**Teorías de la traducción** Dámaso López García,1996

**La tarjeta postal** Jacques Derrida,2001-02-16 Tú sitúas el tema del libro: entre correos y movimiento analítico, principio de placer e historia de las comunicaciones, tarjeta postal y carta robada, en resumen la transferencia de Sócrates a Freud y más allá. Esta sátira de la literatura epistolar debía rellenarse: de direcciones, de códigos postales, de notas cifradas, de cartas anónimas, todo ello confiado a tantas modas, géneros y tonos. Prodigio también abusivamente fechas, firmas, títulos o referencias, la lengua misma. (J.D.)

**Culturas del diagnóstico** Svend Brinkmann,2024-03-05 Numerosos estudios afirman que, cada año, alrededor de un cuarto de la población que vive en países occidentales sufrirá, al menos, un trastorno mental diagnosticable. ¿Dónde situar el origen del alarmante aumento de diagnósticos relacionados con la salud mental? ¿Es este fruto de los avances de la psiquiatría y sus progresos o, más bien, se debe a las condiciones de la vida contemporánea, que construye nuevas patologías sociales? Brinkmann presenta un análisis fascinante de una cultura, la nuestra, caracterizada por la obsesión de aplicar un lenguaje clínico en la relación con uno mismo y con el otro olvidando que las manifestaciones del sufrimiento no siempre caben en ese marco. Así, las preocupaciones existenciales, morales o políticas quedan reducidas a rígidos desórdenes psiquiátricos, a riesgo de perder de vista las fuerzas históricas y sociales que impulsan y afectan nuestras vidas. Contra la patologización de la vida cotidiana, este libro apuesta por la comprensión de la angustia y el sufrimiento desde el análisis filosófico, el lenguaje religioso, moral y político que, lejos del estrechamiento diagnóstico, representan otros recursos discursivos para entender las dolencias del vivir.

*Formas elocuentes* Serafín Moralejo,Serafín Moralejo Álvarez,2004-07-07 En el presente libro, su autor, uno de los más destacados historiadores del arte de nuestro país y medievalista de prestigio internacional, lleva a cabo una profunda reflexión sobre el método de la historia del arte, para la que parte de una revisión crítica del método iconológico, conforme a

los presupuestos de Panofsky y Gombrich. De la mano de numerosos ejemplos que van del mundo antiguo al arte contemporáneo, concibe su estudio a partir de dos pilares básicos, la iconografía y el estilo, que son para él no caminos paralelos y a veces divergentes, sino una misma y única vía para una mejor comprensión de la obra artística.

**El genio en el Siglo XVIII** Esteban Ponce,Luciana Martínez,2022-10-18 El genio, figura clave para la estética durante el siglo XVIII, permitió pensar la relación del sujeto con la naturaleza, la posibilidad de atribuir al hombre condiciones innatas, el modo en que la genialidad tenía lugar en el ámbito de las ciencias, la postulación de un nuevo modelo ideal de humanidad, entre tantos otros temas. En este libro un grupo internacional de investigadores de la filosofía moderna analiza el desarrollo del concepto genio, revisa los principales aspectos de la representación de esta figura por parte de un filósofo en particular o de una corriente de pensamiento. Asimismo, examina el significado del concepto genio para autores de las tradiciones inglesa, francesa, italiana, alemana e hispanoamericana. Además de analizar el significado y la importancia que tuvo para algunos filósofos ilustrados considerados clásicos, en esta obra se exploran algunas interpretaciones menos visitadas, tales como la emergencia del concepto en la obra de Vico, las referencias en textos de las colonias americanas y algunas apreciaciones sobre el genio por parte de intelectuales mujeres. Junto al despliegue de las doctrinas canonizadas, el lector encontrará explicaciones referidas al uso del término en regiones consideradas periféricas y voces menos escuchadas.

*The Identity in Question* John Rajchman,2014-10-29 As virulent nationalism increases in Europe and th debate surrounding political correctness continues to rage in the US, this volume provides a theoretical analysis of these events and the questions they raise for critical theory.

**Filosofía política** Montserrat Herrero,2024-06-03 ¿Cómo era la política en la Antigüedad , y cómo se ha ido transformando hasta nuestros días? Discernir las ideas políticas a la luz de la tradición filosófica ayudará a distinguir democracia, liberalismo y parlamentarismo, entre otros conceptos políticos vigentes, con el fin de dejar atrás la ignorancia conceptual, abono de la ideología. La autora acude a textos estrictamente filosóficos, para ref l exionar sobre la razón de ser de lo político: cuáles son las causas y los modos de organizarse de la comunidad política que aún perviven en la actualidad, y qué nos dicen de ello autores como Platón, Aristóteles y Cicerón, Agustín de Hipona, Tomás de Aquino y Dante, Maquiavelo, Hobbes, Spinoza, Locke, Rousseau, Kant y Hegel, Berlin y Rawls, Habermas, Taylor y Laclau .

*Locura y Modernismo. La esquizofrenia a la luz del arte, la literatura y el pensamiento modernos* Sass, Louis,2014-12-01 Este libro ofrece una fascinante nueva visión de la esquizofrenia. Siendo la esquizofrenia la “enfermedad abandonada” de nuestro tiempo, quizá por ser la condición más desafiante para la compresión humana y la explicación científica, encuentra aquí el entendimiento más cabal que probablemente se ha ofrecido hasta ahora. Esto puede ser así gracias a un renovado enfoque fenomenológico y a un perspicaz análisis cultural. El enfoque fenomenológico permite la comprensión de experiencias que, de otra manera, resultan paradójicas y contradictorias, poniendo de relieve el aspecto humano esencial de

la condición esquizofrénica, sin dejar de lado su naturaleza extraña. Por su parte, el análisis cultural permite establecer afinidades sorprendentemente profundas entre la esquizofrenia y el modernismo, en una amplia variedad de expresiones artísticas, literarias y filosóficas. El tratamiento integrador y comparativo del libro supone también una nueva contribución al estudio de la subjetividad y de la autoconciencia moderna. Además de interesar a psicólogos y psiquiatras, el libro puede hacer igualmente las delicias de toda persona interesada en comprender las condiciones y manifestaciones humanas más enigmáticas, como pueden ser la locura y el arte moderno. El libro es de fácil lectura, cuya amplia base documental está descargada del texto en un apreciable aparto de notas. Louis Sass es catedrático de psicología clínica en la Universidad de Rutgers (EEUU). Su campo de interés se centra actualmente en la esquizofrenia, la melancolía y la manía. Sus investigaciones tienen un marcado carácter interdisciplinar, implicando la intersección de la psicología y la psiquiatría con la filosofía, los estudios literarios y las artes. Es autor de numerosos artículos en revistas especializadas, así como del libro *The Paradoxes of Delusion: Wittgenstein, Schreber, and the Schizophrenic Mind* (1995). Su teoría de la esquizofrenia como un peculiar trastorno del yo está recibiendo cada vez más consideración, tanto en investigación como en clínica.

**Libro de estilo El País** El País,2021-04-29 Un manual imprescindible para escribir bien. El Libro de estilo de El País no es una gramática ni un diccionario al uso. Se trata simplemente de una pequeña Constitución, de un contrato con los lectores, un código interno que dota al periódico de personalidad propia y facilita la tarea a quienes se informan con él; lo que no obsta para que sirva además como referencia a todas las personas que aspiran a una escritura esmerada. La obra incluye por un lado los pilares éticos del diario y la manera en que deben comportarse profesionalmente sus periodistas; y por otro, un diccionario de palabras que emana de esos principios, entre los cuales figura la aspiración de conseguir una comunicación clara. En esta edición, que aborda tanto la vertiente impresa como digital de El País, se han incorporado y actualizado diversas normas sobre el tratamiento informativo de la violencia machista y sobre el sexismo en el lenguaje. En ella encontrarás también todos los elementos que llevan haciendo de este manual durante décadas un instrumento imprescindible para profesionales de la comunicación, editores y escritores.

*Lírica románica medieval* Fernando Carmona Fernández,María del Carmen Hernández Valcárcel,José Antonio Trigueros,1986

El gerundio no perifrástico del español Anne Verhaert,2008 El gerundio no perifrástico es una forma verbal mal comprendida: unos abusan de ella, otros la rehuyen. Lo cierto es que la bibliografía existente -esencialmente normativa- se empeña infructuosamente en clasificar los distintos tipos de gerundios en unas taxonomías semántico-sintácticas bien delimitadas, pasando por alto la especificidad discursiva de la forma. La comunicación humana es una combinación de lo dicho y lo inferido. De ahí que toda expresión lingüística sea un compromiso entre decir demasiado y no decir lo suficiente. El análisis presentado en este libro describe en detalle cómo la construcción gerundiva combina dos funciones: por un lado,

deja implícita cierta información relacional, por otro, especifica elementos de información ya presentes en la oración matriz o inferibles de ella. Dicha ambivalencia discursiva -exceso versus déficit de información- confiere a la construcción gerundiva un lugar particular en el sistema sintáctico del español.

**Diccionario de dudas y problemas del idioma español** Manuel Rafael Aragó, 1995 En más de 9.000 artículos, este diccionario da respuestas a las inquietudes del hispanohablante de hoy respecto de su idioma. Indicaciones precisas y sencillas acerca del empleo adecuado de palabras y expresiones o para superar las principales dificultades gramaticales; normas actualizadas de acentuación y uso de mayúsculas, verbos irregulares, uso de las preposiciones, neologismos, barbarismos, etc.

[Islam in Spanish Literature](#) Luce Lopez-Baralt, 2023-09-20 Islam in Spanish Literature is a sweeping reinterpretation of Spanish literature, taking as its given the enormous debt to Arab culture that Spain incurred through the eight centuries of Islamic presence on the Iberian Peninsula. This volume takes up the thread of the work of the Arabist Miguel Asín Palacios, the first to comment extensively upon the marked Islamic features in many Spanish classics. After an initial survey of the presence of Islam and Judaism in Spanish history and culture, succeeding chapters explore the Muslim context of Juan Ruiz, the author of the Libro de buen amor; St John of the Cross; St Teresa de Jesus; the anonymous sonnet No me mueve, mi Dios; aljamiado-morisco literature and then official Moorophile literature, standing in such dramatic contrast to one another; and last, the novelist Juan Goytisolo, who, writing today, continues to reflect upon the impact of the East on Spanish culture. It is no exaggeration to state that this book redefines the ground of the study of Spanish literature; it will be hard for the contemporary reader ever again to read it with innocence, as a literature exclusively European.

**La tradición analítica en la filosofía del derecho** Pierluigi Chiassoni, 2018-04-03 Esta obra del profesor italiano Pierluigi Chiassoni realiza una detallada exposición y análisis acerca de las diversas teorías que han dibujado el panorama de la filosofía analítica del derecho de nuestros días, a través de seis capítulos que podrían pensarse independientes entre sí pero que en su conjunto aportan una visión histórica, global y evolutiva sobre la materia, repasando a autores de la talla de Jeremy Bentham, Friedrich Karl von Savigny, Bernhard Windscheid y Hans Kelsen. De lectura obligatoria para todo aquél que procure una introducción filosófica al estudio del Derecho a través del importante aporte de la razón analítica, que contribuye con instrumentos clave para un posterior desarrollo jurídico satisfactorio y responsable; el cual, sin dejar de lado a las disciplinas positivistas, permitirá un mayor provecho en la comprensión y ejercicio del Derecho.

**Dibujando historias**, 2021-09-24 El contenido narrativo que resulta inherente al cómic, en sus diferentes prismas, desde la forma en la que la narración condiciona a las imágenes hasta la diferenciación que posee la narración en viñetas con respecto a otros medios expresivos, busca «dejarse ver» a través de esta publicación. En ella han participado algunos de los especialistas e investigadores nacionales e internacionales más destacados en el estudio de la historieta. Continúa la línea

iniciada por Nuevas visiones sobre el cómic. Un enfoque interdisciplinar, tratando de constituirse como un fuerte cimiento para seguir levantando nuestros conocimientos sobre el Noveno Arte.
