volume book is ideally designed for business managers, executives, international companies, entrepreneurs, researchers, academicians, graduate students, policymakers, investors, and project managers.

Case Method of Teaching and Learning on Higher education of Nepal: A Comprehensive Study Dr. Dhruba Lal Pandey,2020-12-04 Case study method was, at first, introduced in Harvard School of Law. In 1920s, Harvard Business School professors decided to introduce innovative teaching method. As a result, they introduced case method in teaching-learning process. They used case method in MBA at first. They introduced case method because it force the students to analyse the situation and find solution as a manager, CEO, and board member. It is expected from the students that they assess the facts, make analysis, evaluate the alternatives and take decision individually and collectively. Case method of teaching forces to the students for depth preparation, full participation, expose their thinking from multiple view points, analyse the situation and take decisions. Since 1924, the case is considered as an effective teaching tool to the students of business and management and used widely in Harvard Business School. Nowadays, case method is used in all MBA and executive MBA and other similar nature of the professional business courses. Today, case method has been adopted by most of the business school all over the world.

Development of Capital Markets in Member Countries of the South Asian Association for Regional Cooperation Asian Development Bank,2013-10-01 This report examines the development and barriers to harmonization and integration among the capital markets of members of the South Asian Association for Regional Cooperation and enumerate steps to achieving harmonization and integration. The globalization of capital markets has encouraged moves toward regional harmonization and integration. This report examines and compares the level of development of capital markets in the South Asian region, assesses the prospects for greater harmonization and integration, and proposes a set of measures to move that process forward. The study of the markets shows wide variations not only in market size but also in the standards

of regulation and general development. The level of integration and harmonization of South Asian capital markets is low. There are major barriers including exchange controls, ownership restrictions, and differences in regulatory standards and enforcement capacity. The proposals address some of these barriers and include measures to promote awareness, stimulate innovation, raise regulatory standards, and champion the value of integration.

Getting Finance in South Asia 2010 Kiatchai Sophastienphong, Anoma Kulathunga, 2010 Utilizing standardized indicators from 2001 to 2008, 'Getting Finance in South Asia 2010' analyzes the financial performance and soundness of commercial banks in eight South Asian countries: Afghanistan, Bangladesh, Bhutan, India, Maldives, Nepal, Pakistan, and Sri Lanka. While the indicators cannot predict the onset of a financial crisis, their analysis has identified specific weaknesses in regional financial sectors that should be addressed by the supervisory authorities. In this current edition of the annual 'Getting Finance' publication, two new development dimensions -- payment systems developments and savings mobilization -- have been added to the six dimensions covered in the previous edition: access to finance, performance and efficiency, financial stability, market concentration and competitiveness, capital market development, and corporate governance. This edition also expands the country coverage to include Afghanistan, Bhutan and Maldives. New benchmark countries have also been added, including emerging countries from outside OECD. In addition to analyzing the 'Getting Finance' indicators, the book also discusses the challenges facing South Asian banks and the impact of the global financial crisis on their operations.

The new material in this edition enables readers to have a more holistic perspective of the indicators in South Asia and a better understanding of the financial systems in the region. 'Getting Finance Indicators 2010' reaffirms the World Bank's commitment to working with developing member countries to promote financial sector development and create financial systems that are sound, stable, supportive of growth and responsive to people's needs.

Cleaner-Energy Investments Srinivasan Sunderasan, 2014-11-14 This book is a compilation of case studies from different countries and covers contemporary technologies including electric vehicles and solar thermal power plants. The book highlights the real-world situations facing individual projects and highlights the strengths and weaknesses of the underlying business propositions. It also sheds light on the factors that are routinely ignored during project formulation and risk assessment, namely coordination among public and private agencies, confirmed availability of relatively minor but essential components, possibility of concurrent demand for inputs from different project proponents, etc. The book provides a systematic 'guided tour' of renewable energy (RE) projects for potential project analysts and includes the development of financial models. It concludes with an evaluation of risk and the design of risk-mitigation measures. It is designed to simultaneously appeal to business school students and to serve as a guide for practicing executives, policy makers and consultants. The cases cover several countries, currencies, policy environments, technologies and resources and will help policy makers, consultants and project analysts and proponents view RE projects in a new light.

Financial Market Regulations and Legal Challenges in South Asia Kashyap, Amit K., 2016-03-17 South Asia has experienced a long period of robust economic growth. While many regulatory policies have helped usher in this prosperous growth, some markets have plateaued due to hardships such as the decline in foreign remittance and international credit lines, and a contraction of exports. To continue to grow, the nations in this region must begin to integrate into the globalized world economy. Financial Market Regulations and Legal Challenges in South Asia addresses the difficulties and challenges of the regulatory environment in South Asia. This research-based publication outlines the apparent issues and resolutions as these developing nations transition into global economic players. This book is an excellent resource for policy makers,

researchers and students in the financial field, government officials, bankers, and financial market regulators.
