web wn10 software calculates dimensions and strength of an involute spline joint according to din 5482 re lease 1950 wn10 also calculates self defined non standard splines you can enter tooth tip diameters and tooth root diameters of external and internal spline and wn10 calculates tooth height coefficients

design parameters for spline connections gear technology - Apr 03 2023

web if a splined shaft is connected with the internal spline for example at the output of a transmission and if the shaft is long in relation to its diameter then a flank centered fit as shown fig 4 is preferred in order for correct flank centering the backlash between the internal spline teeth and the shaft
