Arthur Bueno, Mariana Teixeira, David Strecker

*Blanquitud, cuerpo, devastación. Estudios sobre la obra de Bolívar Echeverría* Andrés Luna Jiménez, Javier Sigüenza, Ángeles Smart, 2025-03-03 En este libro se presentan varios trabajos que profundizan en el concepto de blanquitud, en la acepción formulada por Bolívar Echeverría. Este concepto, que constituye la contribución del universitario a la discusión acerca de la relación entre modernidad y racismo, es sin duda uno de los aspectos de su obra que más interés han suscitado en los últimos años.

**Critical Marxism in Mexico** Stefan Gandler, 2015-09-01 In Critical Marxism in Mexico, Stefan Gandler, coming from the tradition of the Frankfurt School, reveals the contributions that Adolfo Sánchez Vázquez and Bolívar Echeverría have made to universal thought. While in recent times Latin America has taken its distance from global power centers, and reorganised its political and economic relations, in philosophy the same tendency is barely visible. Critical Marxism in Mexico is a contribution to the reorganisation of international philosophical discussion, with Critical Theory as the point of departure. Despite having studied in Europe, where philosophical Eurocentrism remains virulent, Gandler opens his eyes to another tradition of modernity and offers an account of the life and philosophy of Adolfo Sánchez Vázquez and Bolívar Echeverría, former senior faculty members at the Universidad Nacional Autónoma de México (UNAM).

*La modernidad de lo barroco* Bolívar Echeverría, 2013-08-01 El tema de {La modernidad de lo barroco} se vincula con varias claves de nuestro ser y de nuestra historia. La estrategia espontánea del mestizaje cultural en el siglo XVII americano, prefigurada en la doble mentira de la Malinche, la calculada conducta jesuítica en el desarrollo de la "primera modernidad" de la América Latina, el "optimismo desencantado" de Gracián y de Leibniz son algunos de los apasionantes temas que se abordan aquí.

**Subsumption in Kant, Hegel and Marx** Andres Saenz de Sicilia, 2024-10-28 Capital is often depicted as an all-encompassing and abstract social force which seeks to subsume all of human life. But what in fact is involved in such subsumption and how might it be resisted? Tracing the discourse of subsumption through the work of Kant, Hegel, Marx and the critical Marxist tradition, this book offers a materialist framework for analysing capitalist power. Saenz de Sicilia argues that capitalist subsumption operates at three distinct yet interrelated levels: exchange, production, and reproduction, each characterised by distinct logics of domination and resistance. Conflicts over subsumption at each of these levels lie at the

heart of capitalism's struggle to determine the shapes of human social life. A major intervention into debates surrounding the historical trajectories of capitalism, Subsumption in Kant, Hegel and Marx: From the Critique of Reason to the Critique of Society systematically refutes the influential thesis that we are now in a stage of total capitalist subsumption which leaves no space of refuge or resistance.

Marxismo crítico en México Gandler, Stefan,2021-10-01 La obra trata de reivindicar, desde la óptica forjada en el espíritu de la teoría crítica de la Escuela de Frankfurt, la importancia de las aportaciones que dos filósofos de México han hecho al pensamiento universal, como punto de partida para entender la filosofía de Adolfo Sánchez Vázquez y la de Bolívar Echeverría.

Filosofía y pensamiento Alcántara, Manuel,García Montero, Mercedes,Sánchez López, Francisco,2018-07-01 El Comité Organizador del 56º Congreso Internacional de Americanistas (ICA) publica las actas del encuentro celebrado en la Universidad de Salamanca el 15 al 20 de julio de 2018. Bajo el lema «Universalidad y particularismo en las Américas», reflexionó sobre la dialéctica entre la universalidad y los particularismos en la producción de conocimiento, un diálogo en el que la necesidad de conocer los particularismos de los fenómenos sociales, políticos, artísticos y culturales obliga a formular nuevas hipótesis que enriquecen y replantean las grandes teorías generales de las ciencias y las humanidades. El carácter interdisciplinario e inclusivo que ha caracterizado al ICA desde su inicio en 1875, como un congreso de estudios de área en sentido completo, hace aún más significativa esa dinámica de producción de conocimiento. Con un planteamiento interdisciplinario e inclusivo, ICA reúne a investigadores que estudian el continente americano, desde Alaska hasta Tierra de Fuego, incluyendo el territorio del Caribe, a partir del análisis de su política, economía, cultural, lenguas, historia y prehistoria. Así, el Comité Organizador les invitó participar en el análisis y la reflexión sobre las especificidades de las Américas y el Caribe con el objetivo de enriquecer las grandes teorías generales.

**KARL MARX EN EL SIGLO XXI, Crítica y alternativa a la fractura capitalista del metabolismo natural y humana** Camilo Valqui Cachi,2024-06-15 Karl Marx: esencia y complejidad dialéctica de la crisis, la barbarie y la decadencia de la violenta civilización capitalista en el siglo XXI El texto, en sentido general, representa una importante contribución que muestra que la correspondencia temporal de la gran crisis civilizatoria que sufre la humanidad y amenaza su supervivencia con el pleno despliegue y casi absoluto dominio de la lógica del capital que el sistema por su propia naturaleza está obligado a auspiciar, no es mera coincidencia, sino el resultado necesario e inevitable de la contraposición tendencial entre el capitalismo y la vida, en cualquiera de sus expresiones.

**De-Centering Global Sociology** Arthur Bueno,Mariana Teixeira,David Strecker,2022-09-01 This volume explores the challenges posed to sociological theory and social science research by a growing need to foreground perspectives stemming from, and accounting for, subaltern groups, marginal categories, the Global South, and other politically peripheral regions.

De-Centering Global Sociology radically questions some of the most enduring assumptions within sociological thought and social science research and illustrates the impacts of de-centering critical concepts in public policy and education. It proposes new places to build social theory, beyond Europe and the United States, offering debates on the present and future of the social sciences. This peripheral turn also has impacts on the development of pedagogical practices, curricula, and educational research that are more inclusive, and in a position to promote global citizenship. This book will be a valuable resource for researchers and academics with an interest in global social theory, decolonial and postcolonial studies, political theory, feminism, critical race theory, economic sociology, inequality studies, urban sociology, and the sociology of work, religion, and education. It will be of particular interest to those with a focus on citizenship, social policy, conviviality, social integration and solidarity, and new perspectives on multicultural education.

**The SAGE Handbook of Frankfurt School Critical Theory** Beverley Best, Werner Bonefeld, Chris O'Kane, 2018-06-04  
The SAGE Handbook of Frankfurt School Critical Theory expounds the development of critical theory from its founding thinkers to its contemporary formulations in an interdisciplinary setting. It maps the terrain of a critical social theory, expounding its distinctive character vis-a-vis alternative theoretical perspectives, exploring its theoretical foundations and developments, conceptualising its subject matters both past and present, and signalling its possible future in a time of great uncertainty. Taking a distinctively theoretical, interdisciplinary, international and contemporary perspective on the topic, this wide-ranging collection of chapters is arranged thematically over three volumes: Volume I: Key Texts and Contributions to a Critical Theory of Society Volume II: Themes Volume III: Contexts This Handbook is essential reading for scholars and students in the field, showcasing the scholarly rigor, intellectual acuteness and negative force of critical social theory, past and present.

**Gramsci and the Southern Question** Juan José Gómez Gutiérrez, Carlo Verri, Tommaso Baris, 2025-02-24 This book looks at the Southern question in Antonio Gramsci. It takes this as an opportunity to reflect on the special nature of his thought, linked to the concepts of hegemony, subalternity and the critique of the particular culturalidentitarian and ideological forms of the South and its historical development. Although the category was originally applied to the politics and history of Italy, the debates on the Southern question have in recent times gained wider relevance, combining with today's more general analyses relating, for example, to European geopolitics, globalisation and the various global Souths, to media and mass culture, etc. In other areas, the Southern question in Gramsci has taken the form of a materialist epistemology, connected to the historical phenomenon of the splitting of consciousness, as opposed to its unity on a theoretical level. Elsewhere, it has become a programme for the application of a strategy of the international left, based on the building of alliances between different groups of subalterns. Over time, Gramsci's thought has come into contact with other partly converging perspectives, such as critical urban theory and cultural and subaltern studies. This has given rise to numerous

fruitful lines of research in which the Southern question has been extended from Italy's own North-South divide to other contexts. What aspect of Gramsci's thought could justify this issue taking on such importance? Gramsci and the Southern Question: Global Readings, Interpretations and Uses aims to answer this question by combining general theoretical approaches with studies on the reception of Gramscian concepts in the world's Souths.

**La democracia fragmentada** Roger Bartra, 2018-02-16 En La democracia fragmentada, el autor reúne las ideas que expresan, de manera integral, su postura sobre la situación política en México y el mundo, además de su visión de la izquierda a escala mundial. Durante la última década, Roger Bartra ha publicado una gran cantidad de artículos y ensayos en respuesta a sus inquietudes sobre la cultura política contemporánea. Este libro se compone de cinco partes: la primera es un recuerdo de las tensiones generadas por las elecciones de 2006 y presenta un panorama crítico de las izquierdas y las derechas mexicanas; la segunda recapitula ensayos dedicados a explorar las fracturas que han surgido de la democracia mexicana, cuyos problemas centrales giran en torno a las reformas, las elecciones, la cultura política, la izquierda y la socialdemocracia; la tercera incluye artículos sobre la situación internacional; la cuarta relata las peripecias de un viaje de estudios a China, y la quinta parte aloja lo que el autor llama una bitácora de ideas: muy diversos ensayos, no sólo de temas políticos, sobre pensadores y escritores que han estimulado sus reflexiones. Reflexiones precisas y necesarias en un país donde la pobreza intelectual de la clase política es, por demás, notable.

**Las ilusiones de la modernidad** Bolívar Echeverría, 2020-02-17 Nadie puede tener dudas ya, después del colapso del "socialismo real" en los países de la Europa centro oriental, de que los tiempos que vivimos son tiempos de transición. Lo que no está claro, sin embargo, es la magnitud, la profundidad y el alcance, de la misma. Los ensayos reunidos en el presente volumen quisieran poner a prueba una propuesta de inteligibilidad para la época de transición en que vivimos. Es una propuesta que localiza en la crisis de la modernidad ciertas claves centrales para la comprensión de todas las otras. El secreto de la modernidad construida por la civilización occidental a través de la historia europea -que fue la clave de su éxito y está siendo también la de su fracaso- ha estado en lo que desde hace al menos un siglo llamamos "capitalismo". ¿De qué manera se encuentra conectada esta estructura profunda de la modernidad capitalista con el acontecer histórico que se vive efectivamente, con los mitos que otorgan dramaticidad y sentido a los comportamientos de la vida cotidiana? Ésta es la pregunta que subyace en los textos reunidos en el presente volumen. Las aproximaciones que se hacen en los primeros ensayos a temas de historia de la política -particularmente al de la caducidad y la actualidad del socialismo- y de historia de la teoría -a ciertos aspectos de las obras de Braudel, Heidegger y Lukács- preparan el intento de sistematización que se esboza en el último, en el que se pretende argumentar en contra de quienes conciben la crisis actual como una crisis de la modernidad en cuanto tal o como una crisis de crecimiento de su modalidad capitalista y en favor de quienes piensan, por el contrario, que se trata de un proceso en que la modernidad que ha prevalecido ya por tantos siglos pugna por mantenerse en

su sitio, cambia de piel a través de grandes cataclismos históricos y de mínimas catástrofes cotidianas, acosada por una forma alternativa de modernidad -una forma postcapitalista- que tal vez algún día llegue a sustituirla

The Critical Humanism of the Frankfurt School as Social Critique Oliver Kozlarek,2024-05-15 This book aims to extract a kind of Critical Humanism from the works of prominent members of the Frankfurt School. Oliver Kozlarek argues that what is compelling about this kind of restitution of humanism is the fact that it sought to be understood not as a conceptual-theoretical construction, but as a practice of critical social and cultural research. This means that it does not orient itself to an ideal image of the human being, but to making inhuman conditions of our current societies visible. It is above all in this sense that humanism is no longer understood in a Humboldtian, educational sense. Rather, it is about using critical social research as a political practice.

**La inteligencia rebelde** Carlos Illades,2013-02-15 Una imprescindible contribución a la historia reciente del pensamiento social y político de la izquierda en México y América Latina. La inteligencia rebelde a la que aluden estas páginas es la de esos intelectuales de izquierda que en el último tercio del siglo XX alentaron la discusión pública, el pensamiento crítico y el cuestionamiento radical en México y, por extensión, en buena parte del continente. Carlos Illades emprende aquí una ambiciosa y bien informada revisión de las distintas figuras que, desde posiciones disímbolas y con frecuencia antagónicas, contribuyeron de manera significativa al desarrollo de las ciencias sociales, la teoría política y la reflexión en torno a los grandes problemas nacionales y latinoamericanos. Sin caer en la complacencia ni en la idealización del pasado, el autor repasa aquellos años intensos y creativos para calibrar las aportaciones de quienes, en un México dominado por el conformismo, el autoritarismo y el dogmatismo neoliberal, emprendieron una batalla de ideas que se manifestó en revistas, periódicos, libros y aulas.

*Global Critical Theories* Oliver Kozlarek,Gustavo Leyva Martínez,2025-08-12 Today, Critical Theory is no longer tied to a specific place in the world. Rather, genuine developments of Critical Theories can be observed in many academic contexts around the world. The contributions collected in this book show that the various projects of Critical Theory have not always and not exclusively emerged from the reception of the so-called Frankfurt School, but that the successful global expansion of capitalist modernity has triggered developments of Critical Theories in many parts of the world as an appropriate academic and intellectual endeavor of critique. Whether or not the tradition of the Frankfurt School is followed, Critical Theories are always about an undogmatic reading of Marxist theory, the critique of global capitalist modernity, the question of how this critique should be normatively grounded and how different academic disciplines should complement each other in a common endeavor of critical social and cultural research. The book provides an overview of debates and variants of critical theories in selected countries.

**Demarcaciones.** Alfonso Vázquez Salazar ,2024-05-10 Los ensayos que conforman este libro pretenden ser instrumentos

útiles para clarificar los conceptos que reclama la lucha política en la actualidad y que atienden la necesidad estratégica de visibilizar las principales metas que el movimiento nacional encabezado por el presidente de la república, Andrés Manuel López Obrador, busca concretar en México. Son intervenciones políticas en la coyuntura nacional-popular mexicana, trazados de líneas de demarcación -a la usanza althusseriana- para separar lo aparente de lo verdaderamente sólido: lo meramente ambiguo de lo que reclama ser precisado y definido. Todos los textos se encuentran imantados por una clave: la esperanza, que, como expresaba Spinoza, es una alegría intermitente con la que se ilumina en parpadeos el sendero por el que puede transitar el movimiento popular que avanza en México: un movimiento que se dirige hacia la configuración de otro momento histórico que mediante la identificación del interés de la nación con el de las clases populares establezca las condiciones necesarias para conformar un orden político nuevo.

**Textos sin disciplina** Luis Martínez Andrade, 2022-04-27 ¿Cuáles son las características de la Teoría crítica producida en el sur global? ¿Qué papel desempeña la teoría decolonial en los movimientos populares? ¿Cuál es la importancia de la política plebeya en la configuración de proyectos contrahegemónicos? ¿Cómo se expresa la violencia divina en la formación social hegemónica? ¿Por qué la perspectiva marxista sigue siendo fundamental para develar los antagonismos de la sociedad? ¿Cuáles son las afinidades electivas entre el anarquismo y el mensaje de los Evangelios? Compuesto por un conjunto de escritos académicos, este texto aborda problemáticas fundamentales no solo para las ciencias sociales históricas sino también para el horizonte político contemporáneo. Primero, se discuten aspectos centrales para la teoría crítica: la pertinencia de la noción de clase social, el aporte de las perspectivas feministas y, por supuesto, el vínculo entre la violencia divina y el proceso de subjetividad. Posteriormente, se exponen algunas biografías dedicadas a figuras señeras que han marcado el desarrollo del pensamiento crítico y la historia sociopolítica. Finalmente, el foco de atención recae en problemáticas que van desde los conflictos socioambientales hasta la dimensión útopica de diferentes proyectos sociales.

Educar para la emancipación Martínez Pineda, María Cristina, Guachetá Gutiérrez, Emilio, 2024-04-26 El presente texto permite reconstruir con claridad formulaciones epistemológicas, teórico-conceptuales y metodológicas para establecer puntos de encuentro y posibilidades de diálogo entre el campo educativo y sus corrientes emancipadoras. Este esfuerzo por articular los planteamientos provenientes del pensamiento socio-crítico latinoamericano con una educación emancipadora avanza a contrapelo de las perspectivas pedagógicas hegemónicas, psicologizantes y tecnicistas, pues invita a retomar la construcción del tiempo adviniente de inéditos-viables, de futuros deseados, utopías y esperanzas, lo que, en tiempos de crisis, resulta fundamental para generar procesos de organización, movilización y lucha junto con los(as) oprimidos(as) del campo y la ciudad. Invitamos a los lectores a sumergirse con detención en sus páginas y capítulos, a revisar con severidad sus propuestas y formulaciones, a dejarse interpelar por el grito de justicia que emana.

Teoría del valor, comunicación y territorio Francisco Sierra Caballero, 2019-07-01 En un momento de crisis y tensiones geopolíticas, donde la brecha que separa a ricos y pobres es cada vez más profunda, repensar la agenda para la crítica materialista de la sociedad debe considerarse la tarea más urgente y necesaria. Hoy, en la era de las plataformas digitales, donde la figura protagonista es la del trabajador precario que las alimenta, el capitalismo opera desde la abstracción de un proceso de acumulación por desposesión procurando limitar el alcance de la lucha de clases como un problema del pasado merced a la dependencia del capital financiero. Con el fin de comprender las contradicciones y procesos de transformación de nuestro tiempo, los intelectuales y críticos sociales que se reúnen en este libro reformulan y amplían el horizonte de comprensión de la clave fundamental de cualquier reflexión que quiera enfrentar la actualidad del capitalismo: la teoría del valor.
