

Rpondez S Il Vous Plat

William Henry Fraser, John Squair, Algernon Coleman

Functional Approaches to Language, Culture, and Cognition David G. Lockwood, Peter Howard Fries, James E. Copeland, 2000-01-01 This volume contains functional approaches to the description of language and culture, and language and cultural change. The approaches taken by the authors range from cognitive approaches including Stratificational grammar to more socially oriented ones including Systemic Functional linguistics. The volume is organized into two sections. The first section 'Functional Approaches to the Structure of Language: Theory and Practice' starts with contributions developing a Stratificational model; these are followed by contributions focusing on some related functional model of language; and by articles describing some particular set of language phenomena. In the second section 'Functional Approaches to the History of Language and Linguistics' general studies of language change are addressed first; a second group of contributions examines language change, lexicon and culture; and the last cluster of contributions treats the history of linguistics and culture.

Les troubles du sommeil Yves Dauvilliers, 2019-06-04 La médecine du sommeil est une discipline récente et les manuels qui lui sont consacrés sont peu nombreux. Les troubles du sommeil et de l'éveil touchent pourtant une part importante de la population et ont de graves répercussions sur la santé physique et mentale, ainsi que sur la qualité de vie. La 3e édition de cet ouvrage de référence, entièrement mis à jour et agrémenté de questionnaires, d'échelles et d'un glossaire étendu : • fait le point sur le sommeil normal (aspects neurobiologiques et physiologiques chez l'enfant, l'adulte et le sujet âgé), • présente les différentes méthodes d'exploration, • propose une synthèse sur les multiples troubles (insomnie, hypersomnie, troubles du rythme circadien, parasomnie...), • établit le lien entre les troubles du sommeil et les spécialités médicales : neurologie, cardiologie, pneumologie, endocrinologie, pédiatrie, psychiatrie, ORL.... Cet ouvrage s'adresse aux

médecins généralistes et spécialistes. Ils y trouveront des réponses à leurs questions, ainsi que de nombreuses indications pour la prise en charge des patients et la prescription de traitements. Il s'adresse également à tous les professionnels de santé, chercheurs et étudiants désireux de s'ouvrir à un domaine encore peu enseigné dans les facultés et écoles.

All These Liberations Susan Cahan, Thelma Golden, Lorna Simpson, Lowery Stokes Sims, 2024 A dynamic look at the vast creative production of contemporary women artists from around the globe. A celebration of the work of women artists of color, this book explores the ways in which struggles for freedom and equality are deeply intertwined with shared feminist practices, art techniques and movements, and the notion of diaspora through the extraordinary collection of social activist and patron Eileen Harris Norton. Featuring work by Sonia Boyce, Maya Lin, Julie Mehretu, Shirin Neshat, Adrian Piper, Faith Ringgold, Kara Walker, Carrie Mae Weems, and many others, All These Liberations draws out the intimate connections among artist, collector, and the social worlds that surround them. For nearly five decades, Harris Norton has championed both artists and curators of color, helping to reshape museum practice and the surrounding art market. Essays in this volume by art historians and curators address vital political, social, and personal issues, as well as topics such as spirituality, domestic life, memory and historical trauma, the body, intimacy, power dynamics, and violence toward women. The book also features an interview with Harris Norton by Thelma Golden, director and chief curator at the Studio Museum in Harlem; a foreword by artist Lorna Simpson; and a roundtable conversation among leaders in the art world discussing Harris Norton's impact on their careers and on the careers of contemporary women artists globally. Distributed for Marquand Books
