Philosophy and the Evolution of Consciousness Daniel J. Smitherman, 2001-01-29 The history of philosophy has been studied as if it were a long discussion between participants of differing opinions living in different ages, but all in the same world. Though Heraclitus and Descartes can no longer respond to new questions or current attacks on their positions, nevertheless, to the degree that we are all human, and all live in the same world, such questions and attacks are reasonably fair. Until recently. In the last 50 years, the significance of the qualifier to the degree that has changed radically. What if it turns out that, as far as living in the same world goes, we today actually have very little in common with Heraclitus, or even Descartes? Then we are attempting to carry on discussions with participants who are not our contemporaries, and the world they were speculating about is not the same world we today are speculating about. Then the nature of the discussion - the history of philosophy - takes on a very different character. *Philosophy and the Evolution of Consciousness* takes talk of alternative conceptual schemes current in philosophy today and applies it in the very place most likely to warrant the change: the history of philosophy itself.

Philosophy and the Evolution of Consciousness Daniel Smitherman, 2020-02-08 To understand the history of philosophy means understanding the mind and work of individuals thousands of years and miles and cultures distant from the reader. Daniel Smitherman presents one way to further that understanding, by taking a deep dive into Owen Barfield's seminal work of phenomenology of history, *Saving the Appearances*. The author then shows how the core ideas of Barfield, and the wider field of phenomenology, bring intelligibility to an otherwise baffling, or misleadingly simple, legacy of human thinking across the globe and through the centuries.

Owen Barfield's Poetic Philosophy Jeffrey Hipolito, 2024-03-21 The first book to offer an overview, at once introductory and comprehensive, of the philosophical thought of Owen Barfield, sometimes known as the "first and last Inkling" and as the "British Heidegger." Beginning by placing Barfield's early poetics in the context of the critical hurly-burly of modernist London of the 1920s, *Owen Barfield's Poetic Philosophy: Meaning and Imagination* shows how Barfield's subsequent development of a philosophy of history, metaphysics, and ethics culminates in his development of a poetic cosmology. Hipolito situates Barfield's poetic philosophy in relation to his significant contemporaries (and predecessors) including T.S.

Eliot, D.H. Lawrence, I.A. Richards, Jean Paul Sartre, Martin Heidegger and Ernst Cassirer, bringing to light for the first time many important aspects of Barfield's thought. The book concludes with an analysis of the Burgeon trilogy, in which Barfield recapitulates the themes and arguments of his poetic philosophy by exemplifying them in three genre-defying works of fiction. Structured chronologically and giving a systematic examination of Barfield's thought, Owen Barfield's Poetic Philosophy paints a much-needed picture of a major thinker and poet, who was entirely engaged with his times and who remains crucially relevant to our own.

The Participatory Turn Jorge N. Ferrer, Jacob H. Sherman, 2008-12-04 Cuts through traditional debates to argue that religious phenomena are cocreated by human cognition and a generative spiritual power.

Understanding Phenomenological Reflective Practice in the Social and Ecological Fields Peter Westoby, 2022-07-21 This book introduces social practitioners - community development workers, social workers, organisational change facilitators, social, ecological, cultural and political activists - to a phenomenological tradition of reflective practice. Critiquing reductionist, linear and ossified thinking in the social and ecological fields, the book offers an exciting new alternative that is honouring of the uncertainty of all living and therefore emergent social processes. Linking phenomenology and Goethe's 'delicate empiricism', the book challenges practitioners to observe and work with living processes. As such, the book charts two stories, two inquiries. One personal and the other social. The first is the personal phenomenological inquiry into the author's own practice, a search to make sense of the nuanced and subtle practice that he brings to the social world. The second journey is the inquiry into how this social practice, shaped as it is by a confluence of three rivers - dialogue and community, soul and depth psychology, Goethe and 'delicate activism', along with other thinkers on 'observation' and 'aliveness' - can be understood in the context of a wider phenomenological reflective practice. This second journey draws on years of experience and research in Brazil, South Africa, Australia, New Zealand and parts of Europe. Presenting a philosophical, personal and practical analysis, it offers a new approach to observation and action, while working with aliveness and complexity within the social and ecological fields. It will be of interest to all scholars and students of social work and community development and particularly courses on social complexity.

Tenryu-ji Norris Brock Johnson, 2012-07-10 This illustrated study of Tenryuji, ranked number one among the five great Zen temples of Kyoto and a major destination for tourism and worship, weaves together history, design, culture, and personal reflection to reveal the inner workings of a great spiritual institution. Looking at Tenryuji's present as a mirror to its past, and detailing the famous pond and rockwork composition by renowned designer Muso Soseki, Norris Brock Johnson presents the first full-length biography of a Zen temple garden. Norris Brock Johnson is a professor of anthropology at the University of North Carolina in Chapel Hill and has been teaching and writing about Japanese temple gardens for over twenty years.

The Embattled Lyric Nathaniel Tarn, 2007 This book has two main subjects which are interwoven: the attitudes of

selected poets (including Neruda, Rilke, Breton, Celan, and Artaud) to the primitive and the “archaic,” studied from an anthropologist's viewpoint; and a model of the processes whereby poetry is produced and received, built on the author's successful careers as both poet and anthropologist. The book includes detailed biographical information about how Tarn went from being a French to an English to an American poet. It also reveals the effect of a double career and of these moves on a unique body of poetry and theoretical work. An extremely substantial interview, serving also as an introduction to, and discussion of, the essays, demonstrates that there is nothing like this work to be found elsewhere.

The Odeon Daniel Tobin, 2025-08-11 The Odeon, a new volume of essays by the celebrated poet and critic Daniel Tobin, takes its title from the classical Greek and Roman buildings designed for the presentation of musical and poetic compositions. Organized around the question of “sensibility”—with its various social, philosophical, and aesthetic connotations—the collection presents a sequence of related essays exploring both resonances and dissonances in the traditions of modern and contemporary poetry. Although Tobin surveys a broad spectrum of works—ranging from John Donne and Emily Dickinson to writers from the twenty-first century such as Mark Doty, Louise Glück, and Carl Phillips—his emphasis remains on details of poetic practice, technique, metaphysical outlook, and artistic aspiration. What most informs these essays is Tobin's own practice as a poet, his own sensibility, which is at once eclectic and yet very much calibrated to matters of what one theologian termed “ultimate concern.” The Odeon offers an incisive foray into the state of the art of poetry in our time.

Sehnsucht: The C. S. Lewis Journal Bruce R. Johnson, 2016-12-14 Sehnsucht: The C. S. Lewis Journal, established by the Arizona C. S. Lewis Society in 2007, is the only peer-reviewed journal devoted to the study of C. S. Lewis and his writings published anywhere in the world. It exists to promote literary, theological, historical, biographical, philosophical, bibliographical and cultural interest (broadly defined) in Lewis and his writings. The journal includes articles, review essays, book reviews, film reviews and play reviews, bibliographical material, poetry, interviews, editorials, and announcements of Lewis-related conferences, events and publications. Its readership is aimed at academic scholars from a wide variety of disciplines, as well as learned non-scholars and Lewis enthusiasts. At this time, Sehnsucht is published once a year.

The Irreducibility of the Human Person Mark K. Spencer, 2022-03-25 This book presents a philosophical portrait of human persons that depicts each way in which we are irreducible, with the goal of guiding the reader to perceive, wonder at, and love all the unique features of human persons. It builds this portrait by showing how claims from many strands of the Catholic tradition can be synthesized. These strands include Thomism, Scotism, phenomenology, personalism, nouvelle thâeologie, analytic philosophy, and Greek and Russian thought. The book focuses on how these traditions' claims are grounded in experience and on how they help us to perceive irreducible features of persons. This book also explores irreducible features of our subjectivity, senses, intellect, freedom, and affections, and of our souls, bodies, and activities--

C.S. Lewis—An Annotated Bibliography and Resource P. H. Brazier, 2012-09-20 This bibliography and resource consists of

a chronological introduction to the development of Lewis's works, a copious bibliography and a guide to the study of Lewis, an introductory essay on Christology in Lewis, and a glossary for those unfamiliar with some of the background and terms to Lewis's understanding of revelation and the Christ. It will be an invaluable resource for all scholars of C. S. Lewis. The bibliography stands alone but it also serves to complement the three volumes of the series C. S. Lewis, Revelation, and the Christ.

Religion and Atheism in Dialogue Anthony Carroll, Richard Norman, 2025-06-23 The divide in our societies between those who are religious and those who are not is becoming increasingly apparent in many areas of contemporary life. This fascinating book, based on conversations between religious and nonreligious participants, asks if societies divided on such fundamental questions can nonetheless find some common ground. A rich array of topics is explored, including the linguistic complexities of using the concept of 'God', the relation between science and religion, the ethics of altruistic concern, sexuality and gender roles, and the possibility of shedding light on important positions often taken to be intractable or nonnegotiable. In addition, topics of a more reflective nature, but also prone to polarise, are also examined, such as spiritual experience and practice, mindfulness, the arts, and the nature of human consciousness. *Religion and Atheism in Dialogue* will interest anyone who is concerned about the current tensions and even conflicts exhibited between religious and secular positions on a range of key issues, and how it might be possible to move beyond them. It will also be of interest to students of ethics, philosophy of religion, and religious studies and all those who are concerned to explore how better dialogue across differences might be possible.

The Collected Letters of C.S. Lewis, Volume 3 C. S. Lewis, 2004 The letters found in Volume II reveal inside accounts of how The Screwtape Letters came to be written, the early meetings of the Inklings (with J.R.R. Tolkien giving readings about hobbits and Middle Earth), how C.S. Lewis became popular through BBC radio talks, but mostly how this quiet professor in England touched the lives of many through an amazing discipline of personal correspondence.

Nonduality David Loy, 2012-06-29 Many Western philosophers are poorly informed about the issues involved in nonduality, since this topic is usually associated with various kinds of absolute idealism in the West, or mystical traditions in the East. Increasingly, however, this topic is finding its way into Western philosophical debates. In this scholarly but leisurely and very readable (Spectrum Review) analysis of the philosophies of nondualism of (Hindu) Vedanta, Mahayana Buddhism, and Taoism, Loy extracts what he calls a core doctrine of nonduality of seer and seen from these three worldviews and then applies the doctrine in various ways, including a critique of Derrida's deconstructionism.

Humanity's Last Stand Nicanor Perlas, 2018 The twenty-first century is the age of science and technology. It will also be the age when humanity confronts, for the first time, a challenge that may overwhelm and destroy the human species itself in as little as 12 to 20 years from now. This is the challenge of artificial intelligence (AI) Deployed properly, AI will confer

tremendous benefits to society. It is already doing this. Deployed inappropriately or mistakenly, AI will undermine human civilization, as it is also starting to do, and could then lead to the extinction of humanity. Scientists, philosophers, and engineers call this latter possibility the 'existential risk' of AI. The fate of our future is literally in our hands. --Nicanor Perlas (from the preface) Although still in its earliest stages, artificial intelligence is radically transforming all aspects of society. With the immanent emergence of Artificial Super Intelligence (ASI) and the illusory temptations of transhumanism, humankind stands at a crossroads. Nicanor Perlas makes an urgent plea in this book. It is imperative, he says, that we take immediate steps to ensure that digitized technology is aligned to human values and priorities. Otherwise, ASI will kill the essence of our humanity. Furthermore, if we do not master it now, ASI will transform humanity into its own image--ultimately, it will destroy the human race. AI experts have not offered a single cogent solution to this existential threat. Rudolf Steiner, however, not only foresaw these developments, but also provided clear alternatives. Steiner--who developed a contemporary scientific approach to spirituality--provided philosophical, ontological, and social innovations to save humanity from this technological abyss. It is the task of the global anthroposophic movement to pioneer this civilization-saving work--to establish spiritual-scientific ideas in mainstream culture that would allow AI to emerge in a healthier societal context. Perlas offers an overview of the AI phenomenon, together with its related transhuman concepts of perfecting humanity, outlining the critical internal and external responses needed to meet them consciously. In particular, the author addresses the movement connected to the work of Rudolf Steiner, indicating its all-important tasks to cooperate with progressive individuals and movements, including scientists and civil society activists; to mobilize its daughter movements for action; and, ultimately, to cooperate with the spiritual powers that have guided and served humanity since the dawn of time. This, says Perlas, is humanity's last stand. Failure is not an option.

Human and Cosmic Thought Rudolf Steiner, 2024-05-08 What convinces us of the truth of a point of view? Why do we find it difficult to understand or accept differing perspectives? What are the inner foundations of our knowledge? In these concentrated and aphoristic lectures, Rudolf Steiner speaks of twelve main philosophical standpoints, and the importance of comprehending each one of them. Appreciating the variety of world-views not only sharpens our thinking and makes it more flexible, but helps us to overcome a narrow-minded one sidedness, promoting tolerance of other people and their opinions. The future of philosophy rests not upon defending one single perspective and refuting all others, but in learning to experience the validity of all points of view. Steiner goes on to explain how each philosophical standpoint is coloured by a particular 'soul mood', which influences the way we pursue knowledge as individuals. He characterizes the work of several thinkers in this way, throwing light on their unique contributions to human culture. Through such insights into the true nature of human thinking, we are led to understand the quality of cosmic thought, and how the human being is a 'thought which is thought by the Hierarchies of the cosmos'. This revised translation is complemented with an introduction by Robert

McDermott, editorial notes and appendices by Frederick Amrine and an index. Four lectures, Berlin, Jan. 1914, GA 151

Only the Sacred Peggy Whalen-Levitt, 2011-09 The materialist philosophy that has dominated Western civilization for the past four hundred years is coming to an end. In *Only the Sacred: Transforming Education in the Twenty-first Century*, we are introduced to a new vision of reality where we sense a more profound world within the material world we know so well. In this remarkable collection of articles originally published in *Chrysalis*, a publication of the Center for Education, Imagination and the Natural World, we journey with twenty-three educators through an exploration of fundamental questions of our time, a path of inner schooling for educators, and practices where a new understanding of a sacred universe is actualized in diverse educational settings. Inspired by the mentoring of Thomas Berry, this collection makes it clear that the depth and fullness of the universe, from the stars in the heavens to the dirt beneath our feet, cannot be known by the intellect alone. Only a sense of the sacred, deep within the human soul, will reveal the whole.

When Donkeys Talk Tyler Blanski, 2013-01-22 Tired of church as you've known it? Thirsty for a fresh look at Christian faith? American singer/songwriter and author Tyler Blanski was, too. So he set out on a Holy Pilgrimage to rediscover the saints, stars, and beauty of Christianity for the twenty-first century. Rich with deep application for living in the modern world, *When Donkeys Talk* is an invitation to become enchanted again with Christ and his world. Tyler reminds us that God works in unexpected, unusual, and miraculous ways and that he inhabits and speaks through the wondrous world he has made. Blanski redefines "magical" to help us see that the world is guided by a hand greater than science and materialism. Using scripture, the wisdom of the church fathers, and respected theologians and Christian thinkers from centuries past, as well as a creative and humorous narrative, you will find the wonder of our ancient faith still alive and well.

Sacrosanctum Concilium Clare V. Johnson, Gerard Moore, Peter G. Williams, 2025-06-10 This book introduces new scholarship exploring liturgical futures in light of *Sacrosanctum Concilium* at 60+. In critical dialogue with a variety of knowledge areas, scientific developments, evolving philosophical and technological innovations, and contemporary cultural trends and flows, it considers the place of liturgy in today's world and its anticipated futures. Utilising a range of research methodologies, authors from Australia, New Zealand, and the USA reflect on and advance many key sections of *Sacrosanctum Concilium*, investigating topics such as: liturgical music, active participation, liturgical architecture, inculturation of the liturgical year, liturgical formation of seminarians, liturgy and affect, forming children for sacramental reception, vernacular translation, the basis of SC's general principles, an ecumenical view of inherent liturgical hierarchies, and advancing notions of sacramentality in light of *Laudato Si'*. This book honors but goes beyond the original vision of *Sacrosanctum Concilium*, and is important for scholars looking to engage post-postmodern societal trajectories and dialogue with emerging fields of discourse in liturgical studies. Clare V. Johnson is Professor of Liturgical Studies and Sacramental Theology, and Director of the ACU Centre for Liturgy, Australian Catholic University. She has taught liturgy and sacramental

theology at Notre Dame USA, University of Notre Dame Australia, and ACU. She has published widely in liturgy and sacramental theology, and directs the ACU Centre for Liturgy's academic, formation, and professional development programs for Catholic dioceses, schools, agencies, and parishes throughout Australia. Gerard Moore is Professor of Liturgical Studies, Principal and CEO BBI-The Australian Institute of Theological Education, Pennant Hills, NSW Australia. He has taught widely in liturgy and sacramental theology and published extensively in worship, liturgical spirituality, and social justice. He has served as Head of School of Theology at Charles Sturt University and lecturer and Director (Research) within the Sydney College of Divinity. Peter G. Williams AM is Vicar General and Moderator of the Curia, Diocese of Parramatta, New South Wales, Australia. He served for eleven years as Executive Secretary of the Bishops commission for Liturgy for the Australian Catholic Bishops Conference.
