**Dawn Farnham**

Sun Lore of All Ages William Tyler Olcott, 1999-10 A Survey of Solar Mythology, Folklore, Customs, Worship, Festivals, and Superstition. Sun worship in its most primitive form lies at the foundation of our earliest mythologies and religions. From the more familiar Egyptian, Greek, and Norse worship of the sun, to the lesser known mythologies of the Pacific Islands, Native Americans, and peoples of the Far East, this book gives a comprehensive overview of man's fascination with the sun.

**Irish Essays** Denis Donoghue, 2011-04-14 Denis Donoghue has been a key figure in Irish studies and an important public intellectual in Ireland, the UK and US throughout his career. These essays represent the best of his writing and operate in conversation with one another. He probes the questions of Irish national and cultural identity that underlie the finest achievements of Irish writing in all genres. Together, the essays form an unusually lively and far-reaching study of three crucial Irish writers – Swift, Yeats and Joyce – together with other voices including Mangan, Beckett, Trevor, McGahern and Doyle. Donoghue's forceful arguments, deep engagement with the critical tradition, buoyant prose and extensive learning are all exemplified in this collection. This book is essential reading for all those interested in Irish literature and culture and its far-reaching effects on the world.

*Touchstones* Frank Shovlin, 2016 *Touchstones* examines the literary influences that led to John McGahern becoming Ireland's greatest fiction writer of the post-war generation.

**The Harvill Book of 20th Century Poetry in English** Michael Schmidt, 2012-05-31 Michael Schmidt's anthology includes the work of more than a hundred poets from every part of the English-speaking world. What links their diverse voices is a common language: each poem, in its own way, adds to the resources of the medium and makes it new. The poems in this book are allowed to slip free of their moorings in the biography and history of the last century to create new spaces and times. They have been chosen because they are exceptional, profound and unique in what they do to language, regardless of their subject matter or the orientation of the poet. It is a powerful reminder that in the twentieth century poems did what they have never done before, and it provides us with a unique insight into the forces that will shape the poetry of the twenty-first century.

**The Dayspring from on High** Emma Forbes Cary, 1893

**Out of what Began** Gregory A. Schirmer, 1998 The first book of its kind, *Out of What Began* traces the development of a

distinctive tradition of Irish poetry over the course of three centuries. Beginning with Jonathan Swift in the early eighteenth century and concluding with such contemporary poets as Seamus Heaney and Eavan Boland, Gregory A. Schirmer looks at the work of nearly a hundred poets. Considering the evolving political and social environments in which they lived and wrote, Schirmer shows how Irish poetry and culture have come to be shaped by the struggle to define Irish identity. Schirmer includes a large number of accomplished poets who have been unjustly neglected in standard accounts of Irish literature; many of these writers are women, whose work has been kept in the shadows cast by that of well-known male poets. He also emphasizes the importance of political poetry in a country that continues to be torn by sectarian violence. With its rich selection of poetic voices, *Out of What Began* reveals the political, social, and religious diversity of Irish culture.

**Wallace Stevens and the Realities of Poetic Language** Stefan Holander, 2008-02-19 This study examines Wallace Stevens' ideas and practice of poetic language with a focus on the 1930s, an era in which Stevens persistently thematized a keenly felt pressure for the possible social involvement and political utility of poetic language. The argument suggests how mutually implicated elements of his poetry such as diction, prosody and metaphor are relied on to signify or enact aesthetic closure; both in the negative terms of expressive impotence and unethical isolation and the positive ones of imaginative and linguistic change. In this respect, the study deals closely with the epistemologically and ethically fraught issue of the ambiguous and volatile role of non-semantic elements and linguistic difficulty in Stevens' language. Assuming that these facets are not exclusive to this period but receive a very clear, and therefore instructive, formulation in it, the discussion outlines some of Stevens' most central tropes for poetic creativity at this stage of his career, suggesting ways in which they came to form part of his later discourse on poetic functionality, when polemical concepts for the imagination, such as evasion and escapism, became central. Stevens' prosody is discussed from within an eclectic analytical framework in which cumulative rhythmic is complemented by traditional metrics as a way of doing justice to his rich, varied and cognitively volatile use of verse language. The expressive potency of prosodic patterning is understood both as an effect of its resistance to semantic interpretation and by assuming a formal drive to interpret them in relation to the semantic and metaphoric staging of individual poems. A poem, in turn, is understood both as a strategic, stylistically deviant response to the challenges of a particular historical moment, and as an attempt to communicate through creating a sense of linguistic resistance and otherness.

**Clinical Storytelling, Art and the Problems of Being** Jade McGleughlin, 2024-09-19 In a series of overlapping clinical essays—sometimes highly personal, sometimes bristling with theory, sometimes employing experimental writing—Jade McGleughlin upends the ways we tell a psychoanalytic story. Tracing the evolution of her thinking, the collection grapples with the problem of engaging patients when verbal representation fails. To do this, McGleughlin takes us inside some of her richest, most surprising encounters with patients who have suffered severe trauma, leading to a breach in the experience of

self. McGleughlin imagines how to meet patients in the breach. She then brings us along, requiring the analyst's intense personal struggle to find and share the patients' experiences of liminality, of terror, of non-existence—to tolerate the vertigo of deep engagement with the other. Rather than leading with authority and the illusion of an autonomous self, McGleughlin offers storytelling that mirrors the work; her enactive writing dares to replicate the unsettling experience of the breach and invites readers to experience not only seeing but being seen. Drawing from film, literature, and art, including her own paintings, as well as extensive clinical experience, this book is essential reading for all psychoanalysts, psychotherapists, and anyone wanting to understand how communication in a clinical space can transcend the verbal.

The Hills of Singapore Dawn Farnham, 2010-10-15 Young, beautiful and wealthy, widow Charlotte Macleod, leaves Batavia in the 1850s and returns to Singapore for the English education of her two young sons. She is determined not to be drawn back into a secret affair with Chinese triad-member Zhen. Drawing on the real-life historical personalities of the time, Dawn Farnham deftly mixes fact and fiction to paint a vivid portrait of mid-nineteenth century Singapore at a time when triads, piracy and crime were rife.
