Don't Get Married Until You Are Single Sam O. Opeche, 2017-12-19 Sam Opeche didn't know his mum until he turned 19. His parents were divorced when he was just six. Something always told him that growing up wouldn't have been so difficult if his parents had stayed together. He found that there's his dad's side of the story, his mum's side of the story, and then there's the truth. Since then, a lot of his time has been spent on trying to search for the truth. Could his parent's divorce have been prevented or was it inevitable? Could there have been something different in the mix that may have helped them weather the storms, or could it be that they were just not made for each other? It wasn't until years later, as he faced up to his own personal challenges in marriage, that it dawned on him what the solution could have been. 'Don't Get Married Until You Are Single', but if you are married already, seek singleness and self-love and your marriage will blossom to new dimensions of fulfilment.

**Metastatic America** Barrett Blackmon, 2021-04-12 *Metastatic America* sits at the intersection of personal memoir, current events, and self-improvement. It is a social commentary on the state of race, religion, and culture in the United States as seen through the life experiences of a Black health-care executive. With hilarious stories and witty one-liners, Barrett uses comedy to illustrate the various dichotomies in American society that have created marginalized communities. Using the

cancer journey as a framework, Barrett provides a strikingly transparent view of society from the Black perspective. As he points out in one of the chapters, racism doesn't have to exist, but it does. The question is, why does it exist, and how can we change our current state of affairs to fulfill the American dream? In this very transparent memoir, Barrett unveils his deepest secrets and most pivotal challenges that have most impacted his life. His story of overcoming in the face of adversity will inspire readers and motivate them to pursue the person they were born to be. From a kid whose daily walk from school included passing crack houses to becoming an executive in the largest health-care system in the country, Barrett met with triumph and disaster and treated those two impostors the same. His humility, desire to help others, and faith in his calling to spread hope remained steadfast despite enduring depressing lows and enjoying exhilarating highs.

**A Comparative Perspective of Women's Economic Empowerment** Meltem Yenilmez, Onur Celik, 2019-05-29 The need for the creation of an enabling political, legal and economic environment for women within Turkey is rising. A growing concern is shown at the ethnic divisions and local discrimination against women, which have spilled over into the labor market. This book lends a supporting voice to the economic and social empowerment of women globally, focusing on the real causes and the unpredictable nature of the ongoing conflicts surrounding the issue. The authors bring to the forefront problems of development within various regions and the implementation of projects, which address the state of women, inequality and risks, that are inimical to their participation in the economy. Emphasis is laid on why women should be permitted access to the many opportunities in information technology and exchange, partnership growth and networking in this digital era. The oppressive policies of Turkey are scrutinized to unravel the dangers they pose to the corporate existence of women in the modern world. Furthermore, this book centers on the deliberation on regional politics and issues on gender and women's empowerment in modern Turkey whilst comparing with other countries. The work sheds light on salient issues and possible remedies within target countries and the concerted efforts made to create a reliable structure to discuss gender

conflicts. Ample contributions from countries such as the US, Germany, Serbia, South Africa and United Kingdom are pivotal to comparing and examining the main debates. Addressing several global gender-related examples as well as Turkey's national principles, this book encourages full involvement of women and girls in deciding the fate of their country. This book serves as the rallying point of an array of informative and mind-expanding works of literature in regional studies, gender studies, migration economy, and area studies in countries like Turkey, USA, Serbia, UK, and India. Experts, students, and readers in the academic sphere may find this work educative and intellectually fulfilling.
