Stephen E. Gregg, Lynne Scholefield

The Gospel of the Flying Spaghetti Monster Bobby Henderson, 2006-03-28 Can I get a “ramen” from the congregation?! Behold the Church of the Flying Spaghetti Monster (FSM), today’s fastest growing carbohydrate-based religion. According to church founder Bobby Henderson, the universe and all life within it were created by a mystical and divine being: the Flying Spaghetti Monster. What drives the FSM’s devout followers, a.k.a. Pastafarians? Some say it’s the assuring touch from the FSM’s “noodly appendage.” Then there are those who love the worship service, which is conducted in pirate talk and attended by congregants in dashing buccaneer garb. Still others are drawn to the Church’s flimsy moral standards, religious holidays every Friday, or the fact that Pastafarian heaven is way cooler: Does your heaven have a Stripper Factory and a Beer Volcano? Intelligent Design has finally met its match—and it has nothing to do with apes or the Olive Garden of Eden. Within these pages, Bobby Henderson outlines the true facts—dispelling such malicious myths as evolution (“only a theory”), science (“only a lot of theories”), and whether we’re really descended from apes (fact: Humans share 95 percent of their DNA with chimpanzees, but they share 99.9 percent with pirates!) See what impressively credentialed top scientists have to say: “If Intelligent Design is taught in schools, equal time should be given to the FSM theory and the non-FSM theory.” –Professor Douglas Shaw, Ph.D. “Do not be hypocritical. Allow equal time for other alternative ‘theories’ like FSMism, which is by far the tastier choice.” –J. Simon, Ph.D. “In my scientific opinion, when comparing the two theories, FSM theory seems to be more valid than classic ID theory.” –Afshin Beheshti, Ph.D. Read the book and decide for yourself!

Invented Religions Carole M. Cusack,2016-05-06 Utilizing contemporary scholarship on secularization, individualism, and consumer capitalism, this book explores religious movements founded in the West which are intentionally fictional: Discordianism, the Church of All Worlds, the Church of the SubGenius, and Jediism. Their continued appeal and success, principally in America but gaining wider audience through the 1980s and 1990s, is chiefly as a result of underground publishing and the internet. This book deals with immensely popular subject matter: Jediism developed from George Lucas' Star Wars films; the Church of the Flying Spaghetti Monster, founded by 26-year-old student Bobby Henderson in 2005 as a protest against the teaching of Intelligent Design in schools; Discordianism and the Church of the SubGenius which retain strong followings and participation rates among college students. The Church of All Worlds' focus on Gaia theology and environmental issues makes it a popular focus of attention. The continued success of these groups of Invented Religions provide a unique opportunity to explore the nature of late/post-modern religious forms, including the use of fiction as part of a bricolage for spirituality, identity-formation, and personal orientation.

Pastafari Halvar Siegel,2024-12-05 In a world grappling with the tension between tradition and progress, Pastafari: A Faith for the Curious and Critical offers a fresh perspective on spirituality, blending humor, critical thinking, and an unapologetic love for pasta. Halvar Siegel takes readers on a delightful journey into the heart of the Church of the Flying Spaghetti Monster-a modern religion that celebrates individuality, inclusivity, and the power of questioning. Far from being just a parody, Pastafarianism challenges the rigid dogmas of conventional belief systems, using satire to inspire meaningful discussions about faith, science, and the role of religion in public life. From its origins as a witty critique of Intelligent Design to its evolution into a global movement, Siegel explores how this noodle-wrapped deity has become a symbol of freedom, creativity, and joy. Whether you're a skeptic, a seeker, or simply curious, this book invites you to rethink what it means to

believe, laugh, and live authentically in the 21st century. Embrace the absurd, find enlightenment in the sauce, and discover why the Flying Spaghetti Monster truly matters in today's world.

Freedoms, Faiths and Futures Andrew Singleton, Mary Lou Rasmussen, Anna Halafoff, Gary Bouma, 2021-04-08 How do contemporary teenagers experience and understand religious, spiritual, gender and sexual diversity? How are their experiences mediated by where they go to school, their faith and their geographic location? Are their outlooks materialist, religious, spiritual, or do they have hybrid identities? *Freedoms, Faiths and Futures: Teenage Australians on Religion, Sexuality and Diversity* offers powerful insight into how teenagers make sense of the world around them. Drawing on rich data from a major national study, this book creates new ways of understanding the complexity of young people's lives and how school education covering diversity best addresses their world. This book argues that school education focused on worldviews is founded on ways of thinking about young people that do not reflect the complexities of Generation Z's everyday experiences of diversity and their interactions with each other. It argues that certain kinds of education in schools can play a significant role in developing religious literacy, tolerance and positive attitudes to diversity.

Law and Religion in the Commonwealth Renae Barker,Paul Babie,Neil Foster,2022-06-30 This book examines law and religion from the perspective of its case law. Each chapter focuses on a specific case from a Commonwealth jurisdiction, examining the history and impact of the case, both within the originating jurisdiction and its wider global context. The book contains chapters from leading and emerging scholars from across the Commonwealth, including from the United Kingdom, Canada, Australia, Pakistan, Malaysia, India and Nigeria. The cases are divided into four sections covering: - Foundational Questions in Law and Religion - Freedom of Religion around the Commonwealth - Religion and state relations around the Commonwealth - Rights, Relationships and Religion around the Commonwealth. Like religion itself, the case law covers a wide spectrum of life. This diversity is reflected in the cases covered in this book, which include: - *Titular Roman Catholic Archbishop of Kuala Lumpur v Home Minister on the use of the Muslim name for God by non-Muslims in Malaysia* - *The Church of the New Faith v Commissioner of Pay-roll Tax (Vic)* which determined the meaning of religion in Australia - *Eweida v UK* which clarified the application of Article 9 of the European Convention on Human Rights - *R v Big M Drug Mart* on the individual protections of religious freedom under the Canadian Charter of Rights. The book examines how legal disputes involving religion are among the most contested in the courts and shows that in these cases, passions run high and the outcomes can have significant consequences for all involved.

When Islam Is Not a Religion Asma T Uddin, 2019-07-09 American Muslim religious liberty lawyer Asma Uddin has long considered her work defending people of all faiths to be a calling more than a job. Yet even as she seeks equal protection for Evangelicals, Sikhs, Muslims, Native Americans, Jews, and Catholics alike, she has seen an ominous increase in attempts to

criminalize Islam and exclude Muslim Americans from those protections. Somehow, the view that Muslims aren't human enough for human rights or constitutional protections is moving from the fringe to the mainstream—along with the claim “Islam is not a religion.” This conceit is not just a threat to the First Amendment rights of American Muslims. It is a threat to the freedom of all Americans. Her new book reveals a significant but overlooked danger to our religious liberty. Woven throughout this national saga is Uddin's own story and the stories of American Muslims and other people of faith who have faced tremendous indignities as they attempt to live and worship freely. Combining her experience of Islam as a religious truth and her legal and philosophical appreciation that all individuals have a right to religious liberty, Uddin examines the shifting tides of American culture and outlines a way forward for individuals and communities navigating today's culture wars.

Law and Religion in the Liberal State Md Jahid Hossain Bhuiyan, Darryn Jensen, 2020-05-28 The relationship between law and religion is evident throughout history. They have never been completely independent from each other. There is no doubt that religion has played an important role in providing the underlying values of modern laws, in setting the terms of the relationship between the individual and the state, and in demanding a space for the variety of intermediate institutions which stand between individuals and the state. However, the relationships between law and religion, and the state and religious institutions differ significantly from one modern state to another. There is not one liberalism but many. This work brings together reflections upon the relationship between religion and the law from the perspectives of different sub-traditions within the broader liberal project and in light of some contemporary problems in the accommodation of religious and secular authority.

Engaging with Living Religion Stephen E. Gregg, Lynne Scholefield, 2015-03-27 Understanding living religion requires students to experience everyday religious practice in diverse environments and communities. Covering theoretical and practical dimensions of research, the book helps students learn to ‘read’ religious sites and communities, and to develop their understanding of planning, interaction, observation, participation and interviews. Students are encouraged to explore their own expectations and sensitivities, and to develop a good understanding of ethical issues, group-learning and individual research. The chapters contain student testimonies, examples of student work and student-led questions.
