**A Son's Handbook** Stephen W. Hoag, Ph.D., 2014 A Son's Handbook is the ten-year journey of a son as he cared for his mother with Alzheimer's disease and dementia. Compelled by the love for his mother, author Stephen W. Hoag provides a tender, dramatic and often humorous account of the unforgettable years he shared with his mother as they faced the difficulties associated with her disease. His chronicled anecdotes and articulated moments will bring comfort to family members and care givers who must complete the daily tasks and overcome the obstacles accompanying the care of those afflicted with this illness. There are approximately five million Americans who suffer from Alzheimer's and dementia and the vast majority of these people rely on family members - particularly sons and daughters - for their care. There is no vaccine or procedure that will cure this disease that first takes the mind and then takes the body. Our only weapon against its ravages is love. To be sure, one of the greatest manifestations and demonstrations of love that a person may experience in life is the caring for a parent with this infirmity. Each experience described in this personal account led Stephen Hoag to write a Son's Rule at the end of each chapter, a fitting approach to being forever positive and insightful in moments of great challenge.

**Failing Moms** Caitlin Killian, 2023-09-14 While many claim that being a mom is the most important job in the world, in reality motherhood in the United States is becoming harder. From preconception, through pregnancy, and while parenting, women are held to ever-higher standards and are finding themselves punished - both socially and criminally - for failing to live up to these norms. This book uncovers how women of all ethnic backgrounds and socioeconomic statuses have been interrogated, held against their will, and jailed for a rapidly expanding list of offenses such as falling down the stairs while pregnant or letting a child spend time alone in a park, actions that were not considered criminal a generation ago. While poor

mothers and moms of color are targeted the most, all moms are in jeopardy, whether they realize it or not. Women and mothers are disproportionately held accountable compared to men and fathers who do not see their reproduction policed and almost never incur charges for “failure to protect.” The gendered inequality of prosecutions reveals them to be more about controlling women than protecting children. Using a reproductive justice lens, Caitlin Killian analyzes how and why mothers are on a precipice and what must change to prevent mass penalization and instead support mothers and their children.

**Unbreakable Bonds** Dava Guerin, Kevin Ferris, 2014-11-18 Unbreakable Bonds tells ten touching stories of mothers who spent years aiding the recovery of their children, US soldiers and Marines who suffered severe injuries during the War on Terror. The survival of these wounded warriors is a testament not only to the extraordinary efforts of military medical personnel and their own inner fortitude, but also to their mothers. These women put their lives on hold from the moment they get that first call about their injured son or daughter, giving up their homes and careers and leaving behind family and friends. They are ever present, from those agonizing early days in intensive care, through dozens of lifesaving operations and the months and years of both triumphs and setbacks during therapy and rehabilitation. Their commitment, like the wounds their children suffer, is lifelong. Unbreakable Bonds showcases the selfless love and support of the mothers who, like their wounded warriors, have been changed forever, and who have, without hesitation, sacrificed greatly for their country. They also find strength through the exclusive network of caregivers, who are there not only for their sons and daughters, but for each other as well. With forewords from former president George H. W. Bush and former Maryland congresswoman Connie Morella, this book will appeal to US service members and their loved ones—and those without ties to the military will gain appreciation for those who risk so much to serve our country.
