Learn to Manage Your Emotions Zen Michael,2021-01-31 Why do we sometimes “explode” for no reason? Because, if we investigate it, that is not a reaction to that specific situation, is the result of an accumulation of negative emotions that — at that moment — found a way to get out, to escape from the dome where we tried to confine them. Like a glass full of water in which one last drop makes the glass overflow, our body and mind end up finding this explosive way to “download” everything that we have been accumulating. Can you change this, can you learn how to control your feelings and emotions? Although this process usually has negative results and creates mainly unpleasant situations, if we become aware of how it works, we can start to change it. If we know that negative emotions can accumulate and grow in this way, then — if we start gradually releasing those emotions, if we don't hide emotions — we can prevent them from accumulating until they become dangerous. That requires not ignoring what we feel, not rejecting the feelings of anger and fear that often dominate us. Learn to manage your emotions, learn how to accept yourself for who you are, and you will discover new ways to reduce stress and anxiety, ways to keep calm and to ways to reduce stress and anxiety. In this ebook, Zen Michael explain us why we should not fear what we feel, and how accepting that is the first step for a more joyful live. Remember you can always find peace and joy — just look inside yourself. Zen Michael

Democracy Lives in Darkness Emily Van Duyn, 2022 Republicans and Democrats increasingly distrust, avoid, and wish harm upon those from the opposing party. They also increasingly reside among like-minded individuals and belong to social groups that share their political beliefs. While these factors can make it difficult to express a dissenting political opinion, digital and social media have given people new spaces for political discourse and community, and more control over who knows--and does not know--their political beliefs. In *Democracy Lives in Darkness*, Emily Van Duyn looks at how these changes in the political and media landscape affect democracy. Van Duyn discovers and follows a secret political organization of progressive women in a conservative community in rural Texas. Its members, a mixture of real estate agents, school teachers, business owners, and retired grandmothers, met in secret to protect themselves from social, economic, and even physical retaliation by their conservative neighbors, friends, and family. They discussed immigrant rights, women's reproductive rights, racism, and intolerance of those of different racial/ethnic and cultural backgrounds in their community. *Democracy Lives in Darkness* is about this group: their daily lives, their choices, and ultimately, their incubation. But it is also about what led them to meet in secret--the political prejudice and hostility that marginalizes and makes people afraid, and the growing political, social, and geographic cleavages that now make even mainstream dissent dangerous. Importantly, Van Duyn asks why mainstream partisans feel the need to hide their political beliefs from others, why they feel afraid of those from the opposite party, how they stay politically engaged in secret, and how this can transform them and their communities. The book challenges those who study democratic life to look beyond public political behavior and those who study big data and machine learning to consider the unique and meaningful qualities of studying the individual in context. Van Duyn challenges the assumption that the United States is a liberal democracy where ideas can be expressed freely and

publicly. Rather, she suggests that democracy in the United States may exist in darkness, but, more optimistically, that it uses this darkness to move forward.

Claiming Space Sheila Bock, 2023-10-09 Claiming Space examines the growing tradition of decorating mortarboards at college graduations, offering a performance-centered approach to these material sites of display. Taking mortarboard displays seriously as public performances of the personal, this book highlights the creative, playful, and powerful ways graduates use their caps to fashion their personal engagement with notions of self, community, education, and the unknown future. Claiming the space of these graduation caps is a popular and widespread way that individuals make their voices heard, or rather seen, in the visual landscape of commencement ceremonies. The forms and meanings of these material displays take shape in relation to broader, ongoing conversations about higher education in the United States, conversations grounded in discourses of belonging, citizenship, and the promises of the American Dream. Integrating observational

fieldwork with extensive interviews and surveys, author Sheila Bock highlights the interpretations of individuals participating in this tradition. She also attends to the public framings of this tradition, including how images of mortarboards have grounded online enactments of community through hashtags such as #LatinxGradCaps and #LetTheFeathersFly, as well as what rhetorical framings are employed in news coverage and legal documents in cases where the value of the practice is both called into question and justified. As university administrators and cultural commentators seek to make sense of the current state of higher education, these forms of material expression offer insight into how students themselves are grappling with higher ed's promises and shortcomings. *Claiming Space* is a meaningful contribution to folklore, cultural studies, media studies, and education.

The poets of *Resistencia* explore feminist, queer, Indigenous, and ecological themes alongside historically prominent protests against imperialism, dictatorships, and economic inequality. Within this momentous collection, poets representing every Latin American country grapple with identity, place, and belonging, resisting easy definitions to render a nuanced and complex portrait of language in rebellion. Included in English translation alongside their original language, the fifty-four poems in *Resistencia* are a testament to the art of translation as much as the act of resistance. An all-star team of translators, including former US Poet Laureate Juan Felipe Herrera along with young, emerging talent, have made many of the poems available for the first time to an English-speaking audience. Urgent, timely, and absolutely essential, these poems inspire us all to embrace our most fearless selves and unite against all forms of tyranny and oppression.

Until the Rulers Obey Clifton Ross, Marcy Rein, 2014-02-15 Until the Rulers Obey brings together voices from the movements behind the wave of change that swept Latin America at the turn of the twenty-first century. These movements have galvanized long-silent—or silenced—sectors of society: indigenous people, campesinos, students, the LGBT community, the unemployed, and all those left out of the promised utopia of a globalized economy. They have deployed a wide range of strategies and actions, sometimes building schools or clinics, sometimes occupying factories or fields, sometimes building and occupying political parties to take the reins of the state, and sometimes resisting government policies in order to protect their newfound power in community. This unique collection of interviews features five dozen leaders and grassroots activists from fifteen countries presenting their work and debating pressing questions of power, organizational forms, and relations with the state. They have mobilized on a wide range of issues: fighting against mines and agribusiness and for living space, rural and urban; for social space won through recognition of language, culture, and equal participation; for community and environmental survival. The book is organized in chapters by country with each chapter introduced by a solidarity activist, writer, or academic with deep knowledge of the place. This indispensable compilation of primary source material gives participants, students, and observers of social movements a chance to learn from their experience. Contributors include ACOGUATE, Luis Ballesteros, Marc Becker, Margi Clarke, Benjamin Dangl, Mar Daza, Mickey Ellinger, Michael Fox, J.
