Storytelling in Motion Jenny Oyallon-Koloski,2024 How do filmmakers guide viewer attention through the frame using the movement of bodies on screen? What do they seek to communicate with their cinematic choreography, and how were those choices shaped by the industrial conditions available to them?Storytelling in motion: Cinematic Choreography and the Film Musical demonstrates how figure movement can serve as a versatile strategy of meaning-making, particularly when filmmakers attend to the relationship between choreographed movement and film style. Using Franco-American film musicals as case studies, this book analyses the narrative and stylistic impact of figure movement in cinema and the subtle power of cinematic choreography, those moments when filmmakers deliberately combine the strengths of film style and organized figure movement to convey narrative meaning through motion. Cinematic choreography emphasizes musical conventions in *Singin' in the Rain* (Stanley Donen and Gene Kelly, 1952), prejudiced conflict in *West Side Story* (Jerome Robbins and Robert Wise, 1961), aesthetic play in *Les Demoiselles de Rochefort* (Jacques Demy, 1967), generic discomfort in *Trois places pour le 26* (Jacques Demy, 1988), the politics of illness in *Jeanne et le garçon formidable* (Olivier Ducastel and Jacques Martineau, 1998), and decision-making in *La La Land* (Damien Chazelle, 2016). Integrating vocabularies and analytical systems from Laban/Bartenieff Movement Studies, film studies, and related fields to parse cinematic figure movement on multiple formal levels, this book uses performative research methods from videographic criticism to show the poetic and oblique connections between films through videographic as well as written chapters. *Storytelling in Motion* centers the crucial material conditions needed to make figure movement a significant component of narrative filmmaking: time, money, rehearsal space, industrial support, and performers and crew with the necessary embodied and institutional knowledge. The films discussed tell a clear story of how cinematic choreography was used by French and American filmmakers to innovate storytelling through figure movement, inspired by their predecessors' aesthetics while working within differing industrial conditions.

*Rethinking Language, Text and Context* Ruth Page,Beatrix Busse,Nina Nørgaard,2018-08-14 This collection of original

research highlights the legacy of Michael Toolan's pioneering contributions to the field of stylistics and in so doing provides a critical overview of the ways in which language, text, and context are analyzed in the field and its related disciplines. Featuring work from an international range of contributors, the book illustrates how the field of stylistics has evolved in the 25 years since the publication of Toolan's seminal *Language, Text and Context*, which laid the foundation for the analysis of the language and style in literary texts. The volume demonstrates how technological innovations and the development of new interdisciplinary methodologies, including those from corpus, cognitive, and multimodal stylistics, point to the greater degree of interplay between language, text, and context exemplified in current research and how this dynamic relationship can be understood by featuring examples from a variety of texts and media. Underscoring the significance of Michael Toolan's extensive work in the field in the evolution of literary linguistic research, this volume is key reading for students and researchers in stylistics, discourse studies, corpus linguistics, and interdisciplinary literary studies.

Film Soundtracks Ethan Parker, AI, 2025-03-05 *Film Soundtracks* explores the profound impact of music on the cinematic experience, revealing how film scores shape emotions and enhance narratives. The book emphasizes that film music is more than background noise; it's a key element that influences how we perceive characters and connect with the story. Did you know that the history of film music reflects technological advancements and evolving artistic styles? Or that skillful scoring can manipulate a viewer's subconscious through carefully crafted melodies? The book progresses from foundational concepts like diegetic and non-diegetic sound to pivotal movements in film history, showcasing how musical styles have evolved alongside cinema. Case studies of films like *Psycho* and *2001: A Space Odyssey* highlight innovative uses of music to create suspense and dramatic tension. Finally, the book delves into the composer-director relationship, revealing the creative negotiations that shape the final score. By blending technical analysis with an accessible style, *Film Soundtracks* offers insights valuable to composers, film students, and anyone interested in cinema music.

**Crisis Style** Michael Dango, 2021-11-16 In this expansive and provocative new work, Michael Dango theorizes how aesthetic style manages crisis—and why taking crisis seriously means taking aesthetics seriously. Detoxing, filtering, bingeing, and ghosting: these are four actions that have come to define how people deal with the stress of living in a world that seems in permanent crisis. As Dango argues, they can also be used to describe contemporary art and literature. Employing what he calls promiscuous archives, Dango traverses media and re-shuffles literary and art historical genealogies to make his case. The book discusses social media filters alongside the minimalism of Donald Judd and La Monte Young and the television shows *The West Wing* and *True Detective*. It reflects on the modernist cuisine of Ferran Adrià and the fashion design of Issey Miyake. And, it dissects writing by Barbara Browning, William S. Burroughs, Raymond Carver, Mark

Danielewski, Jennifer Egan, Tao Lin, David Mitchell, Joyce Carol Oates, Mary Robison, and Zadie Smith. Unpacking how the styles of these works detox, filter, binge, or ghost their worlds, *Crisis Style* is at once a taxonomy of contemporary cultural production and a theorization of action in a world always in need of repair. Ultimately, Dango presents a compelling argument for why we need aesthetic theory to understand what we're doing in our world today.
