Translating across Sensory and Linguistic Borders Madeleine Campbell,Ricarda Vidal,2018-12-08 This book analyses intersemiotic translation, where the translator works across sign systems and cultural boundaries. Challenging Roman Jakobson's seminal definitions, it examines how a poem may be expressed as dance, a short story as an olfactory experience, or a film as a painting. This emergent process opens up a myriad of synaesthetic possibilities for both translator and target audience to experience form and sense beyond the limitations of words. The editors draw together theoretical and creative contributions from translators, artists, performers, academics and curators who have explored intersemiotic translation in their practice. The contributions offer a practitioner's perspective on this rapidly evolving, interdisciplinary field which spans semiotics, cognitive poetics, psychoanalysis and transformative learning theory. The book underlines the intermedial and multimodal nature of perception and expression, where semiotic boundaries are considered fluid and heuristic rather than ontological. It will be of particular interest to practitioners, scholars and students of modern foreign languages, linguistics, literary and cultural studies, interdisciplinary humanities, visual arts, theatre and the performing arts.

Translation as Experimentalism Tong King Lee,2022-07-28 This Element argues for a perspective on literary translation based around the idea of ludification, using concrete poetry as a test case. Unlike rational-scientific models of translating, ludic translation downplays the linear transmission of meaning from one language into another. It foregrounds instead the open-ended, ergodic nature of translation, where the translator engages with and responds to an original work in an experimental and experiential manner. Focusing on memes rather than signs, ludic translation challenges us to adopt an oblique lens on literary texts and deploy verbal as well as nonverbal resources to add value to an original work. Such an approach is especially amenable to negotiating apparently untranslatable writing like concrete poems across languages, modes, and media. This Element questions assumptions about translatability and opens the discursive space of literary

writing to transgressive articulation and multimodal performance. This title is also available as Open Access on Cambridge Core.

Art as Spectacle Naomi Ritter, 1989 Why do images of entertainers abound in European literature and art since Romanticism? From Baudelaire to Picasso, from Daumier to Fellini, mimes, clowns, aerialists, and jesters recur in major works by continental artists. In *Art as Spectacle*, Naomi Ritter investigates this phenomenon and offers explanations that transcend the array of works discussed. Her analysis implies much about the triangle of creator, work, and audience that inevitably controls art. Although a broadly comparative study underlies *Art as Spectacle*, the book focuses mainly on examples from Germany and France. Three areas of argument—identification, primitivism, and transcendence—account for the performer's ubiquity in the arts of the last two centuries. Ritter shows that writers, painters, choreographers, and filmmakers have persistently identified with the entertainer, whose roots lie in primitive ritual: a source of all art. Accordingly, the artist also sees the player as morally or spiritually elevated. With three chapters on literature, a chapter comparing poetry to painting, and a chapter each on dance, the visual arts, and film, *Art as Spectacle* offers unprecedented scope on a compelling topic in comparative studies. By integrating such varied material into an original commentary on the image of the entertainers, this book provides an invaluable resource for all the disciplines it touches.

Baudelaire's Poetic Patterns Peter Broome, 2023-11-27 This major new study of Baudelaire is a journey into the secret language of *Les Fleurs du Mal*: the expressive pliancies of its verse-forms and syntax, the fluctuations of its rhythms, its significant sonorities, its metaphorical figures and dynamic image-patterns, its network of nerves and trigger-points, its shifting underground of parallels and contrasts, analogies and antitheses. Through a strategic selection of poems constituting a 'constellation', a formal pattern of mutually illuminating parts, the analysis aims to show that form and theme are indissoluble: that each movement in the texture of the verse, each pulse, each rise and fall, each intensification or release, not only aids and abets the thrust of the poet's inspiration but is moulding and, in the end, creating the subtleties of sense, which cannot exist but in the weft and web of the breathing, evolving text. It is a study which prioritizes the individual poem, then the poem within an expanding formation of poems, then Baudelaire within and beyond that formation: an *infini dans le fini*. It is also an enquiry into what makes poetry, as well as a provocative contribution to the ongoing debate on the nature of criticism.

Walter Benjamin and Bertolt Brecht Erdmut Wizisla, 2014-05-14 Erdmut Wizisla's groundbreaking work explores for the first time the important friendship between Walter Benjamin, the acclaimed critic and literary theorist, and Bertolt

Brecht, one of the twentieth century's most influential theater artists and poets, during the crucial interwar years in Berlin. From the first meeting between Benjamin and Brecht to their experiences in exile, the events in this friendship are illuminated by personal correspondence, journal entries, and notes—including previously unpublished materials—from the friends' electric discussions of shared projects. In addition to exploring correspondence between the two, Wizisla presents documents by colleagues who shaped and shaded their relationship, including Margarete Steffin, Theodor Adorno, and Hannah Arendt. Wizisla shows us the fascinating ideological exchanges between Benjamin and Brecht, including the first account of Berlin Marxist journal planned for 1931. The Minutes of its meetings record the involvement of Benjamin and Brecht, and offer a window onto the discussions on literature and politics that took place under the increasing threat of the German left's political defeat. Wizisla's examination of the friendship between Benjamin and Brecht, two artists at the height of their creative powers during a time of great political crisis, throws light on nearly two decades of European intellectual life.

Baudelaire's Prose Poems Edward K. Kaplan, 2009-01-01 Baudelaire's Prose Poems is the first full-length, integral study of the fifty prose poems Baudelaire wrote between 1857 and his death in 1867, collected posthumously under the title *Le Spleen de Paris*. Edward Kaplan resurrects this neglected masterpiece by defining the structure and meaning of the entire collection, which Kaplan himself has translated as *The Parisian Prowler*. Engaging in a dialogue with deconstructionists whose critical methods often obscure the meaning of the whole, Kaplan rejects the view of prose poems as a random assemblage of melodic rhapsodies. Instead, he sees a coherent ensemble of fables of modern life that join lyricism and critical self-awareness. Kaplan defines three dimensions of experience that inform *The Parisian Prowler* from beginning to end: the esthetic includes art, ideal beauty, and especially the intense immediacy of sensations, fantasy, and dream; the ethical includes principles of right and wrong, relations between intimates or between individuals and the community; and the religious—not to be confused with church or dogma—points to the province of ultimate reality, whether it be God or an absolute standard of truth, justice, and meaning. These dimensions are explored by a narrator, a complex, highly self-conscious writer whose passion for pure Beauty continually frustrates his yearning for affection. He begins his tour through 1850s Paris alienated from reality, becomes aggravated by conflicts between his ethical and esthetic drives—to the point of despair—and ends by expressing loyal friendship. Analyzing the fables in relation to one another in pairs or groups, Kaplan demonstrates how later pieces intermingle or even confuse the narrator's esthetic and ethical drives, and how the most advanced theoretical fables—through ironic puns on their form—further undermine this simplistic dualism. Baudelaire's fables

of modern life radically challenge us to examine our presuppositions, Kaplan argues. Though rarely didactic, the narrator's Socratic irony engages readers in a volatile dialogue, provoking them to form their own judgments. He often betrays self-destructive anger, rebelling against injustice or stupidity--or against women who might love him. At times he insults our complacency and self-deception with vicious glee; at other times, he recognizes his own frailty, nurturing a sense of fellowship with the oppressed. Seeking both to analyze experience objectively and to sympathize with isolated individuals like himself, Baudelaire's narrator joins criticism and poetry in a voyage of self-discovery, finally accepting experience as impure and mixed. Kaplan contends that the prose poems constitute a genre parallel to the poems Baudelaire added to the 1861 edition of *Les Fleurs du Mal*, both of which illustrate fundamental principles of the theory of modernity he developed in his essays on art. The self-reflective fables in *The Parisian Prowler*--depicting a way of thinking beyond ideologies--clarify Baudelaire's development as poet, critic, and thinker.

Poets on Paintings Robert D. Denham, 2010-03-10 Ekphrasis, the description of pictorial art in words, is the subject of this bibliography. More specifically, some 2500 poems on paintings are catalogued, by type of publication in which they appear and by poet. Also included are 2000 entries on the secondary literature of ekphrasis, including works on sculpture, music, photography, film, and mixed media.

Benjamin and Brecht Erdmut Wizisla, 2016-08-09 Germany in the mid 1920s, a place and time of looming turmoil, brought together Walter Benjamin--acclaimed critic and extraordinary literary theorist--and Bertolt Brecht, one of the twentieth century's most influential playwrights. It was a friendship that would shape their writing for the rest of their lives. In this groundbreaking work, Erdmut Wizisla explores what this relationship meant for them personally and professionally, as well as the effect it had on those around them. From the first meeting between Benjamin and Brecht to their experiences in exile, these eventful lives are illuminated by personal correspondence, journal entries and private miscellany--including previously unpublished materials--detailing the friends' electric discussions of their collaboration. Wizisla delves into the archives of other luminaries in the distinguished constellation of writers and artists in Weimar Germany, which included Margarete Steffin, Theodor Adorno, Ernst Bloch and Hannah Arendt. Wizisla's account of this friendship opens a window on nearly two decades of European intellectual life.

New Directions in Literary History Ralph Cohen, 2022-06-30 First published in 1974, *New Directions in Literary History* is a comprehensive attempt to present approaches to literary studies that have developed from phenomenology, stylistics and linguistics, Marxist reconsiderations of literature, interdisciplinary studies and analysis of reader response. Written by an international group of scholars, the essays are taken from the pages of *New Literary History*. They range from the Middle Ages to contemporary literature. European and American literary critics are here represented, together with an art critic, a philosopher and a novelist. Their essays deal with crucial problems in the study of literature: the relationship of the

contemporary critic to works of the past; the place of method in literary study; how reading takes place; the role of the reader in different literary periods in providing a guide to interpretation; the language of literature and its relation to natural or ordinary language; the origin and decline of literary forms; and what constitutes literature, especially in the relation between fictional character and autobiography. Although the essays are essentially concerned with theoretical issues, they also examine the practical applications to literature. Students of English literature and literary theory will find this book particularly interesting.

The Arcades Project Walter Benjamin, 1999 Focusing on the arcades of 19th-century Paris--glass-roofed rows of shops that were early centers of consumerism--Benjamin presents a montage of quotations from, and reflections on, hundreds of published sources. 46 illustrations.

Strange Cocktail Adriana X. Jacobs, 2018-07-23 For centuries, poets have turned to translation for creative inspiration. Through and in translation, poets have introduced new poetic styles, languages, and forms into their own writing, sometimes changing the course of literary history in the process. *Strange Cocktail* is the first comprehensive study of this phenomenon in modern Hebrew literature of the late nineteenth century to the present day. Its chapters on Esther Raab, Leah Goldberg, Avot Yeshurun, and Harold Schimmel offer close readings that examine the distinct poetics of translation that emerge from reciprocal practices of writing and translating. Working in a minor literary vernacular, the translation strategies that these poets employed allowed them to create and participate in transnational and multilingual poetic networks. *Strange Cocktail* thereby advances a comparative and multilingual reframing of modern Hebrew literature that considers how canons change and are undone when translation occupies a central position—how lines of influence and affiliation are redrawn and literary historiographies are revised when the work of translation occupies the same status as an original text, when translating and writing go hand in hand.
